

Stewart Cattle Co.

Complete Dispersal

New Location!

Sunday
December 20, 2020
JP Cattle/Jalyn Farms Sale Facility
McAnley, MB

Welcome from Stewart Cattle Co.

I would like to welcome everyone to our cow herd dispersal in its entirety.

This includes the whole herd of papered cows, herd bulls, calves - female and male, semen, embryos, truck and trailer and show equipment. The whole deal and true meaning of dispersal... (letting go) dispersing our greatest values to others.

It has been about a year of deciding to have this sale or not and on March 1st, 2020 we decided to go ahead with it and then the world went into a tail spin, but we as cattle producers have been through much the same before and we will get through it again. The cow business has been our whole life and the cows have been our total income since the beginning of Stewart Cattle Co.

**Brent and Dale Stewart
Kelsey and Tyler Thompson**
Box 908, Russell, MB R0J 1W0

Cell: 204-773-6392
stewartcows@wificountry.ca
www.stewartcattle.com

We have always culled the cow herd in the fall, my belief was that a good cow will eat the same as a mediocre one. The entire herd has been on a whole herd vaccination program for years. In September the weaned calves received: Once/PHM -nasal, Express 5/HS and Tasvax 8. In early December the bred heifers will receive the Scour Bos 9 vaccine. The mature cows will not be vaccinated with Scour Bos 9, as we have always done them at Christmas break week. Ivomec will be applied for the cow herd.

Many fellow producers that toured our herd have complimented us on the feet and udder structure of this cow herd. Every breeding age female in the sale is safe in calf as of October 2, 2020. We will have about 15 heifer calves halter broke and ready to show, to those that need this fit for their programs.

Our gratitude to each and every producer over the years that believed in our product and have our progeny in their herd, we are indebted to your friendships and business. This sale could not take place without all the individuals and management teams that have put in their utmost efforts to help and guide us to bring this day to a reality. With the fear of listing who they are and missing someone, we at Stewart Cattle Co., want to extend our utmost praises and gratitude to you all. Thank you for all you have done.

We would strongly recommend a tour of the cattle at the farm, before the sale (with COVID-19 still remaining), we welcome visits in Russell.

- Brent Stewart

From the Desk at T Bar C

Welcome to the complete dispersal of Stewart Cattle Co. on Sunday, December 20, 2020 at Heartland Livestock, Virden, Manitoba. This sale is a combination of the industry's most sought-after breeds; Angus and Simmental, from a great cow herd with an outstanding performance record based on repeat customer satisfaction and requirement.

The Stewart Family has been steeped in a heritage of breeding good cattle for numerous generations. Brent and Dale continued this legacy by raising superior and competitive seedstock. Stewart Cattle Co. boasts a huge repeat customer base, which they have developed through the years, and it is this customer base which validates the strength of the breeding program.

Although there is always a hint of sadness in a dispersal, losing a fellow breeder, they are windows of opportunity for all involved in the beef cattle industry. Only in a dispersal can one choose from the heart of a breeding program and select breeding stock out of prolific foundation families; whether you want young daughters or the factory... everything sells!

In loyalty to their many commercial customers, Brent and Dale offer a wintering program and terms for all the bulls selling. The 2020 crop of bull calves are outstanding whether you are looking for Angus, Simmental, or a combination of both breeds... bulls that will add value to your breeding program.

Over the past years, Stewart Cattle Co. has used embryo transfer from their leading donor cows to expand cow families. This one-iron cow herd is broody, highly fertile, loaded with milk and many of the females carry early AI services, so you can select with confidence from the program. This being one of the last sales of the year, consider that we are close to year end and tax time... plan accordingly; whether you are looking at bulls for the 2021 breeding season, a show heifer or two for the kids, a cow for your front pasture or semen and embryos, December 20th will write a new chapter in history... this is one you can't miss!

Do not hesitate to drop by the ranch and preview the herd in their natural surrounding anytime prior the sale, feel free to give Brent or Dale a call to discuss the herd and the breeding program.

During these times, feel free to call anyone on our T Bar C team to discuss or purchase any of the cattle offered. We will be pleased to assist in a professional and confidential manner.

TERMS:

Terms are available on the females selling OAC. Please contact Chris or Brent should you wish to participate prior the sale.

BULL TERMS AND WINTERING:

Terms - 50% due sale day with a post-dated cheque for the balance dated March 1, 2021.

A wintering program is available on all bulls selling.

All bulls must be insured.

Herd bulls will be semen checked prior the sale.

All 2020 bull calves that are wintered will be semen tested prior to pickup and guaranteed to pass the semen test.

A wintering fee of \$500.00 per bull which includes the semen test is payable at the time of the sale.

2020 bull calves taken at the time of the sale will sell with no further guarantee.

All bulls must be insured for injury and mortality. Full insurance will be available sale day.

All bulls must be picked up by April 1, 2021.

TERMS:

Cows are vaccinated each spring pre-breeding with Express 10 and in the fall with Scourguard and Ivomec.

The calves are vaccinated with Express5 and Fermicon7/ Somnugen and Ivomec.

LOAD OUT:

Due to the large number of cattle selling, no load out of cattle will be allowed until the conclusion of the sale.

Terms and Conditions

TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

BIDDING...

Each animal will sell to the highest bidder... no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

BREEDER'S GUARANTEE...

As this is a dispersal sale, all cattle sell with no further guarantee. Any known defects will be announced before the cattle are sold.

PREGNANCY INFORMATION:

All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

DELIVERY...

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

INSURANCE...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.

Reflections

Their heritage is that of Irish and Scottish decent, as the forefathers of this great country, they voyaged the Atlantic to what once was a dangerous and primitive land. Due to their toils, once prairie and bush, now are wheat fields, hay lands, lush pastures and the riches we all enjoy today.

A year after Manitoba joined Confederation, David Dunn, grandfather of Bonnie (Dunn) Stewart, Brent's mother, left Ireland in 1871 and worked his way westward settling in Manitoba in 1879 at a time of civil unrest by the Metis and natives prior the North West Rebellion. In 1920, William Pryde Stewart (Robert Main Stewart's father), Brent's grandfather, came to Canada from Bonnyrigg, Scotland and homesteaded in Endcliffe, Manitoba, which is a district of Russell, Manitoba. Robert Stewart known to all as Bob, was born in 1922. At the age of fourteen, he left home looking for work and landed a job with Watson and Florence Dunn who owned Primrose Hereford Farm at Russell, Manitoba. The Dunns raised and showed registered Horned Herefords and soon after, Bob Stewart became the head of the Hereford cattle and was entrusted with the show string. With the outbreak of World War II, Bob joined the Air Force and worked as a mechanic at bases in Moose Jaw and Assiniboia, Saskatchewan.

In 1951, Bob Stewart married Bonnie Dunn and together had four children - Brad, Bruce, Brent, and Marilyn.

In 1860, Sir George Simpson, Governor of the Hudson Bay Company began the first imports of Angus to central Canada, by the turn of the century much activity in breeding cattle was centered in the province of Manitoba. The Canadian Angus Association incorporated on May 4, 1906, two months later the first annual

meeting was held in Winnipeg. Much of this momentum was due to the efforts of James Duncan McGregor, livestock breeder who owned Glencarnock Stock Farms and a shrewd businessman. Born in Amherstburg, Upper Canada, he moved to Brandon and set up shop outfitting the new settlers with horses and cattle. McGregor's dream was to find a breed of cattle that would "produce quality beef economically." McGregor viewed that expositions and fairs would set the standard for requirements of intelligent production and marketing and an advertising medium for producers in Canada. In 1907, he established the Brandon Winter Fair and Livestock Association later renamed the Manitoba Winter Fair and Fat Stock Association, fifteen years before the Toronto Royal Winter Fair was established. On December 2, 1912, his steer Glencarnock Victor was declared Grand Champion Steer at the Chicago International Livestock Show and he repeated that feat for the next two years. His efforts drew attention to the quality of Canadian cattle and the merits of the Angus breed.

Manitoba is steeped in the history of breeding and producing quality seedstock and being competitive in the show ring. Primrose Herefords were leaders in the breed and competitive in show circles under the helm of Bob Stewart. A 1953 article printed in the Livestock Times, Saskatoon, reported that the Primrose Stock

Farm Sale was attended by 750 bidders and visitors. "The women serving lunch worked the hardest!" The bulls averaged \$696.00 and the females averaged \$514.00 which was phenomenally successful. The year prior at the 1952 Toronto Royal, Primrose Hereford Farm won the Premier Exhibitor banner, along with Junior and Reserve Junior Champion Bulls, the Get of Sire and the Pair of Bulls. In another Bradley article from 1957, Primrose Farm was judged Supreme Champion of the Winter Fair in Brandon winning over Powell's Shorthorn and McRae's Angus. It is interesting to note that the bulls were evaluated by a panel of five judges, like a system used fifty years later at the RBC Supreme.

Their two primary shows were the Manitoba Winter Fair and the Toronto Royal. Although Brandon was a short haul, going to the Royal was a great ordeal and every young man's dream. In those days, cattle were transported by train. The trip would usually take five to six days from Brandon to Toronto. The rail car would be decked with feed and tack on top and the cattle were bedded below. The crew slept with the cattle. The wives would bake and cook supplies for the men, but other supplies were purchased at train stops. Dirt and smoke covered near everything... cattle, feed, water and men. Cards were the entertainment of the day, mostly games of chance, it has been rumored that sometimes cattle changed ownership

before they returned home. For those who showed cattle at the Royal and arrived by train, it was a vacation and if those rail cars had ears... what tales they could tell.

Brent Stewart made his first trip to the Toronto Royal Winter Fair at the age of nine years. Although he was extremely excited about the train ride, his mother said he would miss too much school, so he went by air. Since that day, he has made twenty-three trips with cattle and later a few judging. Bob and Brent have exhibited many steers over their history... carloads which comprised of ten head, or pens of five and single bred steers. Brent recalls, "The carloads were the most work and the most enjoyable to win, we were lucky to win it a few times." He goes on to say, "I remember all the steers had to go through a culling committee. It was done after chores and there were no tie-outs in those days. My dad and several other guys were in the feed alley. (I did not know what they were doing at that time!) It was then my Dad told me I should meet this guy. He said he was one of the best steer jocks I would ever meet, his name was George Earley... we have had a lifelong friendship!"

Stewart Cattle Co. is a direct descendant of Primrose Hereford Farm. The leadership and guidance of Brent's father, Bob, and grandfather, Watson Dunn, established the backbone of how Stewart Cattle Co. was developed. Brent owned his own breeding stock at the age of nine years and had a

very keen interest in showing and following his father's love of showing registered cattle. He travelled with his father to many shows starting at a young age. In 1978, Brent registered his cattle as Stewart Cattle Co., the beginning of registering cattle with the "SCC" prefix.

Brent met a young lady from Carberry, Manitoba, Dale Triggs whose family bred and raised registered Charolais cattle. Dale helped Brent with work around showing steers, show cattle and many tasks around the farm. In 1983, Brent and Dale were married and the couple raised a daughter, Kelsey, together the three of them worked together to build Stewart Cattle Co. In 2016, Kelsey married Tyler Thompson and they now reside in Fort Assiniboine, Alberta.

cultivated so many great family friends from the show world. Some of the highlights of the cattle business is the great people in the show cattle world and the strong competitors which we have been fortunate to compete with. Talking with a buddy one night before the show, he said 'tonight we are friends... and tomorrow we do battle!'

Brent, Dale and Kelsey have won Champion Steer banners on numerous occasions at the Calgary Stampede. Kelsey made nineteen trips to the Stampede before she was twenty-one years of age... the apple doesn't fall far from the tree! Brent recalls, "We have made and

The Stewarts run a purebred cow/calf operation and have bred and owned registered Horned Herefords, Salers, Black Angus and Black Simmental. They have also run commercial cows and calved upwards of two hundred over the years. Each year they implanted thirty to forty embryos and have sold bulls and females off the farm, while over the past decade they have hosted a spring bull sale. "We are proud of our record of repeat customers who have also become friends."

Stewart Cattle Co. has exhibited at every major show in Canada, Billings, Montana and the National Western Stock Show, Denver, Colorado. Brent, Dale and Kelsey all won shows as 4-H members. To list the winning accomplishments would take

pages but banners line the walls at SCC. A feat desired by many... accomplished by few. Brent judged his first show when he was sixteen years old at a summer fair in Manitoba, but since has judged from Vancouver to Prince Edward Island and all points in between, along with a prospect steer show in Nebraska.

Brent says, "I have been in the cattle

business all my life, showed my first one fifty-eight years ago... a cow calf pair with my dad. I have seen people (not me) clip cattle with sheep shears; brush cattle with a rice root brush (I have done that). I knew Ted Serhienko before he was a sale manager and ring man... I always thought his hair was too long to be a fitter! I also knew Steve Dorran before he was an auctioneer... he clipped cattle and sold semen!"

"Lots of late nights, early mornings and long drives... it has been quite a ride!" - Brent Stewart

On December 20, 2020 at McAuley, Manitoba, the entire program sells in a complete dispersal of the herd which will include the tack boxes!

The *Pride* Family

The Pride cow family is built and founded using predictable donor females. The family was established through SCC 4480 Pride 45M, a daughter of Northern Improvement 4480 out of a Sandy Bar Pride female. Her first daughter, SCC 65M Pride 45M 73P, established this predictable family and became a donor female. She produced 16 registered progeny in her lifetime with three daughters selling in the sale. One of which, SCC Pride 24T, was in turn a successful donor female producing 19 progeny. A son, SCC Turner 58T, was used successfully in the breeding program, sons were selected by Tullamore Angus, Bar T-5 Farms and MJCK Farms. Daughters are working for Jeff and Kim Legaarden, Kim Beaudette and JP Cattle Co. Walking bull and reference sire, SCC Kodiak 88B, is an own son of the foundation female SCC 4480 Pride 45M, in addition to SCC Bando 24E, who was used briefly in our program.

Lots 1 through 17 represent the great Pride Family.

The Tibbie Family

The Tibbie Cow Family is our largest family, and no doubt the most propagated genetic line in the Angus breed. Our Tibbie Cow family was founded on the progeny of MVF Tibbie 52F from Mountain View Farms Ltd. This great donor female had a lifetime production of 98 progeny. Several daughters and granddaughters trace back to this predictable donor with high maternal tendencies. A son, SCC Logan 18L, an own son of MVF 52F, was used successfully in the Stewart Cattle Co. breeding program. SCC Bando 17D was an Agribition class winner in 2016 and selected to walk in the Tullamore pastures.

Lots 18 through 38 represent the Tibbie Cow Family.

S A V Final Answer 0035

Sire of Lot 38

The Idelette Family

The Idelette family founded through a great donor female, SCC 561 Idelette 27M, who produced 26 progeny.

She was an ET daughter of Happyvale Idelette 35E, herself a successful donor who produced 24 offspring. SCC 561 Idelette 27M is very consistent through all maternal traits and carries an extra dimension of fertility. She is the mother of SCC Innovation 5F, herd and reference sire at Stewart Cattle Co. and co-owned with Butler Hill Farm. Sires have been selected by JP Cattle Co., Darrell Elliot, Primrose Farms, Mark Husser and Peter Friesen, while daughters have been selected by Anchor 1 Angus, JP Cattle Co. and Robert, Brent and James Duncan. Four own daughters of 27M sell in addition to numerous granddaughters.

Lots 39 through 46 represent the Idelette Cow Family.

Sire of Lot 46

The Quality Family

The Quality cow family was founded by the purchase of Happyvale Enid Quality 92K, a daughter of Younkin Triumph 4966. Her first calf was SCC 7K Quality 116M, a highly productive brood matron by N.B.A. Northern Asset, who earned the status of Elite/Premier Dam with an average ratio of 108. She produced three notable progeny: SCC Touchdown 57T selected by 20/20 Angus, SCC Retail 132W selected by Topview Angus and SCC Quality 10X the donor female we owned with Crowe Bros. This great donor female produced 20 progeny in her lifetime including SCC Bando 51A, the herd bull that worked great at the ranch. SCC Final Answer 23Z and SCC Final Answer 32C were also used successfully from this cow family. Sons were selected by LLB Angus, Tullamore, Jodi Flaig, Dan Sawatsky, Jack Cruise, Willow Rock Angus, Butler Hill Farm and Dave Garvey while daughters were selected by Poplar Meadows and JP Cattle Co. Three flush yearling sisters sell.

Lots 47 through 49 represent the Quality Cow Family.

The Lady Blossom Family

The Lady Blossom Family is based on SCC Lady Blossom 1R, who was purchased as an embryo from DRI, Crossfield, Alberta. SCC Lady Blossom 1R is an amazing donor female in the breed producing 23 registered offspring. She is the mother of two bulls that have been used in the Stewart Cattle Co. breeding pastures, namely SCC Retail Product 44T owned with Crowe Bros. and SCC Upgrade 23A used with TSN Angus. She is the grandmother of SCC Bando 85D, reference sire and one of the main walking bulls at Stewart Cattle Co. In addition to the purebred sires, she is the mother of 11 bulls selected by ranchers and six breeding females. As a reward for her production she was awarded the Elite/Premier status with an amazing ratio of 116. Her granddaughter sells as Lot 58. SCC Bando 10D out of the Blossom family was Reserve Senior Bull Calf Champion at the 2016 Agribition and selected by JP Cattle Co.

The Zaphir Family

The Zaphir cow family was established with the purchase of Twin Brae Zaphir 843Z who sells as Lot 74. She was bred by Barry and Glenda Chescu, just down the road at Inglis. This family is the largest of our purebreds as Zaphir has produced all female progeny. Six daughters as a matter of fact, in this large family. There is only one male selling. There is maternal power with fertility in this cow line. Lots 74 through 80 represent the Zaphir Cow Family.
