

A herd of cattle is being driven down a dirt road in a rural, hilly landscape. The scene is captured from an elevated perspective, showing the road curving through the terrain. In the foreground, a person on a red ATV is driving towards the camera, while another person on a blue ATV is driving away from the camera. The herd of cattle is in the middle ground, moving down the road. The background shows rolling hills with some buildings and trees, including a prominent tree with yellow autumn foliage. The overall atmosphere is one of a busy day on a farm.

TRI-N CHAROLAIS FARMS
"Changing of the Guard"

DECEMBER 2, 2021

1:00 PM CDT - AT THE FARM - LENORE, MB

"37 Years In Red, White And Tan"

WELCOME FROM THE NYKOLIATION FAMILY

Friends, family, and fellow breeders this is your personal invitation to attend the "Changing of the Guard" Female Sale. After close to four decades of keeping a closed herd and selling very few females we are excited to open our herd up to you for the first time.

As many of you may have heard, this was to be a complete dispersal. However, Jesse's love for the industry and raising good Charolais cattle made him decide to continue under the TRI-N name. So, the question is... what do you do? Do you have a complete dispersal and announce the day of the sale that Jesse will be continuing in the industry and bidding against you on YOUR picks of the sale?

In typical TRI-N Fashion the answer is NO. Every animal in the sale is for sale. We appreciate your support and the time it takes to attend and bid at our sale.

After a lengthy discussion we decided to offer you our newest, most exciting genetics consisting of the ENTIRE bred heifer and two-year-old pens. We also handpicked select 3- to 8-year-old cows and heifer calves that we would build a herd around.

Through years of breeding, we have developed the largest red factor cow herd in Canada with the reddest bulls selling anywhere by public auction every year.

In my years of breeding cattle, I have always stuck to my basic principles. They are:

1) When starting a herd build a solid foundation. An old boy from South Dakota told me once to breed for quality females and the bulls will come later.

2) Udder quality. It doesn't have to be the biggest udder to bring you the biggest calf (butterfat).

3) Structure matters.

4) Consistency pays. I have never forgot my commercial background. Buyers want a consistent, even calf crop. You will notice our cow herd is very interrelated to give consistency.

Without any doubt, my biggest highlight over the years was breeding TRI-N Prairie Rose 401P. She was bred and developed based on the principles above. 401P is the reigning highest milk EPD female in the history of the Canadian Charolais Association 6 years in a row! We finally put her down after 17 years of service. Her udder was as sound as she was as a 2-year-old. Her daughter, 37S has been claimed by many as the most impressive red female in the industry. The Prairie Rose influence is heavy in the sale.

This sale truly is a changing of the guard sale. I plan to step back from the industry and allow Jesse to breed cattle with the knowledge I've passed onto him.

Joanne and I plan to spend more time with our grand kids and our friends throughout the world that we have made through the Charolais breed.

The Charolais breed is a people business and I hope to see my friends and fellow breeders in our holiday adventures.

In the words of my late brother Stan Nykolation "Thanks for coming."

Meru

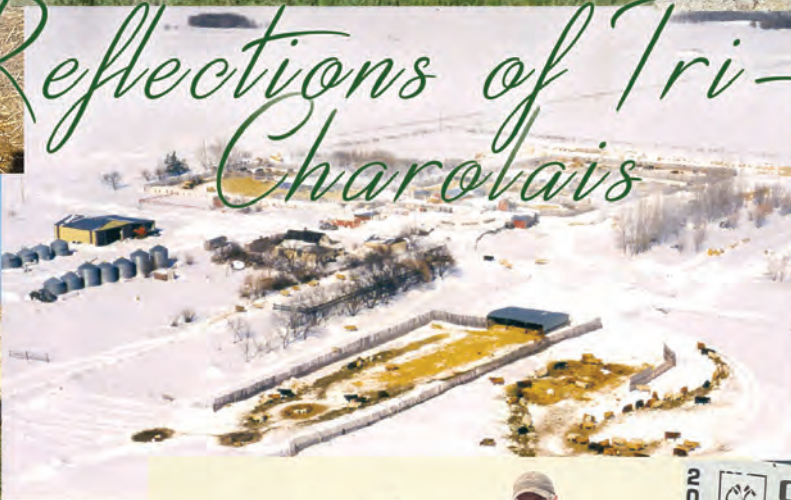

Stan Nykolation

Meru, Joanne and Jesse Nykolation

Reflections of Tri-N Charolais

A HUMBLE BEGINNING

The Nykolation name is long standing and well known in livestock industry and the Charolais breed throughout Canada and beyond for close to 50 years. The families' humble beginnings started with Beaver Creek Charolais (Len, Marilyn, Gord and Micheal Nykolation and families) being the first in the 1970's. Shortly after, N7 Stock Farms (Gerald and Wendy Nykolation and families) was established.

The early days consisted of attending many female production sales with Merv's brothers Len and Gerald throughout Manitoba and Saskatchewan. On one November day back in 1983 they attended the Dennis Toms Charolais Dispersal at the Virden Auction Mart.

Miss DTM 18L, a 1979 born daughter of Mr. JN Cadet 83F entered the ring (consigned by Dennis Toms of Redvers, SK). When she left, TRI-N Charolais Farms was born! The third Nykolation in the purebred Charolais industry.

Today, well over 50% of the current TRI-N Charolais herd traces back to this first purchase. Cow families such as Prairie Rose, Creamsicle etc all trace back to Miss Dtm 18L. Beaver Creek Charolais were founding members of the West Man Breeders Group that were very active throughout the 70s, 80s and 90s. Through these sales Merv established his herd and later was an active consignor selling a few bulls and females in their annual bull and female sales held at the old Virden Auction Mart.

Performance testing played a large role from the beginning in the marketing of bulls for TRI-N. From the beginning bulls were entered in the Northwest (Roblin) Bull Test Station and the Manitoba (Douglas) Bull Test Station. Many top ten gaining bulls and banner bulls were consigned. In one year, TRI-N won both Roblin and Douglas Test Stations. The same was repeated with Douglas and Yellowhead.

Mervin was a founding member of the Yellowhead Bull Test Station in Neepawa and consigned every year until its ending in 2005. At this time, TRI-N consigned to the Cattlemans Classic Bull Multi-Breed Bull Sale in Virden with the other Charolais consignor Gord and Lisa Nykolation of Beaver Creek Charolais.

Merv remembers distinctly when the bull TRI-N Prefix 54Y was offered for sale in the 2012 Cattlemans Classic bull sale. Back in those days there was no facebook to promote your cattle, it was word of mouth and people face to face talking about it. When Prefix entered, the sales ring was jam packed, the alleys plugged and standing room only outside. Everyone was trying to get a look at the bull! Pretty dang exciting for little old Cattlemans Classic Virden, MB!

When the hammer finally fell Prefix went to Vikse Family Farm in Alberta and ended up being the highest priced Charolais bull in Canada that year. Interesting enough, a full sister to Prefix is the grandma of TRI-N Go North 2411H that sold this spring and ended up being the record high selling Charolais bull ever sold and bred in Manitoba history by public auction for \$80,000!

For ten years bulls were marketed through Cattlemans Classic. At this point Beaver Creek Charolais dispersed their cow herd.

In 2015, TRI-N Charolais created their own bull sale at Heartland Livestock in Virden. In 2018, the bull sale was moved to the farm at Lenore, MB where it remains today.

"Beaver Creek Charolais at their dispersal 2013."

Merv and Joanne Nykolation have two daughters (Tanis and Brittni) and two sons (Jesse and Curtis).

In 1995, the family moved to the main farm on NW-25-12-25W1 after taking it over from Merv's mother (Jennie) after the passing of his father where all 9 brother and sisters were raised.

The move went great and there were many family memories that were made. From the beginning, Tanis, Jesse and Brittni all took an active role in showing cattle in 4-H and the various Canadian Charolais Youth Association (CCYA) conferences throughout Canada.

Two CCYA projects included TRI-N Prairie Rose 401P (The beginning of the Prairie Rose cow family) and KCH Malibu 1M (the grandmother of TRI-N Malibu 72B). Both kids fell in love with the CCYA program, and the annual summer vacation was planned around the CCYA conference and shows location that year.

The kids are all grown up now. Tanis (Rob and grandkids Broolyn, Ashley and Hudson Boyd) reside on a grain farm in Rapid City, Curtis (grandson Damon) lives in Basswood and Brittni (Trevor and grandkids Hunter and Parker Morris) live in Melita.

Jesse (with support of his partner Delaney) is involved in the daily affairs of the family farm and are in the process of taking it over from Merv and Joanne. He has grown his cow herd by purchasing Merv's mature cow herd and plans to continue in the industry and hosting the annual bull sale for many years to come.

This sale represents the true "Changing of the Guard" from one generation to another. Close to half a century in the making by the Nykolation family.

FROM THE DESK AT T BAR C

Welcome to TRI-N Charolais Farms “Changing of the Guard” Female Sale, Thursday, December 2, 2021, at the farm, Lenore, Manitoba. After thirty-seven years in the Charolais breed, Merv Nykolation has decided to take it easy and hand the reins over to his son Jesse. They came to a decision that they would offer the entire group of bred yearlings and the entire two-year-old pasture and Jesse would purchase the cows three years and older to carry on the TRI-N tradition.

The TRI-N breeding program is amongst if not the largest red influence Charolais cow herd in North America. Much of the offering is an outcross to many programs and while building this high-performance program, they concentrated on selecting individuals with high milk and low birth weight traits. No doubt, SCX Jehu 233E, has caused a stir this spring and he will headline this event along with his progeny and service... what an opportunity to own this breed leader. The cow herd is sound, fertile, and packed full of longevity.

“Changing of the Guard” offers unlimited opportunities to select from an entire lineup of bred yearlings and two’s (some with heifer calves) out of proven, prolific cow families. As you read through this catalogue, you will see the success and influence that the TRI-N herd has had on the commercial industry and the many repeat customers, indicate that these cattle work! Whether you are looking for a donor cow for your front pasture or a group of sisters out of proven families, there is seedstock for all types of programs and all types of budgets, in white, tan or red. Whether you are looking for one or a trailer load, this event needs to be on your calendar.

For those who would like to preview the offering, plan to stop by the farm anytime prior the sale and Merv or Jesse will give you a tour. Don’t hesitate to give them a call to discuss the offering and which will fit your breeding intentions.

Plan to be a part of history and take advantage of 37 year of building and breeding the TRI-N program, whether it be with us in person, online or on the phone. During these times, feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

SALE DAY INFORMATION

HERD HEALTH

Birth to weaning: Inforce 3, Once PHM, IN, Vision 8 Somnus, Vista Once, Cocci treatment

Weaning: Vista Once, Vision 8 Somnus, Ivermectin and Deworming (oral)

Cow herd is on a full vaccination program for IBR, BVD, BRSV,P13, and Scours. All bred females selling have been vaccinated with Scour Boss. Herd bulls will be semen tested prior to the sale.

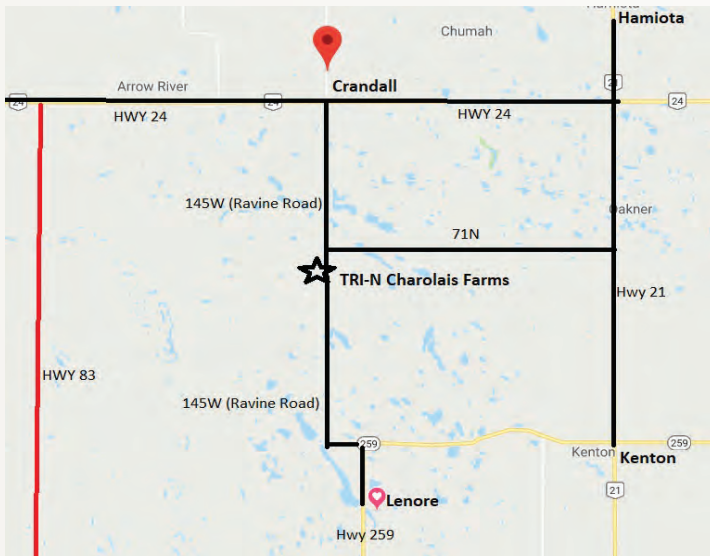

AMERICAN CUSTOMERS

Business as usual for trade. You can still attend our sale (Gov Canada requires proof of vaccination or a negative COVID test if you want to attend). For those who cannot, we also have a very capable sales staff, online bidding and Jerry Mullins (USA representative) in attendance. There have been no changes to the export of cattle. We will do all necessary health tests in a timely manner required for export. Animals will be delivered to the nearest point of entry at the seller's convenience. American Buyers will be charged an additional \$250/animal for the 1st animal and \$200/animal for each consecutive animal to cover health testing costs and delivery to the border. Exchange rates will be announced sale day at current bank rates. At the time of printing \$800 USD buys \$1000 Canadian. All animals are guaranteed exportable to the USA. If they don't pass their export tests, you don't own them!

JUNIOR INCENTIVE

Whether you live in Canada or the USA, we are proud to offer all Junior and 4-H/FFA members an additional 5% off the purchase of a heifer calf to use as their junior project. Papers must be transferred to the Junior member and will come off the purchase price at the time of settlement.

- He sells along with 26 daughters
 - Service sire to 39 females

- Ranks in the top 1% of the breed for yearling weight, the top 2% for weaning weight, the top 3% for carcass weight, top 5% for total maternal; the top 10% for rib-eye and lean yield and the top 25% for birth weight

- In the winter of 2019, I remember getting a text from our good friends Darren and John Cook, Triple C Charolais of Steep Rock, MB. They told me they have a great bull this year and he was the best bull they have raised the past 50 years. His dam is one of their best cows and this bull is an absolute powerhouse. He had a full brother that was used in their herd and threw a very consistent set of calves.

- After seeing his sale picture, we were blown away. When we saw him in person he was even better! Even after dad and I brought our good friends Jack, Tyler, and Jared with us to the sale to critique the bull as we really value their eye for cattle. "Powerful, big barreled, smooth made, free moving... and look at that muzzle on that bull!" All comments not made by us but these astute cattlemen that day."

- We must agree with everyone on this one. SCX JEHU 233E is by far the stoutest, biggest barreled, massive white bull we have used on our ranch the last 37 years. He has calved so well and has thrown so much performance.

- Very rarely does a bull so proven and in his prime come for sale. 26 sons grossed \$303,600 to average \$11,680 at TRI-N and Triple C this year (with 11 sons selling to purebred herds from Quebec to Alberta, to Florida/Texas)! Enough said!!

- JEHU is an outcross to most popular pedigrees today including Firewater, Ledger, Outsider etc.

- As we see this bull age, we love him more and more. JEHU will have a lasting impact on our herd and the entire Charolais breed for years to come. We are excited to offer him to you!!

Selling 100% interest, full possession. TRI-N reserves the right to the use of in herd semen only.

SCX JEHU 233E as a two year old

26 Sons Grossed \$303,600 To Average \$11,680... Enough Said!

Jesse Nykolation

KCH 1M

The MALIBU

Family

This family started with the purchase of Malibu 1M as a heifer calf from our good friends at KCH. When we saw her in the show ring as a heifer calf, I knew that female had ZING!! She came up for offer in the Hi-Weigh Breeders sale and we had to have her. Malibu 1M was a big barreled, long bodied, powerful female. She stamped her calves with that Malibu neck, long and smooth. Her track record was great producing 11 calves in 11 years and becoming a Gold Star Dam of Distinction.

This cow's genetics were the base of the high selling Charolais bull in Canada in 2012 (TRI-N Prefix 54Y) and the Manitoba record high seller TRI-N Go North 2411H.

"We have purchased several bulls over the past years from the Tri-N Bull Sale for our purebred and commercial herd, all sight unseen. We are very satisfied with all of our purchases. The bulls are easy to handle, quiet and sound. Their calves are very vigorous at birth, and the cows calve with ease. Mervin and Jesse do a great job of getting them delivered, even when they have to travel halfway across the country. I would recommend these genetics and their great personalized service any day! Buying a bull here is easy."

Thanks, and keep up the great job guys!
 Mark and Tamy Frost, MRF Charolais, Kingsey Falls, Quebec

NMF 401P
PICTURED AT 14 YEARS

The PRAIRIE ROSE Family

My biggest pride I've taken since I entered this business close to 4 decades ago was breeding this cow family and the great TRI-N Prairie Rose 401P. TRI-N Prairie Rose 401P is the highest milk EPD female in the Canadian Charolais Association registry 6 years in a row! She went on to be a Diamond Dam of Distinction. 401P also has two direct daughters (NMF 37S and 124T) and two granddaughters (NMF 91W and 945W). that have been awarded Gold Star Dams of Distinction. 91W is still in the herd and 37S, 124T and 945W) have been sent Texas A+M University this spring at 15, 14 and 12 respectively to highlight their embryo program.

This is the largest cow family in the offering and they all stem back to the first purebred female I purchased Miss DTM 18L. Pick a Prairie Rose, you won't regret it!

CANADA'S HIGHEST MILK EPD FEMALE

Donor dam of lots 4a-4d

Full Sibling to lots 4a-4d

- The donor dam TRI-N Prairie Rose 401P is the number 1 cow in the Canadian Charolais registry breed for milk. These embryo daughters are full sisters to the infamous TRI-N Prairie Rosebud 37S that some people refer to as the poster red factor Charolais female in the industry.
- 37S produced 13 calves here in the past 12 years and a Gold Star Dam of Distinction. At 15 years old she has been sent to Texas A+M University, College Station TX.
- When Jesse went to the Australian Charolais National Show in Dubbo, NSW in 2015, a picture of 37S was hanging on the wall.
What a humbling moment!

“We have purchased several red and tan bulls and females from the Nykoliations over the past 6 years. The bulls have put a lot of thickness and performance into our cattle and the females milk well. These bulls have sired great red and tan calves that sell great at the market every year. Thank you Merv and Jesse for allowing us to do this.”

Delwin and Char Walter, Walter's Charolais, Minot, ND

- Ranks in the top 10% for birth weight and calving ease

The CREAMSICLE Family

Very closely related to the Prairie Rose cow family and I consider these females as part of it. Both trace back to TRI-N Cream of the Crop 27H (Jesse's first 4-H heifer), a gold star dam who produced until 14. This cow family was named after TRI-N Creamsicle 85T which produced TRI-N Thriller 176Z which was the sire of SCX Thriller 89B that sired some of the nicest females in the offering. A whole life's work to breed this cow family.

Working at Triple C Charolais

Working at TRI-N Charolais

We purchased a dark red Captain Morgan son for our ranch in South Texas for our herd of Brahman cows (sight unseen). We are very impressed with the bull. He slicked off and adapted well to our warm climate. The calves are really impressive and are extremely uniform and beefy. Jesse and Merv know their cattle well and was a pleasure to deal with. Great folks-great cattle. I'd highly recommend their red Charolais bulls on your Brahman cows!!

Philip, Nora, James and Stella Drake, P-N Cattle and Hay LLC, Edinburg, TX

The **B U F F Y** Family

The cow family is responsible for TRI-N Captain Morgan 340A that you will find in virtually all our red pedigrees. It started with TRI-N Buffy 79T who is still producing today and is running with the big herd of cows at 14. Every bull that cow has had, has made the bull sale and sold. Several are working in purebred herds such as Wilgenbush Charolais (SK), Nielson Bros (MO), Doll Charolais (ND) and TRI-N. Her son last year was our lead off dark red bull selling to DUCHSHERER Grain and Livestock (ND). This cow family will put punch in your genetics with unparalleled capacity.

NME 1056X

The MONTE PYTHON Family

Very similarly related to the Reba Cow family that produced TRI-N Payday 419P that you will find in virtually all our pedigrees for a reason. Both cow families trace back to Border Corner Astra 1X, a 1988 model (the year Jesse was born) descendant of the Artiste French breeding. These females all have that full deep flank that's so hard to find in today's cattle. You will pick them out!

- Ranks in the top 4% for total maternal, 10% for milk, 20% for weaning weight and 25% for marbling
- Her daughter, TRI-N Monte Python 988G, sells as lot 34
- A son, TRI-N Creed 854F, was selected by Doug Kerr, Ninette, Manitoba

NMF 93T

The REBA Family

The cow family is responsible for the creation of TRI-N Payday 419P as mentioned in the Monte Python cow family. This cow family is one of Jesse's favorites. They all have small teat size, impeccable udders with that deep, deep flank!

TRI-N Reba 93T a maternal sister to Payday has been sent to Texas A+M University to highlight their embryo program at 14 which you will find there is a heavy influence here. She produced one of the nicest SCX Thriller sons we have raised, Dr. Merv, selling to Beery Ranch (MT). If I was building a herd of cows, I'd purchase a few of these Reba females.

Working at TRI-N

Working at Beery Ranch (MT)

- Ranks in the top 5% for total maternal, 15% milk, and 20% for birth weight, weaning and yearling weight
- A son, TRI-N Gunslinger 38H, was selected by Alan Clarkin, North Wiltshire, Prince Edward Island
- A son, TRI-N Terantino 973G was selected by Heitkamp Farms, Wydmere, North Dakota
- Bred to Jack Foundation 7F on April 10, 2021 – due January 20, 2022
- Exposed to Jack Foundation 7F from April 10 to August 2, 2021
- Pregnancy examined to the observed date

Jesse Nykolaitis

NMF 72T

The MARLENE Family

Just like the Monte Python and Reba cow families, the Marlene cow family started with the purchase of Border Corner Astra 1X from the 49ers female sale in 1989 at Alameda, SK. These females all trace back to the Marlene 72T cow which was one of Jesse's favorite tan Charolais females of all time. A cow that should have been flushed. A lot of calving ease and strong maternal in these genetics.

Working at Graf Charolais (ND)

Working at Lynn Cattle Co. (SK)

The RATIONELLE Family

Another descendant of the Border Corner Astra 1X Female just like the Monte Python, Reba and Marlene cow families... wow!!

This cow family was named after TRI-N Rationelle 26R, a Gold Star Dam that produced a calf every year until she was 14. Her daughter, 97T was an excellent cow as well producing until 12 and was a Gold Star Dam. This cow family can be found in our newest feature red factor sire Jacks Foundation 7F.

The SALLY Family

The Sally cow family also traces back to Merv's first purchase in 1984... Miss DTM 18L just like the Prairie Rose, Creamsicle and Nickheata cow families. This cow family traces back to TRI-N Sally 41S who was one of the soundest, nicest cows to walk our pastures and was a Gold Star Dam of Distinction. A maternal sis to 41S, 463B (the dam of NMF 21H selling) will be entering our donor program very soon. The first time we have ever offered any females for sale from this long running cow family.

Katie Johnson

Raised by
Odden Charolais
(SD)

The NICKHEATA Family

A descendant of the original purchase Miss DTM 18L just like the Prairie Rose, Creamsicle and Sally cow families. This family was named after TRI-N Nickheata 326N, the recip cow that raised TRI-N Prefix the high priced Charolais bull in 2012. She also produced TRI-N Xplorer 453B, which is working for Odden Charolais (SD USA). He produced the \$27,500 USD daughter for Oddens in the inaugural female sale held in conjunction with Doonan Cattle Co in Texas. She ended up being the reserve champion female at the American Royal show. Big bodied, low maintenance females that milk well and carry that banner winning style.

The **BARBRA ANNE** Family

One of our newer cow families that's small in numbers but super impressive. Merv selected a top female from Bremner Charolais, Dauphin based on my good friend Jack's advice. She ended up being exactly what Jack said. These females have tight udders, small teats with plenty of hair. You will see in the offering.

- Ranks in the top 3% for calving ease, 4% for birth weight and milk
- Her daughter, TRI-N Barbra Anne 83H, sells as lot 67
- A son, TRI-N Custer 1012G was selected by Beery Ranch, Richey, Montana
- Bred to SCX Jehu 233E on April 17, 2021

THE *Barbara Anne* INFLUENCE

The **MISS MELANIE** Family

An extremely productive cow family that's outcross to most genetics with lots of French influence in the back of the pedigree. This cow family includes TRI-N Miss Charhead 917W which is one of the most picturesque females you will find on the ranch. She is the dam of our mainstay TRI-N Red Baron 765E whose sons have been topping our bull sales the past few years. Excellent udders, heaps of hair. Premium cow family.

Working at HB Cattle (Utah)

Working at TRI-N

- Ranks in the top 20% of the breed for weaning weight and 25% for marbling
- Her mother, TRI-N Miss Charhead 917W, is the dam of TRI-N Red Baron 765E, herd bull for TRI-N.
- Bred to SCX Jehu 233E on April 18, 2021
- Due January 28, 2022
- Exposed to SCX Jehu 233E from April 10 to August 2, 2021
- Pregnancy examined to the observed date

The Tanzy's

This family started with the purchase of Cornerview Tanzy 28Z from the Uppin the Ante Sale in Ontario. Her dam was a past Toronto Royal Champion Female. She has proven to be a great addition including producing a son working well in a red Brahman herd in South Texas. Wait to see more as this is a newer cow family.

The French Maids

We have selected a few full French females the past couple years in order to produce some outcross French genetics for our customers. Females were purchased from Stephen Charolais and Bar Punch Ranch. All have been excellent producers. These females are some of the meatiest females that I've seen and are excellent cows.

“3 years ago, we began switching our bull pen to Charolais bulls for the simple fact the tan calves bring a premium in the ring. We have bought several bulls from Jesse and Merv over the past few years (all sight unseen) and found them to be sound, functional, and affordable. They cross very well on our angus-based cows by adding thickness and length yet maintaining calving ease. We have been very impressed with the vigour the calves have at birth, they are up and going immediately. Merv and Jesse know their cattle very well and highly recommend their bulls.”

Luke & Jenn Smith and family, Sundre, AB

TERMS AND CONDITIONS

Terms

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Certificate of Registration

Each animal will carry papers issued by the Canadian Charolais Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Health

All animals in the sale have met all necessary health requirements.

Guarantee

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Charolais Association with regards to health, freedom from defects and from both reproductive and specific genetic unsoundness.

Pregnancy Information

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

Liabilities

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Delivery

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold. We ask that all purchases are picked up or delivered by December 16, 2021 unless prior arrangements have been made.

Phone, Mail, Wire Bids

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Insurance

We strongly recommend that insurance is purchased for full value.

Errors

All announcements at sale time, written or oral, supersede any written material in the catalogue.

Thanks to all our supporters far and wide the past 37 Years.
