*WE ARE PLEASED TO OFFER YOU THE ABILITY
TO PURCHASE WITH VISA OR MASTERCARD*

Welcome to our 12th Carlrams Bull Sale!

I would like to start by thanking everyone I have been able to talk to this past year about family or Hereford cattle. Thank you. It has been quite a year for everyone.

The only thing for sure is we are going to have a bull sale on February 11th 2021. It is our wish to serve you a prime rib dinner, but if government regulations do not permit it we will adjust...DLMS will be here with us streaming a video of all the bulls and helping take bids on line.

We would like to invite you to the farm at your convenience prior to sale day; we are proud of our program and would like to meet you.

It is extremely gratifying to see Carl, Robin and their families follow the same path Dad started in 1948, he would be proud.

Once again we are excited to have Mike and Matt Jahnke in the sale with us. Their enthusiasm towards Hereford cattle is second to none.

We will miss Rick and Ruby Flicek. They have been an asset to our sale from the start but have chosen to market their bulls off the farm. We wish them well.

Please call if you have any questions or concerns. We stand behind our cattle which are raised to work and we are looking forward to working with you.

*We hope to see you on the 11th
WITH PRIME RIB and BEER!*

For a May bull he has lots of frame, great hair and a long hip. His dam A 110D is great. She is a sister to our Calgary Champion.

Welcome to our 12th annual Bull Sale! We are excited about this year's group of bulls uniformity & condition. We realize there is a lot of questions regarding covid but the bulls will sell on the 11th & it will be live on DLMS.ca. We can also work with you if you want to leave orders for the bulls you'd like or if you want someone to call you when your bull goes through the ring - we will make anything work.

We are having a number of 'Open House' days this year to give you an opportunity to tour the sale bulls. These days are every Wednesday & Saturday in January from 10:00 am to 4:00 pm. As well as anytime and anyday from February 1 - 11th. You can call or you can just drive into the yard! If none of these dates work - let us know. Bull videos should be available late January on our website and on social media.

We are always very picky when it comes to feet in our program. None of the bull's feet are ever touched. We try to have a program that is designed to provide you with quality, guaranteed breeding bulls that last as long as you need them.

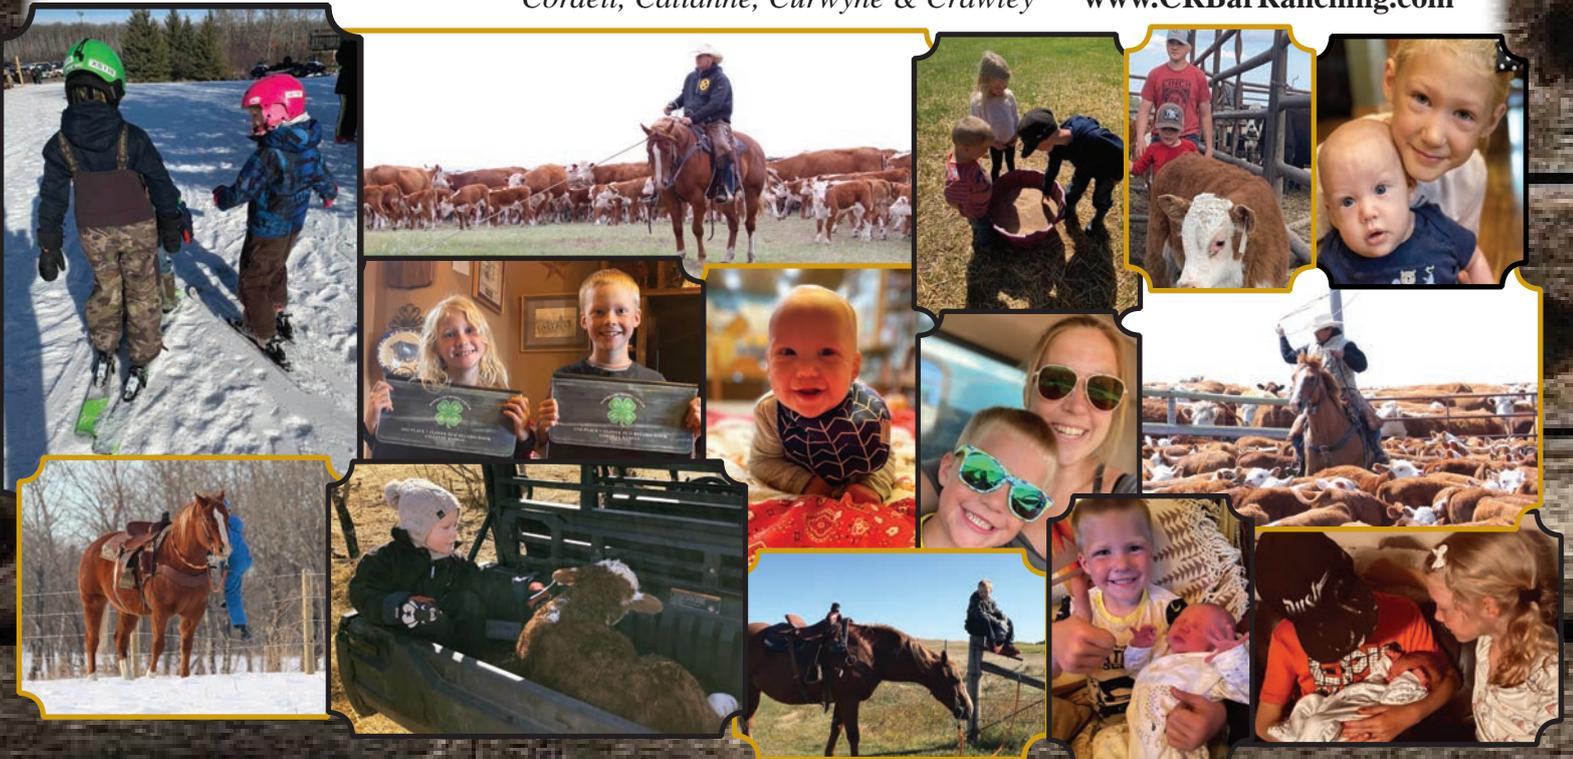

The bulls have been on an oats, hay and cereal silage ration - nothing fancy. They also are on a high copper and selenium mineral package to help ensure a strong semen development. All the bulls will be semen tested prior to the sale & we guarantee every bull.

We will deliver your bull to your yard, free of charge, & that includes into the United States. Please note that we may have to adapt slightly depending on covid protocols come February and March - although, we hope it won't be an issue.

We started picturing our cows this year & have a few in the catalogue. We really believe that good bulls come from great cows & we should give those girls the credit they deserve. Our goal in the coming summers it to be able to have dam pictures for all the sale bulls. If you are ever in the area feel free to stop in, we're always up for a cow tour!

Please feel free to call or stop in to tour the bulls anytime. With 4 kids & schooling the 'covid' way - we're always around!!

Dalynn will not let me write everything I want to say about 417C - even though it is ALL good! The combination of 417C and the powerhouse of the 2W cow family makes 429G one to look at. He will not be hard to find.

4 Pens of 5 Straight Horned Hereford Bred Heifers

20 Straight Horned Hereford commercial heifers exposed to a proven Hereford Heifer Bull & a Red Angus Bull starting June 20th for 60 days. Heifers should start calving around March 25. Please call about the possible number of registered heifers in the pens. All heifers are up to date with their vaccinations. Heifers are available for viewing prior to sale day!

We would like to thank everyone who has purchased cattle, visited our farms or shown interest in our operations! We are offering 8 bulls at the sale this year!

The bulls are fully guaranteed, will be semen tested, they are natural, are free moving and out of cows that we would be proud to show anyone!

They have been developed slowly on primarily oats, hay and silage. No feet have been trimmed.

We take pride in having bulls that are easy to handle and safe for you and your families!

This past year has been challenging for everyone and we have never been more thankful to be in the ranching business with our kids! Our kids are all enjoying hockey, and their horse sports, Ramsay has started team roping with his old Mom and Layla is vaulting. Randy is steady as ever, fencing in the summer months, cutting meat, feeding cows, and coaching goalies all winter!

I continue to enjoy working with Saskatchewan farmers and ranchers while working for The North Saskatchewan River Basin Council and am keeping busy taking photos and keeping the kids busy!

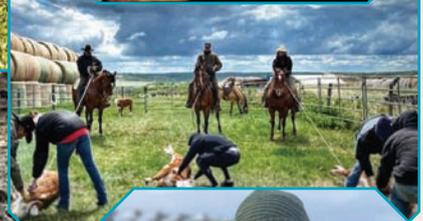

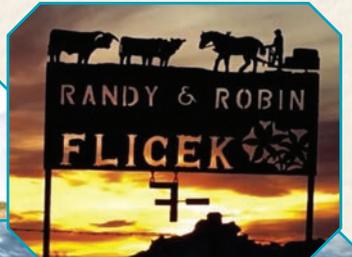

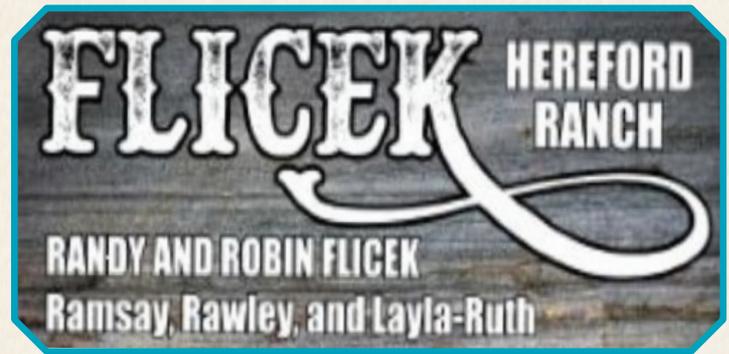

If you have any questions about the bulls, their mothers, or any other information we would be more than happy to help. We love having company and enjoy showing people around the farm.

Sincerely,

Randy, Robin, Ramsay, Rawley, and Layla-Ruth

Matt, myself, and our families are very excited to be involved in the Carlrams sale again this year. What a year it was! We had some rain in June and then the taps shut off. On the bright side, we seemed to have time to finish a project or two.

Now about the bulls...we are very proud of this group and expect them to be very good breeding bulls. The bulls have all been tied up and should respect a rope. They have grown well on a hay and oat ration, never receiving over 1% of body weight in oats. These bulls should last.

Thank you for your interest in our program!
We welcome you to come tour the bulls or cows. Anytime!
