LOAD OUT

Due to the large number of cattle selling, no load out of cattle will be allowed until the completion of the sale.

FACILITY

Heartland Livestock Services 306-773-3174
Located on the West side of Swift Current on the North side of the #1 Highway

HOSPITALITY

Lunch will be served from 11:00 AM to 12:30 PM on sale day.

VIEWING

All cattle will be on site and penned at Heartland on December 15. We encourage you to go through them early due to the large number.

PHOTOGRAPHY

Top Stock Photography (Katie Songer)
Cows were pictured the last week of June, calves and bred heifers were pictured the first week of October.

BULL PURCHASES AND WINTERING

Terms on bulls is 50% due sale day, with a post-dated cheque for the remaining balance dated April 1, 2023. A wintering program is available on all bull purchases. All bulls must be insured. Any herd bulls or long yearling bulls selling will be semen tested prior to the sale. A wintering fee of \$800 per bull calf is payable at the time of sale. The wintering fee will be waived on any purchases over \$5,000 Bulls returned to us for wintering must be insured. Bull calves taken at the time of the sale will sell with no further guarantee. All bulls must be picked up by April 30, 2023.

EXPORT

Any cattle selling for export will be charged export testing fees of \$250 per head which will be added to the purchase invoice. HS Knills can then look after brokerage and delivery at the purchasers expense, purchaser must contact them directly to arrange delivery. If we can be of assistance, contact us.

FINANCING

Financing available, contact Chris Poley or Doug Mann

“MORE THAN JUST GOOD LOOKING CATTLE”

Welcome

Time marches on and we have come to the time in our lives where we cannot work as hard anymore and our priorities are changing. I am not ready to sell all my cows yet, so as a compromise, we will be keeping a few commercial cows and some of the same embryos that are selling.

People matter to us and what drives us is the hope that we made a positive impact on their lives. That's why we chose the profession we did and got involved in the purebred business. We believe in Agriculture and supporting youth via mentorship and especially through their continuing education. We have supported the Keith Gilmour Foundation and will continue to do so as there are big long term benefits to investing in people and Agriculture.

The cowherd was started in 1973 by Wanda's father with the purchase of a group of heifers from Alfred Satler at Regina. Wanda also took out her Hereford membership then, so she's approaching 50 years in this fraternity. I entered the picture in 1984 and we purchased the herd and land from her parents. My background was commercial cow/calf and I had a significant amount to learn about the purebred industry. However, I've never forsaken my commercial roots.

Our breeding philosophy has never changed. We play the long game always looking well into the future. We focus on the maternal qualities of the breed and fertility. Virtually the entire herd is above breed average for maternal productivity index. After that, we slowly layered on the other traits to the point where growth, udder structure, scrotal size, and carcass traits are also above breed average. Then, after all this, Mother Nature sorted them and we have a look to see that they are attractive and sound structured. Our aim has been to raise a product that is profitable and productive for the next owners down the line and benefit the beef industry.

The expansion of our herd was primarily driven by sire selection. Through the use of AI, we could link our herd to the national population and with extensive performance evaluation from the beginning we could move the herd forward. Using proven trait leading sires greatly expedited this process. The most impactful bulls used here were Gangster 657G, World Class, Umpire, All Star, Zircon, and more recently Blueprint and Glitz. Our really good cow families came from dispersals, most notably Saddle Valley, Kimorlie, EJM, and Remital.

Chris & Tina Lees along with Don & Wanda Wray stopped by one busy Fall day awhile back to look at our cows. This started an enduring friendship and joint effort in a Fall female sale. Females we have sold have gone on to be impactful for their new owners. However, in order to maintain our cowherd, we found it was difficult to replace what we sold, so started a pretty robust embryo program to keep our cow families intact.

Mistakes have been made along the way and there are probably things that should have been done differently, but I believe we've built a cowherd to be proud of. All these girls can raise a proper calf under our environmental conditions which can be harsh and short on feed at times. They can do more with less and have longevity.

Thanks for the time taken to check out our cattle. As stated, we aren't done with the breed yet, just a really big step back. My comments on the cattle will be very brief as I rarely read footnotes myself, and of course every animal is a great one. The cattle will not be videoed, partly because of time, but mostly because we want you to come see for yourself.

If we can be of any assistance, please do not hesitate to call.

Doug and Wanda Mann

Katie Sanger
top stock

From the desk at T Bar C

Welcome to the Phantom Creek Livestock Complete Dispersal, December 16, 2022, Swift Current, Saskatchewan.

The Phantom Creek breeding program is unique... "Mann Made". The cow herd is totally based on cow families which have been propagated using embryo transfer. The donor dams all bred as foundation females at Phantom Creek. In addition to being veterinarians, the couple are genetic scientists always looking at the future of the breed and the industry it envelops. Using a rigid culling program, astute vision and always searching for new genetics, they have built an outstanding herd of Polled Hereford seedstock.

The genetics are right, the numbers are right, and the cattle will speak for themselves. The importance of milk, udder quality and soundness, without performance traits getting overlooked, this herd offers a lot of alternatives to any breeding program. Located just minutes north of Swift Current in the rolling hills and grasslands of Saskatchewan, Phantom Creek has been supplying bulls and seedstock to many repeat ranching customers over the past decades... but time has made the decision to slow down... this will be the last opportunity at a PGL bull.

Only in a dispersal can one select from the heart of the herd, whether you are looking for a donor female, a fancy heifer calf, a herd bull or an entire cow family... do not overlook the embryos and the recipients out of these foundation dams. Opportunities of this nature are rare and many times far apart.

The livestock industry in Canada needs more Hereford Influence... the "Mann Made" type of influence for the exciting years that lie ahead. The cattle market is exciting and "it's our turn!" Plan to stop by Doug and Wanda's prior the sale and see this great cow herd in its ranch environment or give them a call to discuss the cattle.

Plan to be with us in Swift Current on December 16th and be a part of Hereford history... It will be worth the trip. We have graded all the cattle... do not hesitate to give any of the T Bar Team a call and we will assist you with your purchases in a professional and confidential manner.

HERD HEALTH

The PCL herd is part of the verified beef program. We keep a wealth of information on this herds activities and treatments with regards to preventive and therapeutic protocols as well as nutrition. We want to be totally transparent and care about the consumers down the line.

The herd is on a yearly mineral program which is boosted prior to and during the early breeding season.

In January, the calving herd was vaccinated with Scourguard 4KC, Covexin Plus(clostridia) and injected with Vitamin AD.

As calves are born, they are weighed with a scale within a day of age, given inforce intranasal and Vitaferst-Care orally. Heifer and bull calves are tattooed, and the first selection of steers takes place. All cows are teat and udder scored prior to the newborn nursing.

The yearling heifers were given Vision 8/Somnus and Cattlemaster Gold FP5 in early May.

At pasture turnout, the baby calves were given Pyramid FP5 & Presponse, Vision 8 Somnus, and Safeguard orally(dewormer). A second cull on bull calves occurs at this time.

Late summer, the calves were weighed and revaccinated with Pyramid FP5 & Prespnse, vision 8/Somnus.

Calves were weaned September 13, given Vitamin AD, and another cull of bull calves occurred.

Calves are fed good quality grass hay and textured grain to aim for a rate of gain of 1.75 to 2.0 lbs on heifers and 2.75 to 3.0 lbs on bull calves.

No Silage is ever fed to anything here.

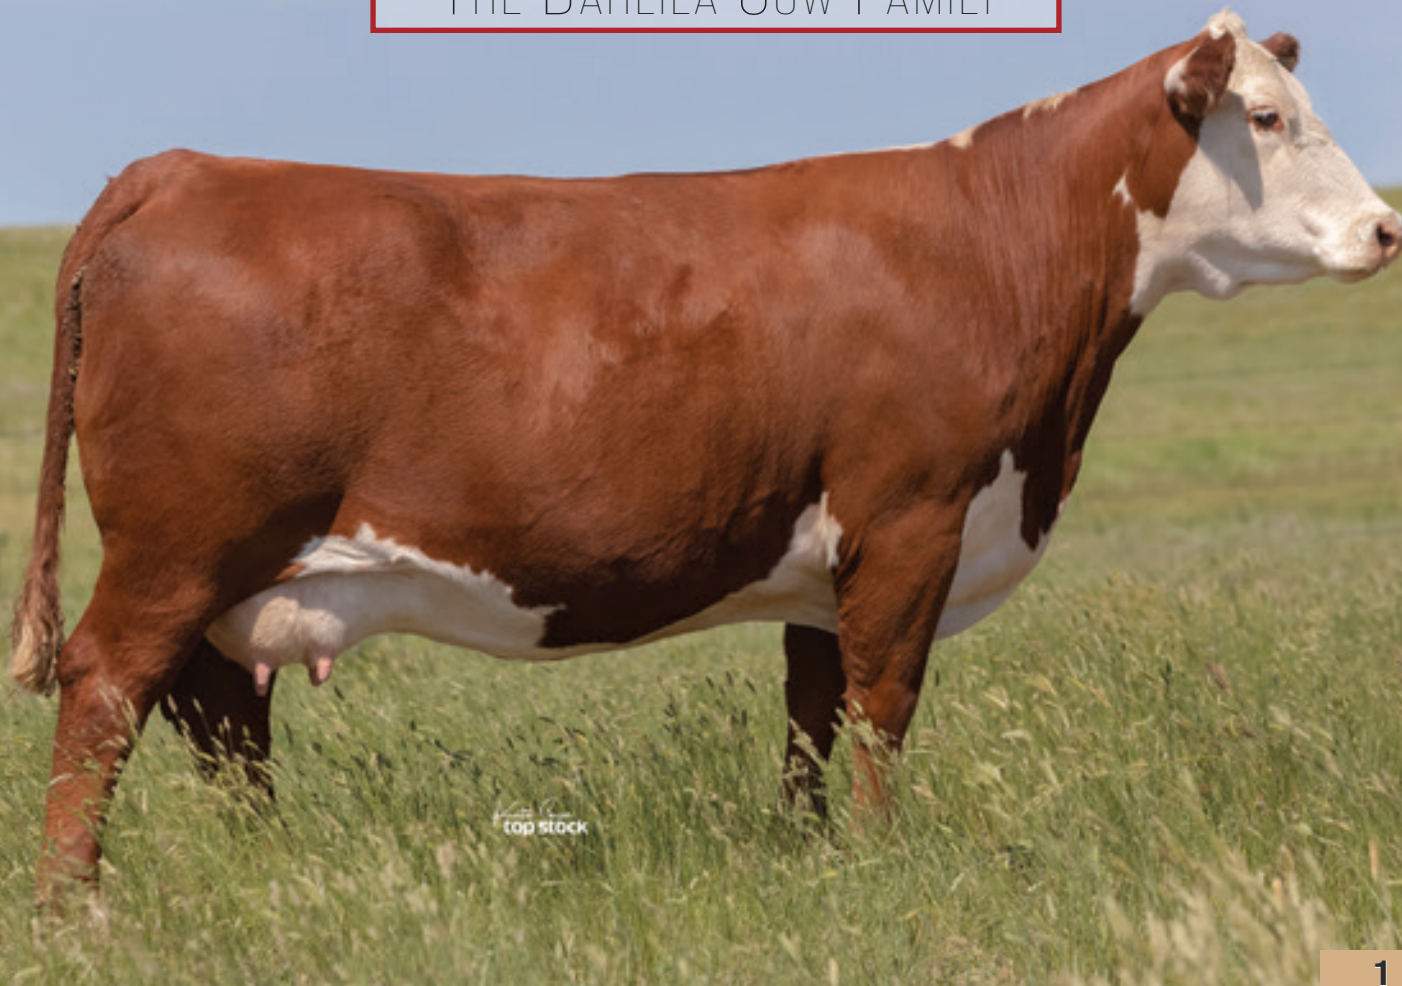

September 23, the bred heifers (J), were given Viamin AD , express FP5, and Scourguard 4KC.

Late October, the cows were given Express FP5, Vitamin AD, and Clean-Up topically. The bred heifers(J) were given Clean-Up for lice control. Early November entire herd treated with Clean Up for lice control.

The herd has been preg checked twice, once early to more accurately identify early services and pregnant recipis, and a second time after the bulls were pulled.

THE MISS TRUST COW FAMILY

The “Miss Trust cow family” is comprised of eight flush sisters out of the highly productive and predictable donor “GHC Miss Trust 54B” we had the misfortune to lose. Three daughters are bred with the other four out of this spring’s calving season. The first daughter, 47G, has produced 2 calves. “54B” is also the dam of PCL 118U Dodge 3B herd bull for Phantom Creek and Doug Troop Hereford Farm, Brandon, Manitoba; PCL 25Z Frontenac 84F selected by Gordon Schamp and PCL 118U Homerun 45H working for Norman Gowan. Bulls 76J and 77J are working for Ferestads in Montana an 63J was selected by Sabine Land & Cattle.

“GREAT PEOPLE... BLOODY GOOD,
FUNCTIONAL HEREFORD CATTLE”

-Tenaru Poll Herefords

We think of two things when we hear the words Phantom Creek Livestock: Firstly, great people and secondly, bloody good, functional Hereford cattle.

My wife Teeny and I were in Canada for the World Hereford Conference in 2012. We attended a post-conference tour in Saskatchewan where we found PCL Zircon on his dam. We felt at first sight that we could build another female line around this calf. So, we approached Doug, who we barely knew, and on a handshake, Doug agreed to give us 24 hours (before he would talk to anyone else about Zircon) to get to PCL and view the whole operation.

Needless to say, Teeny and I were at PCL the next morning and spent most of the day with Doug and Wanda looking at their operation and, in particular, the females behind the calf that was of interest to us. At the end of the day, we asked them what would be required for us to secure PCL Zircon for Australia. Doug told us, and on the second handshake, the deal was done. No bank cheque, no middlemen, just two handshakes!!!!

We all know that this genetic stud game is a lifetime in the making. PCL Zircon has lived up to and exceeded all our expectations. His females here at Tenaru are as good as we have. His influence can also be seen in a couple of the oldest whiteface studs in Australia, Merawah and Mawarra.

Ten years on from seeing PCL Zircon, his influence is still at the forefront of our program. At the 2022 Merawah/Tenaru Bull Sale he sired the \$30,000 Tenaru top seller. Tenaru also offered three bulls out of Zircon daughters. They sold for \$26,000, \$12,000 and \$10,000 respectively. What a great addition PCL Zircon has been to our operation!!!!

Teeny and I would like to take this opportunity to wish Doug and Wanda all the best for their upcoming sale and the next chapter in their lives. Thanks again for all you have done for the Hereford breed and sharing part of PCL with us through Zircon!!!!

Cheers,

Kelly & Teeny Runzer

**Phantom
Creek Livestock**

GENETIC ABNORMALITY'S

We have been diligent about testing for the known genetic conditions and have listed the MD carrier animals as well as those that have been tested free. The other 4 genetic abnormalities are free across the entire herd based on previous testing and free lineage. We feel this is part of our due diligence as purebred breeders.

notes

TERMS & CONDITIONS

Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Bidding:

Each animal will sell to the highest bidder... no by-bidding will be permitted.

Disputes:

Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Breeder's Guarantee:

As this is a dispersal sale, all cattle sell with no further guarantee. Any known defects will be announced before the cattle are sold.

Certificate of Registration:

Each animal will carry papers issued by the Canadian Hereford Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

Health:

All animals in the sale have met all necessary health requirements, cow herd is on a full herd health program.

Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. T Bar C Cattle Co. (2013) Ltd. does not assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Phone, Wire, Mail Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

Pedigree Estimates:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Delivery:

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
