Semen & Embryos

The semen and embryos listed in the catalogue are stored at either Alta Genetics, Bow Valley Genetics, or Davis Rairdan. They will be released to the purchaser after payment has been made. All shipping and handling costs are the responsibility of the buyer.

Load Out

Please arrange delivery/pick up of your purchases immediately following the sale. Once payment has been made, Canadian purchases can be loaded out from Stettler Auction Mart immediately after the sale. Cattle are moving across the border with no issues. US/Mexico purchases will go back to Springside Farms for all health testing and export documentation. To cover testing and border crossing costs, \$300 will be added to the purchase price of each animal purchased destined to for the USA. Roger Peters will be organizing shipping of all Mexico cattle.

US Exchange

US buyers should take advantage of the weak CDN dollar. Exchange rate will be announced prior to the sale.

Terms

Terms are available. Contact Chris Poley at 306-220-5006 for more information.

DISPERSAL SALE

WELCOME FROM SPRINGSIDE FARMS

After 38 years in the Charolais business I sit down this morning and two thoughts come to mind. How did that go by so fast? And how could I be so lucky to do what I love for 38 years? This journey started in 1983 with humble beginnings in the little hamlet of Shortdale, Manitoba. This is when I purchased my first two heifers from the bi-annual Alex Podwin dispersal. Neither of them really turned out but they really didn't break the bank either. It was after that in the rolling hills of Bield, Manitoba that my dad suggested we stop at Venture Farms to talk to Harold Boughton. That led to my third purchase of a heifer calf at the Hi-Weigh sale and she turned out really well.

Because I was still in school and running a dairy farm with my mom, it was hard to get away but we managed to get to the odd sale and add a Charolais cow to the herd here and there. It was in 1989 after the cows were milked and the truck was filled with gas that we made the trek to Brandon, Manitoba for Ag-Ex. There used to be a sale with this show and I was there to buy. I instantly fell in love with KBK Grandelle 9Y, a red factor Grandorr daughter and blew my budget of \$5000 but she turned out to be everything I had hoped for and more. Something even more prominent that I remember from that day was meeting one of the most influential people of my career. His name was Dale Norheim of D bar L Livestock.

I was mesmerized by Dale's knowledge of cattle and his passion for the industry. I idolized him in every way. His favorite tag lines were "polled, polled, polled" and "You know what I mean?" It was his mentorship that shaped my eye for quality Charolais cattle. By this time the herd had grown to about 25 females and I was ready to make my debut at the Hi-Weigh Charolais breeders bull sale as a guest consignor. My dreams were crushed as my long-time idol said to me "You know Mike, this bull just isn't good enough to be in the sale, you have to feed him better." With a heavy heart I stewed for a few days but then I licked my wounds and decided I was going to work harder.

The 90s saw a lot of growth in the Charolais breed and it wasn't until 1999 when I decided to fully invest myself in this business. I always admired the P-3 program in Alberta and when they announced their dispersal sale I decided I was going to step up to the plate. After eight trips to their ranch that summer, sale day ended with the addition of 40 perfect ranch cows and a handful of heifer calves to the Springside herd. This herd expansion is what anchored the first Springside bull sale on March 13, 2001.

The first sale started off with a freak snow storm right before the sale and I never imagined a single person would even show up. We delayed the sale but the stands were full! By the time the spring bull season was over we had secured the fourth highest sale average in Canada. Throughout the early 2000s the herd grew exponentially. We were up to 150 head of Charolais cows and my mom was ready to retire so we sold the dairy farm in 2003 and transitioned entirely into Charolais cows.

It seemed like things were going perfectly as planned with our transition into the beef world when it came time to my birthday on May 20, 2003. I will never forget this birthday because it was the most devastating day in any young farmer's career, BSE!

What seemed like a quickly expanding empire, was completely shattered as the cattle operation had suddenly become worth ten cents on the dollar. I hate to say it, but I was broke! So I ended up taking what few cows I had left and I decided move to BC and start over.

In BC, I went back to my roots working at numerous odd jobs, mostly dairy farms, to pay the bills and feed the few beef cows I still had left. It worked well for a

while but I always had the dream of restoring the Charolais herd that was taking off just a few years prior. I had met Ursula Corpataux many years prior at Agribition so I gave her a call to see if she would be interested in leasing the 40 or so cows I had left. After some negotiations, the remaining cow herd left Manitoba and headed for Sandan on November 11, 2005. I didn't know it at the time but this truly cemented a friendship that will last until the day I die.

In the early 2010s, while the herd remained at Sandan, I worked extremely hard and made some great money in BC. I invested myself back into the Charolais breed and I think I must have bought almost all the Charolais cows in BC from Altwasser Charolais and Anchor Ranch. Things were starting to roll again. In 2014 I decided it was time to go all-in again and I moved to Alberta.

The last seven years in Alberta have been one hell of a ride. This truly is cattle country and "western" culture. We have campaigned the show road with our ranch cattle, built up a very successful bull sale, and built a cow herd that are functional, sound, fertile, and profitable.

In all the ups and downs of raising this herd, there is one thing I have come to realize and I have said this more than once. As much as I have loved this breed and have invested my life into these animals and these spectacular females, this is a people business as much as it is a cattle business. There is no value I can place on the connections I've made, the people I've met, and the lifelong friendships I have created. I enjoy every interaction with bull customers, colleagues and friends. My journey has not been the typical multi-generational farm dynamic and I truly believe in the philosophy of treat others the way you want to be treated. I have been fortunate to have so many positive role models and supports in this industry and I hope that I have been able to pass that on to others. This has been an unreal 38 year experience and I look forward to seeing what this breed can achieve in the next few years.

Thank you to everyone who has made this a truly magical experience and I look forward to seeing each and every one of you on sale day.

Sincerely,

Mike Panasiuk

Watch for the
SPRINGSIDE FARMS BULL OFFERING
ON FEBRUARY 12, 2022

FROM THE DESK AT T BAR

Welcome to Springside Farms Charolais Female Dispersal Sale, December 16, 2021, at the Stettler Auction Mart, Stettler, Alberta. This event will etch another page in the history of the great Charolais breed, as once in every decade or two, an opportunity like this comes along allowing you to select seedstock from a program that has supplied breeders and cowboys alike with a superior brand of breeding stock.

Dispersals, come with a hint of sadness in losing a prominent breeder, but they are windows of opportunity for others focused on moving their programs forward. Only in a dispersal can one select the heart of a program whether it be a foundation builder, an exciting young female or a competitive heifer calf, opportunities are limitless. The demand for Charolais bulls and their influence on the commercial sector has limited the sale of breeding females... simply put, established herds with a large customer base will not sell their predictable females... it's a matter of dollars and sense. The volume and depth of this program will allow all types of breeding programs and all types of budgets to select and improve their individual breeding requirements.

This highly prolific cow herd is the sole reason the annual Springside Bull Sales have been so successful, and the long list of repeat customers is a true testament of this breeding program. As you tour through the offering or through this catalogue you will find that the cow herd and the breeding program has been established using soundness, performance, fertility combined with calving ease. Near 90% of the females were confirmed bred on their first cycle... Amazing! The 2021 bull calves are the most powerful and consistent group in Springside's history and will be on display near their mothers sale day, even though they are retained for the spring bull sale. To add to the power of this herd is a great set of numbers whether you are looking for calving, performance, or carcass values... a selection tool that will be used more and more in the years moving forward.

The Charolais breed has set a standard throughout the livestock industry whether it be in the pasture with heavier weaning weights,

the feedlot with heavier gains or the processors with higher carcass values. They have added value to all breeds in crossbreeding with low risk and high reward.

Mike Panasiuk is a top stockman and a true Charolais enthusiast. He has promoted the breed and the Springside program across Canada and as far south as Mexico. This program has been competitive at every major show in Canada... plan to see them out in the fall events. On December 16th you will get to take advantage of three and a half decades of breeding and selection and add quality to your breeding pastures. Feel free to give Mike a call and arrange a tour of the herd in their natural surroundings at the ranch near Gadsby just a few minutes east of Stettler or give Mike a call to discuss the cattle... he likes talking Charolais.

Plan to be a part of history as Springside offers their years of breeding and selection, whether it be with us in person, online or on the phone. During these times, feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

Welcome From Bohrsen Marketing

The SOS prefix has been a staple in the business for over 30 years and Mike's passion for quality Charolais cattle shines through this herd. In life and business there comes time for a change of pace and with that, the opportunity presented in these pages. The Charolais breed is the envy of many others for the strong bull sales, commercial acceptance, and power of the tan and silver hide - it seems like nearly every month there is news on social media of breeders from other breeds acquiring a set of Charolais cows, now that is exciting!

When Mike undertakes to do something, there is no question that he does not hold back. The sheer planning and preparation that has gone into this event is amazing and represents value to the purchasers. This is a proven set of cows with production and pedigrees that assist in future marketing of their progeny. Mike also planned an aggressive AI and ET program with large sire groups and early services, making it easy to start a herd with similar genetics or to complement an existing program. The Springside team is hitting the show road extensively this fall which also helps build a story for marketability of related cattle in the future. We can confidently state that not only are the basic building blocks of the program looked after, but also an extensive list of extras that add value to purchasers.

We strongly encourage you to plan a tour to see this impressive herd in advance of December 16 and take the time to study the offering in detail - there are strong opportunities throughout! Also if you see the Springside team on the show road this fall, please stop and visit with Mike as he loves to discuss cattle and is so passionate about the business. If we can be of any assistance with your selections, our team is very familiar with the SOS herd and look forward to helping in any way.

Best regards.

The Bohrsen Marketing Team

Welcome From Peterosa Exports

When I hear the word dispersal, I think of two words, opportunity and investment. An opportunity to invest in something that has been built over many years or a lifetime. An investment by a dedicated cattleman, years in the making. Hundreds of thousands of dollars spent and as many hours of planning, selecting, breeding, raising and reaping the rewards of your lifetime of work.

When Mike Panasiuk first talked to me about his plans to disperse his Charolais herd, 30 years in the making, I was both sad and happy at the same time. Sad to see such a talented Charolais breeder selling off his life's work but also happy knowing that he will be well rewarded and that countless breeders will now have the opportunity to own the great females produced at Springside Farms and can take their own programs to the next level.

Mike's vision of what kind of Charolais he wanted to raise has been evident for many years that they are the right kind. His passion for the show ring has led him to stand in the Winners Circle all across Canada with both males and females. His annual bull sale has been near or at the top of all Charolais bull sale consistently across our great nation. Never before has there been offered to the public such a super set of females, big and broody, easy doing, super uddered with great structure, feet and legs. Fertility is built into this herd. Just look at the high percentage bred AI. Phenomenal conception and bred to world class sires.

Mike's investment in the North American semen rights to Turnbulls Duty Free 358D is a true example of Mike's vision to bring Charolais more to the forefront in the cattle industry today. Look at how all the sons and daughters of this great bull have blended with the Springside cowherd. Here is a chance to take your breeding program to the next level in one quick step by either purchasing a daughter or one or a dozen of the many foundation females bred to him. Check out the SOS Apex daughters and many more females from proven sires. There are many opportunities in this sale that you only get once in a lifetime. Take advantage of Mike's vision and jumpstart your Charolais program to the next level. Soon it will be you standing in the winner's circle.

I have been through the entire sale offering several times and have evaluated all the females for soundness, structure, udder quality and disposition. Never have I evaluated a herd of Charolais where the quality runs so deep. I urge you to visit prior to the sale as you will be overwhelmed by the quality and number of females on offer. If I can be of assistance to you prior to or at the dispersal sale, please do not hesitate to give me a call. Echoing Mike's slogan, there is a female for every budget and a female for every program on offer here. Hope to see you sale day December 16, 2021 in Stettler.

Don't miss this opportunity.
