We are very excited about our front cover. It is a drawing Austen did for the Canadian Junior Angus Association fundraising auction at the Showdown in Lindsay, Ontario. The technique he used is called "reverse light" in which he grates graphite onto a blank page to create the black or darkness. With an eraser he draws or removes the "black" to release the "light" and create the image. It is amazing to watch him create these pictures.

FROM THE DESK AT T BAR...

Welcome to the 12th Annual Anderson Cattle Co. Red and Black Angus Bull Sale on Tuesday, March 30, 2021 at the farm, Swan River, Manitoba. From the home of the 2018 Manitoba Purebred Breeder of the Year, this multi-generational, seedstock producing family, offer an exciting lineup of yearling and two-year-old bulls featuring fresh new genetics for your program and bottom line.

Andersons pride themselves in a powerful, predictable cow herd with great udders, plenty of milk and full of longevity and soundness. The uniformity of the bulls from pen to pen attests to the fertility of their breeding program, both red and black.

The Red bulls are led by several feature individuals by Red Box and Reckoning that should command breeder interest. They are bred right, made right and will add an extra dimension in power to a breeding program. They are optimal in frame size, thick topped with lots of muscle and body depth. Check out the spread on these bulls from birth to weaning! Whether you require a bull to breed cows or to run with your heifers, selection and opportunity is diverse.

There are several feature bulls in the Black division by Stunner, Power Chip, Duplicate and Hi Definition. These powerful bulls offer high weaning weight numbers while being optimal in birth weight traits. Their ruggedness and hair is a necessity after this past winter's fury. Easy doing, thick throughout

with tons of muscle, do not overlook this stout black offering.

Feel free to stop by the farm anytime prior the sale and preview the bulls and have a peak at their mothers... or give Bruce and Austen a call to discuss the bulls and which bulls they would recommend for your specific needs... you will get an honest answer. Plan to be with us on March 30 in Swan River or be online... it will be worth your while.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

Chris Poley

Welcome to our 12th Annual Bull Sale. This year will feature a new and impressive set of ET calves sired by Mann Red Box 55C, Red KJHT Power Take Off, Red Cockburn Assassin 624D, Red U-2 Reckoning 149A, Red U-2 Authentic 139A and Red Wheel Creed 214C. We also have some very interesting heifer bulls that will grab your attention sired by Musgrave 316 Stunner, 5T Power Chip 4790 and Young Dale Hi Definition 185B. The offering is deep in quality and variety and includes many popular sire groups such as Big Shot, Staunch, Magnum, Pacesetter, Chisum, Stirling, Cannon Fire, Gold Buckle, and Duplicate.

This year the bulls were fed a balanced TMR growing ration of ground hay, corn silage, barley silage, S01 Oats, rolled barley and a custom formulated mineral. The bulls are very athletic and have been wintered in large paddocks to ensure they get plenty of exercise. They will go straight to work and walk your pastures with ease. All of the cattle are familiar with both horses and dogs. We work with the bulls daily and we value the good dispositions in our breeding lines.

This year we were unable to attend any shows and only consigned to Red Roundup and Keystone Klassic. COVID couldn't keep us out of the show barn and we halter broke Lots 1, 2, 32 and 35 as we felt they were that special. Any of these bulls could load onto a trailer this fall and be competitive in the show ring.

2020 was a busy year of farm improvement projects, we fenced a half section of pasture, improved dugouts and water lines at several pastures and upgraded some corals to drill stem and sucker rod. Breanna joined Beef Smart in the fall of 2020 and has been busy meeting new producers. She has shown to be an invaluable asset to their business as she is to ours. We value her knowledge on a daily basis and she has been a tremendous help in formulating our rations. We believe the cows need to work for a living, just like the rest of us. As feed was a little tight this year they spent a lot of the winter eating a ration of corn silage and chopped straw.

On January 21st Austen and Katie welcomed Finley Olynk Anderson to the family. He was born at 10:10 PM, weighed 8 lbs 6 oz and was 21 1/2" long. He's happily settled in at home and is growing like a weed.

T Bar is once again managing the sale. We have complete confidence they will assist you with your requests. You are welcome to stop by the farm any time prior to the sale to view the cattle. If we can help you select your next herd sire please don't hesitate to call. Hope to see you March 30th!

Sincerely,

**Bruce, Ione & Breanna
Austen, Katie & Finley Anderson**

Red ACC Redbox 119H is an easy pick to lead off our 2021 offering. Mann Redbox 55C has been one of the most talked about Red Angus sires throughout the winter, with semen trading for \$400 a straw and limited calves being offered for sale in 2021. Here is your chance to buy our best, get in early and own a Mann Red Box 55C son. I could go on and on about how complete and maternal his dam, 13B is but instead just check out Lot 1's maternal sister, then check out her two Reckoning sons in Lot 2 and 8. 13B is the real deal and we've froze close to 80 eggs on her in the last 12 months. Angus GS Tested.

Here is a pretty one that would fit right in with the rest of the U-2 Reckoning 149A sons in U-2, Coaldale, Alberta. He is dark red and super correct in his structure right to the ground with excellent foot structure. We halter broke Lots 1, 2, 38 and 39, so he's ready to breed your cows this spring and be put on display this fall or lead him onto the trailer when you pull your bulls. The sire is still incredibly relevant to the Red Angus breed with sons and daughters highlighting sales at Six Mile, U-2 and various other programs.

Angus GS Tested.

Lot 3 is the most powerful of the Reckoning sons with an Adj WW of 741 and a YW of 1300 lbs. He's built to calve easily on mature cows so don't let the added birth weight scare you. A 1500 lb. cow should be able to have a 102 lb. calf easily on her own or there's something wrong with the cow. The depth and length this bull possesses will leave you with more jingle in your jeans come fall of 2022. If you have cows to breed, then buy this bull.

Lot 4 patterns very similar to Lot 3 with a little less birth weight. If someone was able to buy Lot 3 and 4 together and turn them out with 60 cows that would be a nice set of steer calves next fall. Then imagine you have them both as two-year-olds the next breeding season. You couldn't ask for a more uniform set of calves off of two full brothers.

Analyze the full brother to Lot 2 and maternal brother to Lot 1 and you can really start to appreciate the depth of quality that Red ACC Tibbie

13B possesses. No matter what we breed her to she cranks out winners. We are really excited about this year's replacement heifer pen, which has a number of females that pattern similar to the heifer depicted with Lot 1. 174H has a super coat of dark red hair over an impeccable skeletal structure. If we were selecting a bull to turn out with our heifers this is the one we would pick, but lucky for you our heifer pen is full of his sisters, so make sure to take a hard look at Lot 5.

We had a goal of creating a red Chisum that was descended from our herd bull, Crescent Creek Chisum 16Z, that left us so many great bulls in earlier sales. Red ACC Chisum 188H is an outcross herd bull from a female that has raised nine calves here including a Masterpiece consignment to Dwajo Angus, a herd bull to Robin Hill Farm in Oxdrift, Ontario, and another herd bull to Rick Krochak. The Chisum calves are high performance and we haven't had to assist in a calving on a 120E calf yet.

ACC Knockout 75H is our feature Black Angus bull with good reason, he leads the pen in performance and phenotype. His dam, Crescent Creek Queen Ruth 104A was purchased through the Keystone Classic and has been an important part of improving our black program. We have retained four daughters and consigned one to the Keystone Classic that sold to Robert, Brent and James Duncan. We also walked her son, ACC Buckaroo 39G last year and plan on using him heavily this year. If you admired 39G on the show road in 2019 at Harvest Showdown, Agribition or at the Saskatchewan Angus Sweepstakes here is your chance to own a maternal brother out of the sought-after Musgrave 316 Stunner. P.S. Lot 32 is completely halter broke and ready to exhibit in 2021 if you so choose. Angus GS Tested.

Musgrave 316 Stunner
Sire of Lot 32

Crescent Creek Queen Ruth104A
Dam of Lot 32

ACC Buckaroo 39G
Maternal Brother of Lot 32

Powerchip 79H

This is Austen's pick of the pen, he has a chiseled front end and is uber masculine. We halter broke him as well as Austen could not wait to get the shears going and spend the extra time that a bull like this deserves. +10 Calving Ease to a +98 Yearling Weight, this bull can be used on heifers and then run with the cows after. His dam was purchased from Kembar Farms in a package of females that has turned out to be an excellent acquisition. Kembar Tara 53E is a nice, moderate female with a tight udder and teats on four corners, her first daughter just calved and looks like another spectacular Gold Buckle female. This is a bull we wouldn't mind running with some heifers so if you want to work something out we are all ears but are prepared to let him leave March 31st as well.
Angus GS Tested.

Powerchip 104H

When Wes Olynk came and checked out our bulls in the fall he really liked ACC Powerchip 104H. He's a more compact, rounder version of Lot 33. He has always got his head up in that proud herd bull fashion and I believe he will make a very efficient breeder. His dam, ACC Stumpie 8E is a Coleman Charlo daughter from Katie's foundation female, Figure 8 Angus Stumpie 12N. Her first bull calf was a feature heifer bull in last year's sale and sold to Anthony Stephanow.

ACC Prime Cut 12H outpaced his Prime Cut brothers and is rivaling the power bulls for heaviest bull in the pen. His granddam is a red carrier so there is a 12% chance that he is as well, and if he was we could probably find some red heifers for him to breed. His birth weight and EPDs say he should be fine on heifers, but his explosive growth would lead me to recommend doing a trial run this year on a few heifers before turning him loose with 30. We would confidently use him on heifers, but were also watching them and prepared to assist if needed. Regardless he has a 112 point spread from BW to YW which makes him one of the most powerful bulls in the pen.

Here is the pen heavy weight with an adjusted weaning weight of 1483 lbs. He's as long as a freight train and has looked two months older than the rest of the calves since August. His dam, 2101 was purchased in the Prairielane dispersal and has raised numerous females for us and her bulls have always been exceptional. Last year we delivered a bull to Mitchell and Anne Decosse's place and another one of her bulls sold to Kevin Wenzel. Prairielane Rosebud 2101 is also the granddam of our new herd bull, ACC Stunner 14G, as well as Lot 43.

This is our most complete Gold Buckle son on offer this year. He is proud, smooth shouldered, thick and so deep. His dam was purchased at Keystone Klassic from Nu-Horizon Angus and has made us

Nu-Horizon Missie 522C - Dam of Lot 40

nothing but money. Her first calf was high selling female that year at Keystone Klassic, then we flushed her and her bull calves made up two out of the three bulls in the pen of three we took on the road. That year her bulls sold to BWR Stock Farms, Mitchell and Anne Decosse and the high selling black bull to Neil Rooks.

What a streak ACC Daisy 73C is on, four bulls back to back. Logan Scharf, Flying S Ranch and Brent Follensbee have all purchased maternal brothers. Lot 41 is a full brother to Brent's bull that we delivered to his place last spring. With a 1351 Adj YW this bull can push down the scale. This big guy will add scale, length and mass to your calves and his daughters will be soggy sided, maternal females as the Daisy family is one of our oldest and most revered cow families.

Hi Def 4H

Calving ease specialist, ACC Hi Def 4H is as cool as they come. 68 lb. birth weight to a 723 WW and now he's over 1300 lbs. Our only other Hi Def calf this year was a heifer and she is one of the top replacements in the pen. This is Tibbie 107F's first calf and she did a great job on him, she just calved again before I came in to write these footnotes and has a beautiful udder and is highly maternal.

EPDS

EXPECTED PROGENY DIFFERENCE

The expected difference in performance of a bulls progeny when compared to the average progeny performance of all bulls evaluated. EPDs cannot be compared cross breed.

CE: CALVING EASE - percentage of unassisted births with the more positive number indicating greater calving ease.

BW: BIRTH WEIGHT - the birth weight of a bulls progeny when compared to the breed average, in pounds.

WW: WEANING WEIGHT - the adjusted weaning weight of a bulls progeny when compared to the breed average, in pounds.

YW: YEARLING WEIGHT - the adjusted yearling weight of a bulls progeny when compared to the breed average, in pounds.

MCE: MATERNAL CALVING EASE - describes the probability of not requiring assistance when a bull's daughters calve for the first time. The higher the EPD, the higher the probability that a bull's daughters will not require assistance at calving time.

MILK - a measure of amount of pre-weaning performance gained by calves which can be attributed to the milking ability of a bull's daughters. The EPD is expressed in pounds of calf.

High Selling Red Angus Yearling Bull
Red ACC Nozeka 81G, sold to Wraz Red Angus, Wawota, SK

High Selling Black Angus Yearling Bull
ACC Fortitude 2G, sold to Rosling Farms Ltd., Gladstone, MB

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

GUARANTEE: Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PHONE, MAIL & WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supercede any written material in the catalogue.

CATTLE INSPECTION: All carry permanent identity tags, corresponding to Sale Lot Numbers as well as Canadian Cattle Identification Tags.

HEALTH: The bulls offered for the sale have been vaccinated in June and October with Bovi Shield Gold and Ultrabac. All bulls were treated for external and internal parasites and **will receive the initial dose of Fusoguard (foot rot vaccine).**

DELIVERY: Please speak to us about arranging delivery or deduct \$50 from the purchase price, if you take your bull home sale day. Any bulls remaining at the farm must be insured and after May 1 will be kept at a cost of \$3/day.

We are proud to support the **Canadian Angus Foundation 15 for 50 Program**
