Welcome to our 13th Carlrams Bull Sale!

What a year. As hot & dry as we have been in 20 years, I was amazed how good the Hereford cows looked this fall. They weaned a big, healthy calf & held their condition. Those poplar leaves must be nutritious.

Thank you! For all your support last year & I hope our bulls worked well for you.

Carl & Dalynn, Randy & Robin, Mike & Matt Jahnke along with their families, will have bulls in the sale with us again this year. A great selection!

Our bulls are ran on grass all summer starting on a light ration in the fall to develop them to last. No feet are trimmed prior to sale day. They are worked with horse & have been tied so have some respect for a rope.

I feel a quiet optimism growing in the cattle industry. We have very high feed costs, but the calf price has remained fairly static all fall. Cow numbers are low in North America & Beef demand is growing. Let's hope we are in for some bountiful years.

DLMS will be here again if you need & if we can help in any way please call! If you have time before the sale, stop in for a visit, see the cows, herd sires & have a coffee.

A bull Carl & Dalynn sold to Hillvale Colony through the sale. I was able to purchase half back. The females will be awesome out of this bull.

We would like to thank the Alberta Hereford Association for their hard work with this year's Hereford Genes Event!!
 Congratulations to Garth Sheehan who won the opportunity to select ANY Hereford Bull at the event!
 We sincerely appreciate & are grateful you selected Carlrans 99E Turin Lad 35J this year!

Thank you. Thank you for your support to those returning & to those who are new - Thank you for taking a read! Please let us know if you ever want to come by the ranch to take a look or if you would like help selecting a bull for your program. Our favorite part of this industry is you - the people. There are no better people in the work than in the Ag Industry. Welcome to our 13th Annual Bull Sale!!

We are really excited about this group of bulls for this year's sale. There is lots of opportunity to group brothers if you're looking. As well as some variety in types of bulls with still staying consistent in their make up. The bulls have no feet that have been or will be trimmed & all worked with a horse. They have been on grass all summer & this fall were started on a brown oat, oat silage & protein mineral pack ration to help grow them in the most natural way so they last in your program for as many years as you need them.

We definitely have kept out of trouble this last year. Cordell played football this fall in Lloydminster & we aren't sure who was more excited - Cordell or Carl!! He played awesome, learned lots, met a great group of kids & they made it to the final round of play offs!! Cordell was most happy about being done before the snow came! Calianne has started competitive cheerleading & is in love. So much that she practices at home without anyone saying anything to her, so a definite win! Both older kids are in 4-H with the Manitou Multi-Club in Neilburg again this year. Curwyne is at home for his last year before starting kindergarten next fall, however, he's decided he doesn't need to go to school, he's got to stay home & help on the ranch! The baby, Crawley, is 18 months old & is a busy little man who tries to keep up with the older kids & 'help' any chance he can!

We cannot express our appreciation & gratitude to our customers, our neighbors & our family that make this life possible. It was a tough year but tough times don't last - tough people do. If you're by the Cut Knife/Battlefords area, or if you're just looking to take a Sunday drive, feel free to come by the ranch, see the bulls, take a tour, we promise the coffee is hot! You are welcomed here anytime!

Thank you to Robin Flicek, RobinRuth Photography, for doing such a great jobs with our bull catalogue photos for us! We wish Grant & Lauralee Rolston of Grant Rolston Photography the absolute very best whatever the next chapter brings to them!

Don't forget about Randy's Prime Rib Lunch on sale day! If you can't make it, give us a call & you can also bid/watch live on DLMS!

He was purchased from Calrams Ranching Ltd. After touring our customer's bull pens it was obvious we needed a Turin son in the herd bull pen. He has 13 sons in the sale.

This past year has shown us more than ever the importance of great neighbours & a sense of community. We are having a hard time expressing the gratitude we have for our friends, neighbours & family who offered land for fall grazing, allowed us to bale straw & hauled crops & lend a hand without being asked; all of the while fighting their own battles in this drought. We thank you all! Our family is humbled by your kindness & because of you our cowherd remains mostly in tact.

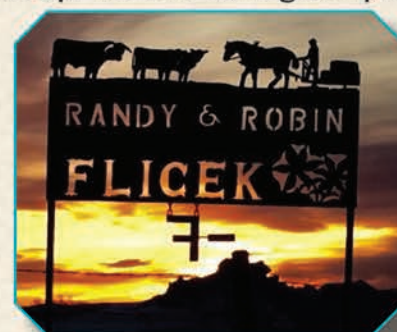

We would like to thank everyone who has purchased cattle, visited our farms or shown interest in our operations! We are offering 10 bulls at the sale this year! The bulls are fully guaranteed, will be semen tested, they are natural, are free moving. We take pride in having bulls that are easy to handle & safe for you & your families! More than ever we are thankful to be in the ranching business with our kids! Some of our best memories of this past year are round ups with family & helping friends with cattle work. Our kids are especially enjoying sports again!

Ramsay & Rawley are playing hockey, & Layla is vaulting. All 3 kids have big white faced steers for 4-H, Rawley is raising birds, & Ramsay has too many pigs! Randy is steady as ever, fencing in the summer months, cutting meat, feeding cows, & driving to hockey. I continue to enjoy working with Saskatchewan farmers & ranchers while working for The North Saskatchewan River Basin Council & am keeping busy taking photos & keeping the kids busy!

If you have any questions about the bulls, their mothers, or any other information we would be more than happy to help. We love having company & enjoy showing people around the farm.

Sincerely,
Randy, Robin, Ramsay,
Rawley, & Layla-Ruth

20B "Prince" is a herd bull we raised & sold to Lakeview Colony in the bull sale. Lakeview has allowed us to use him early while they use him later in the season. 20B is a great breeder covering both herds consistently. His calves are very easy to feed & many have extra pigment. We have both calved daughters out of him & they are everything we expected. Prince is extra sound, has a perfect foot & stays in great condition year round. His disposition is extremely quiet & has passed that along to his offspring.

Welcome to the sale again everybody - once again, we'd like to thank the Ramsay's for having us.

It was one of those years where a guy seemed to be chasing his tail nonstop trying to make/find enough feed. The bulls ran on very hard grass all summer with 2 lbs of oats & stayed out grazing until November.

We are proud of the group of bulls we are bringing & expect them to be excellent breeding bulls. The bulls were all tied up again so should respect a rope if need be.

Hope to see you all at the sale & any visitors or calls are always welcome!

We bought this bull hoping to add some extra weight to his calves & he didn't disappoint. Excited to calve his first daughter in the spring as they should be very good.
