*Bull and Female Sale*

# Welcome

Welcome to our 2nd annual Sunderland Ranch Bull and Female Sale! We would like to thank everyone that has supported us in past years and welcome everyone new who is taking the time to get to know more about us. We appreciate every opportunity to visit with you to learn more about your breeding program so we can assist you in finding what will work the best for you. We also want to thank all of the behind the scenes helpers that work very hard sharing their time and effort to make our sale successful! One of our family highlights this year was the wedding celebration of Borden and Megan Sunderland! We are very happy for this young enthusiastic couple and appreciate their hard work and dedication! We have to mention our youngest son Tucker as well, as he is a dedicated steady helper here! He is our first guest consignor with his offering of elite feline genetics ( for some family fun and charity) that will close out our sale offering!

Our breeding philosophy is to offer the right kind of genetics that will add real value to your herd. Every customer has different needs when selecting bulls and females to complement their breeding programs. We offer some variety in genetics to assist you in selecting the type and kind that will work best for you. We strive to produce purebred livestock that are structurally sound with good feet and udders, productive and fertile with docility and longevity in mind. We work hard to ensure our bulls and females are the type of cattle that will work well in the real world. We enjoy hearing the positive feedback from our customers who have had good results!

We have made strong investments in our herdsires and females who are the direct progeny of some of the most highly regarded females in the breed. This foundation includes SAV Blackcap May 4563 our cornerstone donor whose ET offspring are strongly represented in the sale offering. Pedigrees throughout our offering are stacked top and bottom with proven renowned Angus females, SAV Blackcap May 4136, SAV Madame Pride 0075, SAV Blackcap May 5530, SAV Emblynette 8259 and SAV Blackcap May 8051 to name a few. The foundation of maternal strength is shining through in our young cows, these up and comers have bright futures here.

Every sale lot offered has confirmed parentage, foot pictures, Angus GS enhanced EPD's as well as testing for Leptin, PMCH, IGF2 and CRH4. We strive to provide our customers with the most accurate information possible to assist with your breeding decisions. We are proud of our efforts to encourage evaluation of the feet on our cattle by ensuring foot pics are taken for all sale lots. This is not a new trend for us as we have been doing this since our beginning when we sold bulls private treaty. We want to continue to do our part as Angus breeders to help improve the breed for our customers benefit. We encourage this practice throughout the Angus breed and want to lead by example.

We encourage you to call us with any questions about our offering. 1-306-662-3021. Follow us on Facebook Sunderland Ranch Ltd., on Instagram sunderland \_ranch or our website [www.sunderlandranch.net](http://www.sunderlandranch.net) for more information, pictures and videos leading up to the sale! Cattle will be available for your viewing December 8, 2022 from 1:00pm to 5:00pm and the morning of the sale. Join us December 9, 2022 for a complimentary roast beef lunch at 11:30am, the sale starts at 1:00pm sharp! Live auction managed by T Bar C and online bidding on DLMS. We look forward to seeing you on sale day!

# From the desk at T Bar C....

On the heels of a great first event last year, we welcome you to the 2nd annual sale here at the Sunderland Ranch that has even more depth of quality than last year.

Terry & family strive themselves on producing sound functional good-looking cattle with data to back them up. Lots of time & energy is spent on making this catalog with foot pictures included to give you an idea on how particular these guys are when it comes to selections for their sale group.

The Sunderland Ranch has been primarily focused on incorporating as much maternal strength as they can into their herd and then developing an extensive ET program to offer full brothers & sisters to the buying public that are so even and bred to be predictable. Of course, anytime you can add influence of Blackcap May that close in the pedigree we highly suggest your interest.

The Sunderland family is known for being very organized with phenomenal hospitality matched with superior angus cattle. We encourage everyone to make any efforts possible to join us in Maple Creek to evaluate this offering and do business with this great family. Any questions you may have regarding the sale please don't hesitate to contact any of us at T bar.

We purchased SAV Ripped 8304 from the 2019 Schaff Angus Valley sale. He was a high selling stand out feature of the SAV Resource 1441 bull calves at the 2019 SAV sale with his powerful hindquarter and expressive muscle definition, disposition, solid structure and foot quality!

His pedigree is packed with proven SAV maternal genetics that have stood the test of time.

Ripped's renowned sire SAV Resource 1441 is a registration leader in the Angus breed. Resource is known for adding muscle, volume, fleshing ability, foot quality and docility to his progeny.

His impressive Pathfinder dam SAV Emblynette 8259 is a Density daughter that is a proven producer with ideal body type, abundant milk and perfect feet. She is still in production at 13 years of age and records a weaning ratio of 105 on 11 calves.

SAV Ripped 8304 calves are proving to be structurally correct, well muscled, good dispositioned bulls and females. His first calf crop of bred heifers are due to calve at the end of January 2022. We are impressed with their docility, broody look, fleshing ability, rib shape, sound structure, and good feet!

SAV Ripped 8304 daughters are performing well here and are proving to be good mothers with good feet, udders and dispositions. They weaned off a high percentage of their body weight and have weaned back early. We have not had an open SAV Ripped 8304 daughter to date.

Sunderland Territory 287H is a masculine meatwagon, solid structure from the ground up... good feet, long spined, expansive rib shape, muscle expression and an incredible gentle disposition!! His production record so far speaks for itself, his calves have had moderate birthweights with impressive actual average daily gains on pasture from birth to weaning without creep feed. CAA EPDs CE Top 25%, WW Top 1%, SC Top 7%, Doc Top 10%, REA Top 8%, HPG Top 2% Male BW Ratio 95, WW Ratio 102, Female BW Ratio 99, WW Ratio 104.

287H is a bull that we retained for our own use from a flush that produced our 2020 high selling bull calf as well as one of our up and coming donor cows. His pedigree is packed with impressive maternal greats. His dam SAV Madame Pride 5811 has consistently given us offspring that impress, she is a daughter of SAV Madame pride 0075 who is the well known dam of SAV America 8018 the record highest selling Angus bull at 1.51 million. She was in production at SAV for 18+ years. SAV Emblynette 3293 is the phenomenal dam of SAV Territory sired by SAV Density 4336. SAV Blackcap May 4136 has multiple herdsire sons to her credit and has achieved over 10 million dollars in direct progeny sales.

We purchased the Pathfinder SAV Blackcap May 4563 as the top selling donor cow from th 2020 Schaff Angus Valley sale.

She has striking femininity, is wide pinned, outstanding udder quality, solid foot structure, proven maternal genetics and an impressive production record, backed by proven maternal genetics.

4563 is a daughter of the famous SAV Blackcap May 4136 who is the top SAV income producing cow with over \$10 million in direct progeny sales and has multiple herdsire sons to credit her name including SAV Resource 1441, SAV Renown 3439 and SAV Rainfall 6846 to name a few.

# SUNDERLAND RANCH DONOR FEMALES

**SAV Blackcap May 4004**

CAA Premier Dam  
 Purchased as one of the top valued heifers at the 2015 Schaff Angus Valley Sale. She has been a strong producer here for us with several daughters retained in our herd earning her place in the top tier. SAV Blackcap May 4004 was designated a CAA Premier Dam in 2021.  
 When we attended the SAV sale in 2015 she commanded our attention and stood out amongst the entire offering to us with her powerful phenotype, strong topline, deep ribbed and impressive structural correctness with ideal foot shape and heel depth. As a 8 year old cow in our herd her feet remain ideal and problem free. She has a level well attached udder with proper teat placement and size. Her pedigree is backed up with proven cow families on the top and bottom of her pedigree. Her dam SAV Blackcap May 8051 highlighted the 2017 SAV sale selling for an impressive \$110,000.00 USD.  
 SAV Blackcap May 4004's offspring have been impressive. She has provided us with some standout daughters to build our program with, they are thick made, very easy fleshing cows that are great mothers, structurally correct with good quality udders. Some of our herd favorites and of visitors to the ranch.

**SAV Madame Pride 5811**

Purchased from the Schaff Angus Valley 2016 sale.

SAV Madame Pride 5811 stems from the same flush that produced the striking SAV Madame Pride 5809 & 5810 sisters that are retained at SAV as up and coming donor cows. She was selected by us for her renowned genetics, she has become a proven donor cow at Sunderland Ranch.

5811's dam is SAV Madame Pride 0075, the maternal matriarch of the SAV program who served the SAV herd for nearly 18 years and is the second top income earning income producing cow in SAV history. She has 41 daughters retained in the SAV herd. Her sons include SAV America 8018, the \$1.51 million world record selling bull in the Angus breed!

SAV Madame Pride 5811 has been a female that consistently gives us calves that impress! Her udder quality is outstanding, level with perfect teat placement, size and abundant milk. Her 2021 natural bull calf weaned off grass with no creep feed with an ADG of 3.76lbs/day for the top ADG of the 2021 calves!

5811 sons have sold for an average of \$8625.00 with high sellers of \$12000.00 and \$10000.00 in past private treaty sales! Her exceptional 2020 SAV Territory son sold to Roger & Lou Parsonage.

SOME OF THE BEST PROVEN SAV MATERNAL GENETICS CAN BE FOUND THROUGHOUT THE PEDIGREES OF OUR OFFERING!

# Schaff Angus Valley

*It has been a pleasure following the progress of Terry & Rachelle Sunderland and family, building their registered Angus program and developing their foundation Angus herd. From day one they have utilized an extremely disciplined approach with the philosophy of high quality, functional, sound, maternal-oriented cattle that are practical and productive in the real world. They have been meticulous to the extreme on every piece of the genetic puzzle and have sourced both females and herdsires from the best of the industry-proven SAV cow families, including the Blackcap Mays, Emblynettes, and Madame Prides. Included in their acquisitions are direct daughters of the Angus breeds' most influential genetic contributors and high income-producing cows, SAV Blackcap May 4136 and SAV Madame Pride 0075.*

*As you get to know the Sunderland family, it is evident that they are salt-of-the-earth with integrity and passion for both Angus cattle and the traditional ranching way of life. They have genuine concern for the welfare of their customers and that their cattle are a positive reflection of what they stand for and strive to produce.*

*On behalf of myself and everyone at Schaff Angus Valley, we are honored to know the Sunderlands and acknowledge their dedication and early success of their breeding program, we give them the highest of recommendations.*

*Sincerely, Kelly Schaff  
Schaff Angus Valley*

# Vet Letters

October 14, 2022

*Sunderland Ranch Ltd. is a family run operation that strives to raise solid breeding cattle. They focus on strong herd health, programs and management to ensure their cattle are healthy and fit to enter a new herd. They are eager to adopt new technologies and ideas to continually improve their operation. Their cattle are good tempered and well handled making them a pleasure to work with.*

*They have an extensive calf, replacement heifer and breeding herd vaccination programs. They focus on providing protection against BVD, IBR, PI3, BRSV, M, Haemolytica, Campylobacter, Leptospirosis and Clostridial pathogens.*

*Their parasite program entails a multi-product protocol to ensure good coverage for both internal and external parasites in all classes of their cattle.*

*Dr. Klea-Ann Wasilow*

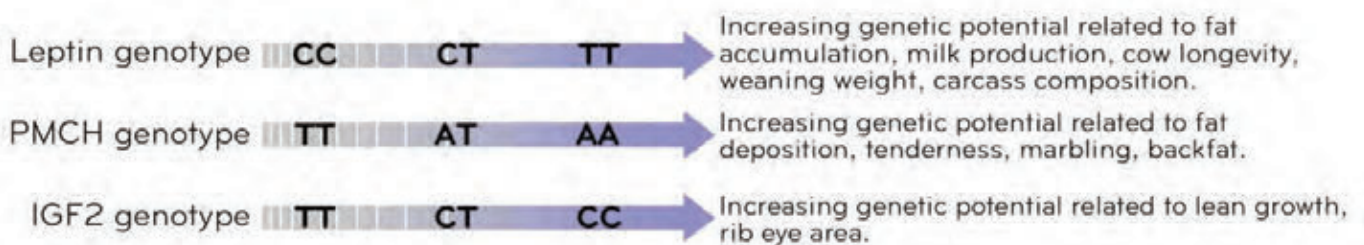

November 16, 2022

*On November 14, 2022 I evaluated all 2022 born sale animals owned by Rachelle and Terry Sunderland. All were bright, alert, responsive with an average body condition score of 4/5 and normal heart auscultation. The heifer calves were all palpated to ensure normal uterine development and presence of two ovaries. Bull calves were also palpated to identify normal accessory sex organs and testicular development. All bulls will be semen tested in the spring to complete their breeding soundness evaluation before shipping.*

*Rae-Leigh Pederzolli, DVM MSc*

## QUANTUM GENETICS TESTING INFORMATION

For each of these genes there are 3 genotypes. example Leptin TT, CT, CC. The TT & CC are homozygous. The CT is heterozygous, just like a homozygous red bull will only leave red calves, these genes behave the same way for a very quick herd improvement.

SITZ Stellar 726D sons! A uniform set of 3 outstanding flush brothers with eye catching style. Bull calves that showed early maturity in the pasture this summer. Videos taken of SUNR 719K in August posted on Facebook and Instagram were well received as he definitely looked the part. The day of weaning was no different as 719K and his brothers continued to stand out. These bulls exhibit many sought after characteristics including being strong topped, deep ribbed with sound structure, base width and good foot quality. Foot EPD values for Claw and Angle are in the top of the breed. Previously sold Stellar sons are getting the job done in the breeding pasture with positive feedback from our customers this year. These bulls will show their value to sire calves that show early maturity with a strong growth curve into weaning while maintaining a more moderate mature size for replacement females. Their daughters have the potential to be outstanding females in your herd!

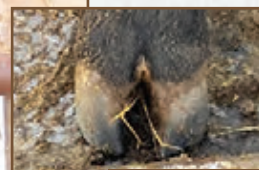

Their dam SAV Blackcap May 4563 is our cornerstone donor cow that was purchased as the high selling donor cow from the 2020 SAV Sale. She is a daughter of SAV Blackcap May 4136 who has multiple herdsire sons to her credit and is the top income producing cow in the Angus breed with over 10 million in direct progeny sales. SAV Blackcap May 4563 is a female that is taking our program to a new level of excitement here. Strong maternal genetics fill the pedigree of these bulls and will add value to your cow herd in years to come.

SITZ Stellar 726D son! SUNR 55K is a cow bull that will add some payweight to your calf crop! CAA Epd WW of +80 Top 1% , SC + 1.30 Top 30%. Broad topped, long spined, deep, with a good disposition.... this bull has it all. Actual average daily gain from birth to weaning day on pasture at 3 lbs/ day no creep feed among the top gainers in the group this year! An interesting pedigree with sires Sitz Stellar 726D , SAV Territory 7225, SAV Resource 1441 along with some true maternal power females to back him up with Sitz Pride 200B, SAV Emblynette 3293 and SAV Madame Pride 0075 ! If you want to add some good ones into your cowherd and sell steers that push down on the scale you need to take note here! 55K's dam SUNR 229H is a special upcoming SAV Territory 7225 daughter that raised a standout with 55K as her first calf. She has an excellent disposition is an incredible mother that has a beautiful udder and very good feet. She is a future donor prospect here! Her flush brother sold to Roger and Lou Parsonage as our top selling bull calf in 2020 and is performing well there.

SAV Rainfall 6846 son! SUNR 49K is a cow bull that catches your eye and has earned the right to lead off his sire group. This bull exhibits balance, correct structure, base width, length, depth, square hip and a quiet disposition. He will sire calves that push down the scale at weaning time but keep frame score in check. CAA Epds WW + 74 Top 2%, RADG Top 15%, REA Top 2%, CBI + 361 Top 1%. His pedigree is filled with some of the best which will add value to any program. SAV Blackcap May 4136, SAV May 2397, SAV Emblynette 8259 the SAV Density dam of our herdsire SAV Ripped 8304. HF Rose 188A a steady producer has achieved CAA Premier status here with multiple daughters retained in our herd.

His sire SAV Rainfall 6846 has proven himself throughout the Angus world with his ability to sire sons and daughters that continue to impress. Some of our favorites in past SAV pasture tours were the Rainfall daughters. They will fit in well with Ranchers who appreciate easy fleshing more moderate framed females that can raise a good one and are easy on the eyes!

49K's dam SUNR 10H is a SAV Ripped 8304 daughter who has done a great job raising 49K as her first calf! She calved unassisted and is an excellent mother with a gentle nature, very nice level udder with proper teat placement, abundant milk, good feet and has bred back early. We are very excited about the future of our SAV Ripped 8304 females who are showing us great fertility with no SAV Ripped 8304 females open during preg check again this fall!

 SAV Rainfall 6846 son! SUNR 34K's Check out the low actual birthweight of 74lbs ! EPDs place him at the top of the CAA for BW -1.2 Top 4% and CE +13 Top 2% . He has a BW Ratio of 87 and a WW ratio of 105. A nice blend of calving ease with a strong early growth curve with moderate mature weight and frame. He has an eye catching style that has kept our attention all summer here. He is a quiet natured deep ribbed, easy fleshing type of bull, long spined and well balanced. Foot EPD's in the Top 1% for Claw and Top 4% Angle. SAV Rainfall 6846 brings a lot of positive attributes to the table as he sires sons and daughters that are the ranchers kind. They will complement existing commercial programs that desire easy fleshing, more moderate mature size in their cow herd but still have the ability to perform to add value to the calf crop.  
 34K's dam SUNR 16F has consistently produced a high percentage of her body weight. She puts her all into her calves! She has a nice level udder and good disposition. She is a daughter of SUNR 08D who is a standout female here with excellent feet a beautiful udder and is now in our donor program with calves expected spring 2023.

SAV Territory 7225 sons! Attractive made flush brothers, long spined, deep middled, quiet natured bulls that will sire sought after daughters and sons! SAV Territory 7225 is making his mark and living up to expectations as one of the most exceptional sons of his Pathfinder and past registration leading sire SAV Resource 1441. Both these bulls have moderate birthweights with CAA HPG +14 Top 4%, BW +0.2 Top 15%, Docility EPDs for 793K +32 Top 1% and 769K Top 10%. SAV Territory 7225 daughters are getting noticed in the SAV herd as well as at the Sunderland Ranch. One of our SAV Territory 7225 daughters, SUNR 229H is entering our donor program here with a beautiful udder, very good foot quality and superb docility being the icing on the cake. Both 769K and 793K's dam SAV Blackcap May 4563 needs little introduction as you can see multiple sons and daughters featured in this years offering. We have SAV Territory 7225 x SAV Blackcap May 4563 daughters retained in our herd that are on a strong path to success! If you value great females behind your bulls then take a look through the pedigree of these two! Utilizing these genetics will get you where you want to be!

SAV Ripped 8304 sons! 2 ET flush brothers, cow bulls! Very similar in kind from our resident herd sire SAV Ripped 8304. We are selling these 2 bulls as highlight features of this years offering! SUNR 727K and SUNR 767K pack cow power, eye appeal and muscle expression into a moderate mature frame size. The kind of bulls that will give you daughters to admire! These bulls are backed up by maternal greatness! Pathfinder SAV Emblynette 8259 a daughter of SAV Density 4336 and dam of SAV Ripped 8304 has an incredible production record with a WR of 105 on 11 calves with daughters retained in the SAV herd. Add in the blend of SAV Blackcap May 4136, AC Duke Girl 57 to top it off! SAV Ripped 8304 sired females are making their mark here! They have shown us they can wean a high percentage of their body weight and maintain their condition without sacrificing fertility. We have had no open SAV Ripped sired females at preg checks to date here. We are impressed with their mothering ability, disposition, fleshing ability, structural soundness, udder quality, foot quality with good heel depth and claw shape. If adding high quality females into your herd is important to you then pay close attention here! With our cornerstone donor dam SAV Blackcap May 4563 backing up these bulls imagine the future potential in your program! CAA EPDs HP +13 Top 10%!

SAV Ripped 8304 son! SUNR 33K is an attractive made cow bull that can add payweight and carcass quality to your calf crop. SUNR 33K is built solid from the ground up, he is muscular with rib shape, depth and has the great disposition of both his sire and dam! Impressive EPD profile, CAA WW +73 top 2%, CBI +344 top 4%, MARB +0.52 top 25%, REA +1.08 top 1%. A unique blend of SAV cow power along with Musgrave Aviator in the pedigree. MGD Sunderland Blackcap May 01D is an impressive individual with her massive rib shape and sound structure. She is the 1st natural daughter of SAV Blackcap May 4004 who has achieved CAA Premier Status here.

-33K's dam SUNR 15F is a moderate framed, deep ribbed easy fleshing female with a fantastic gentle disposition, good solid feet and is an exceptional mother.

SAV Ripped 8304 son! SUNR 25K is a long spined, balanced attractive made bull! He has a moderate BW of 77 lbs and MH of -0.1 which should keep frame score in check. CAA Epds, SC +1.73 Top 2% and MB +0.65 Top 15%. Take advantage of the opportunity to add proven genetics into your herd. SAV Blackcap May 5530, SAV Blackcap May 4136, HF Rose 188A to name a few! We strive to utilize some of the best proven maternal genetics in order to add real value into our customers own cow herds. We can't move along without mentioning the SAV Ripped 8304 daughters that are making an impact here. They are quickly rising to the top amongst our cowherd. They are the right kind, easy fleshing, fertile, very nice udder and foot quality and good mothers with nice dispositions!

-25K's dam 275E is one of the producing daughters of Premier Dam HF Rose 188A retained in the herd with good feet, good udder quality and quiet disposition.

**Sunderland Blackcap May 773K - Flush Sister**

SAV America 8018 sons! 3 maternally charged flush brothers! Full brothers to last years high selling standout replacement PB heifer. A flush sister SUNR 773K is a special feature in this years sale offering as well. SAV America 8018 is the world record selling Angus bull selling for 1.51 million USD. SAV America's dam SAV Madame Pride 0075 was in production for 18+ years in the SAV herd! Docile in nature these bulls can add value to your herd! Imagine the mating possibilities here! Their dam is SAV Blackcap May 4563 who is our cornerstone donor female. She is a daughter of SAV Blackcap May 4136 ( the highest income earning cow in the Angus breed) we purchased 4563 from the 2020 SAV Sale as the high selling donor cow. She is a standout in the pasture and her ET calves with a variety of matings have continued to impress. Her daughters retained here are showing promise and we expect they will become some of the very best!

Sunderland Aviator 13F Son! SUNR 52K Moderate BW 74lb! Leads off this sire group as a long spined, complete, balanced bull with style and substance. CAA EPDS's place him in the Top 25% for BW, Top 20% WW, Top 2% HP, and Top 15% for CBI. His sire 13F has been our resident heifer bull here used for the last 3 breeding seasons with no calving assists to date. This bull combines Mugrave Aviator and SAV Ripped 8304 for some interesting outcross opportunities. Another bull with the potential to sire some high quality replacement females in your herd. 52K's dam SUNR 26H is a SAV Ripped 8304 daughter that is deep bodied with a good disposition and very nice udder quality. Our SAV Ripped daughters have impressed us with their first calves, all have been very fertile, good mothers and have weaned calves at a high percentage of their body weight.

Sunderland Territory 287H son! SUNR 17K combines a BW Ratio of 95 with a WW Ratio of 108. His HP is in the top 1%! SAV maternal greatness stack his pedigree, SAV Emblynette 3293 ( a picture perfect SAV Density daughter), SAV Madame Pride 0075 (the 18+ year old dam of SAV America) as well as SAV Blackcap May 5530 (she speaks for herself with her long list of herdsire sons and multiple daughters retained in the SAV herd, she is the third top income producing cow in SAV history). SUNR 17K possesses many of his sires desirable traits such as length, depth and quiet disposition.

17K's dam SUNR 02D is gentle natured with good feet and udder quality. His maternal grandam HF Rose 188A has quietly earned her place here, achieving CAA Premier Dam status and we have several of her daughters retained in the herd. She has had several sons sold previously that have worked well for our customers with positive feedback!

Sitz Stellar 726D daughter! She is a special sale feature and it was a hard decision to let this one go. Capacious, deep, strong topped, broody female that commands attention! This Sitz Stellar with Musgrave Aviator mating sure clicked. SUNR 29K combines a BW ratio of 95 with a WW ratio of 106. She is future donor prospect with the bonus of a quiet disposition. A standout full brother sold in our 2021 sale to Cody and Verlin Steplar MT. 29K's dam is a 4 yr old moderate framed cow that has a quiet disposition, good feet and udder quality. She has weaned a high percentage of her body weight on her 1st two calves and continues to breed back early. 29K's granddam (9 yrs old) and great granddam (11 yrs old) are still solid productive cows in our herd and have produced multiple high selling bulls in previous sales with very high customer satisfaction.

Sunderland Ranch retains the right to one flush of all females sold at buyers convenience and sellers expense.

LEPTIN CT | PMCH AA | IGF2 CT | CRH CG

SAV Territory 7225 daughter! SUNR 740K is a well balanced heifer with femininity, length, depth and disposition. Top 20% fo BW, Top 105 for Docility and Top 20% for HP. Her pedigree combines some of the top maternal genetics in the breed giving her the potential to be a foundation female in any herd. SAV Territory 7225 females are rising to the top here, her full sisters that we have retained are showing promise and have all the right traits to be exceptional cows in the future.

740K's dam SAV Blackcap May 4563 is our cornerstone donor female. She is a daughter of the legendary SAV Blackcap May 4136, the top income producing cow in the breed. 4563's offspring are heavily represented in this sale and we feel they will be the right type of cattle that will add value to your herd.

Sunderland Ranch retains the right to one flush of all females sold at buyers convenience and sellers expense.

SAV America 8018 daughter! SUNR 773K is an early maturing power house female with maternal presence and style. This future donor prospect is the kind that you can build a herd on with her maternally backed pedigree and solid EPD profile, Top 6% for WW, Top 2% for ADG, Top 20% for Docility, Top 6% for claw, Top 8% for angle and Top 20% for CBI. Her full sister was the high selling heifer in our 2021 sale. 773K's AAA Pathfinder dam SAV Blackcap May 4563 is a special daughter of SAV Blackcap May 4136 that we purchased as the high selling donor female from the 2020 SAV sale. Two of her daughters are retained in the SAV herd and five progeny have sold in the SAV sale. Her daughters that we have retained are showing great potential and we are looking forward to our first crop of her daughters calving spring 2023.

Sunderland Ranch retains the right to one flush of all females sold at buyers convenience and sellers expense.

Sitz Stellar 726D daughter! This quiet natured, strong topped, long spined female SUNR 16K is a solid built replacement heifer that has great potential and offers some interesting outcross mating opportunities. A Stellar EPD profile that places her in the top 2% for WW, Top 1% for Claw, Top 4% for Angle and Top 20% for CBI, Top 10% HP, Top 6% MB! A maternal sister retained here is a strong producer who consistently weans off a high percentage of her body weight and continues to breed back early.

-16K's dam SUNR 08D is a standout female in the herd with excellent udder and foot quality. She has been utilized in our donor program and we look forward to seeing her embryo calves arriving here in spring 2023. Note: There is a noticeable splash of white LH underside of this female that may not be completely visible in her catalog picture.

# SUNDERLAND RANCH PUREBRED COMING 2 YEAR OLD BULLS

**Sunderland Resource 35J**

**Front foot**

**Back foot**

ADG on Grass no Creep :3.16 lbs/day | Act WW Sept. 16/22: 642 lbs  
 Days Old at Weaning: 190 305 Day Weight: 1039 lbs Hip Height: 51.5  
 Act WW Oct.,22: 1385 lbs

Sunderland Resource 317G son! SUNR 35J Ranchers take note of this one! This bull commands attention here with his good looks, capacity, depth, strong top and base width. Added value being a lower actual BW bull with balanced EPD values. This bull will sire daughters that you will want to keep as their mature height and weight should stay in check. His sire 317G is a son of SAV Resource 1441 was selected by Dave and Terry McLeod after we utilized him here and we have retained daughters in our herd. CAA EPD's, CE top 10%, BW top 8%, HP top 1% and CBI top 35%.  
 -35k's dam is a moderate framed, thick, deep ribbed, real attractive made female with good feet, a nice udder and abundant milk. Her dam (9yrs old) and granddam 108Y (11yrs old) have produced multiple bulls that have sold in previous sales with positive feedback from customers! 108Y is a moderate framed 1375 lb female who always weans a high percentage of her body weight, breeds back early and holds her shape extremely well no matter what time of year you look at her.

ADG on Grass no Creep: 2.87 lbs/day  
 Act WW Sept. 16/22: 612 lbs  
 Days Old at Weaning: 190 305 Day Weight: 1057 lbs  
 Hip Height: 52  
 Act WW Oct.,22: 1445 lbs

Sunderland Resource 317G son! SUNR 25J is a maternally charged bull with some great noteworthy cows behind him. SAV Blackcap May 4136, SAV Blackcap May 5530 and our own HF 188A who has also achieved CAA Premier status. Take advantage of the opportunity to inject some of these maternal greats into your herd. This 317G son has added length of spine which can help the commercial cowman add some payweight to the calf crop without adding a lot of mature height and weight when retaining replacement females. Moderate actual BW of 82lbs and balanced EPD values, CAA EPD's, Top 6% CE, Top 10% BW and Top 25% MCE.

25J's dam is an attractive, longer spined, deep ribbed female with good feet and udder quality with a quiet disposition. Her 2022 SAV Ripped sired son is featured in this years sale. We have also retained one daughter in the herd.

## Just for fun - Tuckers Farm Feline Services Production Sale for Charity

All proceeds from the auction of the kittens will go to STARS Air Ambulance in the buyers name.

Tucker entered the exciting world of feline reproduction when he purchased for \$5.00, the high selling commercial tomcat Dutch (AKA Bob in previous Sunderland Ranch Videos). Dutch was promptly litter trained, collar broke and spent the next few months as Tuckers camper cat before being introduced to the Sunderland Ranch Barn.

Tucker then sourced young females from a local ranch having a herd reduction of their fertile commercial felines.

It was decided by Tuckers family and friends that he would be in need of a business for his expanding herd- Tuckers Farm Feline Services became a reality on his birthday this spring!

This offering is the first for TFFS.

Their mother is a tortoiseshell cat and a great hunter. These adorable barn kittens have been well socialized, they have experienced the type of affection that only 3 and 5 year old little girls know how to give. Minnie, Mighty and Moe have the potential to make great barn cats but could also be wonderful house cats. You will not want to miss out on these kitties!

SIRE: **HATTON HILLS DUTCH 17H**  
ORANGE

DAM: **DOWN SOUTH LADY 02H**  
TORTOISESHELL

DATE OF BIRTH: AUGUST 15, 2022

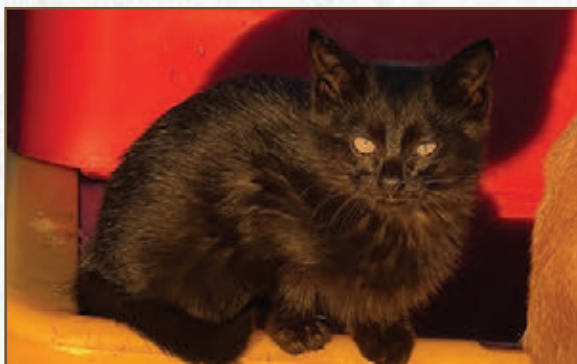

TFFS **Minnie** 01K  
FEMALE | BLACK

Her name says it all! She is tiny but fierce when she needs to be. The runt of the litter but playful and already a good mouser!

TFFS **Mighty** 02K  
MALE | BLACK WITH A SPOT OF WHITE  
Mischieff!! Loves to play but is super affectionate as well.

TFFS **Moe** 03K  
MALE | BLACK

Playful and active, he meets you at the door every morning for a snuggle.

# Terms & Conditions

## **Terms:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## **Certificate of Registration:**

Each animal will carry papers issued by the Canadian Angus Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## **Health:**

All sale animals will be vet checked prior to sale, including an age appropriate reproduction evaluation. Sunderland Ranch will assist our U.S. customers with required export blood work.

## **Guarantee:**

Bulls will remain at Sunderland Ranch until satisfactory breeding soundness and semen test is completed.

Bulls will be semen tested and will receive a booster of Bovishield Gold FP5, Fusogard (Foot rot vaccine) and pour on prior to delivery/pickup by May 15/2023. Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

## **Genetics:**

All purebred animals have been parent verified and Angus GS tested. All sale animals have been genotyped for Leptin, PMCH, IGF2 CRH4.

## **Delivery:**

Free delivery within a 200km radius of Sunderland Ranch. For delivery further than 200km- Delivery costs and travel arrangements will need to be confirmed with Sunderland Ranch.

## **Liabilities:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## **Phone, Mail & Wire Bids:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## **Insurance:**

Each animal becomes the purchasers' risk immediately after the animal is sold. We strongly recommend that insurance is purchased for full value at time of sale December 9, 2022. Sunderland Ranch Ltd. is not responsible for injury or loss. Sunderland Ranch Ltd. will pay 50% of the premium for a 6 month term all risk mortality policy up to 7.5% of purchase value. Blythman Agencies will be on site for your insurance needs the day of sale.

## **Wintering:**

All sale animals will be wintered FREE of CHARGE at Sunderland Ranch. All bulls will be available for pickup or delivery after the completion of a satisfactory breeding soundness evaluation:

Tentatively May 10 - May 15 2023.

Arrangements can be made to pick up replacement heifers anytime after settlement has been made.

## **Errors:**

All announcements at sale time, written or oral, supersede any written material in the catalogue.

## **Semen/Embryo Interest:**

Sunderland Ranch retains 1/3 interest in all bulls sold. Sunderland ranch retains the right to one flush of all females sold at buyers convenience and sellers expense.
