

Autumn
ANGUS CLASSIC

A photograph of a farm scene. In the foreground, a red barn with a grey roof and a yellow tractor parked inside its open bay doors. To the left, a dirt path leads to a fenced-in area where several people are gathered. In the background, there are more pens with cattle and a line of trees under a cloudy sky.

SATURDAY, SEPTEMBER 3, 2022

MAPLE HILL AUCTIONS, HANOVER, ONTARIO
SALE BEGINS AT 1:00 PM

A POWER STACKED OFFERING; THE
BEST OF THEIR RESPECTIVE HERDS.

PROGRESSING FORWARD.

AAC has become a nationally recognized and highly acclaimed sale throughout the industry, and we could not be prouder to say so. The many great bovines that have graced the ring at Maple Hill have landmarked Labour Day Saturday in Hanover as the place to be. I still clearly remember the day, a mere 11 years ago, that Dave Hasson called me to take over the AAC sale, which was currently being held at Gold Bar in Guelph, Ontario. The heritage around AAC as the birthplace of the famed Gold-Bar sale in enormous, and a legacy we at T Bar C are thrilled to carry on. Fast forwarding from the original sale in Guelph, Hanover has sure made AAC proud. As you browse through this catalogue, you will find cover pages for each section of the sale, where you can read about the past high sellers and success stories of AAC sale purchases. This archive of success will give you an idea of the caliber of cattle that AAC has boasted. We could easily go on about the cattle on offer in this years edition, like every other catalogue. But I truly believe we have selected with a fine tooth comb the best presentation of cattle offered in AAC history, and they will speak volumes themselves. We ask you to join us for this grand event. We are so excited about the Angus industry and cattle business in general, as we believe the genetics that have been put forth in this very event are the kind to make a difference in progressing forward.

NORTH PERTH BARBARA 507

IN THEIR PRIME.

It is not very often that the opportunity presents itself to acquire your next program advancing female off the top of a breeders herd. At AAC, we are proud to offer a selection of young, fresh, single lot cows that are truly in their prime. When mentioning past sale highlights in this division, we must start with North Perth Barbara 507, consigned to the 2018 sale by Meadow Bridge Angus and purchased by Merit Cattle Co. for \$20,000. The Liebrich family saw tremendous show ring success with this female, being named Grand Champion Female at Manitoba Ag Ex, Reserve Champion Female at Agribition, and the 2019 Show Female of the Year. Another example of success was found in 2018 with the purchase of Rehorst Eliminator June 502C for \$30,000 by Strongbow Farms. A President son of this donor led off the 2020 Strongbow Bull Sale catalogue, as well as a Stunner son of hers being a sale feature in this past years offering. We can also find Rehorst Evening Tinge 414B pictured here, purchased in 2017 by Glencross Cattle Co. for \$37,000. The 2021 consignments highlighted here include Leela Pioneer Tinge 20Z purchased by Allandale Angus for \$16,000, and Siebring Blackcap May 631 purchased for \$29,000 by Heathcote Angus.

AI bred to S A V Bloodline 9578 on January 24, 2022. Pregnancy is sexed female.

S A V EMBLYNETTE 3293 || DAM

The decision to consign 9391 was not easy but in appreciation of the opportunity given to us by T Bar C we feel she is a deserving Lot 1. 9391 can be described as stacking the breeds elite for maternal performance! Renown x Density x Bismarck...will there be another cow sold this fall with a greater female making sire stack? 9391 is a powerful long spined female with a world class udder her dam is a fifth generation SAV donor who has five daughters working in their herd. Her maternal brothers include the \$230,000 SAV Territory 7225 at ST and our own SAV American Made 0079. 9391 calved last fall with an America heifer then conventionally produced 7 embryos and 1 service later is due back Oct 24 to SAV Bloodline 9578 with a sexed female pregnancy!!

Sells open and ready to flush.

This high performance Blackcap May Donor is the deepest cow we have ever raised. She epitomizes the words power capacity strength and volume! Her udder is impeccable, she has excellent foot structure and unmatched breed character. Combine that with the fact that 9297 is in the top 1% of the entire breed for WW, YW, and Milk. She is raising a powerful Resource calf! Since great grandpa started breeding cows in the 30's we understand there is nothing more dominant in the cow business than the "Cow Family" and the "Blackcap Mays" define cow family! 9297's Harvestor dam was the 2nd high seller in the PVA dispersal to Herbst Angus in NE. Her sister Blackcap May 4136 is the most influential genetic contributor in the breed. Her 2nd dam is the iconic pathfinder Blackcap May 2397. Her sire Basin Payweight 1682 has proven himself as a great sire of sons including Deer Valley Growth Fund and VAR Power Play. 1682 has been in the top 10 sires of registration multiple times, we feel this cross on the Blackcap May family has incredible earning potential.

Offering 1/2 interest with the option to double

COW-CALF PAIRS

PRODUCTION AND PROFIT.

We would challenge you to find a sale that consistently offers the same quality of donor type females, in the volume that AAC provides. The cow-calf pair section provides cows that have already proven themselves quality producers with their progeny displayed alongside them sale day. These cows represent the most highly regarded Angus cow families, are the productive kind while still maintaining beautiful body score, and are at the end of the day the type you will want to look at in your front pasture. The heifer or bull calf at foot of these cows are fresh, eye-catching, and extremely worthy and capable of advancing even the most established of herds. The 2021 edition of Autumn Angus Classic provided many instances of how high the quality of females that walk through the ring in Hanover is. The tremendous Lot 8 cow was purchased by Rehorst Farms as a high selling bred heifer in the 2019 AAC from the great people at Maple Line Farm for \$10,000. Her stout, good looking, President heifer calf was described as one of the best that has ever been around the Rehorst operation. She went on to fetch \$30,000 to Lynden Manor. Catalogued right beside this outstanding pair as Lot 7 and 7A is Premier NP Pride 932 with her OHL Gunner heifer calf. This cow is a maternal sister to the Falls View 2020 \$40,000 high selling heifer calf to Gavin Cattle Co., Premier Pride 015. Clarke Family Farm purchased this cow, and is sure to reap the benefits of the genetic powerhouse provided through this event.

IRCC

THE CORE OF AAC.

In a sale that hosts Angus cattle of the highest caliber possible, to have the bred heifer offering be the most highly regarded section year after year is no small feat. An AAC bred heifer must be striking in her design and look, be backed up in appearance by distinguished paperwork, and carry a service that is highly desirable and marketable. Looking back through Autumn Angus Classic history, you will find that bred heifers purchased through this sale have gone on to write their own legacy within the winning bidders program and beyond. We do not have to look back far to find an example of this narrative. Just this past year, the first ever registered progeny in Canada of S A V America sold through AAC for \$58,000 to Carelea Angus. The potential this Blackcap May 273 daughter holds is staggering. Looking further on, in 2017 a bred heifer consigned by Rehorst Farms called Rehorst Evening Tinge 617D sold to Johnson Livestock for \$10,000. To see examples of the progeny produced by an AAC heifer, look to Lot 69 in the historic dispersal, and Lot 314 in the Johnson family's final bull sale. Also pictured here is Harprey Grace 10G, who sold in the 2020 sale for \$12,000 to Midland Cattle Co., and who represents the type of complete and promising female this sale is known for, from the model of reputable breeders we are proud to represent. This definition is again represented by Kemp Brothers Lady 34H, selling in 2021 to Deacon Ridge. She is a beautifully made power heifer, backed by a sire mothered by one of the Kemp's best cow families, and a past \$27,250 cow on the bottom side.

Exposed to EXAR Wooden 1608B from April 10 to June 29, 2022.
 Observed bred on May 1, 2022.

This exciting daughter of NRA Maga 41F is very well balanced and has extra eye appeal that is from her show heifer dam First Lady 714G. The MAGA daughters are maternal and efficient and will have very nice udders. This heifer is halterbroke and can be shown if that is your desire. Very solid EPD profile and she is carrying service to EXAR Wooden, a member of the champion pen of bulls at the Oklahoma Beef Congress in 2022.

Bred to OHL Gunner on April 30, 2022. Vet examined to be carrying a heifer calf.

This moderate sized female was destined to stay in our replacement group. Her design is the type we very much like. She is from one of our foundation females that was Reserve Junior Champ at RAWF as a bred and always raises a top notch calf. 127 is sired by our resident herdbull that we raised but purchased as an embryo from the Miller Wilson herd in Alberta. This heifer is quiet and easy to work with and knowing the cow family, will have a perfect udder once in production. She has been on pasture all summer and is a low maintenance, easy keeping kind of female. A maternal sister sold in this very sale 2 years ago to Wiwa Creek Angus in Saskatchewan.

HEIFER CALVES

A WORLD OF POTENTIAL.

Good cattle never go out of style, and are always going to be highly desired. With the cattle business as electric as ever, we are proud to offer a selection of heifer calves in AAC that have look, pedigree, and data backing them. These girls are pictured in early July, but even so, it is easy to be struck by the immense potential that these heifers have to be at the front of their class. Pictured at the bottom of this page is the high selling heifer calf from the 2020 edition of AAC, purchased by Leela Farms. The dam of this striking female is Leela Pioneer Tinge 20Z, who herself was the high selling cow in this very sale in 2014, purchased by Rehorst Farms for \$7,300. Speaking of the great breeders at Leela Farms, pictured at the top of this page is their consignment from AAC 2020, Leela Evening Tinge 20H. The Leeflang family purchased the dam of this heifer in AAC 2017 as a high selling bred heifer. They were drawn to the fact that she was a part of the famed Evening Tinge family, and also the 2280 female on the bottom side of her pedigree, and who can argue with the results when she can produce a heifer calf of this quality. When speaking of great cow families, we must mention the famed Blackbird's of Locust Grove Angus. Pictured on this page is Locust Grove Blackbird 17F, who was a part of the high selling heifer calf pair in 2018. A stylish heifer that commanded a second and third look from anyone touring the Maple Hill pens on sale day.

BULL CALVES

CREAM OF THE CROP.

While the caliber of females that have and continue to grace AAC is staggering, this should not cause the exceptional herd bull candidates to be overshadowed. These young bulls are manly looking calves, come to us with impressive amounts of substance and shape, and are backed by the type of mothers you would want your entire herd to resemble. Pictured above is Rehorst Reno Colossal 2J, who sold to Tullamore Angus for \$9,000 in 2021. This calf came to us with an abundance of muscle shape, while still maintaining an ideal leg and beautiful head. It will be exciting to see the mark he makes for the Jackson family. This stud's mother is Kemp Brothers Rosebud 46G, a beautiful, ideal sized Renovation daughter. This female was purchased as a bred heifer through AAC 2020 from Kemp Brothers, who have what is arguably one of the nicest cow herds in all of Ontario.

Recip due to calve January 20, 2022. Recip is a registered Angus by S A V Resource 1441.

Combining the absolute best of the best. Everyone remembers when the incomparable PM Echo 8'16 was crowned the 2018 RBC Beef Supreme Champion. Couple that with the high selling lot in 2020 Coleman Angus sale for \$225,000. These eggs are the catalyst to propel even the most progressive of operations forward.

Offered By: La Conquista Ranches

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Pedigree Estimates:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

As we seem to find ourselves doing more ET work each year, "Lady" is truly the kind to invest time and money in. She was our pick of the legendary Johnson Livestock desperal, selling as the third lot in on day one. She had a marvelous Rainfall bull calf last year, that we are using in our herd this year, and has raised a very fine Maximus heifer calf this year, and will be featured later on this fall. Lady is a true Angus female with mass, volume, angularity, level hips, great phenotype, good solid udder, perfect feet and a super nice disposition. Her sire, Renown, is leaving a legacy of highly regarded females that will bounce the breed to new levels. She is from one of the best cow families the Johnson program had to offer and we were thrilled to add her to our program. The timing was right this spring/ summer to add her to our donor pen and we are pleased to offer an IVF cycle flush on her in September. Gurantee 6 #1 embryos with no cap. All cost to the purchaser Offered By: Dudgeon Cattle Co.
