# Welcome from Inc Cattle Co...

Welcome everyone to The Big Chill.

What a difference a year makes. As 2022 draws to a close, the grain bins are full, and the bales are stacked high, much different circumstances from that of 2021. We are so very grateful for all the good things in our lives.

We want to thank Wayne and Linda Meakin for the opportunity to acquire their fantastic herd and we look forward to sharing these genetics with the world. Thank you to our good friends and outstanding guest consignors, KFC Farms, Highmark Stock Farms and Johner Stock Farms. As always, T Bar C brings their A game to this sale, and we very much appreciate all their efforts.

Most importantly, though, we want to thank all of you who continue to support the INC program. None of this would be possible without those of you who believe in us.

Thank you and have the best Christmas ever.

Rob and Janice Harasymchuk

# From the desk at T Bar...

Welcome to "The Big Chill" Speckle Park Sale, the evening of December 17, 2022, at the Sheraton Cavalier Hotel, Saskatoon, Saskatchewan. "The Big Chill" has been a feature event in the Speckle Park breed since its inception. Hosted by Rob and Janice, INC Cattle Company and along with their friends and guests... Highmark Speckle Park, Johner Stock Farms and KFC Farms LTD., present an outstanding offering of seedstock and genetics in this exciting breed.

In keeping with annual tradition, INC offer their top bull calf... INC Rembrandt 10K, an outstanding herd bull in the making who has already proved to be competitive and gaining many friends... the strength of a breeding program is based on top sires... "Rembrandt" is a bull for the future!

The live section of the event features hand-picked heifer calves that are competitive in nature and destined to make front pasture donors. The bred heifers have been selected from the top and carry early services... you are a month or two away from clipping a coupon. Genetically diverse, phenotypically ideal... valuable property.

A major part of the sale offering are the embryos... "The Big Chill". Each of the operations involved runs very large embryo transfer programs using the finest donors the breed has to offer. That is the reason that these breeding units are so competitive in the show ring. The diversity of the genetic pool allows breeders from around the globe to select and establish their own breeding ventures. "The Big Chill" is packed full of genetic herd builders!

December 17th will be an evening of opportunity and celebration.... Opportunity to acquire the finest Speckle Park Genetics in the world... a celebration of the strength of an exciting cattle business. You can be assured that the hospitality and fellowship will be full of Christmas cheer. Do not hesitate to stop by any of these leading breeders and preview the offering in their own environment or just give a call... they love to talk cows.

Plan to be with us for "The Big Chill", it will be well worth the trip! Feel free to give any of the T Bar Team a call and we will assist with your purchases in a professional and confidential manner.

There are times when you first see a calf and you can't help but say, "Holy shit, is he ever cool!" INC Rembrandt 10K is one of these calves. Crowned Bull Calf Champion at Prince Albert Exhibition 2022, and chosen Speckle Park Breed Champion Bull Calf at Edmonton 2022 Farmfair Ultimate Legends, Rembrandt is all muscle & power and we dare anyone to find a calf with a wider top. Fantastic legs & feet, big-assed & deep ribbed, Rembrandt is by far the best bull calf born at INC in 2022. He has a couple of pretty good sisters out there that some may have heard of before - INC Havana 101F & INC Savannah 71F. This is a ripper calf with a great future in front of him. Use him, show him, build your program around him.

Janice & I believe so much in this bull, we would be willing to show Rembrandt in Oklahoma for the new owner. This is a value-added option on a great opportunity. All associated show costs is the responsibility of the buyer.

It's no secret - At INC we like our mama cows big, deep & wide. That's why we acquired Codiak Annie GNK 7A as a cornerstone donor female. INC Premiere Showing 28K is very feminine yet has so much to her - she has the length of spine of her sire, Logic L11, and big milk production is pretty much guaranteed. Smooth and clean fronted, 28K moves incredibly well and will add frame score to your program.

Ted T Bar Serhienko told us a long time ago that if it doesn't hurt, you simply aren't picking the right ones to sell. We can honestly say, offering INC Shady Point 73K at this year's Big Chill, definitely smarts - a lot. 73K has lovely coloring, a beautiful stride and brings a unique out cross opportunity to your program. Put together right and feminine, Shady Point is going to evolve into an outstanding matriarch. 73K is ripper good.

Sher Specs Camerodes 16X is living proof that Speckle Park females possess superior longevity. At 12 years old this fine lady sports a near flawless udder & she could easily pass for a cow half her age. Structurally correct & sound of foot, 16X offers a cool out cross opportunity. Paired with the late, great CAJA Zeppelin 1B as well as the outstanding New Zealand sire, Parkvale Kiwi, these are exactly the type of genetics everyone needs in their program.

No Big Chill would be complete without offering some Star Bank Witches Brew 16W genetics. This past January, at 13 years of age, 16W easily delivered a set of natural twins. She was a fantastic mother, still has an outstanding udder and fantastic milk production. Witchey is 1980 pounds of fluid grace. Her long list of progeny speaks volumes to the quality of this matriarch. Choose your sire or take them all. Once again, a never miss opportunity.

When we were offered the opportunity to purchase the Outback herd, we could not get to Wayne & Linda Meakins fast enough. This powerful set of cows fit right into the INC program. This is the very first offering from this acquisition and what an opportunity it is! Landry of P.A.R. 52B is big, beautiful, and built right. Year after year she produces incredible calves and now paired with INC Talladega 11J, these calves promise a whole new level of excellence.

**Stored at Bow Valley Genetics. Qualified CAN/USA/AUS Guaranteed one (1) pregnancy if implanted by a certified technician.**

A huge door closed over at INC Cattle Company this past summer when we lost CAJA Zeppelin 1B. We still mourn his loss, but we see him everywhere in his fantastic offspring all across the world. Zeppelin will never be forgotten. This will most likely be one of the last opportunities to acquire these limited, outstanding genetics. On offer are 10 packs of North American, Aus/NZ, South American qualified semen, each pack containing 10 straws. Here is a chance to put legendary genetics in your tank.

As the old adage goes, when a door closes, a window opens. INC Talladega 11J is this window at INC Cattle Company. Undefeated Bull Calf Champion in 2021 & twice crowned Grand Champion Bull at Manitoba Ag Ex, INC Talladega 11J promises a new level of excellence never before seen in our breed history. 2000lbs of refined performance, Talladega moves like no other and this young powerhouse is smooth built, deep ribbed and has a huge top. To put it simply - he is damn cool. Take advantage of a very rare opportunity to acquire these exclusive genetics from INC Cattle Company & The Talladega Group.

**On offer are four packs of Canadian, Australian/New Zealand, South American qualified semen, each containing 6 straws. There's a new kid on the block and his name is INC Talladega 11J.**

**Stored at Bow Valley Genetics.**

INC Cattle Company is excited to announce that we have acquired the exclusive North American semen rights to Six Star Bojangles Q100. This Notta Hawkeye son is a full brother Six Star Southern Aurora Justice R10 who recently sold for \$100,000.00 in Australia. It's no secret how highly the Australians regard leg and foot structure in their animals and Bojangles is no exception - he's built to move and promises longevity in his offspring. This bull is performance bred from top to bottom. With the likes of Stands Alone, Zeppelin, Unique GNK 8R in his pedigree, this is a no miss combination. We'll just tell it like it is - Bojangles has big nuts, lots of guts and an ass two axe handles wide. This is a first time offering of this new herd sire in North America, with 4 packs of 6 North American Qualified straws in each pack. A very cool opportunity to be sure.

**Qualified for North America.**

A joint offering from Highmark Stock Farm & INC Cattle Company. HMK Kantiana 7K one of the very first Horatio daughters offered in 2022. Smooth built & long spined, Kantiana is an absolutely beautiful young female. Her grandmother is an outstanding donor female in the Wolf Lake program and is proof positive that 7K will develop into something very special. This heifer is definitely a highlight opportunity in this year's Big Chill.

Proven, proven, proven. Now here is a cow line that has never missed. Females all back in herd and bulls all out working. When we were making Big Chill plans 3 years ago, this female was on the list for this year's sale. A good old twist on her sire side and a Speckle Park staple as a mother. JSF 8C shows great internal data, along with a deep bodied package on the outside. Have a real look here on this no-miss genetic line with this unique combination.

Full Sib to Embryos  
Owned by Watson Land and Livestock, Ontario

A model cow that you can paint any color. Big ripped, powerful in all thirds but still possess that beautiful angular front end. JSF 19B has proven herself throughout the years, with high selling females in the Big Chill to JAD Agriculture and a beautiful Untapped female sold to the Watson family in Ontario through the Canadian Western Agribition sale. A little bit different twist on the 3-egg combination with a father son duo, you're buying the 3 together with the same guarantee.

**Embryos Stored at Davis-Rairdan**

First time flush cow with loads of potential. Her first two calves are pen toppers. When you go through this young female's pedigree it is full of top bulls and top females. Her powerhouse mother SSU 6Y non other than Unmarked's mother and the female producing Movin Spots Dart 37D. This young female has so much potential. Tidy udder, great feet, along with a highly attractive female body type. Some interesting genetics packed into the combo crossing with Justified and going back to the bank and crossing with Untapped two-time agribition champion. Don't miss out on this great female.

Taking advantage of multiplying outstanding female genetics. This female line makes up a huge part of our Pure-Bred females. It runs deep, 14 years deep. There has only been 1 female sold from this deep lineup. 9E is a cow that puts a ton into her calves. Smooth made, Angular, great feet, and a milk factory. Interesting set of eggs here. She has a beauty of an unmarked natural calf and what can go wrong with the highly proven Stands Alone on the sire side of Parkdale Mark. Proven genetics into a proven cow. Don't miss out.

Becca 1B is a Sailor Boy daughter and the dam of KFC Gladiator 1G, the bull we successfully showed. She is a heavy milking, nice uddered cow that brings home a big calf every fall. A first calf daughter of hers brought home a calf indexing 123 and carries many of the same traits as her dam. 1B is a moderate, productive cow that can raise bulls and females alike. This exciting mating with Hawkeye is one we are looking forward to having on the ground.

Cashmere 1C is the dam of the 2021 Agribition Reserve Champion heifer calf, KFC Cashmere 33J. Cashmere 33J was successfully shown in 4H as well as Jr shows this past summer. 1C also has a few really nice daughters we have retained in our herd. She is a powerful cow with a near perfect udder. Two years ago this cow raised twin heifer calves on her own that weaned over 1100lbs together.

## Terms and Conditions

**TERMS:** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATIONS:** A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**HEALTH:** All animals in the sale have met all necessary health requirements.

**PREGNANCY INFORMATION:** All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**LIABILITIES:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**DELIVERY:** Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

**PHONE, MAIL, WIRE BIDS:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**INSURANCE:** We strongly recommend that insurance is purchased for full value.

**ERRORS:** All announcements at sale time, written or oral, supersede any written material in the catalogue.

## INTERPRETATION OF Q SELECT GENOTYPES

Leptin genotype	■ CC ■■ CT ■■■ TT	→	Increasing genetic potential related to fat accumulation, milk production, cow longevity, weaning weight, carcass composition.
PMCH genotype	■ TT ■■ AT ■■■ AA	→	Increasing genetic potential related to fat deposition, tenderness, marbling, backfat.
IGF2 genotype	■ TT ■■ CT ■■■ CC	→	Increasing genetic potential related to lean growth, rib eye area.
CRH genotype	■ CC ■■ CG ■■■ GG	→	Increasing genetic potential related to stress response, hot carcass weight, rib eye area, docility.
