SELLING REDS, BLACKS, FULL BLOODS & COM. BRED HEIFERS

WELCOME

Welcome to the 2022 edition of the Queens Of The Heartland Female Sale. Once again we feel very privileged to share this group of heifers with our customers, as well as the progressive breeders who are bringing some of their very best cattle for you to view on sale day. We are also pleased to welcome Rocky Meadow Ranch as a new consignor from just down the road.

These cattle have been selected right from the heart of our program, most with early calving dates and several carrying the service of our herdsire, Wheatland Monument 28H. We welcomed his first calf crop this past winter and the results were exactly what we hoped. They came easy and then exploded with growth. We are very pleased with his offspring in both the heifer and bull pens. The rest of our offerings

are carrying appealing services to JPCC Rito 174H our high-selling half blood bull in our 2021 sale, who was purchased by M & J Farms, or JPCC Storm 95J our high-selling ½ blood bull in 2022 to Rocky Meadow Ranch and Peeco Ranch. All but one heifer was exposed to Scissors Hemisphere 2H, a calving ease bull who we purchased from Scissor Creek Cattle. The heifers were preg-checked at the beginning of August, which allowed our vet to give us an accurate decision on being safe to AI date or bull.

Many of these heifers are off good young producing females, and are sired by some of the most popular bulls in our bull battery, Wheatland Royal Flush, JPCC Ignition, Wheatland Affiliate, just to name a few.

We feel we have cattle here for every budget, so please join us in McAuley on December 4th, for some hospitality and have a look at our offering.

FROM THE DESK AT T BAR C...

Chris Poley
Cell: 306-220-5006

Welcome to the 2022 edition of “Queens of the Heartland” Production Sale, December 1st hosted by JP Cattle Co., McAuley, Manitoba. The folks at JP Cattle and their guests are dedicated breeders who make their livelihoods from agriculture. They know the essentials of producing predictable and profitable breeding stock and each year add new genetics to further improve and achieve goals individually and for their customers. New for this year, we would like to welcome Rocky Meadow Ranch, the Grose Family as new guest consignors.

The sale offering covers the field with Reds, Blacks, Full Bloods, and commercial heifers. The papered cattle are awesome and consistent in type, broody, deep yet moderate in frame. They supply genetics from leading proven sires in the breed and carry early services to sires that offer both performance and calving ease.

Shane Michelson
Cell: 403-363-9973

The commercial bred heifers have been a feature since this event was founded... they will not disappoint you upon inspection. Uniformity, soundness combined with fertility... what an opportunity to get this set of heifers into your replacement pasture. For those who have visited a sale barn in the past few months, I am sure you are happy being in the beef business. Stout heavy weight calves are leading the marketplace in both price and weight so Simmental stockers are exciting to own. Now is the time to take a good look at your cow herd, eliminate the “free-loaders” and replace them with new, young genetics from these reputable breeders... simply because they will get much higher moving forward.

Ben Wright
Cell: 519-374-3335

Feel free to stop at any of their operations and view their offering or just give them a call... they like to talk cattle. Plan to be with us to enjoy and experience “Queens of the Heartland” ... whether to get one or a trailer load ... it will be worth the trip. Feel free to give any of the T Bar Team a call and we will assist you with your purchases in a professional and confidential manner.

Chris Poley

AG-LAND FARMS LTD.

Welcome to the third edition of the Queens of the Heartland Production Sale. We, along with Greg and Allyson, are excited to be a part of this sale, with a great group of consignors. We are proud of the heifers that we have on offer that are from deep within our program. The heifers are bred or exposed to our exciting new heifer bull MRL Rip Zone 42J. Our black purebred in our offering is bred to SRH Hannibal 5H. All the heifers are on the Pfizer Gold vaccination program and will have had their initial Scour Bos shot by sale day. We have taken videos and they can be viewed on www.cattlevids.ca We encourage you to stop by the farm anytime and see the heifers for yourself, the coffee is always on. We look forward to seeing you on sale day!

A Roosevelt daughter that had a tough start as she pretty much raised herself after her mother got a bad infection. Even with the tough start she weaned off quite well. Super quiet and easy to work with and will have the ability to raise top calves. Good milk EPD of 29.6 with a nice tidy udder

Pasture exposed to MRL Rip Zone 42J April 1, 2022 – May 28, 2022. Ultrasound favorable to February calving.

SCISSORS CREEK CATTLE CO.

We are excited to be involved with this sale for the third straight year now as we enjoy being a part of this great group of fellow breeders.

We have been breeding Simmental cattle for 20 years now and have worked hard to build our herd of high-quality females. Having reached our ideal herd size a few years ago we have been culling hard and only keeping the very best and you can really see the results in our cowherd today.

We are offering three bred heifers from the top of our purebred pen, as well as two commercial bred heifers that would work well in any herd. These heifers have not been

babied in anyway and were just pulled off of pasture a month before pictures. In these times of expensive feed we strongly feel that moderate framed, easy doing females are the only kind to have and these heifers exemplify that!

We always welcome visitors if you are in the area and have time to stop in before the sale! If not, we look forward to visiting with you on sale day. We would also like to thank all of our past buyers and bidders and JP Cattle Co. for hosting this sale.

Here is a fancy and extra moderate framed heifer. She is very correct in her make up and is setting up a nice udder. She is strong topped and big bodied. She has been a favourite in the replacement pen right from the start and is another one that is hard to part with. She is bred to an Ironman son that we used successfully in the past and thought it might be a neat combination.

AI'd to SCCC 9Y on April 6th Exposed to Triple H Intuition (Blk Angus) from April 8, 2022 to June 14, 2022

24J

Here is a very powerful heifer that checks all the boxes. She has the extra depth of body and capacity that is hard to duplicate. She is a very long bodied and wide topped heifer that is also very structural correct. She comes out of a very good cow family as well and has a nice set of EPDs. We believe this heifer has a bright future ahead of her and is a hard one to part with.

AI'd to WHL Red Heat 1734E on April 5, 2022 Exposed to Triple H Intuition (Blk Angus) from April 8, 2022 to June 14, 2022.

40J

A real easy doing heifer here that patterns very well. She is deep flanked and has big spring of rib. She is really strong footed and clean in her lines. Her dam is a really tanky cow that has a good bull in the pen this year. We feel this heifer is the right kind to produce keeper bulls or females.

AI'd to WFL Absolute 51Y on April 6, 2022 Exposed to Triple H Intuition (Blk Angus) from April 8, 2022 to June 14, 2022.

SUNVILLE SIMMENTALS

Welcome to the Queens of the Heartland Production Sale.
 Once again, we are very excited to be a part of such a great sale.
 We are offering 9 bred heifers this year that are bred to some great sires such as Spartan and Prowler. We are fully confident that these girls will fit nicely into your herd! Feel free to stop by or give us a call!
 We look forward to seeing everyone sale day!

ROCKY MEADOW RANCH

Welcome to the Queens of the Heartland Production Sale. We are very excited to be a part of this sale as it is our first time consigning to a female sale. We want to thank the Lowes and Pateman families and all the other great consignors for inviting us to be a part of this event. We are proud of the group that we are offering in this sale as they are right off the top of our replacement pen. We wanted to bring our very best for our first time consigning and we feel this group is exactly that. We have both purebreds and percentage females and both reds and blacks for your evaluation. All the heifers we have in the sale in the vet's opinion are safe to the AI or early service dates listed. Our program focuses on very low maintenance, functional, easy-keeping cattle that can produce top quality offspring all while getting re-bred and maintaining their own health and body condition. Udder quality and feet are something we look at very seriously when selecting both herd sires and new females

to put into our herd. These heifers are on a full herd health program and will have had both of their ScourGuard shots prior to the sale. We are confident in what these females can add to your herd and will stand behind them 100 percent. If you have any questions or wish to view the heifers or their dams or sires at any time, don't hesitate to contact us. It would be our pleasure to show you our program or discuss with you any questions you may have. We look forward to visiting with you on sale day!

22J is a heifer that is very hard to part with. She has been my pick of all our black heifers since a very young age. But with it being my first time consigning to a sale and the fact that I have already retained a lot of Tesla daughters I brought all my very top end. This heifer is so broody and soggy made and yet maintains enough feminine features to make her what I think will be an exceptional cow that should raise top quality progeny, both male and female. Her dam, 182F, just weaned off a full sib bull calf that is right at the top of the pen. These Tesla daughters won't disappoint! Bred to 5015C, this pairing should make for a very exciting calf.

Here is an exciting offering of a couple of ET sisters sired by LFE McDavid, the bull who worked so well in the Spring Creek Simmentals program for years and just so happens to be the sire of my Spring Creek Tesla 6E bull that I have had such great success with. The dam of these flush sisters is Spring Creek Mistress 121Z which we bought for \$15,000 from one of Brian's Golden Opportunity sales. Mistress 121Z is a full sister to Lotto who did such a great job in the Simmental breed. These are heifers I planned to build a cow family out of but I decided to offer something exciting for my first production sale offering. Both AI'd to 5015C, these should make for exciting calves out of some proven genetics.

6J was the first calf off 178G and she did a heck of a job. 178G is a daughter of JPCC Mr. Daredevil 155D, a direct 56U son and his dam is JP's Spring Creek Goldy 135A flush cow. 178G is a very feminine pear-shaped cow and her daughter 6J is showing to be much the same. A double shot of 56U in 6J's pedigree can't hurt!

AI bred to SRH Hannibal 5H Apr. 9, 2022

Exposed to Desert Storm 95J Apr. 16, 2022 to May 10, 2022

DESERT STORM 95J | SERVICE SIRE

Another 5015C daughter that has really impressed us. She is deep sided with lots of volume and a real feminine look. She is bred to the high-selling bull from JP's sale this spring JPCC Desert Storm 95J. A real free moving calving ease bull with some great cows backing him up. When we saw Desert Storm's dam this spring before the bull sale, that's what solidified our opinion about him as being our next heifer bull.

13J

A very attractive made Tesla daughter. Goes back to an exceptional purebred Angus cow that is still in my herd. Brian McCarthy was out through my herd last fall and picked 13J's dam and granddam as cows you would love to flush if they were purebred Simmental. Excellent body and udder structure in addition to awesome feet. 13J should mature into a front pasture cow that you can build a herd around.

Another exceptional Tesla daughter and out of a Spring Creek Lotto dam. Beautiful body type to this heifer and you can expect an ideal udder when she lays down and has a 5015C calf mid-January. I had a few Tesla x 5015C calves this year and the mating definitely didn't disappoint. This is an opportunity to get some older tried and true genetics with the Lotto dam.

4J

DESERT STORM 95J | SERVICE SIRE

4J is a daughter of Spring Creek Tesla, a 3/4 blood bull we purchased from Brian as one of the high sellers in the spring of 2018. He has done an exceptional job for us, and Brian has used him as well with success. Since this is our first time consigning in a sale, there haven't been many daughters of Tesla offered as we have been retaining them for ourselves, and boy are they doing a good job around here. 4J's dam is a moderate framed deep sided daughter of 5015C. 4J should be a good one!

103J

103J is a real attractive half-blood heifer whose dam is a purebred Angus cow and daughter of RRAR 12B. Along with JP Cattle Co and Sunrise Simmentals, we purchased Rising Star 12B as the high selling Angus bull for \$26,000 from Brian's sale a few years back. Unfortunately, we lost him to an injury young in his career so there isn't a lot of progeny around, but the ones we did get were very high quality. 103J's sire is a 5015C son and out of the JTC 29B flush cow that Stacy, Brooke, and I owned together and flushed with lots of success. I kept 103J's sire RMR 104F to use myself as he is dark red and I wanted to implement some more 5015C genetics into my red cattle.

15 Black Commercial Heifers

Consigned by JP Cattle Co.

These heifers will be sorted and sold in groups of 2-3. They are bred to calve at the end of January to the middle of March 2022. Many of them were AI'd to calving ease half bloods and angus bulls.

Heifers were exposed April 29, 2022 - June 4, 2022 to MLG Connery 016 from Glasman Farms

DIRECTIONS:

- 2 miles from SK border
- 2 miles from Hwy 41
- Turn North at Ja-Lyn Farms sign

Notes...

TERMS & CONDITIONS

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY...

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.
