Welcome from Inc Cattle Co...

Welcome everyone to the very first Big Chill. Years ago, Janice and I came up with the idea to offer a few of our highest quality embryos "Gift Wrapped" inside some of our very best recipient cows and we wanted to make this offering during the Holiday Season to give it that special feel. As you can see by the fantastic listings in this catalogue, The Big Chill has far outgrown the idea of a handful of embryos. A lot of the genetics in this inaugural sale have never been available before. What an incredible opportunity to be the first to have them in your herd.

Janice and I want to thank our good friends helping us out with the Big Chill; Johner Stock Farms, KFC Farms and of course, members of the Leading Edge Group. All of us are so grateful for your support and look forward to spending time with you at the Big Chill at this most special time of year. Remember, IT'S NOT COMPLICATED; come for the party, stay for the sale! Merry Christmas everyone!

From the desk at T Bar...

Welcome to the premiere of "The Big Chill" Speckle Park Sale, presented by Rob and Janice, INC Cattle Company, on December 22 at the Sheraton Cavalier Hotel, Saskatoon, Saskatchewan. Plan to make this event a family affair with a social hour, dinner and sale... festivities start at 4:00 PM with sale time at 6:30 PM.

The folks from INC together with their guests, the Friesens, Fehrs and Johners have put together an outstanding offering of Speckle Park breeding stock... a once in a lifetime opportunity to acquire the finest genetics in this breed, developed right here in Saskatchewan.

The live lots are exciting... untouchables slated for this first event. The pregnancies, embryos and semen are diverse genetically and out of the truly great donor females of the breed. Your investment into these programs will add a high degree of value to your breeding plans in the future.

For most of us, we have watched this breed progress into a leader in the pasture, the feedlot and show ring. This breed has shown the highest ROI (return on investment) of all the beef breeds in the nation. "The Big Chill" offers your next step forward in your breeding program.

Remember there are only two shopping days before Christmas... the ideal gift is available on December 22... just don't put the embryos under the tree. More importantly, there are nine days to year end... what a way to add value to your herd and not send your tax money to the Hollywood Star in Ottawa.

If we at T Bar C may be of assistance, prior to or sale day, please contact any of the T Bar team and we will be pleased to offer our professional services.

From all of us at T Bar and Today's Publishing, Merry Christmas and Happy 2020!

Gift Wrapped Embryos

As promised, here are some of our very best gift-wrapped INC embryos! These beautiful gift boxes come in red, black, tan, brockle, chromed up and silver and are all safe in calf!

As a value-added feature and to avoid the stress of transport, we at INC are willing to calve out the January due recipients at no extra cost to the purchaser. We have a heated facility equipped with several cameras. Janice and I will take every precaution possible to ensure a successful calving but please understand, all the same risks remain. Just think, any one of these calves could be the next Agribition winner!

We have all heard the saying, give till it hurts. In this particular instance, this time worn adage is most definitely true...giving up INC Ground Zero 1G and INC Cyrus 2G hurts...a lot. However, it is the Christmas season, so INC is offering our best to you. Both these January calves were ear marked for the INC show string until Janice and I made the hard decision to make them the highlights of the Big Chill.

These two calves could very well be the start of one of the greatest herds if purchased together.

The first Logic calf born on our farm and in Canada, Ground Zero has a thickness about her that promises she will be one of the best momma cows in the herd. This deep-sided female is an absolute doll, just like her dam, Morning Star Bev 2B. Her colouring is unique and she has the gentlest demeanor. This young lady epitomises the direction of the INC program. A flag ship female in the making to be sure.

Out of the great Pine Valley program, Anna 4C is arguably one of the finest cows in the breed today. Thick, maternal and smooth moving, Pine Valley Anna 4C has been paired with performance sire, Premier Logic L11. This bull has already made an impact on the INC herd, with increased frame score and early testicle development. A powerful combination to head into 2020. **Guaranteed one (1) pregnancy if implanted by a certified technician.**

It's time to buckle up! Shady Lady stole my heart the day I started to work at KFC. She is one of the most complete cows you will find in any breed! Embryos have sold across the globe to average \$2,000 per embryo. We sold a half interest in Shady Lady this summer at the Preferred Stock Sale for \$20,000 to Green Valley Farms in BC, putting her just shy of the record high selling female in this breed.

Par Moo Fassa is a legend in making some of the best females in the breed. Semen is very rare and is in limited supply. There is nothing Shady about this mating, so you best move fassa than the guys beside you bidding.

Storage & delivery fees are the responsibility of the purchaser. Stored at Sundown Transplants. Guaranteed one (1) pregnancy if implanted by a certified technician.

Here at KFC we are super excited to have added Codiak End to End GNK 802E to our bull battery! End to End is smooth made, big footed, well balanced and is as free moving in his motion as you will find. Sired by Oscar GNK 8S, who is undoubtedly one of the most consistent Speckle Park bulls to produce both top end herd bulls and top end donor females. Remember if you want to play the field, you better do it End to End! End to End tested very high on his Q-Select test.

The dam of Mr. Perfect, the 2018 National Grand Champion Bull at Agribition. 8Z is no stranger to being able to bring in big bull calves every fall, no matter the sire! We wanted to capitalize on that. 8Z was also the dam of our bull calf consignment to the National Sale at Agribition this year. It takes a special kind of cow to bring a calf good enough to go to Agribition each year and 8Z is that cow! We used Codiak Geaza and Moovin Zpotz Dart 37D on most of our donors this year, as both have perfect scores on the Q-Select test: TT AA CC GG. Buy with confidence.

Sasha is another outstanding Trade Secret daughter. Her mother is just another great producing, Untapped female. They are "no miss" females and Sasha will be no different. Trade Secret on the top and Untapped on the bottom side. She is an easy fleshing, free moving beauty that will be sure to please. She will be halter broke. **Pasture exposed to Wolf Lake Bob 24E from May 3 to May 28, then pasture exposed to JSF Net Worth 63F from June 7 to August 1, 2019. Preg checked on October 21 - 160 days to Wolf Lake Bob 24E. Due to calve end of February 2020. Consigned by Johner Stock Farm**

Midnight Lady packs everything you'd want in a female; style, femininity, thickness, structure and just that overall "wow" factor. She comes from a long, long lineup of maternal greatness. There would be no more than 10 females here at JSF that go back to her grandmother. Her sire, Trade Secret, is in there as one of the most consistent breeding bulls out there worldwide. This is a female that doesn't come along everyday. She will be halter broke and show ready to conquer the show ring in her future. **Pasture exposed to Wolf Lake Bob 24E from May 3 to May 28, then pasture exposed**

Here is a power cow right from the heart of the JSF herd. She is no stranger to success. The first Speckle Park cow to be featured in the New Year's Resolution Sale, embryos bought by Black Diamond, Australia. Yasemin 260Y checks all the boxes. She is feminine, has a beautiful udder, great on her feet and legs and full on production. Her first calf at JSF was Rawhide, who is owned exclusively by Minnamurra Pastoral Co. in Australia. She also has two females in production and a herd bull walking at JSF. The matings are with Creed, Reserve Grand Champion Bull, Agribition 2018; Dart, the sire of Creed; and Bob, the outcross Invictus son out a Stands Alone daughter from the Ravenworth and Wolf Lake programs. **Embryos stored at Davids-Raidan Embryo Transplants Ltd. Amanda is a cow we acquired from HS Land & Cattle (Holtbys) as a heifer calf. Amanda has been shown as a mature pair and is no stranger to the winner's circle. She was Grand Champion Female in 2017 with a heifer calf at side. Amanda's second calf, Doc Holiday, was shown as Grand Champion Female 2018. Doc Holiday 14E walks the pastures at JSF. Amanda has a desired pedigree with some of the great lines in Speckle Park genetics. We are offering some exciting matings that will breed on for years to come. **Embryos stored at Davis-Rairdan Embryo Transplants Ltd. Ursula is a cow that came in a package from Redneck Ranch. We feel very fortunate to have acquired a package of cows from Debbie that have fit so right for JSF. Ursula is a super milking, easy doing female that has flushed successfully for us. She has added outstanding genetics here at JSF and a select few breeders across the pond have outstanding offspring. These matings are the only ones that she has produced. These matings will not be sold prior to this sale.

Essence will be a household name in the Speckle Park breed. She may have big shoes to fill, as her name goes along with one of the most outstanding cow lines in the Angus breed, bred by Miller Wilson Angus. Untapped daughters are more powerful producers every year...but, she is already on her way! Her first calf out of the gate is Creed, Reserve Grand Champion Bull at Agribition 2018. Essence's second calf is destined for the show ring again.

Her progeny from these matings will be the first to be sold. No sales have been made prior to this sale or will be after this sale. **Embryos stored at Davis-Rairdan Embryo Transplants Ltd.**

We are hesitant in offering semen on new bulls until we see for ourselves how they breed. When you see the genomic tests and ultrasound data, then watch how the bulls breed, you become a believer. I have always believed EPDs can be messed with, that's why sometimes they are disappointing! The genetic tests are the real deal and true value of what's under the skin. That is the important issue going forward.

Dart is so true to all these aspects as a carcass breeding bull. He has the older style, powerful Speckle Park head. The head of a breeding bull, that he is. Now's the time to offer semen for sale.

In all my years in the seedstock business, I have always firmly believed the following; "If you can breed or buy a herd bull from a first calf heifer, they will be a great breeding herd sire." Seldom it is not true!

Creed will be on of those strong breeding bulls. He is an exciting young sire for the Speckle Park breed. Backed maternally by a powerful producing, Untapped first calver and paternally by Dart, who is doing everything we expect from him. Creed has a great Q-Select result and super ultrasound data. I personally think this young bull will not miss!

Semen stored at Bow Valley Genetics.

Owned with Spring Coulee Ent., Jason and Stephanie Fradette.

Terms and Conditions

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATIONS: A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

HEALTH: All animals in the sale have met all necessary health requirements.

PREGNANCY INFORMATION: All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY: Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue.

INTERPRETATION OF Q SELECT GENOTYPES

Leptin genotype	■ ■ ■ CC ■ ■ ■ CT ■ ■ ■ TT	➔	Increasing genetic potential related to fat accumulation, milk production, cow longevity, weaning weight, carcass composition.
