**2:00 PM**

# FROM THE DESK AT T BAR...

It is with great pride and excitement, we welcome you to the “Superstar II” Charolais sale, Sunday, December 19, 2021, at the Saskatoon Livestock Sales facility, Saskatoon, Saskatchewan. On the heels of a record setting premiere in 2020 and amid pandemic restrictions, we are fired-up about the outstanding selections in this event of the most futuristic breed in the livestock industry. As the industry evolves, the demand and success of high-quality breeding stock in the Charolais breed increases annually... the Charolais female provides the highest return on investment!

In keeping with tradition, the Lot 1 single bull entry is quite a feature as rarely can one acquire a proven walking bull that has amassed an amazing track record. The 2021 heifer calf division combines competitiveness with front pasture and donor quality. The lineup of bred heifers are plum full of broodiness and quality... early exciting services and the best-bred offering we have ever assembled. The flushes and choice lots offer a once in a lifetime opportunity to invest in your programs future. The embryo lots are sourced from leading donor females in the breed and for 2021, they come with an international flavor.

As we come to an end of this unpredictable year, the one thing we can be certain of... the demand for Charolais bulls will highlight the 2022 bull sale season and for years to follow.” Superstar “allows breeders the unique opportunity to select and own the newest and most exciting genetic packages available. Feel free to visit any of these leading breeders and view their consignments at their farms or at Agribition or give them a call for a Charolais visit. Come early sale day, be guests for a noon beef luncheon with Christmas cheer... and remember that you are very close to Christmas and tax time.

Plan to add some superstars to your breeding intentions whether it be with us in person, online or on the phone. During these times, feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

White Bear is the 2019-2020 USA show bull of the year. White Bear is an extremely impressive individual with his calves being sought out for their high quality and ease of marketability. His calves come out easy and with so much hair, they also have the attractive look needed to compete at all levels in the show ring and in the replacement female pen and bull sale pens all over North America. A White Bear son was just named Sr. Bull Calf Champion and overall Reserve Champion Bull at Farmfair International and will be a featured bull at the PCC spring Bull sale Feb 24/21. Not to mention White Bears full sister being named Champion Charolais Female and Alberta Supreme Champion Female over all breeds at Farmfair International Berkly Ann. White Bear is currently in the USA drawing more sexed female semen as we have run out of inventory in the USA. We are offering Full Possession and 1/3 revenue sharing Canadian semen interest. Opportunity presents itself, it's up to you to make the most of that opportunity.

Power and Performance this young female exemplifies those attributes to the fullest

Outcross pedigree on the topline as well as predictability and quality on the bottom side with the great Miss Prairie Cove 802F a donor female out of Pastor and PCC 407B combination. One of our cool young donor females that has a perfect udder and big body and hair. This young female screams that she will be the ultimate herd bull producer. I can't wait to watch this young power female go into the future for the new owners.

With many admirers through the summer and fall, Roxanne 2079J is a female of significant size, length and mass. She possesses a dominating presence combining a bold rib, big hair, excellent skeletal width and very symmetrical foot. 2079J is undeniably attractive and maintains the utmost skeletal integrity while being super flexible off both ends. Roxanne also holds a phenomenal numbers package. 2079J has all the right components to generate a quick ROI and make a great productive cow past a show career. She is built for whatever your program needs.

When you look at Juliettes pedigree you will realize she needs little introduction. We were fortunate enough to purchase a flush from the Serhienko's off of SVY 712E after seeing her heifer calf sell for \$34,000 at the Agribition sale. We flushed her the same way to D R Revelation hoping to get a few heifers just like her. We picked 13J to be the first female we offer for sale as we continue to build the white herd around a few select donor cows. We feel this heifer has a lot of potential and want to continue to be apart of her, we will be retaining 50% interest.

Correct, easy doing cows that consistently produce are what the cattle industry strives for and Cays Abby checks all these boxes. With donor cows, 314B and 309A in her pedigree this is exciting for her production potential. We have a very nice group of flush mates to 17J that have impressed those cattlemen that have looked through our herd. Abby is stout, sound and attractive in a moderate package with an awesome head.

We have always had some red Charolais cattle to supply the demand of those commercial producers looking for some colour in their bulls. High Class 6J approaches you with a stylish front end, and packs a powerful punch, with her being big ribbed, thick topped and stout. Her dam, 3D has a unique pedigree for a red cow, Rome x LAE 877U, and is flawless in structure with lots of rib and eye appeal. Her sire, SVS Nobelman has 790 progeny registered and throws an older twist on this neat pedigree.

Whitegold is a unique breeding combination crossing the ever-popular White Bear bull with Geddes on the bottom side. 12J is big ribbed, hairy and a super attractive heifer. We feel once Whitegold gets into production that is where she will shine. Her dam is a favourite of those that tour our herd, she is naturally stout in a moderate frame with an ideal udder. We are excited about White Bear and his successful USA show career, but maybe more about his maternal potential as he is a full sister to Berkly Ann one of the most unique, high-quality Charolais cows around.

It is never easy to let one of the best ones go, but that is what is happening here. This female is the total package! She is really long made and feminine fronted, with lots of power and stoutness, and is super sound. All of this is backed by an impressive pedigree. The sire of this heifer was the high seller at Lindskov-Thiel in 2019. Ransom caught our eye and when the opportunity came to purchase a semen package, we jumped on it and it is really paying off. We are loving the Ransom calves. 20J's maternal grandsire, JIL Thunder Roll 69Z, has been a cornerstone of our program and has worked so well for us. Here is your opportunity to own a truly impressive female, with a super cool pedigree.

Carbon Copy female that is impressive from every angle. Admire the balance of this female and the depth of flank in her is tremendous. You put her in motion and I really struggle to pick her apart. The Carbon Copy females will make a big impact in the breed; they are easy fleshing and highly marketable. This cow family needs no introduction if you follow our program at all. The Wynnemaker cow family consistently raises front end cattle. We feel this Carbon Copy daughter puts it all together as a long term breeding female that will compliment many different pedigrees.

Here is a heifer that comes right from the heart of our herd. Going back in FVC Just Cindy's Best 34J's pedigree you will see one of the first purebred females bought to start this dream we are living today. HC Cindy 206Z was bought as a bred heifer and raised a bull calf that weaned over 1000 lbs her first year. She is an over producer, that earned her a spot into our donor program. She has 6 direct progeny milking in the herd, not to mention all the grand daughters to come. If you want a pedigree packed with maternal, look no farther. Paired with the style and performance of PCC Kentucky Rain 836F, you can be sure this female goes on to produce the kind we all love; the ones that make you money!

Homo-Polled BW: 100 lbs.

The Miss Trim cow family has easily been one of our top producing cow families. That cow flat out works. She has daughters in the herd that are producing extremely well, she has consistently raised top quality bulls and show heifers that go on to make productive mama cows. She is the mother of our 2020 high seller in our bull sale, ONL Whiskey Bent 39H, sold to Circle Cee Charolais. That bull happens to be a full brother to the bred heifer on offer here. The 298Z cow is getting up in age and we really should be keeping as many of her progeny as possible, but we have held her open to flush this year and she gave us 20 eggs with the first flush! These are sound, good footed, functional females and both are really quiet and easy to handle. The bred heifer is homo-polled and carrying an exciting service to CCC Tried and True 8507P. The heifer calf is also homo-polled and was the natural calf on 298Z cow this year. She still does an awesome job on her calves and her progeny are always really easy doing cattle – the kind you want to feed, especially when feed is in short supply. Take the well balanced, deep bodied heifer calf, or the powerhouse bred and let the Miss Trim cow family go to work for you. Follow us on Facebook at Daines Cattle & O'Neill Livestock for updated pictures and videos.

AI bred to CCC Tried and True 8570P on April 1, 2021. Exposed to DYV Footprints Crossfire 5G from April 15 to July 1, 2021. Preg checked favorable to AI service.

Performance. Style. Function. For the Superstar Sale this year, we knew we needed to dig deep and show who we are. These females come from the heart of our program and if we are going to take one to town, they need to be good even if they are hard to part with. The grandmother was selected out of the Merit dispersal and has built a strong cow family around her influence. This first calf Commissioner daughter has went on to knock it out of the park - she exemplifies everything we strive to produce; sound footed, beautiful udder, with good performance and style to boot. Her powerful daughter off the Embargo 7E bull has done amazing at our operation and at Cline's in Manitoba. With these two coming from the heart of the program, we couldn't part with both but want to offer you choice. The cow was bred well along to the Pleasant Dawn Connection 195G bull that ourselves and McTavish purchased as the High Seller in 2020 and he will turn some heads with the set of calves he has on the ground.

Bred to Pleasant Dawn Connection 195G on April 9, 2021. Preg checked favourable. Exposed to High Bluff Hendrix 152H from May 29 to June 18, 2021.

We think very highly of this Resource daughter with such powerful rib shape and the extra volume and mass she carries. SVY Breathtaking 24H stems from a no miss cow family who has raised many of our top bulls over the years with her dam raising our lead off and extremely popular bull for our Edam champion pen of bulls this fall. Breathtaking 24H is dropping an absolutely flawless udder adding to this truly elite females credentials.

Absolutely stunning Resource daughter here! Stemming from the heralded Starstruck family she's sure to carry on the family tradition and make a front pasture female in production. A maternal sister to Starstruck 22H was purchased by Dagan Cordes, Carrollton, Illinois having a great show season for Dagan and has become a cornerstone female in the Cordes herd. SVY Starstruck 22H is a beautifully patterned female who is very attractive in her design sporting a very maternal look and springing a very high quality udder adding to a very complete high quality package.

Special Feature Miss Prairie Cove 44H is a Donor female that will 100% have a major impact in any program going forward. The body and the mass that Miss Prairie Cove 44H carries is unprecedented, she is an absolute fan favorite on all farm visits and is one of Chris Poley's favorites when he visits so he was extremely excited when we agreed to consign her to the high end sale of the year "Superstar" because we truly believe that Miss Prairie Cove 44H is a Superstar. Her service is next level exciting as she is bred sexed female White Bear for a January 5 beautiful heifer calf. I think this mating is one for the ages and could not be any better. Take things to the next level in your program with Miss Prairie Cove 44H.

Halsey is the female we intended to lead off our female sale with. This type of female is easy to get excited about. Pedigree alone, she is unique and stacks some of our strongest genetics into it. We are very excited to calve out these first Carbon Copy females and when you lay eyes on this one, you will see why. She is a powerhouse, a massive hip and as thick topped as you will find. You will not find an easier bred heifer to halter break and scratch in the pen. I would take a whole bred heifer pen of this type. She has that ideal skull structure and ties in that front shoulder so well. Halsey has a bright future in our eyes for many reasons. When we decided to come to the Superstar sale we brought our front end females and this Carbon Copy female is right off the top.

I absolutely love the front end and head in this female. If you want them long spined with some eye appeal and neck extension, have a look here. Sapphire has that ideal udder attachment and easy going disposition. The Epic bull is writing a really nice handbook on producing females and bulls. We cannot say enough good about Epic, sometimes bulls just work well with your type of cows. We had 20+ Epic daughters in production this spring - they are sound uddered, gorgeous females. His daughters will produce our next generation of front end cattle. We feel this Epic daughter will do just that. The Sapphire cow family has been the type that always out produce themselves year after year.

# Pick of the Herd Flush

## DSY 546H

DSY 190A

DSY 52G

Opportunity knocks here! This is the first time Stepler Farms has ever opened up a pick of the herd flush. This cow herd has been developed over the last 48 years and supplies progeny to host one of the largest Charolais bull sales each spring and the only annual female sale in Canada. You exclusively get the chance to go through over 600 head registered Charolais females to pick your next foundation cow family. Females are sired by industry greats – Sparrows Seminole 927W, Sparrows Braxton 519C, ProChar Winchester 6D, Sparrows Copenhagen 210Z, HTA Contender 605D, Stepler Pursuit 178A, Stepler Jack Black 387F, JWX Burnin' it Down 613B, Becks Charm 869F just to name a few. Majority of the Stepler females will calve in January and will be ready to flush in the early days of March. Pick to be done by March 1, 2022 and to be performed at the buyers choice. Guarantee of 5 embryos.

190A – Typical Seminole daughter, with a cow large cow family around this productive female.

52G – Feature female in Stepler's Piece of the Program sale. Several  $\frac{3}{4}$  sister available as well as her dam and grand dam – Stepler Miss 80X.

546H – Stepler Miss Gabby 546H Junior Champion female at 2021 Ag-Ex – Stepler Jack Black daughter

Tattle Tail 139Y was one of the first females Alton Century Farms acquired to start our Charolais herd and she has not disappointed. To date she has become the cornerstone of our program. 139Y has had many admirers over the years. She has significant size, length, power and overall mass while still having that feminine make and presence paired with her best attribute, her udder which is perfectly balanced and level with exactly the right teat size. She carries a giant foot, is great on the move and has excellent flexibility. These embryos are sired by SVY Trust 6H, the hottest bull to be utilizing and his popularity is only to grow as the industry awaits his first calf crop. The resulting progeny will be very balanced in growth and build. This mating is very complementary as it is an outcross pedigree to most. We expect big things from this genetic blend.

When we were given the opportunity to offer in the Superstar Sale, we wanted to offer a genetic package that would produce just that. Naughty But Nice is quickly becoming one of our leading females in the herd. As a two-year old she was sashed Supreme Charolais Exhibit at the 2019 Adelaide Royal Show. Her first calf, Venturon Clementine 11 was sashed Supreme Interbreed Calf at the 2019 Perth Royal Show, Supreme Beef Exhibit at 13 months of age at Wagin Cattle expo and recently was just sashed Supreme Charolais Exhibit as a two-year old First calver at the 2021 Perth Royal show. Naughty But Nice is a homozygous polled female who appeals for her overall refinement, structural correctness and udder quality. Here is your chance to access Elite outcross Australian genetics. From the world renowned Palgrove herd, Hallmark is a homozygous polled red sire who was the high selling Australian Charolais bull, sold in the Palgrove sale for \$44,000 (AUD) in 2014. His first eight sons sold at auction for an average of \$18,000 (AUD). A son sold for \$48,000 (AUD) in the 2020 Palgrove Sale. Hallmark breeds progeny with great disposition, softness and outstanding carcass quality. An outcross polled mating from one of our elite matrons to one of Australia's leading proven sires.

**Guaranteed one pregnancy per package if implanted by an accredited technician. Canadian/US Qualified. Embryos are stored at Alta Genetics in Canada.**

Carbon Copy has proven his value in the real world and in the show ring. Flip through many sale books this fall and you'll notice his offspring; his breeding potential is unlimited. Carbon Copy daughters will produce the next generation of front end cattle. The bull calves are highly marketable with their calving ease, sound structure, width of base and overall eye appeal. Hands down, Carbon Copy is one of the strongest breeding tools we have used at the ranch.

Tank's first calf crop created plenty of interest this spring with the lead off Tank son selling for \$50,000 to Elder Charolais and Kay-R Charolais. His offspring have explosive growth from start to finish. He is one of the easiest calving herd bulls, is heifer friendly and will shorten gestation. His EPD's are some of the best on both sides of the border. Tank has been used very exclusively in Canada and we have opened up the vault to share some of our strongest genetics.

## TERMS & CONDITIONS

### TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Charolais Association, unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### HEALTH:

All animals in the sale have met all necessary health requirements.

### GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the appropriate breed association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

### PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This

estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

### LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

### PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### INSURANCE:

We strongly recommend that insurance is purchased for full value.

### ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
