VOLUME DISCOUNT

5 BULLS OR MORE 5%

10 BULLS OR MORE 10%

*B*efore I go any further I first of all want to thank our loyal and committed customers who have supported our program in the past and to our new and future clients we look forward to working with you to improve your bottom line.

There is an old saying that a change is as good as a rest, well we have made a lot of changes and I truly believe that in time it will prove to be positive. First of all we have made the decision to sell yearling bulls. This came about primarily because of the labour situation at the farm. Secondly, we have moved our sale date to May 1st. This was decided upon to get away from the rush of sales earlier on and to give bull customers a chance to evaluate what is really needed in the upcoming breeding season. End of April or early May breeding still produces a first week in February calf so although some breeding decisions have been made the majority of operations are still open to options. This years bull lineup is primarily April born. The quality runs very deep with performance and frame rivalling any sale in the nation. Our calf crop is weaned without any creep, all cattle selling have been genomically enhanced and this year we are offering a season long warranty on the bulls against injury or death, without question the best warranty in the business.

Also on offer are 40 open replacement females. The depth of quality in this group is outstanding with many potential show prospects, donors females and most importantly top cow prospects.

Consider this your invitation to be our guests for dinner on Saturday May 1st at the ranch headquarters and experience some good East Central Saskatchewan hospitality. If we or our capable sale staff can be of assistance to you prior to the sale do not hesitate to contact.

w w w . B a r H . c a

Regards, *Robin*

Things to Consider...

- **ALL OUR CALVES ARE WEANED OFF OF THE COW WITH NO CREEP**
- **WEANING WEIGHTS ARE REAL, ONLY MILK AND GRASS**
- **OUR BIRTH WEIGHTS ARE ACCURATELY TAKEN WITH AN ELECTRONIC DIGITAL SCALE THE SAME DAY AS THEY ARE BORN**
- **WE FOCUS ON BODY TYPE, STRUCTURE/PROFILE AND SOUNDNESS (SKELETAL AND FOOT)**
- **WE WINTER OUR BULLS IN LARGE LOTS. EXERCISE IS AVAILABLE FOR EVERY ANIMAL TO MAINTAIN ATHLETICISM**
- **ALL SALE CATTLE HAVE BEEN GENOMIC TESTED TO ENSURE PARENTAGE AND GENETIC ACCURACY**
- **OUR BULLS CARRY A BREEDING SEASON GUARANTEE AGAINST INJURY OR DEATH**

Welcome to the Bar-H Land and Cattle Co. Angus Bull and Female sale, Saturday, May 1, 2021 at their ranch headquarters, Langenburg, Saskatchewan. In this strange year where agriculture has become an economic leader as the world looks for food supply, the folks at Bar-H have changed their format to a yearling bull sale and moved their sale date closer to turnout time.

Uniform in type yet genetically diverse, this lineup is young (mostly April born), fresh and futuristic. Their sires are proven and selected with traits to move a program forward through performance but not sacrifice the basics we have come to take for granted in the Angus breed. The Bar-H breeding program is genetically unique... an outcross of sorts. Robin prides himself in building a cow herd that is functional in soundness and maternal qualities, but most importantly, predictable in production.

The open heifers are paternal sisters to the bulls and offer vast opportunities for both young and established herds. In this fancy pen are females that will be competitive or potential donor candidates and front paddock ladies that will offer endless earning power. Suitable for all types of programs and all types of budgets... these money makers should not be overlooked!

The past winter's Arctic Vortex has taken its toll... we urge you to semen test your bull battery to insure your breeding needs. Remember that you should buy them where you can find them... not when you need them, as these sires are ready for your breeding pastures.

Plan to stop by the ranch anytime prior to the sale, have a tour of the bulls and their mothers. Feel free to give Robin a call to discuss the bulls and females... and those which will suit your genetic needs to move your breeding program forward.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

Chris Poley

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association[®], home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs

Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)

The ability to make more rapid progress for traits that are important to you, due to:

- more accurate selection
- easier identification of genetic outliers
- the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

www.angus.org

Terms & Conditions

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final.

Announcements made from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION: Each animal will carry papers issued by the Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

VOLUME DISCOUNTS: 5 bulls or more 5%, 10 bulls or more 10%.

GENOMIC ENHANCED EPD'S: All registered sale lots have genomic enhanced EPDs by the Angus GS test and have their sire verified. *Note: Because of weather DNA was delayed in transit and results will be available after April 1st.*

GUARANTEE: All cattle sell under the standard terms and conditions of the Canadian Angus Association. **All bulls are fully guaranteed against injury or death by Bar-H Land & Cattle Co for the first breeding season. We ask that you contact us as soon as possible regarding any claims. All claims must be made by October 1, 2021.**

DELIVERY: Bar-H Land & Cattle Co offer free delivery on all cattle to central points. Any cattle selling to the US will be taken to the nearest port of entry. **Bulls picked up within 1 week of the sale will be eligible for a \$50.00 discount.**

HEALTH: All animals in the sale have met all necessary health requirements.

INSURANCE: We strongly recommend that insurance is purchased for full value.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

PHONE, MAIL & WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue.

Mindbender was the very popular and high selling bull in 2018 bringing \$38,000.00 for a full 1/2 of the bull, selling to Spring Creek Simmentals, the Brian McCarthy family. Mindbender was a planned mating, combining superior female maker, S Summit and power Angus cow, HF Tibbie 93U. To this point he has crossed all boxes as a genuine breed improver. He will keep birth weights in check, add performance at weaning and yearling and sire both sexes of high quality. He stands on a great set of feet and is very low maintenance. We believe his greatest contribution will be that of his females. They are stouter made, soft in kind and are genuinely milky with great udders and teat scores.

Titan was a great find from Thompson Angus in North Dakota. Deep bodied, level hipped with added dimension is what you get when you use Titan. His feet are impeccable and because of his athleticism he covers a lot of ground in the breeding pasture. His sons will feature our spring bull sale and as well, his females are some of the real features here. By all accounts his daughters have improved udder attachments and the teat placement is ideal making them problem free.

Intrinsic was obtained in the spring of 2018 from Nathan and Emily Spickler. With his first calf crop he was able to lower birth weight on every cow he was mated to which earned him a negative birth EPD. Even though his calves come small at birth they appear to grow and perform well following weaning. Intrinsic has a lot to offer our program, he is a complete outcross to most of our bloodlines, his scrotal size and EPD are in the top 1% of the breed, he stands on a very good foot and his temperament is second to none. Combining his balanced genetic profile along with his overall structural completeness makes him a very valuable breeding tool for the future. As a note, his full flush sisters are very good in every area of production. As of this spring his first daughters are calving and the udder quality is impeccable.

Sensation was our pick of the Angus bulls at Hoffman Ranches sale of 2019. We believe he is S A V Sensations finest son. He is overpowering in his overall mass and capacity consistently siring cattle that have extra depth of body, extra bone and extra hair, traits that feedlots look for and we believe Angus cattle have been lacking. He stands on an extremely large foot and is very accurately constructed. His overall profile and balance seeps with quality as he continues to improve cows that he is mated with.

Open Country keeps adding value to his presence as each year goes by. His sons are easy to feed and sell because of their loose hide, large scrotal and soft middle. Open Country is an udder and teat improver and his daughters are making big bodied, roomy cows. He does all of the aforementioned along with keeping birth weight in check.

- We love the potential this female embraces
- Low birth, above average growth
- Her structure is superior with angles to give her flexibility
- A low birth Titan with growth and maternal makes her unique

Moms 81st birthday in February

Michelle, John & Robin Hogberg

Bull Management

THE BULLS IN THIS SALE HAVE BEEN INTENTIONALLY DEVELOPED TO BE SOUND LIFELONG BREEDERS

BULL CALVES WERE WEANED THE 1ST WEEK OF OCTOBER. THE CALVES SAW NO CREEP FEED AND WEANING WEIGHTS ARE TAKEN RIGHT OFF OF THE GRASS AND COW.

THE BULL CALVES WERE THEN PUT ON A CHOPPED GREEN FEED RATION UNTIL FULLY WEANED

OCTOBER 25TH THE BULL CALVES WERE PUT ON SELF FEED WITH A HIGH ROUGHAGE LOW ENERGY PELLET ALONG WITH A GREENFEED ROUGHAGE.

ON MARCH 15TH THE BULLS CAME OFF TEST AND WERE SWITCHED TO A HIGH ROUGHAGE TMR RATION OF GRASS HAY AND ROLLED OATS LIMIT FED.

Heifer Management

THE HEIFERS WERE MANAGED WITH LONGEVITY IN MIND. WE ARE VERY CAREFUL NOT TO GET OUR FEMALES OVER CONDITIONED AS THIS CAN BE DAMAGING AND LIMIT FUTURE PRODUCTION.

HEIFER CALVES WERE WEANED THE 1ST WEEK OF OCTOBER.

THEY WERE PUT ON A CHOPPED GREENFEED RATION UNTIL FULLY WEANED AND THEN TURNED BACK OUT TO A GRASS PASTURE FOR AN ADDITIONAL MONTH.

ON DECEMBER 1ST THEY WERE BROUGHT BACK INTO THE YARD AND WERE PUT ON A HIGH ROUGHAGE TMR RATION OF BARLEY GREENFEED, GRASS HAY AND ROLLED OATS LIMIT FED.

WE UTILIZE FEDERATED CO-OP'S ELITE BREEDER CHELATED MINERAL IN ALL OUR RATIONS AND IN OUR COW HERD ALL YEAR ROUND.

OUR ENTIRE COW HERD IS UDDER AND TEAT SCORED AT CALVING, WEIGHED AND FOOT SCORED POST WEANING.

ALL SALE CATTLE HAVE BEEN GENOMIC TESTED WITH ANGUS GS, BECAUSE OF WEATHER ISSUES THE RESULTS WERE NOT AVAILABLE TO BE PUT INTO THE CATALOGUE BUT WILL BE AVAILABLE THE FIRST PART OF APRIL AND WILL BE INCLUDED IN THE EPD'S ALONG WITH FRAME SCORES AND SCROTALS ON SUPPLEMENT SHEET.
