

THE ROYAL NATIONAL ANGUS SALE

SATURDAY, NOVEMBER 5, 2022 | 7:00 PM | TORONTO, ONTARIO

CELEBRATING OUR PAST, ACCELERATING OUR FUTURE

A MONUMENTAL EVENT

The Royal Agricultural Winter Fair is an event that sweeps through the entire purebred livestock sector. Everyone knows about it. A vast majority attend or are apart of it in some way. At those who haven't yet mark it as a must-do on their bucket list. This event pays tribute to those who walked into the main Coliseum 100 years ago that pioneered this event, those who walk their cattle to tie-outs under the QEW, and those who drive their truck and trailer through the Queen's Gates out front off the Lakeshore. The atmosphere and memories made here are unmatched to any National level show out there.

From hauling livestock to the show in train cars, to the big spotlight in the Ring of Excellence, the heritage surrounding this show is all-encompassing. It goes without saying, there has been a hole in the first week of November for the past two years that the Royal was on hiatus due to Covid. But anyone involved is proud to say that it is coming back with a vengeance. You do not want to miss it. And what better way to celebrate this come-back then to host the National Angus Sale in the prime-time spot on Saturday night.

All the heat is here in this catalogue. The top class of heifer calves included are born to compete and are absolutely impossible to resist purchasing. I dare say, this has to be the deepest quality of front-end heifer calves to go under the gavel in my Royal sale history. An interesting division in this book is the high-quality selection of bull calves on offer. These three herd sire candidates have been carefully evaluated and studied to meet all credentials, with each bull offering something slightly unique. Two exceptional bred heifers to move your outfit forward, with some very rare and exclusive frozen genetics, that are only obtainable through this sale. But the highlight of the sale is not only fitting to the whole celebration of the 100th Centennial of the Royal, but an accomplishment we may never see again in our time. Bill and Sylvia Jackson are some of the best people the Angus business has ever had. Having a membership for 100 years is so historic, and all of us at T Bar C are proud to celebrate this accomplishment. We ask you to gather at the start of the sale to honor this great program, where they will be offering something never done before... the pick of their calves. I remember in the summer calling Paula Cornish and telling her my idea for Lot 1, and the first thing she said was.... "You have to do this!" Bill and Sylvia, from the bottom of our hearts, congratulations.

To conclude, you can understand how special we are making this 100th Celebration with this National Angus Sale. We'd ask you to please consider the offering, and make every attempt to join us live, for what promises to be a no miss event. For everyone at T Bar C, and everyone involved in the Royal, let's make this one to never forget. As always, please call any one of us on staff with any questions!

Pictured Above: The Coliseum in 1922. After the First World War, a group of farmers, led by a man from Brooklin, Ontario, urged to create a National Agricultural Exhibition. The main goal of this group was to set a national standard for the judging of domestic animals. The legacy of this event has evolved over the last 100 years to be recognized on a world-wide stage, and we are proud to be involved in creating a genetic marketplace on these historic grounds.

Pick of the 2022 OR 2023 TULLAMORE HEIFER CALVES

LOT 1

ONE HUNDRED YEARS OF THE ROYAL | ONE HUNDRED YEARS OF TULLAMORE ANGUS

We are proud to be a part of what is truly a momentous occasion, with the Royal hosting its 100 year celebration. But what makes it even more special is that in the same year, it is the 100 year anniversary for the legendary Tullamore Angus. Founded in 1922, Tullamore Angus carries one of the lowest active breeder registration numbers in the Canadian Angus Association. Bill and Sylvia of Tullamore are tremendous supporters not only to fellow breeders nationwide, but place heavy consideration upon the youth programming for junior members within the breed. The farm's home base is situated a mere 14 kilometres from Pearson International Airport, and is always a pleasure to visit. The history and heritage surrounding this nationally known program is endless. Never again will we see two 100 year celebrations converge like this. I find it so fitting to have Tullamore as Lot 1, under the bright lights of Lakeshore Boulevard in Downtown Toronto. As a junior member in my 4-H days, Bill was the voice of the Royal, his curtain call at ringside of the National Junior Beef Heifer Show is memorable to any that have walked one in the ring. The Jackson family will now reside at their new beautiful farm near Zephyr, Ontario to carry on their Angus program. This lot consists of picking any 2022 or 2023 heifer calf born at Tullamore. This has never been offered before, and is very unique. As many will agree, they don't make them like Bill and Sylvia anymore, and all of us are proud to celebrate this milestone event at the 100th Centennial of the Royal. **Pick to be made by August 1, 2023.**

BW: 82 lbs. Ross Bailey always told me, when you are analyzing cattle your first impression is usually the right one! WLL King Pin 13K is no exception to that rule! This bull calf gets your attention from every angle the first time you lay eyes on him! He is super stout, wide based, thick topped and yet still has great eye appeal and extension in his front end. What makes him extra special is his Pedigree. With the passing of SAV Renovation this past summer, the opportunities will start to become limited to use this amazing bull. Then when you take a look at the bottom side, he goes back to one of our best cow families, Black foot Lady. IF you are looking for a bull that will make herd bulls and donor cows 13K may just be the boy for you!

Consigned by Iris Creek Farms

Iris Creek Farms is honoured to be part of the 100th Anniversary Royal Agricultural Winter Fair Angus Sale. While "Show Me" is the first offering from our Angus program, 2022 marks 170 years of cattle on the same property for the Ribey Family. As well, Bryce, Kent and Taylor will be the 4th generation of Heather's family (McKenzie/Currie) to participate in the RAWF. 16K represents a combination of 2 of the top Angus programs in the world, Six Mile Ranch and Hamilton Farms. The Showman's have become the most sought after sire group in Canada with 48 sons averaging \$13,875 for Hamilton Farms in their 2022 offering. The crazy thing is, the Showman females may be even better than their brothers...we've seen them! We jumped at the chance to purchase Six Mile Ms Blackbird 386C in the fall of 2021. 386C had already produced Six Mile's \$23,000 high selling bull in their 2019 bull sale as well as an \$18,000 female to Allison Farms and they have retained a full brother to 16K for in herd use. We could have just as easily named this guy "Show Me the Numbers". His 68 lb birthweight reads like a dream, along with CE and BW EPDs in the top 6% of the breed. WW and YW in the top 5%, while still maintaining REA, FAT and MM in the top 10%! Where else are you going to find numbers like that!!! But the proof is in the pudding and this stud has a terrific herd bull look right from his perfect head to his powerful, flawless structure that easily struts around. This guy just looks like pounds! Performance and pedigree in a pound heavy package! We wouldn't be surprised if the new owners make their own history with this guy. **Selling 3/4 interest, full possession.**

With the return of the Royal Winter Fair and the Royal Angus sale after 2 long years, it seemed only fitting to offer the standout bull calf of our 2022 calf crop. Knockouts selling feature is his back one-third, and it sure packs a punch. Packed with lots of muscle, width and length of body and a quiet nature, this bull has all the features to be an impact herd sire. Backed by a productive and powerful cow family, he comes straight from Curraghdale 8E. 8E is matched with lots of hip, length and tons of milk. She is the dam of Loyal Winsome 204H that was shown as a junior project in 2021, and won Reserve Champion yearling at the 2021 Premier/ Fallsview show. Knockout has been on the show road this year, winning Champion Angus bull at DANG Beef show and top 3 at Blackout, Barrie Fair and Warkworth Fair. This bull has the potential to be shown in 2023 show season and advance any breeding program.

Consigned by Hillspride, Premier Livestock, and Hasson Livestock

A special sale feature here. Barbara 17F was the feature high selling female in the 2021 Fallsview sale, selling 1/2 interest to Hillspride. We would like to thank Ranch Covey Hill and Mac Angus for believing in what we think is as good an Angus cow as we have had the privilege to work with. 17F is a cow that combines the outstanding phenotype with incredible production. In 2021, she raised a powerful heifer that was the high selling heifer calf of the Fallsview sale to our good friends at Derrer Farms. This year she has out done herself on a bull calf that has grabbed the attention of visitors throughout the summer, watch for him to lead off the 2022 Fallsview Sale. I could go on and on about this cow but better yet we would like to invite you to come see her in Toronto or at the farm anytime and you can be the judge!!

We are excited to offer our best heifer calf from our showstring for the 100th Anniversary of the Royal. This standout daughter of PVF Marvel puts it all together in the perfect package. Big hiped, big topped, but has a front end that is as long and attractive as ever. Her mother would be the crowd favourite here at Worth-Mor on pasture tours, and is the kind we strive to breed year after year. This stylish heifer has shown very successfully this summer and we feel that next year could be even better! We would be happy to work with her new owners and campaign her next year on the show road road if so chosen! Don't miss this sweetheart in Toronto under the big city lights!

Consigned by Premier Livestock, Hasson Livestock & Mainstream Genetics

When we got word of the Royal sale, we thought Empress 213 was a logical female for such an elite event. Here's a royally bred female who's lineage has strong roots at the Royal Winter Fair. Her dam was Reserve Champion Female at the Royal as a heifer calf. And of course her Grand Dam OSU Empress 3100 who made her show career debut there in 2015 being awarded Grand Champion Angus female and Supreme Champion female of 2015 as a Yearling heifer. She came back the following year as a two year old to repeat as 2015 Champion Angus Female and Supreme All Breeds Champion Female, the only female in the 100 year history of the Toronto Royal to be named Supreme twice back to back. Empress 213 dam is also no stranger to the Toronto Royal herself. Premier Hasson Empress 706 sold through the Royal Sale along with her full sister to Mainstream Genetics in Saskatchewan. Also she was named Jr Champion Female in 2018. This young females pedigree has as much Royalty as any!! Her sire was the 2021 CWA Reserve Champion bull, Chestnut Turning Heads, a bull admired for his overall mass and style. 213 herself is a stout made female that has the structure and look that makes us feel confident she will carry on the legacy of her ancestry.

OFFERING CHOICE

Clarke Family Farm is very honored to be asked to consign an angus heifer calf to the prestigious 100th Anniversary Royal Winter Fair Angus Sale. The Clarke Family started their angus herd in 2018 and will be calving just over 100 angus cows this coming winter. When Ben stopped in to ask us to consign we were excited to give him a pick of the heifer calves, after visiting and picturing we couldn't narrow it down to which one so we are giving the choice of our lead off heifer calves. Both heifers show huge potential for making great show prospects and with the Clarke's Jr Program it's a WIN WIN!! Both heifers go back to powerful momma cows, they are hard-working, easy doing and no miss kind of cows. Great AI sired out of the famous SAV America 8018 and LD Grazer 7090. Look forward to seeing you at the 100th Royal Winter Fair and visiting with you.

Blackbird 102K is a super complete, long sided, big ribbed easy keeping kind of female. 102K is a sound moving, good footed stout made daughter of Musgrave Colossal, one of Semex's most popular calving ease sires. Colossal daughters are now in production and are making outstanding cows. The dam of 102K is a Primo daughter that goes back to the Locust Grove Blackbird cow family that we just love, she is sound, good looking, heavy milking with a great udder in a youthful package built to last. 102K and her dam have been very competitive in the show ring so far this fall and admired by a lot of astute cattlemen that have seen them. We believe that Blackbird 102K has a bright future whether it be as a show heifer or future foundation female.

Just like a fine wine, Rail Line Deer Park Skye 17K just keeps getting better with time! If you are serious about showing cattle 17K puts it all together for you. She is very attractive through her front third, is soft sided, long spined and has an abundance of rib shape and volume along with great hair and the ability to get out and travel. This end of February calf has a long future of walking the tan bark ring ahead of her. When talking about the history of the Royal Winter Fair and the 100th year celebration it is only fitting to conclude with the accomplishments at previous RAWF shows of SKYE 17K's pedigree. Her granddam DRM Miss Morgan 28Y captured Supreme Female in the Angus Open Show and Champion Angus at the National Junior Beef Heifer Show. Her granddam RLF Morgan's Skyle 7F was chosen 1st in class at the National Junior Beef Heifer Show. To top it off the dam of 17K's sire FCF Missie 610 was the Reserve Angus at the National Junior Beef Heifer Show. 17K's Dam RLF 5H was ready to walk in the same tracks but unfortunately the Royal was cancelled d/t the Covid Pandemic but she will be there in 2022 with 17K at foot looking to add to this winning pedigree.

Consigned by JPD Farms

We are extremely excited to be offering this Schiefelbein Attractive female at the Royal Angus Sale. Her potential is endless in our eyes. 6K, like her mother and maternal sisters, is a structurally sound, powerful female. Her WW and YW EPDs rank in the top 5% of the breed and it definitely shows. Her own weaning weight on August 22/22 was a whopping 792lbs. This means her ADG from birth to weaning was 3.00lbs/day. 6K carries all this power in a complex feminine package. She is both big boned and clean fronted, deep sided and balanced. The Pride cow family is becoming one of two prominent cow families at JPD and for a good reason. These females work. JPD retains two maternal sisters to 6K as well as a full sister to 6K's dam. We don't plan on letting too many more of this maternal line go. To top it all off, 6K has the most beautiful disposition and would make an excellent junior project for next year.

 5T MISS WIX 8002 GREIMAN JENSEN PROVEN QUEEN7

A Proven Queen fresh out of our ET program. If you like Angus cattle with a look, deep middled and from a cow that gets it done time and time again, then this one covers the bases. Stop by our stall to check this one out in person along with her maternal brother to see what her dam is capable of producing from both sexes. A full sister was a featured lot through the Fallsview sale in 2019 and has gone on to produce well with an impeccable udder. These Powerchip daughters are docile, functional and easy fleshing. I promise this won't be the last you hear of the Proven Queens and it is safe to say getting in early isn't a bad thing!

Consigned by Gilchrist Farms

Mercedes.... Where is all started for me back 20 years ago and since then her name, legacy and proven predictability continue to surface them to the top. They are deep sided easy fleshing cattle that just plain produce. This is one female that is long sided, attractive and feminine while boasting a bold rib structure. Watch this one on the move she covers her tracks with ease and has an abundance of flexibility

Consigned by Deer Park Angus

Show heifer deluxe! This is pedigree that is 10 years in the making after her grand dam DRM Miss Morgan 28Y was crowned National Champion at the RAWF in 2012. Morgan 2J's dam is a PVF Insight daughter that we didn't end up campaigning as a result of COVID but she has matured into a beautiful uddered foundation donor for us. Her sire C&C McIntosh, a Dameron First Class son which lends to one of the most popular mating's in the show world with First Class on the top side and PVF Insight on the bottom. I have no doubt that the power, muscle and up headedness of 2J will make her a outstanding yearling and future donor. Seller reserves the right one successful flush at the new owner's convenience

PVF BLACKBIRD 3070 DRM MISS MORGAN 1S

Consigned by Deer Park Farms

We're offering another opportunity to purchase genetics right from the heart of our herd. Morgan 12J is out of our 29Y foundation dam that is a 3/4 Sib to the 2012 RAWF champion. Being one of our most consistent and eye appealing cows on pasture walks, she is still youthful enough that we have been successfully campaigning her this fall as a 11 year old with Morgan 12J at her side. Her sire, PVF Blacklist, one of the hottest sires in the breed right now and we think this heifer would make a great Junior project as she is extremely docile, good haired and ready to hit the show road in 2023. After her show career the mating options are endless as she has no other First Class in her dam's side and everyone is catching on that Blacklist X any First Class son is the latest and greatest mating.

LOT 23

SHOWING CATTLE

When the decision is made to commit to putting forth the effort to exhibit cattle at the National Show level, the undertaking can be daunting. That being said, I know that as a child some of my fondest memories of growing up were made showing cattle... and as any exhibitor will know, some of my most disappointing ones. The competitive edge, drive, and hours of utilizing a hard work ethic that goes into this sport is overwhelming. The life lessons learned along this road are invaluable; the knowledge on how to improve from where you are that is gained from participations in these competitions is like nothing else in life. The rich, deep-rooted history of the Royal is what makes the first week of November the most special time of the year. I remember being in the Royal barns, and everything else going on in life and the world faded away, it all stopped for the Royal. The expenses that you exhibitors have put out does not go unnoticed, and I certainly appreciated by the members in showcasing this large breed of cattle. At T Bar C, we are proud to be involved with the heritage surrounding the Royal Agricultural Winter Fair, and encourage everyone's attendance for the star-studded lineup featured on Saturday night. So plan to be ring side, take in the events. If this is your first Royal experience, I assure you that you will enjoy yourself, and will be keen to do it again. If you are a Royal veteran, there is no need to explain the anticipation of this 100-Year Centennial, as it has the ingredients to be the best one ever!

SIRE OF EMBRYOS

Peak Dot Heather 541B is an impressive looking donor that is a big time producer that has raised many feature bulls in years past and daughters retained at Peak Dot at the top of their program. The successful progeny that this donor has produced over multiple sires is a true testament to her breeding capabilities. She has an awesome udder, good footed, big hiped, well balanced, attractive fronted and has that true maternal look. We think the world of the mating here. Big Rivers first calves have solidified his phenotype and genetic potency. His progeny are well constructed with lots of size and shape and as much body and depth as any sire we have ever used.

The Peak Dot program is one of the cornerstones of the Canadian Angus industry with their semi annual production sales putting hundreds of good bulls into the industry year after year. The Peak Dot donor roster is not to be overlooked as they have retained their top females for a number of years now and their ET progeny pens are absolutely stacked with quality. The 402U donor has stood the test of time and is one they are still building around as she has an outstanding production - record and is powerful in every dimension. Prototypically she is excellent - super fronted, long and deep with a well attached udder. Maternally she is as good as it gets going back to *Lady* of Peak Dot 782L the most influential cow in Peak Dot history with 68 progeny. 402U herself is up to 50 registered calves in the CAA registry with her sons highlighting the bull sales and her daughters continuing to build the *Lady* cow family as the largest at Peak Dot. **Guarantee one pregnancy per package if implanted by a certified technician. TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation

period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may, in exceptional cases, be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
