VOLUME IV

New Location!

DAVID CARSON FARMS & AUCTION SERVICES LTD. | LISTOWEL, ON
THURSDAY, DECEMBER 30, 2021 | 7:00 PM

WELCOME TO FALLS VIEW IV

We are excited to invite everyone to be with us December 30 in Niagara Falls.

As we drive home from Canadian Western Agribition, I can't help but think of how great it was to visit with cattlemen and women from not just all parts of Canada, but from all corners of the world. A true representation of the resilience and determination of people in our business. It is very obvious we as cattle producers are essential!

Once again, this past summer we were thrilled to host the Premier Falls View Junior Show. The enthusiasm of the Juniors was infectious and assures the future of our industry is in great shape. I'd like to take a moment and thank everyone involved in making the show a great success.

The quality of this years offering is truly second to none, regardless of breed.

Whether you are looking for breed leading females backed by the most notable cow families in North America, or your passion is to promote your program on the tanbark, I'm confident you will find several options as you read through the catalogue.

Not only do we believe in the multitude of genetic opportunities represented throughout this sale, but more importantly the families that have produced them. It's no secret the cattle business is a people business, and we couldn't be more excited to work with this years group of consignors they are the leaders within the cattle industry.

On behalf of us at Premier Livestock, consignors, and the T Bar team, we would like to welcome all to this years edition of Premier and Guests Falls View Production sale

PETER FRIJTERS

**For our USA friends to the south, keep in mind the buying power you have with the value of your strong US\$ dollar. \$1,000 CDN is equivalent to \$780 USD.* We will also look after doing all testing required to get your purchases across the border.*

FROM THE DESK AT T BAR C...

You are about to witness what is bar none our best offering ever assembled to date for Falls View Volume IV. The genetics on offer, along with some of the finest livestock with a pulse, all go under the gavel beside one of the Seven Wonders of the World.

This outstanding event would not be possible without the foresight and capabilities of Peter Frijters and the entire Premier crew. The entire concept of this sale is to have the best of the best and some of my most cherished purebred livestock memories surround this fantastic event. I can say in all honesty that between our team at T Bar C and Peter's crew, there is not a day in the calendar that passes where we don't think about Falls View and the necessary ingredients to incorporate into it on a yearly basis.

As we are able to go back to where it all began at the Falls this year after Covid, we want to take the time to thank Pete and Karen for hosting at their farm the year previous. But what is evident to us now more than ever, people are craving purebred livestock events. After just completing the 50th Anniversary of a successful Agribition, I truly believe purebred cattle have never been in such a good situation. In saying that, the offering within this catalogue represent your future and opportunity to not only have success, but to have something extremely special to call your own. The championship cattle and genetics available here are as unique as you will find anywhere. You will find matings to the most popular cows on Earth and semen from bulls that you can only buy once a year on this occasion.

What is even more notable are the picks we have included in this Fourth Edition sale. The Miller Wilson herd is truly sacred to Canadian Angus, this historic opportunity has never been offered before, and we want to congratulate the family on their Supreme sweep in Edmonton and Regina. McMillen ranching in the Simmental division has one of the most popular bull sales in the, and this event presents you with the chance to select a sister to those ever popular brothers. River Valley has become one of the most dominant forces in the Hereford breed, now you can get after their best coming two year old pair. Not to mention one of the barn favorites of CWA in Lot 1 and 1A. This female has as much breeding potential as any that have been sold this fall, and her baby at side is destined to be the same.

You want to be in Niagara. We promise you will love it. The atmosphere, the views, and of course the good time. There is no better place to ring in the New Year. Peter and his family go the extra mile annually for this event, along with holding Eastern Canada's best cattle show on Labour Day weekend these past two years, boasting over 250 head. Premier Livestock gives back to the purebred industry like none other.

As always, if any of us on staff can be of assistance in any way, please do not hesitate to call or text.

See you beside the Falls,

BEN WRIGHT

The decision to consign 17F was definitely not an easy one... however, with the intent to create an elite premier event we felt that she was the individual that was fitting to be Lot 1 of the Premier Fallsview and friends' production sale of 2021. This cow has caught the attention of the most astute cattle man from all segments of the industry. This next up daughter is the true definition of form and functionality. She is incredibly long sided, wide pinned and elegant through her front 1/3. She is beautiful uddered and sound at the ground. Her true breeding value is very evident when you analyze her 2021 born heifer calf. Premier Livestock and Hasson Livestock will be thrilled to work with the successful bidder to explore future possibilities with this cow.
All bred and bred to Premier Fusion 809F on April 21, 2021. Due to calve on January 26, 2022
Selling half interest with the option to double the bid to acquire the entire cow. If the successful bidder chooses to own the cow outright, we will retain 2 successful flushes at our own expense.

The apple didn't fall far from the tree with this one. This heifer calf resembles her dam in every single way possible. She has the same length of spine and is equally elegant in her front 1/3. She is flashy, flexible, functional with great hair and even better disposition. If you are looking to make a statement with a big bred heifer for the 100th anniversary of the Toronto Royal Winter Fair, this one deserves a look.

127J is a royally bred female, being the first progeny of OHL Gunner offered for public auction. Her dam is a beautiful final product 2-year-old going back to the immortal OSU Empress 3100. This late march heifer calf is an example of the value we see in her sire OHL Gunner. She is bold sprung, big hipped and tremendous at the ground. With the lineage of this heifer, we are confident this is one that will add value to any program, whether it be a show prospect or more importantly a breeding/ donor female.

Empress 713E has made the sale catalogue four years in a row. In 2018 she was the feature bred female where she sold to Windulan Cattle Co. Then in 2019 embryos sold to the good herd of Ellsmere farms in Nova Scotia. 714 is what we feel the next step of the great OSU Empress 3100. She is massively constructed with a picture perfect udder, and has the look to be a impact female as her dam was for so many different outfits. When I saw Conley South Point at the 2019 CWA in Wilbar's string, I thought to myself, we need to use this bull on the Empress line of cattle. **Guarantee one 60 day pregnancy if impanted by a certified embryo technician.**

Here is an opportunity to own a herd sire that we feel has the ability to transform a calf crop. Gunner is sired by the ever-popular LD Capailist 316 and backed by the Lazy H Bar Forever Lady 3001 cow family who is no stranger to many of the most successful angus programs in north America. When you study this bull phenotypically, he has the look and structure to produce the kind that command your attention. Couple that with his tremendous data set, Gunner ranks in the top percentage of the breed for WW, YW, Milk, foot angle, claw and rib eye the traits that we feel are the most economically important in the industry. The added disposition of this bull is a bonus to making him the complete package.

Our extensive ET program has lead us to be able to offer something we sure think is awfully special. The impact of the Coleman program is just starting to surface world wide and we are proud to own Chloe 900 in her entirety here at La Conquista Ranches. This Bravo female is a direct daughter of the famed Lawson Chloe C815 who is rewriting history among Angus cattle. To note Chloe 900 is a full sister to Coleman Triumph as well as the \$375,000 1/2 interest top selling female this fall at Coleman's sale to Vos Angus in Iowa. This of course amongst many other brothers and sisters. Now, this is the opportunity to come 2022 to have your own Chloe from 3 of the hottest bulls available that you cannot obtain semen on here in Canada. The sexed female options of Baldassarre & Scalehouse are the cutting edge of genetics to have. Of course Scalehouse progeny are the talk at SAV being the highest averaging sale group among all sires... even above the America's. The Baldassarre bull offers out cross and extreme phenotype, a true feature. If your wanting your next herd bull then the Pacific mating is an outstanding option with worlds of potential. Check that EPD spread tracing back to No doubt and the famous Isabel B082. We are offering the choice of 2 of these 3 matings as we are low on pregnancies on Chloe 900. The recipients are located at our farm just south of Calgary, Alberta .

These 5 packages of 5 doses each are 25 of a total of only 100 doses to be sold in frozen genetic sales in late December 2021. The buzz around Showman is really starting to snowball! The first semen sold kicked off 2021 commanding the unprecedented price of \$1800/straw, as well as embryos bring over \$3000 per embryo!! As we stated previously, Showman is the Real Deal, no smoke and mirrors! He is extremely long bodied, tight sheathed, explosive muscle definition, loads of rib, and really clean fronted with amazing presence and Angus character. Here is the true definition of a Curve Bender! BW -0.2, WW +85, YW +158. He proved himself proud in our HF Sale this spring with the high selling bull, HF Showtime 78H bringing \$80,000 for 2/3 interest and full possession, going to Double F Cattle Co. and Allandale Angus. His progeny also topped the heifer calf pen with KT Ranches taking home a Showman heifer for \$37,000. And to top it all off, the consistency of the cattle were reflected in the prices all day long!! The inaugural calf drop will be calving in 2022, and we are excited to see the coming 2 year olds in the final chapter in Showman's "Proof." The semen on offer is limited...don't miss the boat!

HF Tibbie 265Y is one of three full sibs in the herd from the infamous HF Tibbie 100M, who we would have to say "did it all." She was a donor cow, a front pasture cow and a "show cow" that was the first in the industry to win both the Supreme at Farmfair and Agribition in the same year. Tibbie 265Y has bragging rights to raising a high selling bull in 2017... "HF Electric Avenue" gathering up \$72,000 with the successful bidder being Richmond Ranches. The legends of the Tibbie cow family, not only in our herd, but in herds across the nation could go on forever! Schiefelbein Showman 338 needs no introduction as his semen, embryos and live cattle have topped the sales since he first appeared on the scene. His first calf crop created quite a stir, so needless to say, most of the marketing is already done! These embryos offer a great combination of explosive performance and true maternal power of proven genetics.

Guarantee one pregnancy per package if implanted by a certified technician. Stored at Davis-Rairdan

Sired by the best breeding bull I have used so far, the \$1,510,000 S A V America, this female is one power house weighing 1050 lbs November 1. KR Lady May 4382 has been a dream come true for me as my selection out of the 1200 head dispersal of The Krebs Ranch cow herd in 2018. We have flushed her to many sires with great reports around the livestock industry. KR Lady May 4382 is also the dam of Krebs' Ranch lead off bull in their carload in Denver 2019 and also the dam of 50 plus progeny across Canada and the United States. JJH Lady May 1J is the natural calf of KR Lady May 4382 and was a whopping 880lbs at weaning time right off the cow. The shear performance of this heifer is amazing to me and has passed the performance of most bull calves born in the Angus breed in 2021. If you are looking for the ultimate performance in the breed with outstanding conformation you have found the greatest Donor prospect to come along in Decades!

A true breeding masterpiece in this beautifully put together daughter of the 1.51 million dollar America and from the famed 273 cow. This heifer's full sister commanded \$58,000 at this past years AAC sale with moments later her 6 year old maternal sister bringing \$29,000. The genetics injected into this female are extremely valuable and the Blackcap May's always seem to rise to the top. 273 herself is out producing continuously with a \$300,000 daughter at ZWT who would be a maternal sister to this exact heifer. Check that negative BW EPD and double digit calving ease. You can breed this female anyway and the outcome will not only be popular, but the sale topping kind no matter where the gavel drops.

Combining close pedigrees and then outcrossing them to another program is how we have developed the foundation of our program and the pedigree of this gem. Grace combines the top 2 production cows of ours in Young Dale Grace 169B and Young Dale Grace 102Z and then adds the consistency of the Annie K cow families. She is uncommonly stout, so much so she could be the stoutest Angus female that I have ever seen. Yet she is squared off perfectly at all corners, combining base width, underbody width, internal dimension with a balanced side profile and big sweepy belly. She has good hair for the environment and the show ring. Her dam is the \$27,500 for 3/4 interest high selling female from the 2020 Keystone Klassic Sale purchased by Beaman X6 Ranch of Colorado and C Bar L Cattle Company of Kansas. Her Maternal Grand sire is the \$36,000 valued Jaymarandy Sweet Johnny that sold to Severson's Land and Cattle and Daines Ranch. At the one show she and her Dam attended they were the Reserve Champion 2 Year Old Female Division at Manitoba Ag-Ex. Her Dam, Paternal Grand dam, and both Maternal Granddams are or will be in donor production this year. She is well broke to show, has plenty of maternal lineage and rounds off the perfect combination with undeniable muscle mass that the industry needs.

We are excited to be part of the 2021 Premier sales event. We would like to share a flush in one of the soundest Red Baldy 13-year-old donors in the breed today. Also being Lock N Load's full sister does not hurt her. She is a breed changer in her own right. The heifer that is most recognised out of 63U is the yearling that went on to be the Grand Champion Female in the open Simmental show and was named Reserve Champion over all breeds in the Junior Show at the 2017 Royal Winter Fair. She is a standout when it comes to her flush record as well. She is Bow Valley's favorite cow to IVF as we have flushed her 4 times to 7 different bulls for an average of 30 freezable embryos per flush. We have had 70% conception on the IVF embryos that we have implanted.

She is open and ready to be flushed. Conditions on the flush are that she needs to be IVF at Bow Valley or Transova at buyers expense. NO CAP, WHAT SHE PRODUCES IS WHAT YOU GET.

Extra special red headed sweetheart on offer here that is fresh off her class win and Reserve Calf Champion slap at the Fall Finale. Soft made, big bodied, level designed and angular she's also wicked haired with the personality of an ugly girl at last call. Out of the impressive calving ease sire from Semex, her dam was the absolute star of the 2019 show season as Calf Champion at the YCS National Classic in Quebec and Reserve Calf Champion at the US Junior National Sweepstakes in Louisville. The 2 year old dam of this lot was also the \$16,000 feature in Quality Control which explains the long list of partners involved. It's all right here family history, show ring success, balanced data and a predictable pedigree with a beautiful dam sired by the increasingly popular BOOMSHAKALAKA.

This outcross red baldie would be cool for an exhibitor of any age. She is sleek through the front end but still carries plenty of muscle on top and down through the rump. Whether stopped or on the move this heifer has a killer look. But as much as having a cool show heifer is fun, their ultimate purpose is a cow. Red Ruby stems from our top cow family. While the showing liked her dam as a yearling, it loved her as a cow winning numerous championships throughout the 2018 show season. Her calf, Sapphire, topped the Simmental breed of the 2018 RAWF Elite Sale at \$14,000 and is now working hard at RK Cattle Company. So if you are looking for the complete package, Red Ruby is the heifer for you!

LPP Jacey 35J represents one of our very best cow families at Lobsterpoint she traces back to the Stardust 1s cow which was the top producer here from the start of the herd. Her Special Concencess Dam did at rip of a job on this her 1st one. Sired by our walking bull 8200 from Wheatland which was selected to sire long spine, clean fronted, nice headed cattle which he hasn't disappointed. This one is a younger deal and I wouldn't have marketed her this year if I didn't think she wasn't worthy this event. If your looking for one to show next year in the Jr division she is very quiet and has the hair and presents to be a fun one to drag.

----	----	----	----	------

Since the inception of this event, we have been committed to bringing you our latest and best. 520H is the first natural calf off one of our newest donors, 520. The pedigree of 520 needs no introduction. Being a Montezuma out of 5604 "Wiley" makes her a full sib to TR Montella. The sire of 520H- "Lead On" is a time-tested legend around here. The udder quality, fertility, and structure of his offspring has kept him high on our go-to list. The only "Firewater" or "Outsider" in her is in the heifer calf she is carrying. The quality of this one is high and her future is now in your hands.

AI bred to DF MR Outrageous 64G sexed female semen on May 19, 2021. Preg checked safe.

From her family tree to the impressive timber she is constructed on, this one truly has the foundation to build a legacy on. This is the first natural calf off 904. 904 herself being a full sib to DF Outrageous has had us excited since the day she was born! After seeing "Journey" develop, we flushed her back to "Resource". The list of high sellers and champions that trace back to Impressive Lady here is long, but I think the true legacy that comes from this great female is consistency. At a quick count, there are daughters, granddaughters, and great granddaughters here sired by at least a dozen different sires that all have one thing in common. That's the overwhelming ability to out-produce themselves. This cow family is special. This heifer is extremely special. This is an opportunity that we don't share lightly!

Homo Polled
 Fireball is tremendously stout built, with a big hip and top. He combines that with a very soft belly and explosive rib cage. The hair he possesses and throws in his offspring is something we can always count on. In our opinion one of the best Duty-Free sons to ever sell the the Palmer Charolais program in Saskatchewan. Fireball always stamps his calves with sound structure and great back leg set. He has worked so well on our Oustider , Firewater, Turton females. As he is a good outcross option to those excellent females. The bull calves have been absolute fan favorites in our bull sale as they averaged over \$12,000 in last years offering.

OFFERING PICK OF THE RIVER VALLEY 2021 BRED HEIFERS, WITH CHOICE BY JULY 20, 2022 AS A TWO YEAR OLD PAIR

A very unique opportunity to obtain off the top of our program the pick of the RVP tattooed bred heifers. With over 40 some to choose from, we are proud of the genetic potential this pen of heifers offer. With Bonanza being held in Ontario this coming year in 2022, we thought what a great idea it would be for selection to be made in July of 2022, which means you would be buying a cow /calf pair. Bull calf or heifer calf option is open for your decision. Pictured above is previously sold RVP tattooed females from our previous sales. With too many to mention, it should be pointed out that Cameo Girl 45C is a past CWA champion female and is also the mother to our newly acquired \$92,000 herd bull Evolve 112J. In noting of Evolve, the opportunity could be yours having a two year old pair bred back to him pending which pair you choose. Please don't be afraid to contact any of us at RV or T Bar C for further questions.

TERMS AND CONDITIONS

TERMS

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION

Each animal will carry papers issued by the appropriate breed association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH

All animals in the sale have met all necessary health requirements.

GUARANTEE

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the appropriate breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE

We strongly recommend that insurance is purchased for full value.

ERRORS

All announcements at sale time, written or oral, supersede any written material in the catalogue.
