Delivery

- Bulls that are picked up sale day will receive a \$100 discount.
- For bulls returning to the seller's farm we suggest that the bulls be insured. Each animal becomes the responsibility of the buyer as soon as sold
- Deliveries will start around April 1, at the seller's convenience.
- Bulls will be delivered free of charge to central points across B.C, Alberta, Saskatchewan and Manitoba. We do our best to deliver your bull to your yard.
- Bulls traveling to the eastern provinces and for export will have trucking arranged at cost; unless other arrangements are made.
- Replacement heifers are to be picked up at the Ranch sale day.

USA & Mexico Export

We at Leewood Ranch and Kuzio Farms will arrange for all tests and paper work required to export these bulls to their new owners. It usually takes several weeks to get these tests completed and results back. Transportation will also be arranged at cost. We usually use Knill H S to send bulls to the USA and Mexico.

Bull and Heifer Selection Assistance

Purchasing breeding stock is a major part of raising livestock. Photos and videos are great tools but don't always tell the whole truth. If there are any questions on sires, dams, CE, WW, milk, etc please don't hesitate to give us a call. We can help narrow your search or point you to a bull that suits your needs.

Sight Unseen Purchases

If you need a bull or heifers but don't have the time to come to the sale we can help. Kuzio Farms and Leewood Ranch are both family run operations. We are the guys that do the foot work in our operations from the feeding to the breeding. Call ahead of the sale and we can discuss what you need or want in your next herd sire. We will select a bull that will fit your operation, at your price point. The saying with us is "We rather keep our buyers happy than look for new ones each year."

You can also place orders with the sale staff or bid online. You can bid online at DLMS. ca. Videos of the Leewood Ranch bulls and replacement heifers will be on Cattlevides. ca, a few weeks prior to the sale. If there are any questions on the Leewood Ranch Replacement heifers contact Colt or Howard Arnold.

MAR.2.2021 Leewood Ranch & Kuzio Farms - 5th Annual Bull & Female Sale

Sale Group Guarantee

All bulls are guaranteed to be satisfactory breeders in accordance with the Simmental association guidelines. We stand behind our product, Should a problem occur please contact us and we will make it right. A replacement bull (of equal quality), a credit or reimbursement will be given at our digression. Any physical injury or mismanagement of the bull(s), will void any reimbursement.

Volume Discount

We really appreciate are customers and for buyers needing several bulls this spring, we are offering a volume discount. Any buyers purchasing 3 or more bulls will receive a 3% discount. There is no minimum limit on price of bulls.

Bull-Breeding Soundness

All bulls will be semen tested before the sale. Bulls are tested for Sperm motility, morphology and are also subjected to a physical exam. They are checked for any scrotal, penis and other physical problems that would affect their ability to breed. Any bulls failing these tests will not be at the sale. Any semen deferred bulls have been tested and have been deemed by the vet to mostly likely pass a semen test at a later date. These bulls usually fail do to age or weather problems.

Heifers-Breeding Soundness

These heifers have all been palpated before the sale. Heifers that are found to be sexually underdeveloped or free martin will have been shipped.

Health

All bulls will be vet checked, scrotal measured, weighed and semen tested. All sale cattle are on a full health program. Any questions on feeding or exact health protocols please contact Kuzio Farms or Leewood Ranch.

Polled Testing

A select number of bulls will be Homo Polled tested.
Homo polled = no horns on any Calves
Hetro polled = 50% polled calves on horned cows

Colour Testing

Some black bulls will be tested for colour expression. Homo black bulls will not sire any red calves. The fullbloods and a select few red bulls will be diluter tested. Bulls testing diluter free can be crossed with black cows and will not give you any grey calves.

Semen Reserve

We reserve the right to draw semen for in herd use on any bull in the sale offering. Semen will be drawn at seller's expense and buyer's convenience.

Epd's

Epd's are basically a Mathematical estimation of a animals genetic value. There not always right but they can help in choosing your breeding stock. Below is a list of the epd's and what they stand for.

Abbrev. Description Units

CE - Calving Ease %	MWW - Maternal Weaning Weight
BW - Birth Weight	Stay - Stayability
WW - Weaning Weight	CWT - Carcass Weight
PWG - Post-Weaning Gain	REA - Carcass Rib-Eye Area Square
YW - Yearling Weight (WW + PWG)	Fat - Carcass Fat Thickness
MCE - Total Maternal Calving Ease	Marb - Carcass Marbling Marbling Score
BWM - Birth Weight Maternal	API - All Purpose Index Index
Milk - Milk	TI - Terminal Index Index

TERMS – The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made.

The sellers reserve the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase the breeders reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Sellers and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with the group.

BID-Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES- In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK- Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY- The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

SHIPPING- Assistance will be given in making shipment after the sale but no risk is assumed by the Seller. Purchasers are requested

to furnish shipping instructions when making settlement.

GUARANTEE- All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE – In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze.

HEALTH – All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

ACCIDENTS- Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sellers or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS – The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PICTURES- By attending are sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of the Sellers. If you wish to not have your picture used please advise us in writing immediately after the sale.

Kuzio Farms

Welcome to our annual Bull sale with Leewood Ranch. We would like to thank all of our past buyers and bidders that have supported our sales. We have a great selection of high quality bulls from leading AI sires Red and Black this year. The bulls are not on creep feed while out on pasture.

Please feel free to stop by the farm prior to the sale to view our offering or give us a call to discuss your herd bull needs. We look forward to seeing you March 2.

This embryo calf by Broker X Romona mating really clicked here. KUZ 87H is a individual that puts it all together with phenotype and genotype. A perfect combination of the broker style and the Romona power. When you watch KUZ 87H on the move he really is impressive in the way he tracks, with his long stride and nice big foot. Broker 87H

is one of those calves that soon as he was born you knew he was going to be something special. Would like to draw some semen for in herd use. Homo polled parentage and hair coat test pending.

Low set, easy doing herd bull prospect here. When we bred KUZ 49E to Shearforce we were kind of hoping for a heifer calf but KUZ 83H has not disappointed us. In fact we will be flushing KUZ 49E this spring the same way. A bull that I think is the total package. Calving

easy with performance and strong maternal genetics. Every good herd bull has to have a great mother and KUZ 49E fits that mold. She came to us via an embryo from Mader Ranchs and she is a model cow with a bright future. Homo polled by parentage.

A Bootlegger prospect with a heavy dark red hair coat. He is a larger framed bull with extreme length of body yet is still smooth shouldered. KUZ 53H gets his bigger frame from his Crosby dam who would be one of our bigger cows. The extra body length will equal more pounds on his calves and more dollars in your pocket.

Rampage needs a new home. He has done a great job for us, siring both bulls and replacement heifers. JDF6D is structurally sound and has a very easy going personality. Proven genetics that work.

Welcome to our 5th Bull and female Sale alongside Kuzio Farms. We would like to thank past buyers and bidders that have supported our sales. Like most years you will see heavy AI and embryo use in our bull pen. We have several full and half brothers in the sale this year. The largest sire group will be sired by PWK Max Factor and we think it's a pretty powerful group. Some of the industries top AI sires will be represented with bulls out of Springcreek Lotto 52Y, Harvie Wallbanger, Champs Romano, Crossroads Radium to name a few. We hope you can make it out, but if not we can be contacted any time to talk cattle. For people looking for replacement heifers, we have that to. These heifers are sired by many of the same sires as the bulls are. We've had many repeat buyers on the heifers and I believe that speaks volumes to the quality we sell in this sale. Any questions on the bulls or replacement heifers please call. Visitors are always welcome to view cattle prior to the sale.

Directions to Ranch

From Mannville south on HWY 881 to TWP 490.
West on TWP 490 to RR94.
Take north fork into Yard.

BEE BALLISTIC 1C
Sire of lots 24-29

A very powerful Ballistic son with lots of spring of rib, natural muscle and some good length of body that has made him a stand out in the pen. His dam is our donor cow BMS 45C. BMS 45C is hard to fault, with a next to perfect udder and great feet. I would call this guy the total package with power to make those heavy steers and huge maternal side to make those great replacements.

LeeWood Ranch - Fullbloods

LOTS 25-28: These next 4 bulls are all full siblings and similar in their make up. These flush brothers are moderate framed with lots of pigment, thickness and natural muscle. Sired by the proven Bee Ballistic 1C that worked at XRC Simmentals before moving on to Stout Bros Simmentals. Again, out of our donor cow BMS 45C sweetens the deal. We have 4 daughters in the replacement pen this year and have sold sons to Kassian Farms, TR Copland Veterinary Services and Mannville Farming.

An Edward son out of a first calver I bought from the Ricochet Dispersal alongside her dam. I would think 20H has a lot better calving ease than what his epd's show. He's a smooth shouldered bull that carries lots of pigment. We actually have used his sire as clean up on the heifer pen for two years with no problems. A great bull for 2nd calvers and mature cows.

A bull that really looks and moves like his sire. 66H is sired by Leewood FF Josey 7E that was our high seller a few years back to MJM Enterprises. I kept a little semen on Josey and have been very happy with the calves. I have a daughter that just calved on Jan 7 and you can't get a nicer udder with plenty of milk. I think 66H will produce some great little females and still pack the power to add some pounds to the steer calves.

Yes he's missing a few pieces but ears and tails don't breed cows. A very good Radium x LWC 10B son with more frame than his brother. 2H has been a stand-out calf since birth, he looked like a bull as soon as he dried off. If you can look past the ears you'll have yourself a really good herd bull.

A Romano son that puts it all together. Lots of pigment, moves very freely, with loads of muscle and rib. His dam is LWC 10B who has work well for us with some great young daughters in herd and 4 bulls in this years sale. We have 7 daughters from 4 sires and they have all worked. Longevity built in with Romano and great maternal side with 10B.

A large frame bull that's heavy muscled and rugged in his make. Sired by the great Romano bull, who just stopped breeding cows at 15 years old. He's going to turn into a big ugly dude that will add the pounds to his steers and the heifers should be good too.

Sire of lots 39-52

22H is the lead off of the 5 Max x MMWK 16B sons and for good reason. Dark cherry red, homo polled, super depth and great hair coat. Saying this pairing has worked would be an understatement, with 5 bulls in the sale and 2 heifers in the replacement pen. MMWK 16B is a long bodied cow with loads of volume. She comes from one of the top cow families at Willow Creek Simmentals up at Crooked Creek Alberta. I think if you come and look he'll answer all your questions.

A natural son from our donor cow Sun Star Molly. Molly has 3 sons in the sale, 3 daughters in the replacement pen and 3 daughters in herd. Son In-law is a very smooth made bull with some natural muscle, and that good hair all the Max sons have. A very good herd bull prospect that's going to do the job.

One more Molly son! A super dark Red Max son, that's starting to fill out nicely. His recip dam wasn't the best but his genetics are still there. This guy maybe a little behind now but I believe he'll turn into one hell of a bull. Maybe the steal of the sale here.

It is a pleasure working with the great people from Leewood Ranch. They are some of the most progressive Simmental breeders around and they continue to grow every year. The cows are run under real-world conditions and utilize a customized mineral program to maximize cow and calf productivity.

The bulls are raised on a forage-based diet that maximizes their genetic potential. They are fed a balanced TMR to promote lean muscle growth, and focus gut health which in turn promotes proper rumen health at every stage of development. Additionally, organic minerals are used to ensure proper immune function and health. The bulls' overall nutritional health and development are of utmost importance and are continually being tweaked to meet environmental and seasonal conditions.

If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

 SPRINGCREEK ALL IN 155Y
 SPRINGCREEK LINNE 33R
 WHEATLAND BULL 809U
 ULTRA POWERLINE CHIC 42U

I used Crosby on a select group of 3rd and 4th calvers to add some more performance and get some replacements. Crosby has proven himself over and over to make great cattle. He has over 900 registered progeny to date and some of the top donors in the breed are Crosby daughters (we just paid \$16500 for one). This Crosby son is moderate framed with good length and carries himself very well. If you need a Homo polled black bull this guy won't disappoint.

Leewood Ranch - Replacement Heifers

Replacement Heifers

I cut the sale heifers very deep this year and tried to remove any questions on why they made the sale. The quality is very deep with many heifers sired by Max Factor and LHVS Edward to name a few. We are very proud of the quality of these females with many selling to repeat buyers and from Northern Alberta to Manitoba. These heifers were born in late January to March. Heifers are palpated before the sale for breeding soundness. Most of the heifers will be purebred Simmental and several will be 1/2 to 3/4 sisters. The sale heifers are on the same feed as our replacement heifers we kept. Their ration is made up of Bullseye Feeds Mash supplement, grass hay and oat silage. If you have any questions or want to tour the herd please contact us.
