# WELCOME TO OUR SALE

It is a pleasure to welcome you once again to our annual bull sale.

This year has truly been a test of endurance. With that said, we have enlisted DLMS to provide online auction and bidding.

Our goal is to offer a diverse set of bulls for every type of cattleman. We think we have achieved that. The 206E calves are our "powerhouse group;" deep, soggy and performance masters.

Again we have easy calving sires as do our partners, Brooks Farms. The guys have brought out a good group as always and we are happy to have the family join us.

Due to government regulations, we welcome you anytime to view our offering, if you are uncomfortable attending sale day.

We hope we can be of assistance to help you select the bull that most fits your needs.

Please give any one of us a call if there are any questions.

Hope to see you on the 21st.

- Karl, Karen and Cory

# FROM THE DESK AT TBAR...

Welcome to the ANL Polled Herefords with Brooks Farm Annual Spring Bull Sale, March 21, 2021 at the ANL heated sale facility, Steelman, Saskatchewan. For generations in the Polled Hereford breed, the Lischka Family have been supplying quality breeding stock for the livestock industry throughout North America.

Their 2021 lineup is exciting... offering yearlings, two-year-olds and a proven sire. No doubt the sons of the new "Bottom Line" will be features... powerful in muscle shape, deep, easy fleshing with tons of hair and pigmentation. The Start Me Up sons are full of style with many possessing the bred-in calving ease factor. The Mountaineers offer proven performance while the Warriors offer the high milk maternal factor.

For those who are looking for breeding stock with do-ability, easy fleshing, soundness, muscle with hair (after the recent artic vortex we can all use more), this great offering can fill your breeding requirements. The ANL and Brooks Farm cow herds are maternally similar so you can be assured that you will want to keep all the daughters for your replacement pastures.

The nations cow herd needs more Hereford essentials. Baldies are profitable and popular no matter what breed they are crossed with and make ideal females in all pastures and terrains. If there is a problem with good Hereford bulls... it would be longevity... they just last too long. Now is the time to give those old bulls a rest and add fresh new genetics into your breeding pastures.

Stop by either breeding operation anytime prior the sale, preview the bulls and see the mothers as they are always nearby or give Karl, Cory, or the Brooks boys a call to discuss the bulls and which will fit your breeding requirements. Plan to be with us on March 21st for your Polled Hereford sires in person or online!

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.
