Welcome to the 29th annual Keystone Klassic the first Saturday in December, Brandon, Manitoba. For nearly three decades, these breeders have come together showcasing the best of their breeding programs. For many of the breeders involved, this event is their production sale; therefore they highlight the best they can produce...allowing buyers to capitalize by adding front pasture seed stock into a program.

This is a powerful group of selected Angus breeding stock from leading breeders who introduce the newest and freshest genetics... many are sisters to bulls who to the spring bull sales. In events like these, buyers can find diversity in both genetics and phenotype which can move your program forward. In this, the last month of the year, being close to tax time, you have an ideal opportunity to help your tax situation and herd in one fell swoop!

The offering will be available for viewing on Friday with a "Salute to Santa Gala" that evening after chores. Come early for a sneak peek and meet all these progressive Angus breeders...both Black and Red!

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, as we will help you in a professional manner.

We wanted to offer something special for the Keystone this year and this young cow is exactly that. She is as deep, thick and broody as you can draw one up and yet she moves effortlessly, has an excellent udder, and ideal foot structure. From any angle, she has that brood matron presence that is hard to find and impossible to duplicate. Her dam is a 3/4 sibling to our Agribition National Champion N7's Blackwood Lady 2T and her sire Resource has left his mark with a set of outstanding daughters in our herd. They are docile, easy fleshing, fertile, have great feet, and have that extra muscle and stoutness we love. She's bred early to Bruns Blaster and we are keen on the calves we had from him this year. We truly believe this is the best female we have ever offered for sale and as such, we would like to retain rights to 1 flush at the new buyer's convenience and at our expense. **AI bred May 1, 2017 to Bruns Blaster. Exposed to N7's Tony Montana 60D (Shipwheel Montana) June 3 to August 15, 2017. Preg Check favorable to AI.**

Don't miss out on this heifer. Every day she looks a bit more like momma but I think she's going to be a touch longer and a bit fancier if you can believe that. Combining her outstanding mother with the calving ease of Angus Valley was an easy decision and you can see how well that combination worked. She will be part of the show string this fall; if you're looking for a junior project, she'd fit the bill but I think she has a chance to be an even better cow than her dam. Don't sleep on this one.

Fortitude has really impressed us with his first calf crop. Calves consistently come easy with low birth weights and then grow, grow, and grow! They are strong topped, with extra length and loin and have been docile and easy to handle. This heifer's S A V Pioneer mother was a show heifer for us and has matured into a really nice cow. This gentle calf would be an ideal show heifer for a younger junior and should make for an excellent female down the road.

Sired by breed sensation, American Classic, we see tremendous potential in this female. Her dam has been one of the most consistent cows on the farm, producing many past sale features. This may be her best yet! 944E is powerful in her design, yet maintains a moderate frame and flawless structure. Be sure to check her out sale day!

Here is a rare opportunity to acquire a calf out of our many times show champion Ramrod Nova 230Z. Everyone always picked her out on their pasture tours this summer as one of their favorites. The older this calf gets, the more amazing she becomes. She is super sweet made with tremendous depth and body in an attractive package. Her sire Leachman Sagahatchee 3000C is known world wide as one of the leading female producing sires.

Whether you are looking for your next brood cow or a competitive show female, Fairlight Jestress 10E is the complete package. This heifer is a granddaughter of the great Belvin Tres Marias Patron 205. With N7 being her sire's prefix, she is backed by some of the most proven genetics in the business. Patterning much like her tank of a dam, Blair's Jestress 328Y, this heifer is sure to become a powerhouse cow. Fairlight Jestress 10E has the show heifer look and a sweet disposition that will make her a great junior project as well.

Here is a brood cow in the making! This heifer has always stood out from birth and coming from a first calf heifer makes it even better! 3E will catch your attention with her overall mass and that eye appeal that we all like. Ask Chris about this cow family because when he was out, he saw all three and how good they are. She is entered in Brandon and Agribition, so stop by and check her out yourself before the sale!

This heifer is the first to sell by my new herd sire Brooking Sterling 5045, a Harvestor son that will add a lot to anyone's program. 10E is a feminine fronted heifer that still has that depth to her. This heifer has that added stretch and yet real straight in her lines.

We really debated on offering Winnie 14E for sale. She's out of the same EXT line that we sold two years ago at Keystone and was purchased by Kevin Blair for \$6000. She is also a half sister to last year's offering that was bought by Greenbush Angus and was Reserve Champion in her Regional Division. Winnie 14E is the style of heifer anyone would be proud to add to their herd; deep bodied, feminine and a great pedigree.

In November 2016, I started renting 50 bred heifers from Sandy Bar Angus, Aneroid, SK. I allowed Chris to select two of the top heifer calves out of these rented cows for this sale. 160E is a very thick, powerful heifer. Her mother, 35C is one of the larger of the Sandy Bar cows, but she is made right, with lost of depth and thickness. The Sandy Bar Ideal sire group has probably been the most consistent sire group all summer. If you want a heifer that will raise big, thick calves with lost of performance, look no further than Miss Tilda 160E.

In November 2016, I started renting 50 bred heifers from Sandy Bar Angus, Aneroid, SK. I allowed Chris to select two of the top heifer calves out of these rented cows for this sale. 154E is a very stylish, moderate framed heifer. Her mother 44C is one of my favourite of the 50 cows I am renting from Sandy Bar. Both 154E and her mother 44C have a lot of eye appeal, femininity, depth and correct structure. Pride 154E is a heifer that will surely catch the judge's eye at a jackpot show, and she is built to last in your herd for years to come!

She is proof that you can bid with confidence in the Keystone Classic sale. We selected this highly attractive heifer's dam out of the 2016 Keystone Classic sale and she has turned out to be a beautiful female with the structure and shape that we look for. She cranked out this future champion as a first calf heifer and is bred back early again for next year. ACC Missie 2E has the phenotype to compete in any show string and the pedigree to raise highly marketable progeny. She is sired by the very exciting Silveiras S Sis GQ 2353 who sired the \$127,000 Silveiras Saras Dream 6521 for the Partners for Performance Sale. Don't miss an opportunity to purchase a highly marketable female with a productive dam and sired by one of the most exciting sires on the market.

This female has been one of our favourites from very early on. She checks off a lot of boxes . . . whether you're looking for one to put a halter on and take in the show ring or for your front pasture as a mature cow. A moderate framed female that displays tremendous volume and rib shape. She is wide based and very sound from front to back. Arctic Chill is a keeper . . . but sometimes if you want to make an impact . . . you have to let them go! You can see her prior to sale day at Manitoba Ag Ex, Toronto Royal, and Agribition.

The Ruth cows are highly valued and a huge part of our cow herd. The foundational Ruth matriarch, Ruth 6F, shows up in numerous pedigrees in our herd both on the maternal and paternal side of the pedigrees. The Ruths have fantastic feet and udders. Production of the Ruth females are top end in our herd. The longevity of the Ruths is awesome. We still have 97E's mother, grandmother and great grandmother calving in the spring. This feminine, sweet fronted, attractive and appealing heifer will definitely be an excellent cow in the future. Ruth 97E is a one of only 84 S A V Pedigree progeny registered in Canada to date. All the other offspring of Pedigree, at our place, are shapely, eye appealing and structurally sound. Ruth 97E is halter broke and has the design and attitude to be a great junior project.

This is a gorgeous and feminine female from the Beauty cow family. The first Beauty was purchased from the Mountain View production sale in 345T, when she was a bred heifer. The coupon inside 345T was a S A V Pioneer daughter 96X. A daughter of 96X sold as a bred in last year's Keystone to Blair's Ag. 96X is a grand dam to Beauty 74E. Beauty 91A has been very productive for us. She produced our high selling bull in 2015, selling to CorVet Angus. We have used Vision Unanimous for four years now. These cattle explode from birth to yearling. They are very powerful and appealing cattle. We have one Unanimous daughter milking and she has done a solid job on her calf. We have three more Unanimous daughters to calf this spring. Angular, stylish, functional and structurally sound, this heifer is halter broke and would make a competitive junior project. Look to see her at Agribition.

Pride 4E is an attractive daughter of our young up and coming herd sire Grand Slam 80C. 80C is owned with Bell Angus from Pense, SK. All the calves from his first crop are in our keeper pens. They are stylish and attractive with solid performance for a calving ease bull. 80C got a larger group of females to breed this year. Pride 4E has an impressive pedigree on the top and bottom. The Pride cows are relatively new to our herd but are raising quality cattle here. This heifer willingly shows herself off and has a great deal of pride. Not much risk in purchasing this quality female. Pride 4E is halter broke is gentle to handle.

Another Breaking News daughter that will catch your eye. Her claim to fame is that her dam comes from the Royal Angus Farm at Ridgedale, SK. Lots of depth to this young lady. We just can't say enough good things about this Breaking News bull. These two heifers are the only ones being offered for sale because we have other sisters at home.

This female is our first Bank Note to sell! She is a very powerful heifer, weaning over 800 pounds early September. Her dam is a big powerful Network from our donor cows MLSF 5099. A cow family of great udders and sustainability. We have over 50 females in our herd from this donor cow family, purebreds and Sim Angus. Longevity is a strong trait, with their powerful conformation. She has great potential to be a herd maker.

Annie 39E will be the first daughter on offer sired by our main herdsire, Triple H Intuition 14B (Brilliance x Hoover Dam). Sons of Intuition sold this past spring, averaging over \$10,000. The consistency and style of the Intuition sired calves will have a lasting effect on our herd for years to come. Annie's Dam is a broody Mustang Daughter with a great disposition and a ton of style. Annie 39E is a deep bodied, wide topped sweetheart with a very feminine appeal. We will be showing her at Agribition this year and are very excited about the future she has in store.

NGW 27D is another great member of our Blackwood Lady cow family. From the very beginning with the purchase of our foundation cow, 123G, the Blackwood Lady cows have been our most maternal cow family. On top of that this heifer is not only a granddaughter of Agribition National Champion, N7's Blackwood Lady 2T, she is the first calf off the Connealy Imprint calf who stood at side of 2T in Regina, NGW 48B! We turned down a lot of offers on her, so we could bring her home and produce this kind of progeny for us. This is a truly special opportunity to acquire a heifer from one of our most coveted cow families. Her early service to Bruns Blaster only sweetens the offering. We have a set of Blaster calves this year that we absolutely love. **AI bred on April 27, 2017 to Bruns Blaster. Exposed to N7's King 90D (N7's Elvis 9Y) from June 3 to August 15, 2017. Preg checked favorable to AI**

Here's a SAV Angus Valley heifer that has a lot to offer. Her dam is a really good young Elvis daughter that made Cameron's short list of his favorites in the entire N7 herd. NB Cattle Co. made a full sister to 102B his pick of the N7 yearling heifers this spring and will have her on the show road this fall. 28D's grandmother, NGW 12W, is a model Angus cow and a favorite of any visitor. She is headed to the donor pen for NYK Cattle Co. this spring. Put Angus Valley on top of all that cow power and add in an early service to Mohnen Pulse and it makes for a pretty intriguing package. **AI bred on May 14, 2017 to Mohnen Pulse. xposed to N7's King 90D (N7's Elvis 9Y) from June 3 to August 15, 2017. Preg checked favorable to AI.**

Here is a heifer we are very proud of. She is resembling her dam more and more each day, which is the phenotype we have been striving for, and is from one of our strongest producing cows on the farm. Being bred to Blue Chip is exciting as it is very hard to get in Canada. She is super deep bodied with good feet under her as well as a quiet disposition. She is extended through her front end and is an all-round complete heifer that won't be hard to miss sale day. **AI bred to EXAR Blue Chip 1877B on April 2, 2017. Preg checked safe to AI. Pasture exposed to U-2 Choice Cut 37D from June 4 to October 3, 2017.**

Here is a powerful Rage daughter from the Karama cow family. She is as good as they come in her phenotypical make up, with a strong pedigree backing her that says she will make a tremendous cow. The Rage females are proving to be a valuable asset, with beautiful udders and excellent feet and Karama 143D is no exception. Her early mating to the outcross curve bending sire Koupals Kozi is sure to be an exciting one! AI bred to Koupal Kozi 418on April 10, 2017.

Heroine could be your next leading lady. Here is a female that is royally bred. Her grand dam was a national class winner and a high seller at the Keystone Classic as a calf. Her dam has produced three top females. Heroine is mated early to PA Fortitude, the outcross calving ease sire whose progeny have topped sales across North America. AI bred to PA Fortitude 2500 on April 18, 2017.

Right off the top of the bred heifer pen. A moderate, very correct, feminine ET daughter from Tour of Duty X Pollyanna 78S. We probably shouldn't be selling her but with Dr. Dave's good work and my lucky horseshoe, we were three for three last year on these embryos. We have a bull and heifer staying in the herd. Pasture exposed to Atlasta Bodybuilder 30D from April 29 to June 8, 2017. Observed bred on April 29, 2017, safe to observation date. Three of the last four years, Body Builder calves were the pick of the herd at Sutters.

5D has the maternal background to be a great foundation female like her dam and grand dam. 8X was a herd bull factory with a picture perfect udder. All her calves working for commercial producers and her only daughter, continue to impress! After losing 8X to injury and 42Z leaving a legacy mark deep in the herd, it was a very tough decision to let Chris have her. Carrying the service to the LMTC Bismarck 2C, whose first calf crop blew me away, you will be gaining a front pasture gem! Pasture Exposed to LMTC'S Bismarck 2C from April 1 to May 23, 2017. Observed bred April 13, 2017. Exposed to Mar Mac Ridge 54B from May 23 to September 1, 2017. Preg checked favorable to April breeding date.

Herd sire time guys, Electric has been a standout since birth, and was Bull Calf Champion at the Manitoba Summer Gold Show at Carberry in July. His sire YoungDale Believe 46B needs no introduction. His dam YoungDale Peg 21Y is a very sound, good uddered female that goes back to the great 77P donor cow used at YoungDale and KBJ. Gavin Hamilton told my dad 25 years ago, if you're going to get started in the purebred business, go to a reputation herd and buy a package of cows, so that's what I did last Christmas break. A jolly, white haired man with a big belly and a big heart got me started with a package of a dozen beautiful cows. Thank you so much Barry!

Anyone who follows the Right Cross Ranch program knows the Freyja cow family. This is the same cow line that produced Deception 19D who sold for \$17,500 to Rodgers' Red Angus in last April's bull sale. 90E is the most unique red heifer in our 2017 crop; the hind quarter and length that she brings to the table is unreal. This is your chance to own the first Freyja we've ever offered for sale!

We always give the selectors their pick of the calves when they come looking. Here is one that we feel will make a great cow for her new owner. She is a daughter of our Saughatchee cow and Brylors Ramba 2F donor cow. That Ramba cow is also the dam of our Roughrider bull. Ramba 103Y raised a bull that sold to M&J, a heifer calf was one of the high selling lots at last year's sale to JAS and Tibbett Enterprises and also has a female retained at home. Now for the sire side of things... Cale 98C is a bull we selected in the Southwest Bull Development Centre sale from Batho Farms. He stood out in the pen at the test centre and had "the look." He was a top competitor for their awards at the test that year. He is phenotypically flawless with his leg and foot structure. His sire was a son of our Answer 10X bull and was the high selling black bull at the test station a few years before, and is a full brother to the high selling red bull to JAS through the test as well. Another full sister to that bull sold through Red Roundup to Six Mile Red Angus, and a maternal sister from 22X sold through Red Roundup to EKW Red Angus in Hague, SK. And I can't forget to mention that 22X came through this sale from Emmat Creek to us as a bred heifer. Our Answer 10X bull is still here breeding cows and walking on perfect feet and legs and will be eight this coming spring. This heifer has outcross all through her pedigree and is full of great and proven genetics of both colors.

Here is a fancy heifer out of our Makn Waves son. His dam was a donor cow that Riley's Red Angus, Top Rung Red Angus and ourselves partnered on a few years ago. She had several good sons and daughters sell through the Brylor sales as well as a few here at our place. The Poteet cow family at our place is full of great ones. This calf's dam was selected to go to Red Round up as a bred heifer but we didn't get her halter broke in time. She raised a Red Kodiak son last year that would have been a feature in our sale if he would have studied a little harder at test time. She's a dark red daughter of our Roughrider son with a flawless udder. This female is full of maternal greats when you look back at her pedigree and will make a great front pasture cow for someone in the future.

The 29th Annual Keystone Classic Sale and Mar Mac Farms is proud to have been involved in the formation of the sale and has exhibited cattle in all of the 29 sales. Quality cattle that go out and work over the years, Mar Mac is bringing a daughter of our Frado cow family in 2017. Mar Mac Spartan ( the outcross sire) has left some extremely functional daughters with performance, length of body and beautiful tight udders just like his sire Blackberry has done. 33S was bred by Mar Mac and sold in the Keystone Classic Sale to Buck Valley. When Buck Valley dispersed their cows, we purchased 33S back and every year she has weaned off a top calf each fall with lots of performance. 49D was exposed to our bet the farm calving ease sire, Red Flying K Neptune. Neptune not only calves great but leaves progeny with an end product. Many sons have been high sellers in our bull pen. Don't miss this young female to start off a new cow family in your herd. Pasture exposed to Red Flying K Neptune 28Z from April 24 to July 8, 2017. Preg checked 70 days on July 11, 2017.

The Easter cow family are productive females in the Mar Mac program. 87Z was the high selling Red Angus bred female in the 2013 Keystone Classic Sale to Dale McKay of Brandon. Dale keeps his small elite herd of Red Angus at Mar Mac Farms, and here is her daughter. This is one of the oldest Capacity females but we are very excited with the quality bulls and females that Capacity has produced in our herd. Prowler, Ribeye, Capacity and Wall Street all top individuals in the Angus breed. Check out her numbers. Here is a female that will be an asset in any program. Pasture exposed to Red Bridgeway Riddler 9D, our new heifer bull, from April 24 to July 8, 2017. Preg tested 70 days pregnant on July 11, 2017. Owned by Mar Mac Farms and Dale McKay

The first daughter to sell publicly off the \$50,000 Sand Hill sire that Thistle Ridge and Moose Creek teamed up to purchase. This soggy, powerful female has top 1% growth numbers to back up her impressive performance. Traces back to the consistent breeding sire Unbelievable "UB" that sired back-to-back high sellers in our bull sales to WRAZ and Duralta respectively. The Belle cow family originated as the high selling female from the Botany Angus dispersal. As a special bonus, she's carrying a King Rob calf that could easily pay for herself. Bred on May 9, 2017 to Red LMAN King Rob 8621 and exposed from May 25 to July 16, 2017 to Red Blair's Notorious 62B.

Stylish, attractive daughter of Cash 9161 "Conrad." Conrad sired our strongest group of yearling bulls this past spring, with highlights being a pair of \$10,000 bulls including a Conrad x Gangster son to Mar Mac Farms at \$13,750. He has the honour of being Power Eye's older brother, as both own the outcross TR Lynn cow as their mother. Maternally this heifer stems back to the Faye 64U cow that produced our high selling bull, Slade, in 2012 to Lines Red Angus Ranch. We're very excited about the first group of calves off the service sire Notorious. He looks to be a calving ease sire with an excellent maternal kick. He's a littermate to Bingo, Kongo, Sweet Cheeks and a slew of successful show females. Exposed from May 8 to July 16, 2017 to Red Blair's Notorious 62B

We wanted to offer a female from our spring calving group to represent our program. This Hitch daughter fits the mold. Tremendously balanced, coupled with a female maker in Frontline, the Ilda cow family was a great purchase from the Top Line dispersal. Bred for early March to our lead off herd bull from Flying K. Galaxy has sired some exciting calves including Sawyer 142E who many will be hearing from in the near future. Exposed from May 25 to August 1, 2017 to Red Flying K Galaxy 57B.

MLSF 6740 is a moderate framed, easy keeping female. She comes from our great 32U family. She comes from our LDD 32U family that goes back to the great MC Smash cow. LDD 32U and her daughter MLSF 3032A are our main red angus donor dams. MLSF 6740D 's full sister is part of our herd and may well become the next donor. We have sold two full brothers of this female: MLSF 5032C at this Klassic sale to LLB Angus, AB & MLSF 5336C to Chad Poyser at Maple Lake Kick off to Spring Bull Sale. These females are herd builders. Don't miss your chance to own this one! **AI bred to Six Mile Sackic SIXM 832S on April 1, 2017. No exposure.**

This is as good of a heifer as we have ever raised. She is big bodied with added power. She has good neck extension, exceptional muscle expression and is as big boned as they come. She is an outcross being from Mama Boy that would bring fresh genetics to anyone's herd. We love our Mama Boy calves! Here is an opportunity to put some bone and power into your herd with a Power Up calf on the way. This one is really hard to give up with her line up of pedigrees! She has been an eye catcher of many. Watch for her at Agribition. Bred to Red Blairs Power Up 1B on April 3, 2017. Safe to exposure date.

Power Up 1B - Service Sire

Lot 78 - Red Ravenbrook Red 67D

**Terms:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**Certificate of Registration:**

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**Health:**

All animals in the sale have met all necessary health requirements.

**Liabilities:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**Guarantee:**

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

**Pregnancy Information:**

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**Delivery:**

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

**Phone, Mail, Wire Bids:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**Insurance:**

We strongly recommend that insurance is purchased for full value.

**Errors:**

All announcements at sale time, written or oral, supercede any written material in the catalogue.
