

STEPPLER FARMS

*Female Sale*

100 FOR 100

DECEMBER 14, 2022 // 1:00 PM // AT THE FARM, MIAMI, MB

Welcome to the Stepler Farms female sale! It's time to celebrate. One thing we have learnt these past few years, is that you must celebrate and get together with your friends and industry partners whenever you can. We all need excitement and something to look forward to and this female sale was designed with those two ideas in mind. First off, we really didn't have a chance to celebrate our 100th year farming in 2021, so we thought let's do it now; 100 lots for 100 years farming. Then in true Stepler fashion, we need to give back to our community. Friends, Darrin and Wendy Pearson, came to us with the vision of donating a heifer to STARS. We jumped at the idea to partner with them for this great cause! See Lot 1 to see how you can donate to STARS getting a full tax receipt and have a chance to win a fancy show heifer.

This year's offering is our very best of our bred heifer pen. When putting together a set of sale heifers, the goal is to sell cow family building females. To accomplish this, they must be correct, functional and maternally backed. As you go through the sire groups, you will notice correct udder structures, ample depth of rib and angular made females. It's simple, feminine-made females that produce those masculine, sought-after bulls.

Juniors take notice of the heifer calves on offer. With the 2023 National CCYA conference being held in Brandon, MB this upcoming July, it's time to find your junior project. Every one of these females would make ideal candidates. All heifers will be tie broke and if time allows, we will halter break them as well. We will also offer to keep your purchase here and deliver her to the CCYA show. With Brynn here to get these heifers bomb proof, buy with confidence to have a great CCYA experience and then watch your show heifer develop her own cow family.

We would also like to introduce everyone to our new sale management team here at Stepler Farms — T Bar C. Chris and his team bring a strong industry presence, while producing a fun, professional atmosphere!

The heifer pens are always here for viewing, as well as the 120 plus sale bulls on offer this February 15th. This will also be our first sale in our new sales facility, so come and enjoy the celebration!

- Andre, Katie & family

# STEPPLER FARMS 100 for 100

FEMALE SALE // DECEMBER 14, 2022 // 1:00 PM // AT THE FARM, MIAMI, MB

## FROM THE DESK AT T BAR C...

Welcome to Stepler Farms Female Sale on December 14, 2022, at the farm in their new sale facility, Miami, Manitoba. This is their "100 for 100" event and more importantly they celebrate 100 years in farming. In a diverse farming operation, Stepler Farms will rank as one of the largest Charolais herds in the country with successful annual bull sales.

The Steplers believe in strong family values and community involvement... in celebration of 100 years, their commitment to the community is with a fund raiser for "Stars". The lot 1 heifer is a high value prospect out of the top of their herd and will make a foundation female for the lucky supporter.

This celebration, 100 lots for 100 years is outstanding with foundation quality from end to end. This great cow herd was developed by using strong family values as well and 2022 offers top females out of the foundation families that makeup the herd. The 2022 models are fancy and exciting... chosen for their competitiveness. With the 2023 CCYA Conference hosted in Brandon... the Steplers offer 4-H and junior members assistance with their purchases, so they can be involved and compete in this exciting event. The heifer calves will be tie-broke and probably halter broke.

Over the past decades, Stepler Farms has built a program on walking bulls – walking bulls of high quality and purpose. This process has maintained uniformity in type, fertility and quality as the herd is made up of half and three-quarter sisters. The bred heifers in the sale lineup all come out of the replacement pasture. Most have early service, sport broodiness and capacity and have great udders coming... like their mothers. December 14th will be an opportunity day in the Charolais industry as you will have the chance to acquire and build your own cow family (s). This is the largest offering of bred yearling heifers in North America.

The success of Charolais throughout the sale barns in the nation will increase because of the need to fulfill commercial bull batteries. Top quality Charolais females get higher every week... now is the time to put fresh Stepler genetics into your breeding program. Stop by the farm, any time prior to the sale, view the awesome lineup and get a peak at the mothers and brothers.

Join us and be a part of a hundred-year celebration! Feel free to give any of the T Bar Team a call and we will assist with your purchases in a professional and confidential manner.

**1B Gilbraith Farms | \$10 000 WORTH OF SILAGE CUTTING**

Peter and Joanne have really stepped up to the plate with this great donation to our STARS fundraiser!! Gilbraith Farm Services have been a member of our farming team ever since we started feeding silage. Their wisdom and high quality service has led our farm into a new feed strategy that not only produces us a lower cost/head/day and brought us into the 21st century.

This donation is \$10,000 worth of custom silaging service in the 2023 cutting year. Gilbraith Farm Service offers custom silaging to farmers across Southwestern, Manitoba. They have been in business since 2004 and they strive to provide the best for their clients.

**LOT 1B**

**1C Joan McDowell | 1 HOMEMADE QUILT**

Joan McDowell is one of the most talented quilters I know and we are honoured to have one of her favourite quilts to be put up for auction for this great cause. For all you Marilyn Munroe fans here's a quilt for you.

**LOT 1C**

**1D Brynn Stepler Pies | 3 HOMEMADE PIES**

Brynn has become quite the talented baker and she jumped at the opportunity to donate 3 homemade pies. Bid with confidence here can be gluten free or all the gluten you would like.

**LOT 1D**

LOT 2

Steppler Miss Cove 27K is one sweetheart of a heifer. She has already been taken out to the Black Sands Jackpot Show in Virden, MB and boy was she nice to work with. This stout made Houlio daughter comes from our PCC purchase a few years back; Miss Prairie Cove 307A. 307A has been that consistent producer her and will calve again this January at a coming age of 10. We have been so impressed with our Houlio calves that we had to buy back into the bull at the foundation sale! Houlio will continue to make his mark for years to come.

LOT 3

Here's the show heifer! This heifer has CCYA written all over her. 55k can be taken out several times making and has been very successful on the show road, making it to the final run at the Virden All Breed Black Sands Jackpot Show and then shown by Brayden at Ag-Ex. Take notice of this heifer's bold rib shape, correct structure and that beautiful front end. she comes from on our strongest Pursuit daughters, 193D, who is also the mother of the lot 25.

Here is one special lot coming from our great 52G donor female. 52G was our highest selling female to date going to our great friend Sarah Galbraith for a commanding \$45,000. Simply put Winchester x Braxton x 80X is truly one special genetic design. Maternal power at its best. Now add Houlio into the mix and wow what an opportunity! We really admire how correct this female is and carries herself with pride and fluidity! CCYA candidate for sure!

**LOT 4**

With CCYA coming up next year in MB, we wanted to offer up some of our very best. 110K is that fancy made show heifer that has all the attributes to continue into that competing show pair. 110K dam is one special Winchester daughter here, that is also backed by Braxton and Seminole. That sweeping depth of rib, correct structure and that docile temperament makes her quite an exciting show prospect.

**Pro-Char Diamondback 113H | SIRE**

Diamondback is one of the best footed red factor bulls I have ever been able to find. He runs on a huge hoof and sets up on it perfectly. When developing the red factor division, foot structure was a must. Now designed along with performance, these Diamondback daughters have a great future ahead of them.

**LOT 6**

Here's one of the first Diamondback Daughters to sell this fall. We wanted to select two high level red factor daughters to highlight our red factor program here at Stepler Farms. With the red factor division in its early stages, we definitely should be keeping this female at home.

**Stepler Miss 303J** | MATERNAL SISTER SELLS AT LOT 43

Here's another Diamondback daughter that will make a great cow. When picking females to enter the donor pen, I picked a young female that most wouldn't look at. 383E is that heavy haired, deep chested, has that cattleman udder, correct as they come and stems from one of most consistent, long lasting cow families. Sounds good right, but yes 383E is horned. Bred to Diamondback of course the resulting calves are all polled, smooth headed and to simply put it, it worked

**LOT 8**

**Stepler Miss 322H** | MATERNAL SISTER

Here's the full sister to our lead of red factor bull Stepler Trade Secret 167K. 167K is a dark red, long spined, correct, performance orientated son of Pro-Char Diamondback 113H. We wanted to highlight how great this cross is by offering 156K. Performance and backed by one of our most consistent Sparrows Copenhagen daughters 268B. 268B was put into our donor pen after she knocked it out of the park producing us Stepler Miss 322H our highest selling heifer calf to date to our good friends at Pro-Char Charolais

This moderate made Flagstaff daughter so can make friends in the heifer pen. Stout, correct, feminine made and heavy haired. Juniors take notice if you are looking for that bomb proof candidate!

LOT 11

Every year when selecting heifers for this sale, our goal is to offer one from each of our up-and-coming herd sires. 9K is a great representation of what is to come from our Junior Herd Sire Beck Magnum 2017. This heifer carries her head up naturally with that added neck extension and follows up with an abundance of rib and stout structure. Docile is nature and comes from one of our strongest Seminole cow families.

## 12 CHOICE FLUSH TO BE DONE BY MARCH 1, 2023 // GUARENTEE OF 5 EMBRYOS

Opportunity knocks here with the opportunity to flush any female here at Stepler Farms. This cow herd has been developed over the last 49 years and supplies progeny to host one of the largest Charolais bull sales each spring and the only annual female sale in Canada. You exclusively get the chance to go through over 600 head registered Charolais females to pick your next foundation cow family.

Females are sired by industry greats – Sparrows Seminole 927W, Sparrows Braxton 519C, Pro-Char Winchester 6D, Sparrows Copenhagen 210Z, HTA Contender 605D, Stepler Pursuit 178A, Stepler Jack Black 387F, JWX Burnin’ it Down 613B, Becks Charm 869F just to name a few.

We also had the chance to acquire one great Full French female from EMB Charolais this fall, Echo Springs Orianna 13C! She is my type of Full French female, stout, added bone, correct structure, huge spring of rib and has consistently produced herd sires type bull calves.

Majority of the Stepler females will calve in January and will be ready to flush in the early days of March. Pick to be done in the Spring of 2023 and to be performed at the buyers choice. Guarantee of 5 embryos

We had the opportunity to buy into this great bull by acquiring a semen interest in Bourbon through the PCC bull sale last fall. Knowing that we were contemplating the idea of a 100 for 100 female sale, we knew we needed to have a service sire to the heifers that would help create excitement around the sale and produce an extremely exciting calf crop. After seeing Berkly at Agribition, we knew we wanted her genetics involved here at Stepler Farms. After a few phone calls to Chris, we had found the bull; PCC Bourbon 118J. Bourbon froze semen right away and we AI'ed over 100 head to him. We also took the opportunity to flush several cows to him as well. Bourbon then took off on the show road this fall and heads were turned; Grand Champion bull at Olds and Reserve Grand Champion at Farm Fair! What great accomplishments and we are extremely pleased with all the hard work Tyler and Justine have put into this bull and look forward to a great partnership going forward!

Stepler Miss 52G is proving herself as great donor female. She was purchased by Sarah Galbraith out of our 6th Annual Female sale for a commanding \$45,000 and has remained here at to be managed at Stepler Farms. This female has already sought the interested of Kay R Charolais, Circle 7, Hunter Charolais, and Eagle Valley Farms, and Greg Pugh through the rights to flush and embryos purchases. 52G first embryos calves have hit the ground here and they are impressive; consistent, heavy haired and extremely correct. They will be features in our fall females sale run and our long running bull sale! The matings to 52G are exciting to say the least; Bourbon and Houlio. Bourbon our female maker, back by Berkley herself and Houlio one of the most sought-after AI sires. Great opportunity here to step into our industry leading genetics. Co-owned with Sarah Galbraith

Stepler Jack Black was retained here at Stepler Farms solely to produce us great females once we turn out the walking bulls. Check out the maternal pedigree here, Seminole, Fort Minor 140U, Matador, and 66A. It was no mistake that Jack Black would consistently produce these feminine made, correct, fluid, deep chested females. This sire group would be my pick and lets not forget at Stepler Gabby 546H, our elite show female this year, is a Stepler Jack Black daughter.

Here's could very well be my pick of the heifer pen. I am an absolute fan of the Jack Black sire group and this heifer comes to the top for me. She comes from the White Arrow cow family and her dam 229E is a maternal sister to one of our high selling females; Stepler White Arrow 104A, who was purchased by Dale McKay through the Agribition sale as a bred heifer. 104A went on to be shown as a pair with her bull calf at side, Stepler Blue Print 64C' who has his very own sire group in this sale. 287J breeding date I think can be blamed on the 6 Colorado lows we had this spring. I had missed her repeat after the sync, resulting in her being bred to our Stepler High Level 535H bull.

EXPOSED TO STEPPLER HIGH LEVEL 535H FROM MAY 15TH TO JULY 15TH, ESTIMATED BREEDING DATE MAY 15TH

Steppler Why Not 28J is one impressive female. If you are looking to add a higher level of performance to your herd this female hits the mark. 28J's grandmother 15Y has been an elite producing female and will calve again this January at 12 years of age. Here's also your only chance to acquire the service to our new Jr Herd Sire Highway Estrada 4J. Check out this young sires EPDs. Negative Birthweight EPD with a YW EPD reaching in that top 4% of the breed.

MAY 16, 2022 NATURALLY BRED TO HIGHWAY 21

Here's a big power, deep chested, wedge shaped Axel daughter. This heifer is truly one impressive female. She is a pen favourite and with her early service to Galveston, this investment will be a great one. Her dam, Stepler Miss 122C, continues to triumph here in her production. One highlight was her high selling Braxton son, Stepler Jensen 233F, selling to Pleasant View Farms, Irma AB.

Feature here! 103J could very well be the stoutest made, heavy haired female in the pen. She sets up on a correct structure and is backed by one powerful Copenhagen female, 84B. 103J is already setting up and beautiful udder and being ultra-sounded safe to the AI service, the resulting Bourbon calf should be a unique breeding piece. During the repeat on the sync, we experienced another Colorado low and heat detection was almost impossible. I wanted to make sure I wasn't missing any so a few heifers were AI'ed that may not have been in heat.

We first saw Full House at Agribition as a calf, where he was named Jr Bull Calf Champion. Then we were luckily enough to acquire him the following year in the PCC bull sale. Full House has really made an impact here at Stepler Farms. Not only has he produced us some our highest selling bulls, he has consistently provided that docile, beautiful uttered, cow family builder type heifer pen. Check out this large Full House sale offering. Normally we would only be offering 3-4 Full Houses, but since its 100 for 100, you will be able to a select out of 12 own daughters and 4 full house granddaughters.

**LOT 37**

**SOS Jackpot 158J | SERVICE SIRE TO DSY 33J**

**Mel B | BRYNNS 4H HEIFER RAISED BY SAME DAM**

Here's quite an offering here. Not too often do we sell twins in the female sale. To be honest, in most cases I would rather just have one born. However, this is definitely a double up situation. 194A, Seminole daughter, did a great job raising both of these heifers and it's hard to tell them apart. 194A also raised Brynn's 4H heifer, Mel B, who made a lot of friends on the summer show road, winning her interclub as well. Both of these heifers are big ribbed, correct and docile. 33J is AI bred to new AI sire SOS Jackpot 158J. He is a calving ease Duty Free son. 34J is also AI ed to CKE Mitch 5H. For added consistency swipe the ring here, it'll be exciting to see these two develop into great cows.

303J is one of the main reasons that we decided to put her dam 383E into the donor pen. If I could design the ideal female here that continues to produce us the cattleman type herdsires, it would be 383E; Heavy haired, super correct, stout made, beautiful udder and sets up on a solid foot. Most would not even look at flushing a cow like 383E since she is a horned female, but I kind of think that's maybe the very reason she ended up in the donor pen.

We bought Braxton because we believed he had the potential to take our cow herd to the next level. By teaming up with Beck Farms, SK, we were able to purchase this breed leader who was the highest selling bull in Canada that year. Braxton is one of the most impressive bulls we have ever walked at Stepler Farms. Braxton is so fluid in his stride; he is quiet, deep chested, huge hipped, with perfect structure, and he comes from a tremendous cow. The calving ease in this sire is second to none. The calves have tremendous amount of vigour at birth and never look back. The Braxton females are simply awesome.

We purchased Winchester from Pro-Char Charolais to run in our heifer pen and what a job he has done for us. Winchester was recently purchased by CK Sparrow Farms and will continue his consistency in calving ease. We probably didn't realize when we bought Winchester, how great a female maker he would become. The Winchester females are simply awesome. The whole sire group is consistent in their moderate frame, easy doing ability, sound structure and are already laying down that cattleman's udder. The Winchesters calved efficiently and are great mother cows, with ample milk and beautiful udder structures. Winchesters are such functional females that can do so much for the industry.

Hacienda, aka Haus, was purchased from CK Sparrow to be used a walking herd sire after the AI program here at Stepler Farms. He quickly was given a group of cows after we started to see the results of his offspring. Haus in my opinion was one of the best Lanza breeding bulls in the industry and we were luckily enough to have him walking here.

Sale feature! Here is one of my favourites and I would bet this could be the female that out lasts them all. Haus, Seminole, and the 61E cow family they all point to the basics, longevity, functionality, production and presence. This female should not be leaving, but it's the 100 for 100 sale; so, this as your opportunity to buy one great female.

Steppler Haus 273G was retained as a yearling to run I one of our pastures and then to be sold as a feature two-year-old. He did exactly what we wanted him to do. Sired some great retainable females and then highlighted the strength and depth of our two-year-old division in our bull sale. He sold to some of the most astute cattle producers Darryl and Teri Munro I know and is going a great job there!

Game Changer was high selling red factor bull coming from the HTA program. He's absolutely stamped his calves with that long spine, correct structure and muscle mass. We only have the one female in the sale only as a result of most bull calves born from this sire. 158J is a great example of the power we get out of the Game Changer bull. Further back in the sales catalogue but that has zero bearing of the quality of heifers!!

## Our Program

Production and efficiencies are very important on our farm. We have a short, intensive breeding program. All females are AI bred for efficiencies and calculated matings. We try to get 95% of the cows exposed in the first cycle with a 70- 75% conception rate. Correct, accurate nutrition, high quality semen, and time invested in heat detection and inseminating are the keys to achieving this target. Once the cows go through the 28 day AI program, the herd bulls go to work. Since most of the cows have conceived already, the herd bulls are ultimately clean up bulls. The mature bulls easily travel throughout the last 32 days of the breeding program. All females are pregnancy checked early in the summer and culls and opens are taken out.

We maintain a high and rigorous herd health regime as outlined below. This enables us to have a successful breeding program and ensures potential buyer the high health standards of these sale cattle.

## Calf Herd Health Protocol

Birth – Inforce 3, Selenium/Vit A, Toltrazuril

3 weeks of age – Pyramind 4

Early processing (pasture time) – Covexin 8, Ivermectin

Weaning – Express 5/Somnugen, Covexin 8, Ivermectin

## Cow Herd Health Protocol

Pre-Breeding – Express FP 10

Pre-Calving – Scour Bos 9, Covexin 8, Ivermectin, Bred Heifers Scour Bos 9 and boosted with Scour Bos 4

All vitamins and minerals fed through a TMR

## Bull Herd Health Protocol

Prebreeding – Express 10 FP, Covexin 8

Off season – Ivomectin

All vitamins and minerals fed through a TMR

# Terms and Conditions

TERMS AND CONDITIONS FALL 2022

**TERMS OF SALE** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATION:** Each animal will carry papers issued by the Canadian Charolais Association unless otherwise stated. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**PEDIGREE ESTIMATES:** Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HEALTH:** The health of the herd is excellent. All cattle in this sale is free from disease or defect to the best of our knowledge. We guarantee that all sale cattle will ship to Canada or mainland United States. All cattle are on a full herd health program. Our veterinarian is available for consult upon request.

**GUARANTEE:** Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Charolais Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

**PREGNANCY GUARANTEE:** All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**INSURANCE:** We cannot stress strongly enough the importance of insuring your purchases immediately following the sale. Your purchased animal is your sole responsibility as soon as the sale concludes.

**ERRORS:** All announcements at sale time, written or oral, supersede any written material in the catalogue.

**LIABILITY:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**Phone, Mail, Wire Bids:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.
