15TH ANNUAL

# BLUE COLLAR BULL SALE

## WELCOME

April 10th at Heartland in Yorkton is the scene of the Annual Blue Collar Bull Sale! As per usual buyers can expect a stout, rugged set of bulls to come to town that are chock full of performance! Year after year the strong base of repeat buyers come to town to make their selections for their upcoming calf crops. A strong selection of bulls fill this catalogue that cover the bases in different ways but all add up to bulls that have lasted over the years which is why over 90% of the bulls go to repeat customers. Whether you are looking for some larger framed performance bulls or calving ease specialists, there is a wide variety of genetic bases available for you to appraise!

Join us Friday afternoon to view the bulls at Heartland and visit with the good folks from Parkwood Farms or Northern View Angus to discuss your needs. If you have any questions regarding the offering feel welcome to contact any of the consignors or myself as we would be happy to field your questions.

See you sale day!

Welcome to the 15th Annual Blue Collar Bull Sale. The Blue Collar group hopes that all is well with you and your family.

Firstly, we would like to acknowledge the dedication and contribution that the Swan Hills Ranch crew has made to the Blue Collar Sale. Scott, Cindy, Martina, Robyn and Parker have been great supporters, members of our group and most importantly our friends. We have been honored and proud to have worked with them over the years. Things change and folks move on. Swan Hills Ranch has decided they would like to change things up in their farm and business world. They have decided to move in a different direction to market their bulls. We appreciate and respect that and wish them all the best.

It is our hope that winter has treated you well. The past 12 months have been interesting, challenging and disheartening.

The phrases: "The new normal.", "It is what it is.", "Our new reality." ... are heard regularly in conversation, in the news and on social media. The struggle for each of us to remain positive, up beat and mentally healthy is very real.

However, in agriculture we are experiencing the same as we have every year: harvesting crop, baling, feeding cattle, calving cows, looking after herd health, rebreeding cows.... our normal remains the same. The only masks we wear here are neck warmers or balaclavas to keep the polar vortex from freezing our faces. Not much has changed on the farm work wise. Commodity prices are another story. Grain prices continue to climb to numbers we have not seen in a long while or never seen, the feeder and culled markets are also on the rise.

Normal on the farm continues to exist as always. As we approach the spring bull sale season, we have to do consider our breeding programs for our cows. How many bulls do we need? Do we need heifer bulls or cow bulls? What genetics are we interested in? What programs offer what we are looking for with great customer service? What operation offers strong maternal genetics? These questions are ones you will be able to find answers to in this catalogue. We believe we have diverse breeding programs, quality genetics, great cows and a bull to meet your needs.

As the Blue Collar Group, we are very proud of our offering and look forward to visiting with you on the phone, at our farms, at Heartland before the sale and on sale day. We will have COVID protocols to follow for our sale. At this point (as of February 23, 2021), we have been told we will be allowed to have 30 people in the sale area during the sale. We plan to have a viewing of the bulls on Thursday afternoon, all day Friday and Saturday. DLMS will have videos and pictures of all the bulls for you to view. Bidding and buying on DLMS, through our sale staff or with Scott and Troy is also possible.

Throughout the catalogue you will find an entire host of information to aid you in your bull or heifer selection. There are footnotes, pictures, pedigrees, weights, sire and dam information. Please feel free to contact any one of us for more information or stop by our farms to view the bulls prior to the sale.

**The Blue Collar Bull Sale Group would like to thank the following for their contribution to the success of our sale:**

- Everyone who attended last year's sale, our bidders and buyers.
- All our friends and family who helped us before, during and after the sale.
- All our sponsors - We do business with all of them and recommend you give them a try, too.
- To Castlerock Marketing, Hugh Elliot, Levi Hull and Kyle Prokopetz, the Heartland Staff and all our friends for their work on our sale.

We believe that we have a solid and supportive team who can work to make sure that you are well taken care of and your livestock needs are met. Please contact any member of the Blue Collar Group or the sales staff with any questions to help you select the animals to meet your needs.

Once again, we are going to start our sale with groups of 3 heifers. Many of these heifers come from bulls that have been purchased from the Bull Collar consignors. Look to increase the productivity of your cow herd with these quality genetics.

We would also like to make you aware that Trustmark Agencies from Melville, will be on hand sale day to assist you with the insurance of your purchases. As breeders we will support you, the buyer, in every way we can to ensure our cattle work. However, there are unforeseen events which occur, like illness, injury, or death, which the buyer and seller cannot control or guarantee. For situations like this there is insurance. We strongly recommend you insure all your livestock purchases but want you to ensure any cattle which will be going home to our respective farms for a while. Please refer to the back of the catalogue for all sale conditions.

We take pride in the fact that we have an increased number of repeat customers. Please refer to the list of last year's Blue Collar purchasers at the back of the catalogue. We truly enjoy the connections and socialization which is involved with our customers and the cattle business. We would like to invite you to give us a call or drop by our farms for a visit any time.

We would like to welcome you to the 15th Annual Blue Collar Bull Sale. Cattle will be arriving at Heartland on Thursday and may be viewed anytime until sale time. At this point we are not sure if we will be able to provide a meal. Please watch for announcements on this on Facebook or on the CJGX. Feel free to contact Scott or Troy regarding this meal too.

Consider this your invitation to come to Heartland in Yorkton on Thursday, April 8th from 3:00 PM to 7:00 PM and Friday, April 9th from 9:00 AM to 7:00 PM for a viewing of the cattle and fellowship and to the sale on Saturday, April 10th to view the cattle and for the sale at 1:00 PM.

See you at the Sale,

**Blue Collar Sale Group**

Well, as I sit down to write this we are just out of a brutal polar vortex and now into a +6 degree February day. The roller coaster of weather in Saskatchewan never ceases to amaze. We continue to experience weather extremes that are either too hot, too cold, too wet, too dry, too windy...and this can all be in one day. However, through all these variations our Angus cattle tend to impress us with their resilience and how they can survive.

During this most recent polar vortex we were forced to put 3-4 day old calves out into the pair pens. The maternal strength of the cows and the vigor and hardiness of the calves continued to amaze us in their survival. These little ones hunker down in the straw where their mothers have strategically placed them out of the wind. They would get up to nurse, buck and jump for about 10 seconds before retreating to "their spot," astounding.

The best cows we can raise, or purchase are the key to longevity and survival in the cattle business. Cows that will lay down and have a calf, get up, nearly lick the hair off the calf and ensure that calf has nursed, are essential here. It is important that these cows are completely manageable before and after calving. Once these cows have calved, they must raise a productive, sound and highly functional animal that can be used as a replacement heifer, breeding bull or, at the end of the day, sell well at the market. You will note that I mention our cows in the footnotes of the bulls. We have been and continue to work on our cow herd's development. We need great cows to do the job we want. Cows that are just good enough are not good enough. We strive to have cows that are beyond simply good enough.

We also strive to utilize the best bulls we can find via AI or with walking bulls. When I select bulls to use, we need adequate scrotal development, calving ease, strong phenotype, ample growth and strong maternal qualities. It is my belief that failing to plan is planning to fail. Consequently, our breeding program is carefully thought out and researched. Matings are thoroughly explored, analyzed and planned. Consequently, we hope to produce top quality seedstock.

This year we have Scheifelbein Attractive, Mogck Entice, S A V Thrive, S A V Renovation, Boyd Cartwright, Paintrock Trapper and S A V Resource as AI sires we selected. In addition, we have some very strong herd bulls that have produced some top end bulls in this sale. Our own herd bulls include Super Duty 89F, Compass 108D, Breaking News 9F and Bar CR Innovation. They have produced very competitive progeny.

We have really worked on not pushing our bulls. Feeding them a ration of 1% of their body weight in grain/supplement and the balance of their ration with brome, timothy, orchard grass and millet hay. The hay is of excellent quality this year. We monitor the feed intake of our bulls to ensure no overfeeding and to promote a sound growing bull that will work for you for the long term. They have free choice Masterfeeds Maxi lick tubs to promote scrotal development, semen quality and structural soundness. The bulls are raised in large pens and/or pasture areas to allow for ample room to wander, rumble and explore.

I have catalogued our bulls in sire groups and in numerical order of when they were born within that group. The oldest bull is first and the youngest bull is last of that sire group.

See you soon!

Troy

**We are retaining a 1/3 semen interest in all our bulls unless otherwise stated.**

**This does not impact you owning the bull, the rights to walk the bull or the salvage value on the bull.**

**All it means is that if at some point we would like to draw semen for in herd use, we would arrange at your convenience and our expense to do so.**

## Schiefelbein **ATTRACTIVE** 4565

Attractive is exactly that. He is known for his great hip, added shape and mass. We are super impressed with his progeny here. His calves have tremendous loin and complete tops and awesome overall balance. His calves have oodles of hair. His registered progeny in Canada has doubled since last year. Attractive's progeny are becoming increasingly more popular and selling for big dollars throughout North America. If you google Attractive and watch the videos posted there you will see a younger and older version. It is really cool to see the younger Attractive video because the apples don't fall far from the tree with this sire. Watching the older Attractive video is exciting as we are able to see what his bull calves will look like in the future. The neat thing is he is not just a bull maker sire, his daughters are producing for us now and are great moms with excellent structure, balanced beautiful udders. Our third crop of Attractive calves have hit the ground and we intend on using him for a fourth consecutive year. Last year Attractive bulls sold in the Blue Collar to Benlock Farms, Grandora, SK and Shane and Erin Sawley-East Point Cattle Co., Melville, SK.

Stellar means relating to or have the features of a star performer. This bull is a real load. He and Lot 2, 90H, are remarkably similar in their design; deep, thick and powerful. The hair coat on this guy is superior. He carries his quarter down really well, has a broad top and great hip. Susan 122B, his dam is a beautiful cow with great, level udder, ideal teat size and length. She has great feet and legs too. As of this spring, Susan has been designated a CAA elite dam. This young cow has five calves and five grand calves. She has three daughters working in our herd as well as a bull working at Vision Valley Ranch, Cleardale, AB. Stellar 77H has a birth EPD of +1.0 and a 76 lb. birth weight making him a bull that would come *recommended for Heifers*. In turn, he has the qualities necessary to produce cattle that will also push down the scale, being in the top 6% for weaning weight and top 10% for yearling weight in the Angus breed. 77H's calves should have great hair, amazing temperament and be awesome replacement females. Susan had a full brother to this guy, and he looks as impressive and should be in the 2022 sale. We recently wrestled this guy to give him his 6-week shots, he is a load. Talon is really proud of this bull he is offering, and I know you would be proud to have him in your pasture too. This bull is halter broke.

Power, mass, structure, style, hair and temperament are all excellent in this bull. All fall and winter Talon has said and continues to say this is our best bull. Not 100% sure on that but he is right up at the top of the pen for sure. This bull has an excellent coat of hair that the show jockeys would love, really pops. He is halter broke and has an excellent disposition, he is always looking for a scratch. Stellar 90H has tremendous overall mass, depth and shape which makes him an impressive specimen. He is in the top 5% of the breed for weaning and yearling weight. This bull has great shoulder and head design coupled with his birth weight numbers would make him a potential calving ease bull. My recommendation would be to field test him for a year on some second calvers and cows first. It should be noted this fella is out of a Ruth cow. Ruths do not leave this farm very often and for good reason, they flat out produce. Ruth 83C is a moderate framed cow with a very good udder and excellent feet. She is a lifer here for sure and we have two of her daughters producing for us as well. A 7/8 brother sold in last year's Blue Collar to Benlock Farms, Grandora, SK. Tom said this bull came in the fall in great shape. The best shape on a yearling he has ever seen in the fall.

This bull has been named NED, as in "Nosey Ned." His temperament is unreal, as he is the first bull to approach you in the pen. Ned is always looking for a pet and some love. This bull is an attractive bull with sound structural development. Like all the Attractives, he has a great hair coat. When I analyze this bull I am drawn to his tremendous hip and quarter. This bull has a weaning weight in the top 10% and yearling weight in the top 3% of the breed. So, there is some grow here. Talon has three maternal sisters from Belle that are working well for him. Maternal brothers have sold to Bert BeGooijer, Kelliher, SK and Zuchkan Land and Livestock, Foam Lake, in the past couple Blue Collars. Look to Ned to produce quiet, workable cattle with lots of grow and good maternal characteristics.

Stellar 111H is a deep sided, smooth bull with a very nice head and shoulder on him. He is a moderate birth weight bull with weaning and yearling weights in the top 5% and 8% of the breed. This guy has tonnes of hair. He is a very curious bull that is always right where you are in the pen or around the tractor and gate. Stellar 111H should add depth and length to his calves. Michael Fuchs, Vibank, SK bought a maternal brother at the 2020 Blue Collar.

Well, if you are looking to add frame and some mass to your cow herd this guy will deserve some consideration. He stems from our powerful Ruth cow family. Ruth 87W is the granddam to our Lot 2 bull. She produces high performing cattle. Daughters are also productive with great feet and udders. The look and shape of this bull are incredibly good. August Herman, Southey, SK purchased Ruth 87W's 2020 Blue Collar offering. If you want raw power in your calves this bull is ranked in the top 1% and 2% for weaning and yearling respectively for the Angus breed.

# NORTHERN VIEW ANGUS

## SA V RENOVATION 6822

This deep, powerful son of Renown produces remarkably similar heifers and bulls for us. We are incredibly pleased with the daughters that we have. These females have just started producing for us this spring and are doing a fantastic job. Renovation's progeny are known to be very phenotypically appealing and very sound structured. We would concur with this based on the cattle here. We have a lot of Renovation calves in 2021 and are pleased with their development. The depth of body and easy fleshing ability have been very appealing for us. We sold a paternal sister to Perrot Cattle Co., Alameda, at the 2019 Touch of Class Sale in 2019. Reports are she is doing very well.

Rumble 99H is a deep and long sided, soggy bull. All the Renos at our place have tremendous depth and presence when you see them in the pen. Rumble 99H's dam is called "Sophie." Sophie is incredibly quiet, has a fantastic udder and is a very nice Resource female here. We have a full sister to 99H who has calved out for us. She has a great udder and is doing a fantastic job as a mom. Renovation is a powerful son out of the maternal powerhouse, Blackcap May 4136. May 4136 appears on the top and bottom of Rumble 99H's pedigree. This bull should produce gorgeous daughters which should be at the top of your replacement pen. Rumble 99H should produce calves with lots of pop and an impressive loin. *Rumble 99H is recommended for heifers.* A maternal son sold to Landon Bostock, Indian Head, SK in the 2019 Blue Collar. Landon said this bull is working well and calving out of heifers great.

## Northern View RUMBLE 106H

Lot 7

Lot 7 2164848 FTA 106H 27/01/2020 Male

This bull is full of middle and length. These qualities are coupled with lots of hip and rib shape to him. The structure and design of this bull are of the top quality we want in our herd. Rumble 106H, aka Meeko, is out of Alexis' cow, Nelly. An attractive double bred Net Return 3U daughter. Nelly and Meeko are both of incredible temperament. Nelly has had one daughter in five calves. She is a bred heifer we have retained for ourselves.

Meeko is a bull that would add shape and mass to his calves, along with particularly good maternal qualities. I am really impressed with this bull's overall middle mass and sogginess. The foot on this bull is also very good. This bull should work great on cows to add pounds at weaning time. Larry Suidak, Roblin bought Nelly's 2019 Blue Collar Bull Sale offering.

## Boyd **CARTWRIGHT** 3303

We selected Cartwright to AI calves to because he is quite royally bred, he has very good eye appeal, tremendous depth of body, and is in the top 1% of the Angus breed for weaning weight, yearling weight and scrotal development. Cartwright also has a calving ease component to him as well. There are only 31 of his progeny registered in Canada so the matings here are quite unique and interesting for any cattle producer. Bonanza 78F is a paternal brother to these bulls that sold in the 2019 Blue Collar to East Point Cattle Co.

Melville, SK, 78F's full brother sold to Malinowski Farms, Yorkton, SK in the 2020 Blue Collar.

Excellent head, shoulders and smooth, long body on this calving ease bull. This bull should produce calves that come out light, built right and then will grow well. The Susan cow family has been a solid one for Talon since we purchased 47Z from the Eastons at Wawota. We have two of her daughters working here, one is working back at Eastondale and one at DenBrok's R Ranch Inc., Esterhazy, SK.

*Recommended for heifers.*

Good style and more than adequate growth on this long spined and deep bodied bull. His smooth shoulder lays in nicely to his neck and small head. Duchess 84A has been a real solid producer here. We have two daughters working in our herd. They are the dams to Lots 17 and 26. Another daughter sold to D and K Angus, Cobden, ON in the 2019 Touch of Class Sale. Bonanza 87H has a 0.8 bw EPD and a 75 lb. birth weight and comes *recommended for heifers*.

**96G**  
Maternal Sister sold to D&K Angus, Cobden, ON in the 2019 Touch of Class Sale

# NORTHERN VIEW ANGUS

## MOGCK ENTICE

Entice is the long bodied, deep sided, tonnes of rib shape and attractive Enhance son. We used this bull for his phenotypical appeal, impressive curve bending numbers and large scrotal development on his calves. In the Angus breed, Entice is in the top 2% for weaning, top 1% for yearling and top 1% for scrotal development. These are all extremely important boxes that need to be checked for us to use a bull. Entice is known for his outstanding temperament. This is without a doubt exemplified in the gentle nature of his calves at our place. They are extremely easy to work with and halter break. We sold an Entice daughter in the Keystone Classic last fall to Maria and Hank Franken, Rivers, MB.

1.7	70	132	8.0	32		76	996	1378	

Well in considering names for bulls I try to find ones that are really fitting for the critter. Enigma means something hard to understand or explain, a mystery. Enigma 76H and his brothers are indeed hard to understand or explain, a mystery. Each are born small and lively and then it is incredible how fast and large they grow at weaning and yearling weight time. Enigma 76H gained 4.49lbs/day to weaning putting him in the top 2% for weaning and top 1% for yearling weight in the Angus breed. His dam, Princess 72B has to take some credit for this too. She is from the perennial rockstar cow, Princess 95X, who is the great grandmother to all the Super Duty calves and the mother to Lot 20. This cow family is outstanding. Their calves have grow, are stylish and structurally sound. The other feature that cannot be overlooked is the fact that we never have to manage any of their calves. Their calves simply get up and nurse. No fuss kinda cattle. Princess 72B is also an Upward daughter. We have three of them in our herd and they all work here.

Enigma 76H is a powerful bull that has tremendous mass but what makes him really cool is the smooth make he has. His shoulders transfer from his body and neck with equal impressiveness. Enigma 76H has a very strong girth and heart girth area. He has tremendous hip, loin, bone and quarter. He is extremely quiet, halter broke and very manageable. On bull picture day this guy was the token pen bull. He was on halter all day and was dragged around the pen to help get photos on the other bulls. Unbelievably quiet critter here.

As we all know, at the end of the day cattle are sold by the pound and when you have a bull like Enigma 76H you should have plenty of pounds in his calves. Light birth weight calves that grow like stink, makes this guy extremely desirable for all cattle folks. This bull is one that comes *recommended for heifers*, but can be used as a cow bull to produce those growthy calves too.

92H  
Maternal Sister sold to Maria and Hank Franken, Rivers, MB in the 2020 Keystone Classic, Brandon, MB

This bull is long, deep and powerful. He is in the top 8% and 6% respectively for weaning and yearling weight in the Angus breed. A real curve bending type of bull. Enigma 85H has top notch calving ease numbers: 0.7 birth EPD and 75 lb birth weight. The skull, shoulders and length are ideal for a heifer bull. He has the ideal calving ease head. Enigma 85H has calving ease sprinkled throughout his pedigree with Enhance, J Edgar Hoover and Dynamite. This bull has solid legs and feet in his make up. Tibbie 88C is simply put the "right kinda cow." She has tremendous volume, great feet and ideal udder. She has produced four calves to date. Two are top end females working for us and her 2020 offering sold to CorVet Angus, Melita, MB in the Blue Collar. Her granddaughter, Tibbie 120H was the high selling animal at the 2020 Touch of Class selling to Brewer Acres of Melville for \$8,200. This bull is *recommended for heifers*.

Enigma 113H

SA V **RESOURCE** 1441

Top 1% for yearling weight and weaning weight.

We used Resource for the shape, muscle and thickness he would provide. He is known as a foot and udder improver throughout the breed. With over 2,400 progeny registered in Canada alone he has been tested, really proven what he can do in terms of his consistency and functionality. The prolific Blackcap May 4136 appears in his pedigree. As a result of this cow the females are very,

very good. We have three females working in our herd. One is the dam to Lot 6 and the other is the dam to Lot 19. They each are stunning, broody females with excellent udders. Their calves are doing great. The bulls are thick, shapely and powerful.

Inferno has loads of shape, length and really sound structure. When I do my evening checks I go through the bull pens to ensure all is well. What I also notice about 93H is his strong, broad top and excellent hair coat. His dam, Belle 107B is a very sound, good uddered cow. She has just dropped her sixth bull calf in a row. Her last two sons have gone through the Blue Collar to Glendale Ranch, Success, SK and Irving Madsen, Springside, SK.

If you are looking to add some soundness, shape and length to your calves, Inferno 93H is a bull to consider in your program.

Full brother sold  
to Glendale Ranch,  
Success, SK

# NORTHERN VIEW ANGUS

## Northern View **SUPER DUTY** 89F

Well, here is a bull that has turned into quite a herd sire in only two breeding seasons. "Neil", as the kids affectionately named him because of his approachability is very docile and always wants a scratch. He would approach you for a pet even as a calf and still does so as a three-year-old. What makes us so pumped about Neil you ask?

1. His design, structure and phenotype. Neil is a powerful, deep bodied bull. He is nicely headed and smooth built on a very shapely frame. He moves like a cat on his large and powerful foot. When you see Neil, you will notice there isn't much daylight under him, and that's ok cause daylight doesn't pay at the market.
2. His numbers. Neil has been a standout in his numbers from the start. He has a moderate birth EPD of 1.4. Consequently, his calves come out easy but really grow. He has a weaning EPD in the top 6% and a yearling EPD in the top 5% of the Angus breed. Neil has tremendous mass and style.
3. His dam, Princess 99Z, is an elite dam with the Canadian Angus Association. This cow is a Thunder daughter. We love our Thunders. You will see them in the Thrive section of the catalogue. They are lights out kinda girls. Princess 99Z has produced five bull calves that averaged 930 lbs. at weaning and 1388 lbs. at yearling. Her bulls are working at Homestead Angus, Youngstown, AB, Venture Farms, Roblin, MB, Russel Vollman, Preeceville, SK and at our place. She has two daughters that averaged 795 lbs. at weaning and 1195 lbs. at yearling. Her first calf sold through the Masterpiece at Agribition to Lock Farms in Macklin. This female has done a great job there. Her other female is in our herd. She had her first calf this spring. This Rainfall heifer calf looks awesome. Princess 99Z has a Renovation bull calf on the ground right now. We are excited to see how he develops.
4. His progeny. Neil's calves come out easy, have lots of vigor and are extremely intelligent. Amy said the smartest calves we have ever had. These calves come out and grow. They possess oodles of style, great depth, have great heads and a beautiful foot. His daughters commanded a lot of attention this fall in our replacement pen and at sales. We offered two daughters to Ashley Kattler at Deep Lake Land and Livestock and she snapped them up saying, "Choosing Northern View as one of the sole sources of Black Angus females has proven to be one of the best decisions we could have made as producers entering the purebred market. The cows are everything you could ask for and Troy and Amy's attention to functional confirmation is evident in the longevity within their own cow herd. When I picked a pen of 10 replacement heifers, I knew that the Super Duty 89F females were something that I wanted to get my hands on. The bull himself is just really nicely balanced, with a super soft middle, wide top and appealing muscle pattern. His elite dam seals the deal with her impressive ratios. Buy these sons with confidence, they will truly be an investment you won't regret." Another daughter, Tibbie 120H, fetched the high selling price at the Touch of Class in Saskatoon in December. She sold to Brewer Acres of Melville. We anticipate 25-30 Neil calves again this spring. Neil will get another large group of cows to breed this spring, in the neighbourhood of 25% of our cows.

This bull is appreciated for his length and depth of body. Super Duty 105H has impressive growth numbers in a moderate birth weight package. His dam, 232Y was purchased through the Sandy Bar dispersal. She is a gorgeous female with a great udder, with awesome teet length and placement. A maternal daughter is working at McRae's Land and Livestock, Brandon, MB. Both the dam and sire of this bull have great feet. Super Duty 105H should be one to add more depth and length and consequently more pounds to your calves.

Lot 17

## Northern View **SUPER DUTY** 109H

Lot 17	2177274	FTA 109H	03/02/2020	Male
--------	---------	----------	------------	------

Super Duty 109H is very stylish with a great hip shape, deep body and smoothness that has really impressed me. This guy is very similar in type to the Lot 15 bull. I like the hair coat on this bull too. When you analyze Super Duty 109H's pedigree you have to appreciate the maternal strength in the Princesses and Duchesses, as well as the power and performance in the Cutting Edge and South Dakota. Look to this bull to produce great replacement females and add style and performance to his progeny. A maternal daughter sold to Brodie Gutzke, Weyburn, SK in the fall of 2019. This bull has a birth weight and EPD to rank him as a "recommended for heifers" kinda bull. A really soft made, soggy bull.

A March bull calf that exhibits very good style and maturity. I like the structure and hair coat on this calf. Super Duty 138H has moderate weaning and yearling weights which he achieved by gaining 3 lbs. per day. A rate of gain we are very impressed with. Belle 101D is an outstanding Resource daughter who has done very well for us. You will notice that Elixir 70M appears in this guy's pedigree. This bull was a great show bull for us and caught the attention of many breeders during his days on the show road. A maternal sister out of Scheifelbien Effective was purchased by Jason George, Kenaston at the 2018 Touch of Class.

Northern View Belle 101D Dam

## S A V **THRIVE** 5054

A few years ago we were looking for a bull with mass, power, phenotype, great maternal qualities and a proven pedigree but one that is unique to our breeding program. We selected Thrive. Thrive is reported to have excellent muscular expression and is very deep and long sided. The scrotal numbers of Thrive are excellent. Thrive also has lighter birth weight numbers. Thrive is in the top 1% of the breed for weaning and yearling weights and in the top 2% of the breed for scrotal development. The females we have from Thrive have done a great job on their first two calves. Thrive has a solid maternal pedigree. We have another three yearling females to breed this spring. The bulls are stout, deep and soggy kinda bulls. Sadly, this awesome sire was killed in a lightning strike so his progeny are few and far between with only 142 registered in Canada.

Hammer Down 75H has the genes and maternal track record to make amazingly productive females as well as growthy and powerful bulls/steers. This guy is ridiculously hairy, big boned, tanky like body and wide topped. Tonnes of shape and power and a bucket of nuts. I am also impressed with this bull's big, sound foot. 75H has a moderate birth weight with weaning and yearling numbers in the top 15% and 10% of the breed respectively. This bull is growing to last as he had our targeted rate of gain at just over 3 lbs. per day.

His dam, Princess 95X, has been a perennial production powerhouse. She has had five bulls already go through the Blue Collar selling to Venture Farms, Roblin, MB, Dale Minnhinck, Invermay, SK and Scott and Sheila MacDonald, Foam Lake, SK. She has had three daughters and we have retained them all. Her two year old Attractive daughter just had a pretty Rainfall heifer calf. One daughter is the dam to Lot 11 and the other is the dam to our Super Duty 89F bull, Princess 99Z. This kinda production is something one would want to get a hold of. This bull is very quiet, manageable and is halter broke.

Each and every year Laura 113Z produces a front-end calf for us. She does this with a passive, workable nature, a whack of milk and tremendous structure and grow. Hammer Down 80H displays great phenotype, above average growth and very good structure. Oodles of middle and tonnes of sogginess to this bull. I appreciate his rump shape, width on his top and overall mass. A maternal Renovation daughter sold to Perrot Cattle Co. at the Touch of Class in December 2019. Her picture is in the Renovation section. Reports are incredibly positive on her. Jordan Baumung, McNutt, SK purchased a Resource son at the Blue Collar. A full brother to 80H was the Reserve Champion Bull Calf at the Manitoba Fall Fair in 2018, Hammer Down 96F. This champion bull calf sold to Venture Farms of Roblin in the Blue Collar 2019. This bull has extremely good temperament and is halter broke. Look to him to sire growthy, eye appealing calves with excellent foot and leg structure. Replacement heifers from this bull will be ones you will likely wanna hang onto.

Lot 22

Big middled, broad topped and ample quarter are the three things that immediately jump out at me about this bull. This bull is a real complete package from front to back. For me, a real meat machine with terrific muscular expression. He is moderate in his birth weight and above average in his weaning and yearling weights gaining 3.56 lbs. per day. Hammer Down's dam, Missie 81X has raised very good calves each year. The temperament on all her calves, can be to the point of annoyingly quiet. Hammer Down 95H is halter broke.

A maternal brother is working at Bircham Ranch, Piapot, SK. We have two daughters working well for us in our herd. Missie 81X has an excellent foot under her. When we analyze the make up, the numbers and the genetics here, Hammer Down 95H is the kinda bull we would use in our herd without hesitation.

If you check out Lot 23 and Lot 25 you may feel like you are seeing double. 98H and 101H are full blood brothers. They are both out of Thunder sisters from our Elite Dam, Ruth 84S, who is 15 years old and just had a Renovation heifer calf in January and looks like a seven year old cow. She has unbelievable feet, stupendous udder and fabulous depth and thickness. Ruth 84S is never in the back of group of cows to come for feed and is a never miss cow. This type of longevity and consistency has been passed onto her progeny.

Hammer Down 98H is a smooth made and nicely headed bull. His feet are outstanding. When I look at a bull I start at the back and then move to the top and check out the loin. If those features are solid, I continue on. With this guy I easily continue to see a deep bodied, free and easy moving bull. This bull is very quiet and is halter broke.

This bull is excellent on his own but when you add in the maternal strength and his stunning dam you have a really complete package. Ruth 88A is a deep bodied, powerful cow with a wedged front and just an eye-catching presence. This bull started small and simply grew as you can see with his weights as he gained 3.66 lbs. per day. We have a maternal daughter working in our herd and she is doing awesome. Hammer Down 98H will be a bull you will wanna find at the sale.

*Recommended for heifers.*

Hammer Down is a long, deep and smooth, calving ease, elite bull. He is in the top 6% of the breed for calving ease and has some grow to him, gaining over 3 lbs. a day, with very solid weaning and yearling weights. Tibbie 81Z is a perennial calving ease producing machine. This is another outstanding Thunder daughter that is deep bodied and sound. Maternal brothers have sold through the Blue Collar to Dale Minhinnick, Invermay, SK and Iron Saddle Ranch, Lemberg, SK. With the calving numbers and his sleek design, Hammer Down 100H should allow you to peacefully sleep through the night when your heifers are calving.

*Recommended for heifers.*

Lot 25

I know you may think that my footnotes are a bit long winded to this point, but like a person brags up their kids I just have to talk a bit more about this guy. Extremes in any direction are not part of this bull's make up. The only extreme I would use as an adjective to describe this bull is by saying, Hammer Down 101H is an extremely complete and impressive bull. Many cattle folk look at cattle from the ground up. If their feet are no good, they do not want them. This guy has very good feet which lead into great legs. If you like lots of hip and quarter, you will really appreciate 101H. This is a masculine bull, has plenty of appeal in his head and shoulders in terms of calving ease, as well as an appropriate amount of masculinity. His dam, Ruth 70Y is as her picture is. She is deep, long, broad and sweet fronted. Her feet are outstanding, and her udder quality is excellent. She is a tremendous mother, nearly licks the hair off her calf each year. 70Y is very gentle in her nature. I can go in the pen right after she calved and do absolutely anything with her calf. Ruth 84S is this guy's grandmother and at the risk of sounding like a broken record, she is flat awesome. She has perfect feet and super athletic at the age of 15. Ruth 84S is doing a great job on her Renovation heifer calf. She is an elite dam having 15 calves and 23 grandcalves. We have flushed 84S, our first flush ever at Northern View. Our friends at J Square S Angus wanted to get in on the Ruth train and went in on this flush. We believe in and trust the Ruth cows so much that at the Focus on Females Sale this past December we bellied up and purchased a Ruth/Density bred heifer from J Square S Angus for \$9,000. She calved and is doing exactly what a Ruth should do for us. This bull is halter broke. Hammer Down 101H has calving ease numbers and design. He has growth and performance to categorize him as a curve bending type of bull. He is super impressive and a bull we are extremely proud to present. Spilchuks, Ituna, SK and Venture Farms, Roblin, SK both own brothers from 70Y. We also have two of her daughters working in our herd. Ruth females rarely, if ever, leave the farm. As you can see from my footnotes, you will without hesitation want to keep replacement females from this bull.

*Recommended for heifers.*

Hammer Down 110H has a -0.7 birth weight EPD and a 70 lb. actual birth weight; couple that his weaning and yearling weights and tada you have a real curve bender. I really like the shape, sogginess and smoothness of this bull. Duchess 85C has been a perennial producer of productive, desirable cattle. Colin Graham, Rocanville, SK purchased a maternal brother in the 2019 Blue Collar and Chris Hansen, Archerwill, SK has a maternal daughter working for him. Look to Hammer Down 110H to produce lively, vigorous calves that grow well into phenotypically cool cattle.  
*Recommended for heifers.*

We selected Trapper as an AI sire here because of the mass he possesses, the scrotal development and his unique outcross pedigree. Trapper has a clean front end, tonnes of length and great shape. All these qualities he tends to pass onto his calves. This long and powerful bull has a great top when you get over top of him. This bull has birth weight numbers that would consider him a heifer bull, but I would use him on second calvers and cows for a year to ensure his birth weight is in line for heifers.

CorVet Angus, Corey Jones, Melita, MB purchased our record high seller in 2016, Bull's Eye 92C. This bull is maternal brother to 119H. He is doing a great job for Corey. We purchase a son of 92C from Corey and we are successfully using him on heifers and cows. A maternal daughter is working well in our herd too.

Extra Extra is a great way to describe this guy. 144H has extra shape in his hip, extra deep quarter and extra top. This mid-March bull has an impressive weaning weight and solid growth to a year. This bull has tremendous style and if there was a show season in 2020 the plan was to put this guy in our show string. Extra Extra 144H starts off well from the ground up. He has numbers that he could be considered a heifer bull but my recommendation would be to use him on second calvers and cows the first year to ensure he is heifer appropriate. His sire, Breaking New 9F was the AAA Sale's high selling bull in 2019. Michael Fuchs, Vibank, SK purchased a maternal brother at the 2020 Blue Collar.

Our family would like to welcome you to the 15th Annual Blue Collar Bull Sale.

First, we would like to thank our past and present customers. You are the reason we continue to work hard to offer these bulls and we are proud to see our bulls working on your farms!

We have on offer a wide variety of genetics, including Reign, DL Dually, Cowboy Up, Payweight, Top Shelf, President, Sensation, and Ambush just to name a few. We are continually searching for new sire groups that will provide moderate birth weights as

well as growth to the weaning and yearling stages. We also run a small feedlot operation, so we understand the need to have performance bred into these calves for when they go to market.

These bulls are on a full vaccination program and our feed nutritionist works with us to test our feed to ensure the bulls are getting the nutrition required to develop into mature bulls.

We stand behind our bulls 100% and are proud of our offering. We will work with our customers to ensure their breeding needs are met should any concerns arise.

We would also like to thank our family and friends who help us sale day in the barns and in the office! We appreciate all of your help!

If you wish to view the bulls prior to the sale, the farm is always open and you are more than welcome to stop by.

This bull is a genetic masterpiece. S A V President was the world record and top selling bull of the 2017 S A V sale at \$750,000. His paternal granddam has raised over 10 million dollars in progeny sales. 9H, with his eye appeal and structure, is special in a number of ways, ranking in the top 4% for weaning weight and top 6% for yearling weight. His powerhouse dam is a cornerstone female in our donor program.

S A V Sensation sired calves that come easy and his daughters are making ideal replacements with superior udders. 18H is moderate sized, thick made and deep sided who is a popular choice for maintaining low birth weights without giving up performance. His dam, 56Z is a nice uddered, feminine, nine year old cow, sired by one of our favourite female producing herd sires, S A V Lewis.

## S A V **SENSATION** 5615

# PARKWOOD FARM

13H is a moderate BW bull with powerful phenotype. He is a moderate framed, deep bodied bull with excellent rib shape and overall body mass. He ranks in the top 9% for WW and top 10 % of the breed for YW and top 3% for milk. His dam displays impeccable udder quality and an abundance of milk.

We selected Geddes to use on our heifers for his double digit calving ease and his top 2% ranking for yearling weight. 66H followed in his footsteps ranking top 3% for yearling weight and top 4% for weaning weight. He exhibits a wide, square top with outstanding muscle expression. His Easy Decision dam is deep and easy fleshing with a nice udder.

# PARKWOOD FARM

Here's another low birth weight, high performing Geddes son, ranking in the top 1% for yearling weight and weaning weight. You will like the fact this South Dakota's first calf started light and ended heavy. She is feminine, productive and perfect uddered.

Enhance was the #1 sire of progeny registered by the American Angus Association in 2020. 65H is a smooth, long bodied and deeply made bull with a really good set of EPDs with most traits in the top 20%.

Sydgen **ENHANCE**

## Lot 57

87H is a very long bodied calf with the typical Enhance look. If you are looking to add frame size, yet keep calving ease and thickness, this is your bull. WW, Milk, YW all rank in the top 10%. A maternal brother sold to Roger Halteman at last year's sale.

**Murray Arnold**  
**(306) 621-5018**

Murray.Arnold@HammondRealty.ca

View a complete inventory of Murray's listings online at MurrayArnold.HammondRealty.ca

Murray was raised on and continued with a mixed farm operation in the Yorkton area. Murray has a strong sales background spanning over 30 years with the last seven years in farmland real estate sales. His proven record of integrity, expertise, and productivity are an asset to his clients.

**Hammond Realty Core Values**

Core values are a small set of vital and timeless guiding principles for a company. They are what support the vision, shape the culture and reflect what the company truly values. They are the essence of a company's identity.

**The core values at Hammond Realty are:**

- Integrity
- Expertise
- Productivity & Results
- Positive Attitude
- Appreciation
- Family

Our fiduciary duties to our clients are of paramount importance to us: accountability, confidentiality, disclosure, competence, obedience and loyalty. **Integrity** is our single most valuable asset. We continually strive to learn and be **experts** in our field surrounding ourselves with experts in other fields (lawyers, accountants, agrologists, etc). Our ambition is to be efficient, effective and **productive** providing clients with the **results** they desire. We approach our profession and business with a **positive** and constructive attitude. We sincerely **appreciate** the opportunity to work with our clients and represent them. Our families are the most important people in our lives. We believe family is the source of life's greatest joys.

**Why We Do What We Do**

We are driven and inspired to help people achieve their goals. Whether it is retiring from a lifetime career in agriculture or purchasing additional farmland to grow your business, our purpose and passion is helping people succeed. We believe our most lasting and fulfilling achievements are earned by helping others fulfill theirs.

**Listings Needed**

Supply is tight throughout Saskatchewan and listings are especially limited in the East Central area, if you are considering selling, please reach out. The demand continues to be strong. We are actively looking for large intact farms or a combination of smaller operations to fill the need for these large buyers.

2020 Sales Results

Completed Sales: 149 Real Estate Ends: 272

Hammond Realty assisted agriculture producers in farmland sales transactions totalling over \$136,000,000 in 2020.

# BLUE COLLAR BULL SALE

## TERMS & CONDITIONS

### BREEDING GUARANTEE

All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply.

### WARRANTY

Blue Collar consignors guarantee to sell you a bull that is structurally sound and has passed a semen test performed by a licensed veterinarian. Should the bull fail to perform as a satisfactory breeder (unable to service cow or heifer) he will be replaced with a bull of equal value. If this is not possible an adjustment will be made to reflect the value of the bull or a credit will be given towards the purchase of another bull. We guarantee to provide you with a breeding bull for the season. We will not however provide replacement or adjustment for death, physical injury or mismanagement. Claims must be made by September 1 of year of purchase. With this in mind, we cannot stress enough the importance of insurance on your bull purchases.

### INSURANCE

Insurance agents will be available sale day, or you can make other insurance arrangements through your own agent. Insurance must be purchased on all bulls that return to the respective farms.

### SIGHT UNSEEN PROGRAM

Tell us your requirements and we'll select bulls that meet those orders. If you are not 100% satisfied when the trailer is in your yard, you don't own him, no questions asked.

### DELIVERY

If you pick up your bull sale day or the day after, you will receive \$100 off the purchase price of your bull. We will work with you to get your bull to your farm free of charge within 100 miles. Delivery time, date and location of bull will be negotiated between buyer and seller. We try to coordinate delivery based on bulls going to certain parts of the world. We will have a trailer heading to your area prior to when you want to start using the bull. Please work with us to receive your bull when we can get him there. If you cannot take the bull when we have a trailer coming to your area, we would appreciate contacting us to make arrangements to pick up your bull.

Bulls going over 100 miles from our respective farms may have transportation charges applied to the delivery of your bull. These charges will be worked out between buyer and seller. We ask that all bulls be received/picked up prior to June 1. Bulls returning to consignor's farm will be kept until May 1 at no cost with a \$2/day cost after May 1.

### TERMS OF SALE

Cash or cheque at par, payable to clerks of the sale on sale day, unless prior arrangements have been made. No release will be given until satisfactory settlement has been made.

**\*\* All persons who attend the sale do so at their own risk and the owners, sale management and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.**
