Welcome TO GENETIC FOCUS 2021

Our entire ranch family welcomes you to the Genetic Focus Expanded Edition sale. This one is born out of necessity, but also out of years of building. Years of dedicated cattle breeding with the goal of creating the best maternal cow herd we could. Then one day we looked at each other and said “It’s funny how quickly these things multiply” as we breed almost 1000 cows.

We are not going to bullshit anyone... the past few years have been challenging. We feel like we are living in a drama series ... first fire, then flood, then sickness, then pandemic, and finally devastating drought! But... we all have things that happen to us that are out of our control. However, how we react to those things, is totally in our control. So, we roll with it. Make the best of it, work together and realize that the good things really do outweigh the bad.

We are blessed with this ranch, our cow herd, our incredible ranch team and our growing family. We are grateful that we have been given so many good years, to manage through these tough ones.

We continue to build our future with optimism and confidence in Agriculture. We are proud to work alongside the next generation of this ranch and watch our healthy, rambunctious grandchildren thrive in this environment. And we are extremely proud of this offering.

Cow families with histories of producing high selling, top producing progeny. Services that you will advance your herd with just one calf. All these cows or embryo matings, were created with the idea that we were producing the next great one for us... and here we are offering that opportunity to you – our fellow cattlemen.

Things to Note:

1. When we decided to have a sale of this magnitude, we wanted to offer our very best, so our granddaughter Sloane, drew a year letter out of a hat live on facebook, and we are dispersing that year of cows. It happened to be all the “C” cows of course, with many of our treasured donors. We are also offering a “Pick Of our 2022 Born Heifer Calves”
2. These cows are not fat, over managed females. They are what they are, and have proven their worth as they lived this drought and thrived.
3. The bad ones are gone – the culling was done long ago.
4. These females have built our ranch and as difficult as it is to sell this many of our valuable factories, it is a real opportunity for others.
5. We are downsizing, not selling out. We stand behind these cattle with emphasis on customer service. And, we are still in the market for the right ones and believe in supporting those who support us.

“Nothing is more expensive than a missed opportunity” - H. Jackson Brown Jr.

We had the chance to buy into programs like Bar El and Cactus Coulee and we jumped at it because we realized the opportunity that was presented us and we took advantage. This is your turn.

Please feel free to visit the ranch. We look forward to discussing these genetic opportunities with you.

Clayton and Corinne Gibson

The Six Mile team

Clayton and Corinne We are the elders around here on the ranch and proudly celebrated 30 years of marriage this summer – which we consider a freakin miracle. We may not be as energetic or as sharp as we once were, but we are certainly as committed to our genetics and the ranch as ever. Clayton is up and at it every morning about two hours before the rest of us (and asleep on the couch pretty early at night as well!) I (Corinne) am still as stubborn and passionate about the cattle as always, but I have to admit, that when my grandbabies are around, everything else seems to fall to the wayside!

Tyson, Callie, Sloane and Folwer Tyson and Callie are the heart and soul of Six Mile. We are extremely blessed to have these two at the helm of daily operations. To call them “hard working” is an understatement. Tyson’s work ethic and innate knowledge of cattle is a highly valued asset at Six Mile. Callie knows every animal on the ranch inside and out. She keeps all the cattle records and is efficient, timely and highly knowledgeable. However, their greatest accomplishment so far is providing the ranch with two energetic and rambunctious young cattlemen, Sloane and Fowler. What a joy it is, to watch these two grow up loving the cattle and the ranch. Currently these little ones are head cat feeders and rock pickers, but we can see it won’t be long before they are in the barn right beside the rest of us.

Tyson Buist The other Tyson on the ranch who Sloane and Fowler affectionately call Ty Ty. Ty goes above and beyond for Six Mile. This promising young cattleman is as easy going as they come – nothing seems to faze him – including 230 head of cattle to clip and picture. His dedication to the ranch and the genetics has quickly made him the true MVP here on the ranch. His devotion to the show and sale cattle preparation is second to none.

Rae Tutor The veteran in our operation and our office manager. Rae may only be part time, but if you want to know anything about anything... ask Rae. Rae and I still do many things old school, but we would be simply lost without her knowledge and organization.

Sebastien and Sarah Stewart Sebastien has been our Marketing consultant for many years. When he dispersed his Red Angus herd, we were fortunate to be able to buy a large portion of the females. Sebastien then joined our team and works in marketing and genetic procurement. Sebastien and Sarah recently purchased the Cactus Coulee Red Angus herd in conjunction with us here at Six Mile. We are blessed to have these two as friends and partners.

Lane Machlaclan and Danita Esmond The newcomers here at the ranch -we already are wondering how we managed before they came here. Lane is extremely mechanical and has spent many hours behind the wheel hauling feed and cattle. Danita is an excellent horse-woman who is a great hand on sorting days. With her intriguing music tastes- she has earned the DJ’ing duties in the show barn as she learns the ropes breaking and washing calves. She is slowly warming up to Tyson’s adoration for Taylor Swift.

Cade & Coy Gibson Although our sons, Cade and Coy have jobs off the ranch, they are both here to help whenever they can and we appreciate it. They are willing to pitch in where needed - sort cattle, fix what we break and even babysit the littlest ranchers.

Thank you

to our longtime, recently retired **Walter & Rosie Wall**, who still are a beloved part of our family. And thanks to **Waylon Gilbertson** for his years of dedication to the ranch. There were big shoes to fill by the departure of these valuable team members.

PAYMENT TERMS/FINANCING OPTIONS

Payment will be made to the sale management, T Bar C Cattle Company and is due prior to any cattle being released. A 1.5% monthly interest rate will be applied to any invoices not paid within 45 days of the sale date, unless other arrangements were made prior to the sale. **If payment terms are needed, please contact Clayton and Corinne Gibson well in advance of the sale to discuss.**

U.S. EXCHANGE AND TRAVEL

U.S. funds will be accepted at the current rate of exchange announced sale day and will be posted prior to the sale. The U.S. dollar is currently at a big premium in Canada.

Please contact us for up to date travel data, as it changes often. However, as of October 1, United States residents are permitted to enter Canada by ground or air with proof of double COVID vaccinations, and a negative COVID test taken 72 hours prior to entry into Canada.

SIGHT UNSEEN PURCHASES

If you are interested in any of the lots, but unable to attend the sale, please contact any of our Six Mile team prior to sale day. This allows us time to discuss your needs and suggest lots that fit your criteria. Your order will be held in the strictest confidence and handled with integrity and professionalism. Your SATISFACTION is 100% guaranteed if you have talked to one of our Six Mile team members (Tyson, Corinne, Clayton, Callie, Sebastien or Tyson Buist) prior to sale day.

VOLUME DISCOUNTS

Please contact Clayton, Corinne, Tyson or Callie for inquiries.

SCHEDULE OF EVENTS

MONDAY, NOVEMBER 15, 2021

Cattle available for viewing all day
5:00 PM - Beef on a Bun and Refreshments at the sale barn

TUESDAY, NOVEMBER 16, 2021

11:30 AM - Pre-sale meal and refreshments
1:30 PM - SALE TIME
Join us after the sale for refreshments and socializing

JUST A FEW NOTES

Six Mile Ranch reserves the right to two flushes on any females selling at our expense and the buyer's convenience, unless otherwise noted on that lot (minimum of 8 embryos.)

Embryo Guarantees :

3 Embryos guarantee 1-90 day pregnancy if implanted by accredited technician

4 Embryos guarantee 2-90 day pregnancies if implanted by an accredited technician

5 Embryos guarantee 2-90 day pregnancies if implanted by an accredited technician

The majority of the sale females have been DNA sire verified or fully parent verified.

Due to the severe drought, we were constantly having to move cows. Therefore, Six Mile will pay for any service that requires DNA parentage verification on multiple breedings.

Some of the heifer calves in the offering are halter broke and some are entered to show at Canadian Western Agribition or the National Western Stock Show. Please contact Tyson to visit about options.

In Canada, Six Mile will assist in coordinating transportation to central locations. For our U.S customers, we will do all export testing and administration at our cost plus we will deliver the cattle to the border. Trucking from the border will be the buyers responsibly, however we will assist in making arrangements if needed.

All EPD's in this catalogue are generated by the Canadian Angus Association. Please refer to our website or call any one of us for BOLT EPD's.

Some of these sale cattle are owned in partnership. Partners may be participating in the sale to dissolve these partnerships.

Cows were pictured in mid August, bred heifers were pictured in mid September and open heifers were pictured in late September.

All purchased Six Mile females and direct progeny from Six Mile genetics will be eligible to participate in an exciting new event we are planning for 2023. With the addition of a new facility, we are gearing up to host a show right here on the ranch and offer our customers opportunities to compete for cash prizes, learn from hands-on clinics, and socialize with fellow breeders. Watch for exciting details in the near future...

Sale Feature & Donor Dam. Marta Cow Family. This cow does not miss. I suspect very few cows on offer this fall would rival 238C's combination of phenotype, production record, mating flexibility and EPD profile. She has produced high sellers to Blairs.Ag and RMVR, Crimson Cattle, Camhaug Family and Lacasse Farms. Her daughters highlight the bred heifer offering as Lots 89 & 90 and she just weaned off a stud Northbound bull that will be a feature next spring. Elite breeding pieces like Marta 238C are rarely offered at public auction...

Some cows make picture day real fun. They come in and strike a pose like Kanye, and then head to the done group - 213C was NOT one of those cows. At the end of picture day after many cuss words and open threats, she stayed in the catch pen so we could have a little chat. "If you take a BAD picture, you will sell to a BAD home" - Corinne and Callie always say this to the ones acting like idiots. 213C heard 'em loud and clear. She walked out - wham-bam-thankya-ma'am and she was done. Picturing cattle is the most awesome and stupidest thing we put ourselves through as purebred breeders. #IYKYK. At the end of the day, we love this cow and she carries exciting early service to Hotwire!

Sale Feature. This cow is so good. Now to be completely honest, her calves and production record have had a streak of bad luck. After twins as a first calf heifer, with one being a high seller to Rancho EL Octote, we had a bull wreck and she fell into the summer calving program. Her 2018 (G) drowned in a flash flood at a rented pasture and 2019 (H) bull testicles degenerated as a yearling. Now her 2021 Stealth bull calf - well he is a gangster. She has steadily been moving up her calving date and is carrying a Parabellum baby for early March.

The Bayberry cow family is very special to Callie. I believe her great grandparents, Ken and Roberta Frazer, gifted her a heifer, Bayberry 120N from the Cumnock dispersal when she was 11 years old. This cow produced 2 pretty amazing daughters for her to start her Red Angus herd; 256T who won the World Angus Forum in '09 and 608U, the dam of 433D and 3 others in the herd. We had to send 608U to town this fall due to age, and I have never seen that good of foot on a cow of 13 years of age. Those good old girls are tough to say goodbye to. Average Wean Index 102 (3).

Sale Feature. I always struggle to write footnotes on females like this. It feels like my words will never do this heifer justice. To be completely honest, it's VERY rare that everyone on the ranch has the same favorite heifer in the offering. We think Ellie 8H is big time! Clayton likes her stout pin set and big top. Callie loves how well balanced she is and can't wait to see the udder she drops down this winter. Corinne has a soft spot for her combination of phenotype and royal lineage. Ty gets all jazzed up about her heavy structure and sound fluid movement. And I (Tyson) get starry eyed looking at her foot structure and just want to see how badass the John Wick baby is that is in her! She's a flushmate to the \$37,000 high seller in the 2019 Genetic Focus to the Vowell Family and the 2020 high selling female in "Reds on the Rise" at \$20,500 to the O'Leary family in Texas.

A dark red rolex daughter, mated to John Wick. Thoughts of the calf inside this one makes me excited! 228H stems from the Elora cow family, with her mother 144Y being a past champion in the show ring at Fort Worth and her grandmother a great producer for us here at Six Mile.

AI Red Six Mile John Wick 882E - Apr 30 (favorable). PE May 10 - Jul 3
Red Ridge Wrangler 9096. ECD - Feb 6, 2022

We think highly of this Rolex daughter and love the mating with Typhoon. She's a larger framed female but keeps her unique pieces together very well. We are very excited to put these Rolex daughters into production this winter. 320H's young Warcraft dam is 3/3 on her production record with a son selling to Mike Tilleman, this sale feature, and a real good Badger daughter in the replacement pen.

AI/Breeding season is one of my favourite times of year. I think of it as the worlds slowest on-going chess game. You make a move and then have to wait a grueling 280 days to see what the next move is. Sounds thrilling hey? More to the point- breeding 40H to Typhoon 604H is probably the most complementary mating that was put together in Spring 2021. I bet the result is very high-quality stock. This is the only Lassie 377P influenced female in the sale, so I would recommend taking advantage of this rare opportunity.

Quite a few years back, Clayton went down to Lodoen's bull sale in ND and they were selling some real nice pens of open heifers. These were purebred heifers, Game Face daughters, and they were selling too cheap so he bought a pen for like \$1200/head. 24A was one of those heifers. She has eclipsed \$70,000 in progeny to date and is still adding to her story. Never been flushed either. I think there is a lesson to be learned in there somewhere...

The first Stark daughter to sell at public action. Be warned - you may have to pry her out of my daughter's hands to take her home. She has been nicknamed "Baby Stark" by Sloane when we have been working on her in the show barn. 344J has a disposition that is so rare and unique. And phenotypically she is one of the best; stout featured and massive bodied with a heavy structure and sound movement. Her maternal brother was a high seller last spring to Wards Red Angus at \$25,000.

Fancy April baby here! We bought this heifer's dam out of Blair's sale last fall; we knew the potency of the Marta cow family (this sale is built around them!). This one is super big topped with a big pin set while keeping an elegant head and neck. Added bonus she sports extra shag and is kid friendly. 836J is entered alongside dam for Agribition

Dam Marta 928E

The first Gentry's to sell! Talk about stamping his progeny; it's easy to find the Gentry calves in the pen with their envious dark red color and low input fleshing ability. This tanky girl came in dam from the Catcus Coulee herd acquisition out of a gorgeous Legacy x Lana cow. Your feed bill will be low when showing this big legged, dark red, belly dragger!

A.K.A. King George, he rules the roost around here. Equity came from our good friends, Layne and Mallory Robinson at McDonald Red Angus in Iowa. His first sons were one of our high averaging sire groups in last spring's bull sale. Equity is one of those "all around" bulls that works on a variety of cow types. He boasts an impressive EPD profile ranking in the top 30% for CE, BW, WW, YW, DMI, SC, MARB, FAT and HPG.

174B IVF CYCLE OR FLUSH ON RED BAR-E-L AB MEG 169Z

We staled across from Bar E-L Angus at Canadian Western Agribition 2013. As soon as they brought Meg 169Z into the barn, we knew we had to own her. She went on the be named Grand Champion Red Angus female and make the Top 10 in the Supreme show as a yearling heifer, which is rare in Canada. She is sired by the maternal legend, Indeed, and is a full sister to the Magic Mike bull that has made such an impact at both Bar EL and Wheeler Stock Farm. Meg progeny, flushes and embryos have seen great demand making here one of the highest-ranking females in our herd in terms of profitability. Meg is due to calve around sale day – November 15th. She will be open and ready to flush either conventionally or by IVF in February, 2022.

The IVF Cycles/Flush will be done at Bow Valley Genetics. Offered with Wheeler Stock Farm.

Stealth 269F was a past high seller to the Rempel Family at Running JR Red Angus. When I stopped in at Remple's last fall to go through their bull pen and replacement females, it was really easy to pick out the Stealth daughters; dark red, great footed and super maternal looking. We also brought up their high selling bull (which was a Stealth son) and a bunch of the cows in this sale carry Stealth or Stealth JR service. Stealth has an outcross, highly maternal pedigree and will sire great footed, easily marketable offspring.

CAN and USA qualified. This will be the only Stealth semen on offer until Fall of 2022.

Offered with Running JR Red Angus.

Roush was a feature in the bull sale last spring when we sold choice on him or his flushmate Redwing 145H. They commanded \$32,000. Roush is a Mann Red Box son from our prolific Marta 807 donor cow. Red Box needs very little introduction as he burst onto the scene producing high sellers across North America. Marta 807 can be found in the pedigree of numerous features in this sale and holds a long list of high sellers in her production history as well. We expect Roush to pass on his dark cherry color, impressive foot structure and flexibility in motion **CAN qualified. Stored at Bow Valley Genetics**

Maternal Sister Marta 238C (Lot 1)

Paternal Sister Ellie 8H (Lot 79)

Sire Red Box 55C

This mating has us excited! Taffeta 142B is a ranch favourite here that we own with Sunberry Valley. She is not only visually flawless, but our best producing cow as of late. Her list of high sellers is very long! Township was a highlight of the 2019 bull sale season selling for \$120,000 to Sunberry and has now become a household name in the Red Angus breed. His high quality progeny are highlighted in the heifer calf section of this sale. Lot 177 recip cow is a 3 year old purebred red angus female (Custom Made x Bucc), who raised two real nice replacement females. She is moderate statured, great footed and a heavy milker, but exhibits a bit extra teat length. Registration papers will come with this recipient female.

New Donor Alert! 610C proved her way to the donor pen producing high quality, easily marketable offspring. We flushed her here to the new kid on the block, Typhoon 604H. He was the 2021 high seller from W Sunrise at \$46,000 that we bought with Wheeler Stock Farms. Typhoon is a great footed, cherry red, calving ease option that packs extra muscle in a sensible frame size. Lot 178A recip cow is a 4 year old purebred black angus female (Connealy Complete x Rose Hill Royce), who has decent feet and sound udder. Registration papers will come with this recipient female.

(Purebred Black Angus Female) - Implanted May 19. ECD - of Feb 18, 2022. Embryos are CAN and USA qualified.

Sire Typhoon 604H

When we were getting ready to flush Lakota 848A, Parabellum was the unanimous choice. The Lakota cow family is the anchor down in Christy Collins' program, where Lakota 112Y has dominated the Las Rojas donor pen. Her twin sister, Lakota 113Y, is the dam of 848A. She is writing her own chapter in the Six Mile program producing high valuation sons and elite retained daughters. Parabellum burst on the scene in Denver 2020 as the dark red, big legged, stout featured, sound moving creature who's first offspring are creating a buzz in the USA. Lot 178A recip cow is a 3 year old straight red commercial red angus female from the heart of our commercial herd. Larger framed and excellent feet with a flawless udder.

Lot 179A - 547F (Commercial Straight Red Female) - Implanted June 17. ECD - Mar 19, 2022

Lot 178B recip cow is a 5 year old RWF commercial female from the heart of our commercial herd. Smooth made, great temperament and high milk production in a sound udder. This past year she raised SIXM 855J (Lot 151)

Lot 179B - 734D (Commercial RWF Female) - Implanted June 17. ECD - Mar 19, 2022

Full sib embryos to the \$48,000 Mossy Oak! He lead off the bull sale last spring to Moose Creek and Semex. The Lark cow family is very prevalent and highly productive in our program. 225E fits the mold with a flawless udder, massive body shape and superior EPD profile. John Wick has demonstrated his unrivaled ability to produce consistent quality; regardless of cow type. The guess work is complete on these embryos!

Embryos are CAN, USA, AUS, and EU qualified. Offered with Ivy Livestock.

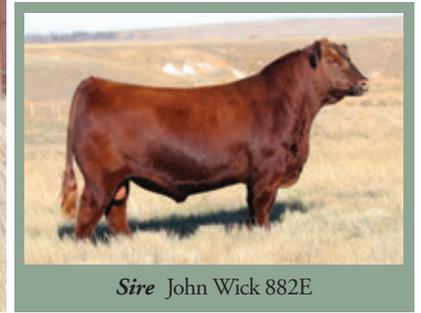

Sire John Wick 882E

The Frado's have propagated quickly since we purchased a portion of the Bar E L herd. 209U is the matriarch of this cow family and is found in pedigree of many features in this sale. She's stout featured, dark red and has a production record that is filled with high sellers and the dams to high valued cattle. John Wick was the logical mating for 209U.

Embryos are CAN, USA, AUS, and EU qualified.

Sexed Female Embryos. A very complementary mating of two high profile individuals. Gloria 195B is the past Agribition Champion and now influential donor for us and Niobrara Red Angus. She injects look and eye appeal to her calves along with her strong maternal traits. Stark carries Brooking Banknote into the Red Angus gene pool. His first calf crop shows added scope and dimension with an unparallel fleshing ability.

Embryos are CAN, USA, AUS, and EU qualified.

Offered with Niobrara Red Angus.

183 PICK OF SIX MILE'S 2022 BORN HEIFER CALVES - RED OR BLACK

Six Mile ranch is committed to helping our customers succeed. We are offering the rare opportunity to pick ANY Red or Black Angus heifer calf born in our herd in 2022. We exert a lot of time and effort to find the most exciting and profitable genetics we can, to advance our herd. Here is your chance to use our experience and expertise, to move your program in a very positive direction. Females from Six Mile have done great things for high profile programs such as Lakoto 112Y (or piglet) in the Las Rojas Red Angus herd of Christy Collins in Oklahoma. Whether you are looking for a heifer to hang a halter on and have some fun in the showing or for your next donor female, we are confident she will be born in 2022 here at Six Mile.

- Pick must be made by September 1, 2022
- Six Mile will retain a 50% embryo interest in the chosen female
- 50% down on sale day and balance due at time of pick
- Heifer calves born to partnership cattle may not be available as determined by our partners.
- Six Mile will assist the purchaser to make sure they have every opportunity to succeed with this exciting purchase.

A March born that we are extremely excited about. She motors around the pen with comfort and ease in her hock and pastern while boasting a heavy structure and great rib sweep. Diesel daughters are now in production exhibiting near flawless udder structure and ample milk production. 628J comes from the Lady Lee family who have proven their worth here at Six Mile. Top 15% for CE, BW & YW. Entered at Agribition.

Dam Lady Lee 166E

Maternal Sister Lady Lee 212H (Lot 210)

Another Blackbird female. A full brother to 346J sold in our 2021 Bull Sale to Mar Mac Farms. Her dam 46Z has been an exceptional producer with another son working very well for Riverside Angus. This heifer 346J is elegant fronted, long bodied and impressive on the move. You truly cannot go wrong with this Blackbird cow family.

The Diana cow family seems to be popping up all over this catalog. 456J is a heifer that keeps getting better every day. We love her body shape coupled with a real strong top and excellent skeleton. Dam sells as Lot 198.

Dam Diana 403F (Lot 198)

This Showman heifer has a striking presence about her. She is soft - made, balanced and proud. Her mother has been a very good producer for us and exhibits a tremendous udder, you can find her as Lot 188.

Wowzer!!! Here is a heifer calf that gets you excited when you look at her pedigree, and then even more excited when you see her in person. An elite front-end, paired with a look at me presence. This heifers dam was our high selling Black Angus female last year with 1/2 interest going to Allison Farms for. Be sure to check out the maternal grand-dam to this female as Lot 184.

492J is a full sister to our 2021 high selling Black Angus bull - Showtime 80H to Everblack Angus, the Gibson family. This heifer came off her recip a bit greener than her pen mates but is really starting to shine. She reminds us of her mother Annie K 263C - being later maturing, super feminine and great structured. You can find her Donor dam as Lot 185.

One of the youngest females in the sale but she is sure to grab your attention with a striking silhouette and proud, elevated neck attachment. Check out her EPD tabulations, Top 15% for CE, BW and YW, Top 30% for WW and MCE.

1916Y is a beautiful uddered and perfect footed Bismarck daughter that produced a 2021 bull sale feature that sold to the good folks at Valley Blossom Ranch, the Switzers. She's mated with the international champion, South Point who caught our eye at Agribition a few years back. His calves come easy and explode on grass in the summer time. This embryo mating should be powerful and maternally driven.

Lot 228A recip cow is a 4 year old purebred black angus female (Eliminator x Rose Hill Fame), who raised a \$7000 bull in 2019. She is easy fleshing, big bodied sound uddered and heavy milking but will hit the tip table prior to sale day. Registration papers will come with this recipient female.

(Purebred Black Angus Female) - Implanted June 17. Estimated Calving Date of Mar 19, 2022. Embryos are CAN and USA qualified.

If you were paying attention as you flipped through the previous pages, you probably noticed how awesome the Blackbird females are in the black angus section. 16X is one of the matriarchs to that cow line. We lost her too early and these are the last embryos in existence from her. She was as close to ideal in her build as we could make one; and her production record was even better. Trendspotter is a high performing Banknote son from the Annie K cow family at Brooking Angus Ranch.

Embryos are CAN, USA, AUS, and EU qualified.

WELCOME FROM MACKENZIE SALES MANAGEMENT

Welcome to Six Mile's Genetic Focus "Expanded Version" Sale. It's absolutely wonderful to be involved in an event such as this, on a lot of levels. The history within the Red Angus breed that comes from this ranch is amazing. Tracing back to the 70's with Clayton's grandpa Ken Frazer and Grandma "Birdie". The name Six Mile conjures up all kinds of memories for me. Especially the one of the foundation Olivia cow that sold in the 1981 Red Roundup sale in Olds, AB, Red Six Mile Olivia 719N. She was the high selling female that day to the well-known Leachman Cattle Company of Billings, MT.

The conditions of our environment in the summer of 2021 have not been favorable in Southern Saskatchewan ... to say the least. But these good folks have managed through the drought very well. After touring the sale offering in early September, I was very impressed with the set of sale cattle that they will be presenting to everyone in this sale. Remember, the Gibson family does not necessarily want to sell this group of cattle, especially the "C" letter cows – that were drawn out of a hat. The opportunity that presents itself today, to buy a group such as these, may never be here again! Take advantage as this offering is vast and deep in quality.

Feel free to call me if I can be of any assistance on sale day or before.

BRYAN MACKENZIE
403-627-8266

WELCOME FROM PETROSA EXPORTS LTD.

Welcome to the Six Mile Genetic Focus 2021. Opportunities abound with this superb offering from Six Mile for this powerful female sale. The drought in southeastern Saskatchewan has created a unique opportunity for Angus breeders far and wide to get their hands on to genetics that would not otherwise be offered. From proven cows, many of donor quality, to the huge offering of bred heifers and selected heifer calves, this sale offering is your chance to bring in cattle that will fit at the top of any herd. Many of the cattle being offered are part of the show string they are parading this fall and they all have a shot at standing in the winner's circle. The quality here runs very deep.

Take the time to evaluate each and every animal for sale. There is one for everybody and every budget. If you have a chance to visit prior to sale day, I would urge you to do so. It will be time well spent. If you can't make a visit or cannot attend for whatever reason, please give me a call. I have been through all the sale cattle and evaluated them one by one. I have worked with the Six Mile crew for several years and have total confidence in their program. Don't miss this opportunity. See you on November 16, 2021.

ROGER PETERS
403-828-9815

TERMS AND CONDITIONS

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

FROM THE DESK AT T BAR C

Welcome to the 2021 edition of Genetic Focus, Tuesday, November 16th hosted By Six Mile Ranch at their headquarters, Fir Mountain, Saskatchewan. This day will go down in history as one filled with genetic opportunity from a seedstock program which has influenced breeding operations around the globe.

No doubt, the pandemic and Mother Nature has tested all of us in the livestock industry, but history has taught us... that cattlemen are a resilient breed and continue to be stronger in always moving forward. Six Mile Ranch has had their share of Mother Nature's temper throughout its history, but from its inception by Ken and Roberta in 1949 to the newest generation, they continue to strive for the ultimate, no matter what peril may come their way. As a result of their efforts, the ranch and breeding program has become one of the leading sources for sires both Red and Black, with a customer base second to none.

Limitless opportunities abound in this outstanding offering of breeding stock. All the "C" born females will be a feature and included in the offering are several prolific donors... mothers of herd bulls working in prominent purebred establishments throughout North America. The ranch raised cow herd has been built on families... families which are productive, predictable and will add value to all types of operations. Over the past number of years, we have seen this breeding operation successful and competitive on the big stage... Denver, Agribition and I'm sure you will agree that the Six Mile program will continue to do so as you preview the prospects in the offering.

All the bred females carry exclusive services to the freshest of genetics in the industry. The yearlings are powerful and broody and destined to add front-pasture value to your program, while the pairs are overflowing with opportunity to explore and discover your next donor female. For those who want to own the best female produced at Six Mile, do not overlook the "pick" of the 2022 heifer calves... remember that every generation gets better.

Congratulations to Clayton and Corinne on 30 years of bliss. They have engineered a breeding program where there is no "substitute for quality" and that motto is echoed by the up-and-coming junior division.

Plan to stop by the ranch anytime prior the sale and you can be sure that one of the Six Mile team will give you a tour of this exciting lineup of superior seedstock. Feel free to give them a call to discuss your breeding requirements whether it be a donor, a bred, show heifer or frozen genetics... they will be pleased to assist and advise.

Plan to be a part of history as Six Mile Ranch offers their years of breeding and selection, whether it be with us in person, online or on the phone. During these times, feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

WELCOME FROM BOHRSON MARKETING

The Six Mile Ranch name brings to mind many thoughts in us all, of history, success, influential cattle, consistency over the years, family, friendship - and most of all damn good cattle that go out to work wherever they are utilized. Every year Six Mile has offered up some of their elite females and genetics to fellow breeders, but what an opportunity in 2021! Circumstances have opened the gates wider than ever before and this is the time to study hard and add proven Six Mile genetics to your herd.

Six Mile cattle go out and breed on in other herds worldwide and we see repeat customers come back to replicate the success of their past purchases. The legwork is done genetically and management wise to bring you an offering that is elite physically, genetically, and in their future potential. Six Mile is always a player for the best Red Angus and Angus herd sires every spring and you have the opportunity to access those progressive genetics they have researched and added to the herd through the offspring and breeding services. We are very confident in the offering and have seen the positive results of investments in the Six Mile program over and over. Our team is very familiar with the program and is available to assist you with your selections in any way.
