

CANADIAN WESTERN AGRIBITION ALL STAR ANGUS SALE

DECEMBER 2, 2022 | 7 PM

JOHN DEERE SALES ARENA

From the desk AT T BAR C

Agribition. A word that incites so much excitement within the livestock community, and what is no doubt a highlight to the Fall run. That said, there is nothing that creates more anticipation than the large crowd that gather on Friday night for the All Star Angus Sale. It is quite clear the reason for such exhilarating atmosphere and build-up towards this sale are the ingredients offered within it. And we state with all sincerity that the 2022 offering not only contains the who's who of the Angus breeders, but a selection of those that are regarded as some of the finest producers throughout the industry. CWA is an event where memories are made to last a lifetime. The friendships, business transactions, and spirited competition that occur in Evraz Place are what makes producers strive to breed better cattle every year, and what keeps them coming back to Regina.

The kind of stock included in this event are a sure bet to enhance your program and take it to another level, with frozen genetics that are in the forefront of the industry. You will find mating's that are never available and very much in demand.

If you have never been to Agribition, come. I can guarantee you will have an unforgettable experience here. And if you are a CWA veteran, you know the types of feelings that this event does for breed, and for the people within it. Please join us Friday night for a celebration of exclusive and intriguing Angus seedstock!

401 *Pick* OF THE RANCH COVEY HILL 2022 OR 2023 BORN HEIFER CALVES

Ranch Covey Hill is excited to offer the pick of the 2022 or 2023 born heifer-calves. We have an elite group of heifer calves this year! Heifers form the most elite cow families in North America. Granddaughters of the great Rosebud 157C, Erelite 109Z, Blackcap May 4136 and descendants of the Blackbirds, Donnas, Madame Prides, Georginas, Annie Ks, Emblynnettes, Elbas, Queenmothers, and Hillsprides. Females out of the most exclusive sires on the market such as S A V America 8018, Schiefelbein Showman 338, S A V 004 Density 4336, Coleman Triumph 9145, Coleman Bravo 6313, Covey Hill Unbelievable 4J, Sitz Barricade 632F, Covey Hill Captain 12H, Schiefelbein Untouchable 70 and HF Commotion 203J. Quality runs deep in our herd and we are certain you will find the next breeding piece to add to your program. We are also offering to breed the chosen female at no extra costs if the buyer so chooses. Selection deadline for a 2022 heifer-calf is December 15th, 2022 and November 1st, 2023 for a 2023 heifer calf.

402 *Pick* OF THE YOUNG DALE ANGUS COW HERD

The tradition and heritage between ourselves and Agribition is very long lasting. Staying involved in the Angus events at CWA is important to us and we are very excited to offer the pick of our entire 220 head cow herd. This has never been offered before as most know we are certainly proud of the females that walk our pastures. Of course, one of our largest accomplishments in the purebred world was when Believe sold for a record \$146,000, followed by his legendary mother, Grace 126Z making a big mark in the Angus community for quite some time. Sisters and daughters to 126Z are included, as well as the famed, truck winning Pollyanna's are also available. Many of the females and cow families that made us who we are are available for your appraisal. Please feel free to come by and view our herd and visit about the possibilities to enhance your program.

Selection to be made by December 31, 2022.

She's a powerhouse and a beauty and you will only have one chance to flush her to the bull of your choice! Offering the only opportunity to flush Young Dale Kristina 31D. This donor has already caused a tremendous amount of excitement for Miller Wilson Angus and Garry Tofteland, being the dam of DMM GT Last Call 200J. She has frozen 5 - 19 embryos on flushes so far. This flush can be done right after Agribition. Don't miss out on an opportunity that won't likely happen again!

Guarantee five embryos and two pregnancies if implanted by a certified technician. Flush costs are the responsibility of the buyer.

Stunning femininity, attractively patterned with tremendous depth of body, a well-balanced look, perfect feet and udder, complimented by her elite pedigree. This young female will certainly demand your attention. Her dam is a big ribbed, beautifully uddered, sound footed Cowboy Up female with numerous siblings retained in the herd, or bulls that have left their mark in herds like Bar-E-L Angus or Semex. (HF Roper 27F). Grand dam HF Rosebud 246Z has resided in the donor pen for some time. Maternal brother to Rosebud 48F sold in Sale 2017 to Alta Genetics for \$35,000. Another maternal brother sold in 2022 to Compass Ranch and Remital for \$40,000 and yet another full sib to Mark Daines for \$21,000. We purchased the Canadian Semen Rights on Sitz Profound 680G after he became the top selling Sitz Stellar son in the 2020 Sitz Spring bull sale. He combines obvious power, with a low birth wt, high growth, large scrotal, and very good feet. Rosebud 121J will be one of the first Profound females to calve in 2023 and mated to Dalton's Trail Blazer will only add to the excitement, as there has been no progeny or semen on the open market on this bull.

AI bred to Dalton's Trail Blazer 847 on April 14, 2022. Due to calve January 16, 2023.

These types of females don't come along every day. 9J is already a donor here at Southland. We are expecting at least 5 Poss Deadwood x Lady 9J ET calves this spring. Along side of her at Agribition will be a full sister, Southland Lady 11J, who is also a donor for us. As well, we are walking a full brother, Southland Ladies Man 12J. Lady 9J should appeal to every Angus breeder. Whether you are looking for a show female, breed leading EPDs, carcass merit, or just a quiet powerful donor...Southland Lady 9J has you covered. Bred to the \$900,000 Poss Deadwood bull, it will not take long to pay for this investment.

AI bred to Poss Deadwood on April 14, 2022. Pregnancy tested by ultrasound at 30 and 90 days; confirmed to the AI date. Retaining one future flush with a minimum of six embryos. Consigned by Southland Angus

The Bride's! A cow family that is very recognizable to most! Bar-E-L Bride 148K comes from a great mother, BAR-E-L BRIDE 28C! As our consignment to this year's Brooking Angus Open Book Invitational Sale, when Justin Morrison posted a picture of BRIDE 28C, the phone immediately started ringing with questions about her and this outstanding cow family. Bride 148K is the same kind: powerful, elegant, structurally sound, and royally bred. SHOWMAN 338, an impressive breeding bull, ties it together in this future donor dam. We have multiple descendants from this cow family in the Bar-E-L herd. Fertility, udder quality, and milk flow remain consistent. We still have the original DBRL 94T BRIDE 4W. An elite dam since 2015, average ratio 113, 29 progeny, and weaned another great calf at 14 years of age. It doesn't get better! This March heifer weighed 730 lbs. on September '16.

Lady May is the type you wonder why you ever decided to sell in the first place. A female that has been a standout since birth and continues to hold the throne here at WVR. Like her dam Lady may is massive ribbed, stout boned with an elegant and unique combination of presence and power. We look forward to her walking through the show ring this fall but believe the brightest form of her future will be in the pasture raising good ones year by year as her Dam has done and continues to do for us. Here lies a great opportunity and a promising return on investment with her early service to WVR Resolution 290J- with a heifer calf in tact due for Early January. **AI bred to WVR Resolution 290J on March 31, 2022. Preg checked safe in calf and sexed female. Retaining the right to flush with a minimum of 8 embryos, at the sellers expense and new owners convenience.** Consigned by Wauter Valley Ranch

PURPLE IS THE NEW RED! When T bar C was selecting at our place for the All Star Sale we talked about the fact that if we were going to sell a Black/Red Carrier it would have to be the right one. WVR Lakota 350K was the outcome of that discussion and surely a female that meets those requirements. Easy on the eyes, Lakota 350K is extremely unique in her attractive look while maintaining balance and substance to complete the total package. Matrons such as SAV President 6847, Coleman Charlo 0256, U2 Anexa 333N, SAV Blackcap May 4136, U2 Anexa 439A, U2 Anexa 271Y, are only a sample of the genetic heritage linked to these superior bloodlines. Her natural dam Lakota 274G was purchased through the U2 Dispersal as the highlight heifer calf of the sale. In her first year of production she raised a township heifer calf that sold to Sunberry Valley Ranch for \$20,000 Privately and went on to produce another standout last spring as she delivered us 350K. Regardless of if you are going to continue to take this heifer through the show ring or turn her out at home, the opportunity to add a great one to your program lies here.

Retaining the right to flush with a minimum of 8 embryos, at the sellers expense and new owners convenience.

38k is the perfect combination of style and performance. Her beautiful GQ dam is a breeding masterpiece and a female with an unmatched phenotype and outstanding udder quality. She was purchased as an embryo from the outstanding Six mile herd and for those of you who follow their black program, She is daughter of the maternal matriarch, Blackbird 16x. Her sire is a bull I first laid eyes on at the 2020 SAV Bull Sale. I knew right then and there that we needed to use a bull like him in our program. He is the one and only SAV Bloodline 9578. His combination of unmatched performance, soundness and eye appeal were what made him a true standout. 38k is a female that we think a lot of. She is feminine in her design and fresh in her make up. When you analyze her, she exceptionally constructed from her elegant front 1/3, to her deep sweeping cage, to her excellent foot and bone structure. Here is a female that I strongly believe has unlimited potential!

96k is a female we have watched closely from an early age. She's had a "look" that will stop you in your tracks. My experience with these Insight daughters is they keep getting better with age. 96k has done just that. She is exceptional in terms of her overall balance, she is super nice fronted, perfect in her lines, stout and big middled. She is big boned, plants all 4 feet perfectly at the ground and combines her beautiful look with plenty of growth and performance. Not only will this female compete at the highest level in the show ring, she will most importantly make a cow which is ultimately where you will find out her true value. When I had the pleasure to tour the ranch at Northline farms, it was easy to see just how good the Cruel Girl cow family really is. 96k is no exception. We think she is "Lights Out" good!

When Chris stopped in this Summer to look at calves he was very quickly drawn to this heifer and it's easy to see why, after a long family discussion we decided we would let her go. Being possible the first Conley Prowess daughter to sell in Canada makes it a great opportunity, plus being backed by not only a outstanding Wall Street/ Early Sunset Elba grand dam but also Northline Cool Cat mother who has done wonders in our program. We think this female puts it all together in a very beautiful package. From the tremendous shape of rib and depth of body to the beautiful front end that she is coming into, but easily the most impressive part is how well she gets out and moves and puts it all to the ground. Don't miss this chance to purchase your next herd building female.

Offered for the first time on the open market is a prestigious Blackbird from what would easily be one of the most productive and profitable foundation cow families at Glasman Farms. In the last decade a large percent of the bulls on offer at the annual M&J Farms Glasman family bull sale in February have stemmed back to the prolific matron, Southland Blackbird 172T. The bulls out of the Blackbird cow family easily rise to the top being placed into top commercial and purebred herds across North America such as Ellsmere Farms, Spring Creek Simmental and Angus, Merit Cattle Co./Gold Bar, and Felton Angus Ranch. This past bull sale JP Cattle Co. selected the feature high selling bull by Alcatraz out of a Blackbird. This FEATURE female is also sired by the same \$200,000 half interest HF Alcatraz 60F that has consistently sired calving ease, growth, and maternal values with plenty of hair as well as great disposition. Her dam, owned with J Square S, is nothing but consistent placing a bred heifer in this year's annual The Female Focus Production sale in December at Hollinger Land and Cattle. Managed for longevity this calf has the look we're all chasing and the cow power behind her to make the investment pay dividends. Here is your chance to let an infamous Blackbird write her story in your operation!

COLEMAN DONNA 714

PE BW: 2.1 • WW: 57 • YW: 95 • MILK: 24

Coleman Donna 756 is a Full sister to the \$480,000 valued Coleman Rock 7200 as well as the \$68,000 valued Coleman Donna 769, both selections of Ingram Angus. Being a direct daughter of Coleman Donna 714 and OCC Juneau 807J, her pedigree is as maternally stacked as you can find. She is loaded with body and stands over perfect feet with a terrific udder. We feel that mating her to Density and Renown will only enhance her terrific maternal and phenotypical qualities. These eggs will make you the kind of females to build a program around. Buy with confidence!

Guarantee one pregnancy per package if implanted by a certified technician.

Sarita 547J needs no introduction. This outstanding Agribition Champion was purchased by us for \$100,000 in partnership with Ashwood Cattle Company. Sarita offers impressive and unique Argentinian lines, her dam is deemed as one of the most powerful females to ever show at Palermo, where she was crowned Champion Female. Combine that with her sire being considered the absolute number one for female production in Argentina. This mating to the growth and performance sire Barricade will be unmatched.

Guarantee two pregnancies if implanted by a certified technician.

Terms AND CONDITIONS

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation.

This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
