Saturday, December 10

1:00 to 5:00 pm

Cattle available for your appraisal

Sunday December 11

Coffee and donuts all morning

11:30 AM to 2PM

Lunch and Hospitality

2PM sharp

Sale of Coming Two Year Old Bulls.
Followed by Sale of Registered Bred Heifers

WELCOME

The Glennie Bros have been riding hard rounding up a great set of bulls and bred heifers for your appraisal on Dec. 11.

While all the cattle will be conveniently displayed sale day, this will be a video sale conducted in the comfort of our heated sale barn and DV Auctions will broadcast it live over the internet.

Come early, appraise the cattle and enjoy some good food before the sale.

DIRECTIONS TO GLENNIE BROS. ANGUS

FROM CARNDUFF:

From Hwy 18 turn south at the east exit into Carnduff onto the Super Grid (Range Road 1331) and go 5 ½ miles to the end of the pavement, then go 5 ½ miles west on TWP RD 20.

FROM GLEN EWEN (WEST OF CARNDUFF)

From the old truck at the east end of Glen Ewen go 3.8 km east on Hwy 18, then turn south at railway crossing and go 2.4 km south to dead end, then east 2.5 km to Range Road 1341, then south 10 km to TWP RD 20 then east ½ mile.

FROM CARIEVALE PORT OF ENTRY ON CANADA/US BORDER

Go north 6 miles on Hwy 8 to TWP RD 20 then west 13.5 miles.

BULL WINTERING:

We are giving buyers of bulls from this sale the opportunity of having their bull fed along with other bulls from this sale at a 3rd party location at a cost of \$3 per head per day with delivery to buyers to be made commencing any time after April 1, 2023. Bulls wintered under this program will be at the buyers risk and insurance is highly recommended.

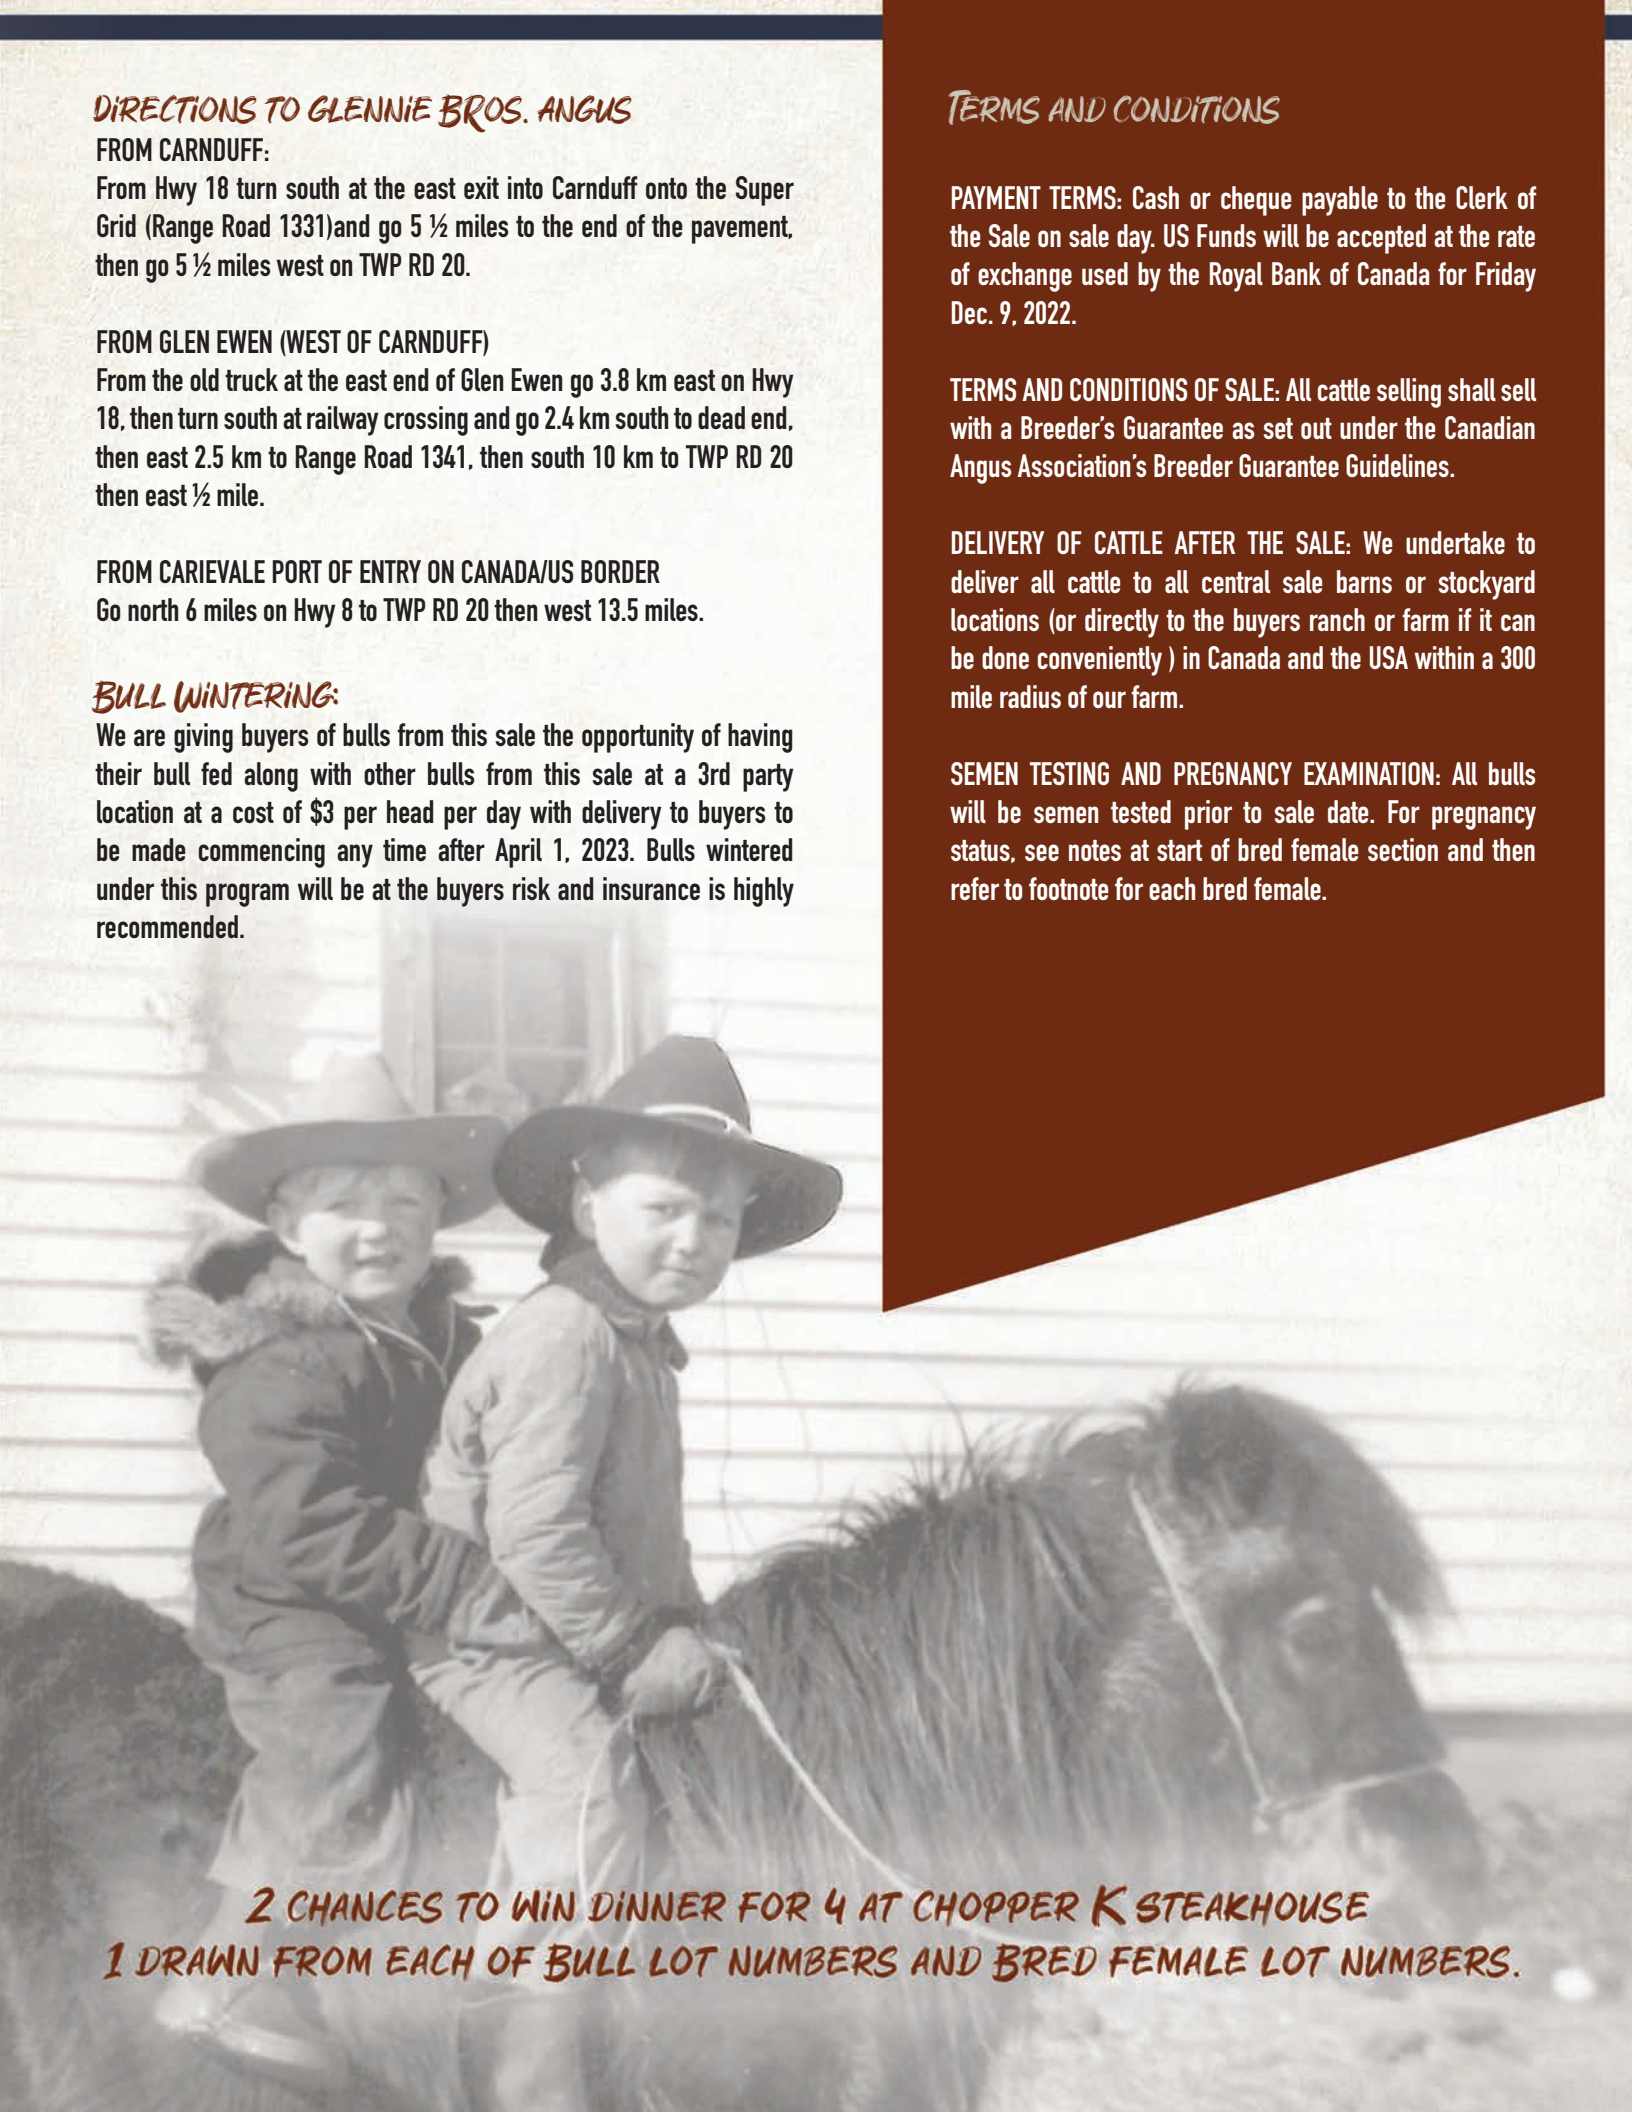

TERMS AND CONDITIONS

PAYMENT TERMS: Cash or cheque payable to the Clerk of the Sale on sale day. US Funds will be accepted at the rate of exchange used by the Royal Bank of Canada for Friday Dec. 9, 2022.

TERMS AND CONDITIONS OF SALE: All cattle selling shall sell with a Breeder's Guarantee as set out under the Canadian Angus Association's Breeder Guarantee Guidelines.

DELIVERY OF CATTLE AFTER THE SALE: We undertake to deliver all cattle to all central sale barns or stockyard locations (or directly to the buyers ranch or farm if it can be done conveniently) in Canada and the USA within a 300 mile radius of our farm.

SEMEN TESTING AND PREGNANCY EXAMINATION: All bulls will be semen tested prior to sale date. For pregnancy status, see notes at start of bred female section and then refer to footnote for each bred female.

As a 2 year old we used 16B on some heifers with good results. Impressive as a yearling, he has matured into a powerful herd bull with excellent feet and disposition. He adds muscle and scrotal development and his progeny are very correct. His dam is a very consistent producer with a nice udder with small teats.

4A is a moderate framed herd bull who matured out to 2450 lbs on the Precision Ag Scales at Carnduff. We started out using him on heifers as a yearling. He proved to be an excellent calver, retained his flesh well and with minimum care developed into a very fancy two year old. He is a free moving bull who we have come to use more heavily as time goes on. His dam is a very moderate frame cow who consistently produces top quality progeny.

53'08 daughters are now the backbone of the Wiwa Creek herd, one of the of the most revered herds of purebred cattle in Canada. After AI'ing to Monarch in 2016 we bought the youthful looking bull and he bred naturally here at 9 and 10 years of age. 53'08 is all about sound functional moderate framed cattle that last.

We bought the King from Frey Angus Ranch in North Dakota as a three year old. He has one of the highest docility ratings ever awarded in the breed. His daughters are very very productive in our herd and in years past were dams of some of the high sellers in Frey's bull sales. King was a free moving bull with a great foot and a super attitude.

Bought him as a yearling from Clint Smith. He was probably the best son ever of a great breeding bull, KR Topcut Quarterback 101H whom Clint bought from the Keefer Ranch in Montana. Topcut 326 was an impressive individual and a great breeding bull whose influence is prevalent in our pedigrees.

A good all around bull noted for calving ease, feet, udders and disposition. Served mightily for Robert Ballantyne's Diamond B Ranches and Miller Wilson Angus. Grandsire of the legendary Sandy Bar Ambush 10Y herdsire at Sandy Bar Ranch, Valley Blossom Ranch and Right Cross Ranch.

GLENNIE BROS. ANGUS LONG YEARLING BULLS

WEIGHTS AND MEASURES AND HOW WE DEVELOP BULLS TO DELIVER A BETTER PRODUCT

We are in the Performance Program of the Canadian Angus Association and accordingly we weight our calves in the fall and weigh our bull calves again in the spring and also try to catch a weight on the heifers in the spring. These actual weights are submitted to the Association and are then adjusted. The weaning weights and yearling weights below each animal's pedigree in the catalogue are the actual weights.

Actual weaning weight day October 10, 2021
Actual yearling weight day May 2, 2022

We do not creep feed prior to weaning. At weaning the calves are started on a Cargill Bull Developer pellet along with free choice hay.

With an appreciation for longevity and soundness we do not push our bulls to post big yearling weights. From May 2, 2022 we ran the yearling bulls on grass. On Oct. 1, 2022 we started feeding them the same grower ration pellet they received as weaned calves. We like to see the bulls put on some condition prior to winter setting in. By sale day I think you will find the bulls to be in nice rig but not fat.

GLENNIE BROS. ANGUS BRED FEMALES

BREEDING INFORMATION ON BRED HEIFERS

June 9 to 27, 2022 and on July 8 heifers
AI'd

July 12, exposed all heifers to Glennie
Blackman 29G

August 17, 2022 preg checked all heifers
by ultrasound

Oct 7, 2022 preg checked mature bred
females and 4 bred heifers that were too
close to call in August.

Taking all of the above in mind we noted
the most probable pregnancy status of
each female.

WEIGHTS AND MEASURES AND HOW WE DEVELOP HEIFERS

The weights below each heifer's
pedigree are the actual weights.

Actual weaning weight day Oct 18, 2021

The heifers are not creep fed before
weaning. At weaning the heifers were
taken to Tim McMechan's feedlot and put
on a silage ration. They are well taken
care of. The heifers run on grass all
summer and fed hay as required in the
fall as conditions dictate.
