Bull and Female Sale

Welcome

Hello everyone! Welcome to our 1st annual Sunderland Ranch Bull & Female Sale! We are excited to share this very special event with you. We have many supporters of our families efforts to thank as we continue to develop our program. We have enjoyed the opportunity to market our bulls by private treaty in the past. It is time to continue on our path forward and want you to join us in our journey! Hosting everyone to share in our 1st public auction offering is a real highlight for our family! We appreciate the support of our friends in the ranching community and mentors in the Angus breed who have encouraged our efforts and helped us develop our breeding program with their honest feedback and sound advice. Our breeding philosophy is to offer the right kind of genetics that will actually add value to your herd! We are striving to produce females that are productive, easy fleshing, structurally sound, fertile females with good feet, good quality udders, strong maternal instincts, docility and longevity. Our bulls need to have sound structure, good feet with adequate heel depth, strong toplines, be masculine, deep ribbed with good muscle expression and docility. For us it all starts with utilizing proven maternal genetics from cow families that have a track record of success. We have made strong investments in our herdsires and females who are direct progeny of some of the most highly regarded females in the Angus breed. Acquiring direct daughters from the very best of SAV has given us a strong foundation well into the future! SAV Blackcap May 4136, SAV Madame Pride 0075, SAV Blackcap May 5530, SAV Emblynette 8259, SAV Blackcap May 8051 are just a sample of outstanding females that back up the pedigrees throughout our offering. Our herdsire selection has also been strongly influenced by the females that have a track record of success throughout North America. We are really looking forward to your visits with us. We want to learn your about your breeding program so we can assist you with your selections to help you achieve your goals. When you look through our catalog you will notice that we publish as many pictures as possible to aid with your selection. Providing foot pictures in their natural state is not new to us. We have been doing this for several years already. As Angus breeders we want our customers to feel confident that we are helping move the Angus breed forward from the ground up. We will publish more updated pictures and videos on line on our Sunderland Ranch Ltd Facebook page and sunderland_ranch Instagram page to assist with your evaluation. Also check out our website at www.sunderlandranch.net for more information. We encourage you to give us a call if you have questions about our offering! We look forward to seeing all of you on sale day! Join us early for lunch starting at 11:30am and sale start time is 1:00pm. If you are not able to attend in person there will be live internet bidding available on DLMS. Please register to bid early so you don't miss out!

Vet Letter

October 12, 2021

The crew at Sunderland Ranch Ltd provides a solid herd health program to ensure their cattle are healthy and fit to enter a new breeding herd. As clients they are always striving to provide quality care and are eager to adopt new technologies and ideas to continually improve their operation. Their cattle are good tempered and well handled making them a pleasure to work with.

They have an extensive calf, replacement heifer and breeding herd vaccination program to provide protection against BVD, IBR, PI3, BRSV, M, Haemolytica, Campylobacter, Leptospirosis and Clostridial pathogens.

Their parasite program entails a multi-product protocol to ensure good coverage for both internal and external parasites in all classes of their cattle.

From the desk at T Bar C....

Welcome to the Sunderland Ranch First Annual Production Sale. With much anticipation and very well thought out we present this high quality offering. Terry and family have a very nice ranch setting just off Hwy 1 with deep agricultural roots in the area.

The cattle available may not be in large quantity but you can rest assured each lot has been thoroughly researched and gone through a strict culling process. The donor dam SAV Blackcap May 4563 offers something you can not obtain everyday of the week. This female is powerful, well constructed and showing her proof of value with the offspring included in this catalogue. The genetic potential of her offspring being a direct daughter of 4136 is something special and a true sale feature of the fall sale run.

The cattle on offer are managed the way Terry & his family would like to see them, raised for longevity and to produce pounds for the rancher calves. Also special in the offering is the females, the lead off America female out of the donor dam has as much potential of any out there... be sure to look her up.

On behalf of the Sunderland family we invite you to their beautiful ranch for some good cattle, excellent hospitality and great fellowship. Contact any of us at T Bar for any assistance.

October 17/21 Weight: 2165lbs

We purchased SAV Ripped 8304 from the 2019 Schaff Angus Valley sale. He was a high selling stand out feature of the SAV Resource 1441 bull calves at the 2019 SAV sale with his powerful hindquarter and expressive muscle definition, disposition, solid structure and foot quality!

His pedigree is packed with proven SAV maternal genetics that have stood the test of time.

Ripped's renowned sire SAV Resource 1441 is a registration leader in the Angus breed. Resource is known for adding muscle, volume, fleshing ability, foot quality and docility to his progeny.

His impressive Pathfinder dam SAV Emblynette 8259 is a Density daughter that is a proven producer with ideal body type, abundant milk and perfect feet. She is still in production at 13 years of age and records a weaning ratio of 105 on 11 calves.

SAV Ripped 8304 calves are proving to be structurally correct, well muscled, good dispositioned bulls and females. His first calf crop of bred heifers are due to calve at the end of January 2022. We are impressed with their docility, broody look, fleshing ability, rib shape, sound structure, and good feet!

We are excited to see how his offspring perform!

Musgrave Aviator

Schaff Angus Valley

It has been a pleasure following the progress of Terry & Rachelle Sunderland and family, building their registered Angus program and developing their foundation Angus herd. From day one they have utilized an extremely disciplined approach with the philosophy of high quality, functional, sound, maternal-oriented cattle that are practical and productive in the real world. They have been meticulous to the extreme on every piece of the genetic puzzle and have sourced both females and herdsires from the best of the industry-proven SAV cow families, including the Blackcap Mays, Emblynettes, and Madame Prides. Included in their acquisitions are direct daughters of the Angus breeds' most influential genetic contributors and high income-producing cows, SAV Blackcap May 4136 and SAV Madame Pride 0075.

As you get to know the Sunderland family, it is evident that they are salt-of-the-earth with integrity and passion for both Angus cattle and the traditional ranching way of life. They have genuine concern for the welfare of their customers and that their cattle are a positive reflection of what they stand for and strive to produce.

On behalf of myself and everyone at Schaff Angus Valley, we are honored to know the Sunderlands and acknowledge their dedication and early success of their breeding program, we give them the highest of recommendations.

Sincerely, Kelly Schaff
Schaff Angus Valley

We purchased the Pathfinder SAV Blackcap May 4563 as the top selling donor cow from th 2020 Schaff Angus Valley sale.

She has striking femininity, is wide pinned, outstanding udder quality, solid foot structure, proven maternal genetics and a impressive production record and backed by proven maternal genetics.

4563 is a daughter of the famous SAV Blackcap May 4136 who is the top SAV income producing cow with over \$10 million in direct progeny sales and has multiple herdsire sons to her credit her name including SAV Resource 1441, SAV Renown 3439 and SAV Rainfall 6846 to name a few.

SAV Blackcap May 4563 has 2 daughters retained in the SAV herd and her Marcys Scale Crusher bull ET calves sold at SAV for up to \$30,000.00 The 2022 sale will include her offspring by SAV Territory 7225. Full siblings to Lot 1 bull calf.

Her 2021 calf crop has been impressive! With stand out bulls calves as well as feature replacement heifers in the sale. We have retained daughters in the replacement pen.

SUNDERLAND RANCH DONOR FEMALES

SAV Blackcap May 4004

CAA Premier Dam

Purchased as one of the top valued heifers at the 2015 Schaff Angus Valley Sale. She has been a strong producer here for us with several daughters retained in our herd earning her place in the top tier. SAV Blackcap May 4004 was designated a CAA Premier Dam in 2021.

When we attended the SAV sale in 2015 she commanded our attention and stood out amongst the entire offering to us with her powerful phenotype, strong topline, deep ribbed and impressive structural correctness with ideal foot shape and heel depth. As a 7 year old cow in our herd her feet remain ideal and problem free. She has a level well attached udder with proper teat placement and size. Her pedigree is backed up with proven cow families on the top and bottom of her pedigree. Her dam SAV Blackcap May 8051 highlighted the 2017 SAV sale selling for an impressive \$110,000.00 USD.

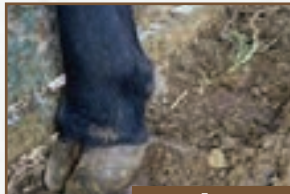

SAV Blackcap May 4004's offspring have been impressive. She has provided us with some standout daughters to build our program with, they are thick made, very easy fleshing cows that are great mothers, structurally correct with good quality udders. Some of our herd favorites and of visitors to the ranch. A natural son was purchased by Roger & Lou Parsonage. Her 2020 son by SAV Ripped 8304 sells as a long yearling.

SAV Madame Pride 5811

Purchased from the Schaff Angus Valley 2016 sale.

SAV Madame Pride 5811 stems from the same flush that produced the striking SAV Madame Pride 5809 & 5810 sisters that are retained at SAV as up and coming donor cows. She was selected by us for her renowned genetics, she has become a proven donor cow at Sunderland Ranch.

5811's dam is SAV Madame Pride 0075, the maternal matriarch of the SAV program who served the SAV herd for early 18 years and is the second top income earning income producing cow in SAV history. She has 41 daughters retained in the SAV herd. Her sons include SAV America 8018, the \$1.51 million world record selling bull in the Angus breed!

SAV Madame Pride 5811 has been a female that consistently gives us calves that impress! Her udder quality is outstanding, level with perfect teat placement, size and abundant milk. Her 2021 natural bull calf weaned off grass with no creep feed with an ADG of 3.76lbs/day for the top ADG of the 2021 calves!

5811 sons have sold for an average of \$8625.00 with high sellers of \$12000.00 and \$10000.00 in past private treaty sales! Her exceptional 2020 SAV Territory son sold to Roger & Lou Parsonage.

Sunderland Territory 781J

**ADG on Grass no Creep: 3.29 lbs/day | Act WW Sept. 17/21: 798lbs
Days Old at Weaning: 219**

Cow bull deluxe! He is the real deal & proudly takes his place as our feature lot #1 bull to headline our 1st annual bull sale. A special sale feature and stand out this summer! SUNR 781J has all the traits you look for in a breeding bull- early masculinity, muscle, length, power and depth with great feet and sound structure. This bulls future will include powerful sons and fantastic females that will rise to the top of any herd. The very best are found from top to bottom of his pedigree, not a suprise that he is among the top of the calf crop with an actual WW of 798lbs and ADG of 3.29 lbs/day. His sire SAV Territory 7225 is known for his fertility with large scrotal and is an outstanding son of SAV Resource 1441. Territory's dam SAV Emblynette 3293 is one of the outstanding SAV Density females that reside at SAV- maternal strength and beauty all in one package! Combined with Blackcap May 4563 who is a daughter of of SAV Blackcap May 4136 who has given the Angus breed multiple world recognized herdsires that have made a lasting impact, what more could you ask for?

Sitz Stellar 726D son! SUNR 29J has been one of the favorites here this summer. He has the herd bull look- strong topped, long spined, deep ribbed, powerful hindquarters and is structurally correct with a good disposition! Very impressive EPD's with MARB in the top 5%, WW top 9% ad YW in the top 7%. Use him to create keeper replacement females and add pounds to your calf crop! His sire, Sitz Stellar 726D is making his mark in the Angus world with his foot improving EPD's, his offspring are well received with strong sales recorded. His Dam Sitz Pride 200B was a feature of the Sitz Female sale where she sold for \$112,500.00. SUNR 29J's moderate dam x Musgrave Aviator is on a fast track to stardom here! We retained her 1st daughter and she is among the standouts of our 2020 bred heifers. She is a third generation of the Pride cows, her 8 year old dam SUNR 04 and 10 year old grandam CADS 108Y continue to be great producers in our herd.

Stellar Strikes again! SUNR 34J has great feet under him with strong structure, good muscling, deep rib and strong top. An impressive set of EPD's that place him in the top 5% for CBI. The CBI (Canadian Balanced index) weights all EPD values that impact the commercial operation to achieve the highest level of profitability in the commercial market. His dam SUNR 16F is another stand out young female that produced a good one weaning 34J off at 61% of her body weight. She is a daughter of SUNR 08D who has a beautiful level udder, abundant milk and excellent feet! 08D is one of our herd favorites and has also caught the attention of visitors to the ranch. 16F's 8 year old grandam, Peak Dot Lady 628A has been a steady producer with a great level udder and excellent feet!

A winning combination! This cross of Sitz Stellar 726D x SAV Blackcap May 4563 produced a bull that is deep ribbed, with good feet and a fantastic disposition. He combines all the traits to make the commercial cattleman profitable with a CBI of +321 to place him in the top 9% and Claw & Angle in the top 1% of the breed. This bull has the style and substance to get the job done! 713J's pedigree is loaded with greatness! The dam of Sitz Stellar 726D has made an impact in the Angus world and recently sold for \$112,500.00 USD at the Sitz Angus Female sale. We purchased 713J's dam SAV Blackcap May 4563 as a proven Pathfinder dam from the 2020 SAV sale. Her influence shows in her sons and daughters that have impressed here since birth. We consider ourselves fortunate to own her as her calves are already making their mark. She is a direct daughter of the influential SAV Blackcap May 4136. These genetics should take any program to the next level!

ADG on Grass no Creep : 3.31 lbs/day | Act WW Sept. 17/21: 662lbs

Days Old at Weaning: 175

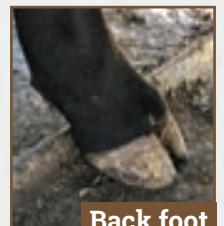

A son of Sunderland Resource 317G! SUNR 06J blends decent calving ease and performance, is a well muscled, moderate, good dispositioned bull calf with good feet. He is one of the younger bull calves to be offered but has great potential, he weaned 662 lbs off grass for an ADG of 3.31lbs per day! His EPD's place him in the top 10% of the breed for CE & BW the top 20% of the breed for WW & YW. His sire Sunderland Resource 317G is a SAV Resource 1441 son that we retained as a yearling bull for use in our own herd before selling to Dave & Terry Mcleod. We have been very pleased with the calves of 317G raised here this year. 06J's 8 year old dam 04A is a proven producer for us with multiple sons selling for \$11,000.00 and \$8000.00 and averages \$8375.00 on 4. We have retained several daughters in our herd all are proving to be solid productive cows.

ADG on Grass no Creep : 2.96 lbs/day | Act WW Sept. 17/21: 664lbs. Days Old at Weaning: 194
 Sunderland Aviator 13F Son! SUNR 05J is a moderate, easy fleshing calf. With his balanced EPD's and efficiency numbers he has the potential to sire moderate, efficient replacement females. 05J's sire SUNR 13F has been our clean up heifer bull for 3 years now, he has a good disposition and good feet. His calves come fast and easy with good growth. He is a son of Musgrave Aviator who was one of our favorites of the bulls we viewed at Origen in Billings Montana, he was moderate, thick made with good feet and became a favorite of ranchers. 05J's 10yr old dam, CADS 97Y is a granddaughter of the well known HF Kodiak 5R with a good udder and feet. We lost her this fall due to injury.

Sunderland Hoover Dam 40J

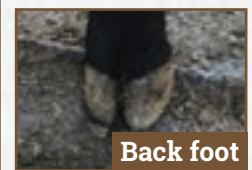

ADG on Grass no Creep : 3.25 lbs/day | Act WW Sept. 17/21: 752lbs
 Days Old at Weaning: 233
 A rare opportunity to acquire a son of Hoover Dam! With good feet, deep rib and a good disposition 40J is a maternal gem. His EPD's place him in the top 10% of the breed for 13 of the 20 traits. His Elite Pathfinder sire Hoover Dam is the all time semen sales leader at Origen and died in 2019 at the age of 11.5 years of age. Hoover Dam daughters have stood the test of time in a variety of environments, they are optimum in many ways important to the commercial cattlemen! He has a proven reputation for calving ease, thickness, muscle, docility and maternal strenght and moderate framed packed package with good udder and foot quality. 40J's dam Sunderland Heroine 13G did a great job raising this bull as her first calf. With good feet and udder quality this young SAV Renown 3439 daughter is making her mark, her maternal brother by SAV Resource 1441 was a standout bull calf selected by Curtis Goehring.

Sunderland Ripped 03H

Southland Pride 108Y

October 17/21 Weight: 1585lbs
 SAV Ripped 8304 son! SUNR 03H is muscular well balanced bull with good structure, deep rib and good scrotal. His dam is the proven 10 year old 108Y who each year weans a high percentage of her body weight. She is moderate, deep, has abundant milk with good problem free feet and standouts in the pasture with her expansive rib shape. If you want efficient, easy fleshing, moderate framed sized cattle that will thrive in the real world then this bull is well worth taking a serious look at. Previous sons have sold to Brian Pridmore, Corrie Richardson.

SAV America 8018 x SAV Blackcap May 4563 heifer! A very special feature to lead off the female offering of our 1st sale! She has the future brood cow look and a deep expansive rib shape that commands your attention. With her BW Index of 98 and WW Index of 106 she is a curve bender, EPD'S place her BW in the top 15%, WW top 8%, YW top 7% while maintaining a moderate MW and MH. Her pedigree combines SAV America 8018, the \$1.51 million dollar USD record selling Angus herdsire whose dam was in production at SAV for 18 years and has 41 daughters retained in the SAV herd plus multiple herdsire sons to her credit. 769J's dam is a cornerstone of our breeding program the proven Pathfinder SAV Blackcap May 4563 is a daughter of SAV Blackcap May 4136. We purchased 4563 as the high selling donor cow at the 2020 SAV sale. She is a sight to behold with her exquisite femininity, wide pinned, strong topline, depth of body, rib shape, beautiful udder and good feet.

 AI'd to Sitz Stellar 726D April 23/21, Pasture exposed to Sunderland Aviator 13F. Preg checked favorable to AI mating.
 Musgrave Aviator daughter! SUNR 496H is one of a power packed very constant set of 4 ET flush sisters with a flush brother working at Hays Stock Grazing Co-op. She is a moderate framed, easy fleshing, deep and broody female... the kind to build a herd on. 496H is the ranchers kind that will survive and hold their shape in the harsh elements, efficient with RADG top 25%, DMI top 20%, HP top 4%, CBI top 5%. Her sire, Musgrave Aviator was a favorite of cattlemen for his moderate frame, muscle, great feet and docile disposition. Her dam SUNR 107E has 5 daughters retained in the herd and we like every one of them, her only son sold for \$8000.00! 107E is a daughter of our Premier Dam SAV Blackcap May 4004 that we purchased from the 2017 SAV sale as a high selling heifer, she continues to fill our pasture with great females. With some of the best maternal oriented cows in her pedigree, SUNR 496H is a gem from the heart of our bred females!

AI'd to SAV Rainfall 6846 April 23/21. Pasture exposed to Sunderland Aviator 13F. Preg checked favorable to SUNR 13F mating.

SAV Ripped 8304 daughter! SUNR 17H is long spined, powerful female, she was among the favorites of visitors last fall in the replacement pen. Here is an opportunity to add maternal strength to your breeding program! An absolute stacked pedigree of highly regarded cows starting with the dam of Resource 1441, SAV Blackcap May 4136, who has direct progeny sales of over \$10 million. SAV Emblynette 8259, the powerful 13 year old SAV Density sired Pathfinder who has a weaning ratio of 105 on 11 calves, her herdsire sales including SAV Bulletproof for \$60,000.00 USD, SAV Cut Above for \$175,000.00 USD and our herdsire SAV Ripped 8304. Four of her daughters are retained in the SAV herd. SAV Blackcap May 5530 is another proven Pathfinder dam whose direct progeny sales of over \$2 million dollars and places her in the 3rd highest earning female at SAV. HF Rose 188A has been a great producing female for us as well, earning CAA Premier status in 2020. She is feminine, has a level well attached udder with proper teat placement and above average milk and good feet, five daughters have been retained in the herd.

October 17/21 Weight: 1110lbs

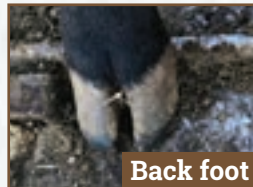

AI'd to SITZ Stellar 726D April 28/21. Pasture exposed to Sunderland Aviator 13F. Preg checked favorable to AI mating with a bull calf.

Sired by SUNR 13F! SUNR 34H is a calving ease heifer with good feet and disposition. Her EPD's place her in the top of the breed for CE, BW, DMI, MCE and CBI. 34J's heavy milking dam puts pounds on her calves, she is a daughter of SUNR 08D who has good feet, beautiful udder and is one of the favorites in the pasture with a full sister retained in the herd that is proving to be a good producer as well. Her sire SUNR 13F is a son of Musgrave Aviator and Brookmore Heroine 108Y who was built solid from the ground up with good feet and udder quality. SUNR 34H's dams 2nd calf, a bull by Sitz Stellar 726D is SUNR 34H in this sale.

In Memory of Grandma Josephine Newby

April 24, 1924 ~ October 16, 2021

Grandma loved the ranching way of life and had a passion for cows, horses and rodeo. In her later years she was always excited to come for a visit and see the new baby calves!

We will miss her greatly and treasure our memories.

Pedigree Estimates:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

All registered animals have Angus GS enhanced EPD's for accuracy.

Quantum Genetix:

All sale animals have been tested and results will be available before the sale.

Leptin:

- TT genotype - increased rate of fat accumulation compared to CC
- Increased weaning weight
- Increased milk production
- Increased 12th rib backfat
- Higher quality grade / marbling score
- Lower yield grade
- Increased cow productive life

PMCH:

- AA genotype - increased fat deposition compared to TT
- Increased tenderness
- Increased marbling fat
- Increased 12th rib backfat

IGF2:

- CC genotype - increased lean growth than TT
- Larger ribeye

CRH4:

- GG genotype - increased weight compared to CC
- Increased HCW
- Increased REA

For each of these genes there are 3 genotypes. example Leptin TT, CT, CC. The TT & CC are homozygous. The CT is heterozygous, just like a homozygous red bull will only leave red calves, these genes behave the same way for a very quick herd improvement.

Terms & Conditions

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All sale animals will be vet checked prior to sale, including an age appropriate reproduction evaluation. Sunderland Ranch will assist our U.S. customers with required export blood work.

Guarantee:

Bulls will remain at Sunderland Ranch until satisfactory breeding soundness and semen test is completed. Bulls will be semen tested and will receive a booster of Bovishield Gold FP5, Fusogard (Foot rot vaccine) and pour on prior to delivery/pickup by May 15/2022. Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Genetics:

All purebred animals have been parent verified and Angus GS tested. Commercial animals have been parent verified. All sale animals have been genotyped for Leptin, PMCH, IGF2 CRH4.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Phone, Mail & Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance:

We strongly recommend that insurance is purchased for full value at time of sale Dec. 10/21. Sunderland Ranch will pay 50% of the premium for a 6 month term all risk mortality policy up to 7.5% of purchase value.

Wintering:

All sale animals except bred females will be wintered FREE of CHARGE at Sunderland Ranch. All sale animals are to be delivered or picked up by May 15/22. Females are available for pick up once settlement is made.

Bred females must be picked up by January 5/22.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

Semen Interest:

Sunderland Ranch Ltd retains 1/3 semen interest in all bulls sold.
