Welcome to our 20th Anniversary Sale

Writing a bull sale welcome is a great opportunity to look back over the past year and reflect... and WOW! ...what a year it has been!!! So many times this past year we have felt grateful to be living life and working out on the land. We are also very thankful that we have been able to raise our family on the farm, raising quality cattle and feeding the world.

“Twenty years now...where’d they go? Twenty years...I don’t know. I sit and wonder sometimes...where they’ve gone...” (Bob Seger, Like A Rock)

Where did the time go!? Not only is this our 20th Bull sale, but now we’re also empty nesters!! Last April, our daughter Annie got engaged to a fine, young man, Bryce Stewart. They had a beautiful wedding on our ranch on August 2. Even though Annie now lives an hour and 45 minutes away in Stettler, Alberta, she is still very involved with the Diamond C Ranch cattle operation. She got a job as a Marketing Assistant at the Alberta Ag Centre in Stettler, but is back home every weekend to help out. Not only that, but she has put many extra hours into making this bull sale catalogue come together. Bryce and Annie love farming and we are very thankful for their commitment and hard work on the ranch.

Our son, Braeden loves his job as an Ag Mechanic and is apprenticing at John Deere in Ponoka. We had another curve ball thrown at us this fall when he decided to move out to start his life on his own and pursue his dreams. Thankfully, he doesn’t live very far away, so we get to see him often. We are proud of both of our kids and think it’s super cool that they’re keeping the farm dream alive and building on their agriculture roots. We miss them like crazy, however, we are looking forward to this new chapter in our lives and know that each season brings its own special gift.

And now we’re at our 20th Bull Sale and wondering once again where the time went!? We want to thank God, every one of our customers and all the people who have supported us along the way. We firmly believe that life is about relationships; the friendships we have gained along our cattle journey have been a blessing and have enriched our lives. There have been many changes and growth over the years...we started the transition from commercial cattle and purchased our first Limousin heifer the year Braeden was born – 1999. What a journey it has been!

Our goal here at the ranch is to always bring you the highest quality product we possibly can. Our numbers have gone down the last few years as we strive to only keep the very best females in our program. Thus our variance from top cow to bottom cow have moved much closer and it is very possible that any cow will bring in the top bull or female and that is what we have been striving for. This has resulted in a strong set of bulls that will move your programs ahead with replacement females, as well as giving you quality cattle that will be at the top of the market.

We have different pedigrees from last year and we are thrilled at what they have done for us and excited about what they can do for you. Most are from bulls and bloodlines we have raised, so we have taken the guess work out because we know what they can do and know how consistent they can be. These home raised sires are from our very best dams which again takes the guess work out for you because you know they are from great females.

We stand by our motto that we want to treat you like we would like to be treated and aim to be honest and fair in our business dealings. We stand behind our cattle and will back anything that has been deemed reasonable or our fault. We want you feel confident with your bull purchase and come back to our program year after year. If you have been a Diamond C customer in the past, then you already know this. If you're new to our program, then we encourage you to come out take a look at our offering before deciding on your next purchase. We are confident you will be impressed and we will work hard to earn your business.

How to Participate in our Diamond C Sale This Year...

Being as this is our second time through the "Covid" sale experience, we want to assure you that we have it covered. We are going to try to keep the sale as "normal" as possible. However, we recognize the need for flexibility and, most importantly, we want you to feel comfortable and safe.

We have 3 options available for you to be part of the sale:

1. **In Person Bidding** – You're always welcome to attend our sale in person! We'll provide lunch at 12PM with lots of space for social distancing, servers and sanitizer. The Sale will follow at 1:30 PM.
2. **Internet Bidding** - We are happy to again be working with VJV who handles all our online bidding at www.vjvauction.com. You can log in there to bid on the sale offerings.
3. **Phone Bidding** – We will have a capable team available on sale day to take your call. Their phone numbers are listed in the front of the catalog. If possible, please let Neil or Annie know in advance, so that we can coordinate callers and be available for you.

Note: If you are unable to attend the sale in person and are going to use any of the off-site options, we recommend that you watch the videos of each individual bull on our website, www.diamondcranchlimousin.com. Give us a call and we will go over the offering with you and help you select the bulls that fit your needs.

If you would like to stop by and preview the bulls, we are happy to arrange time that is convenient. We again will be hosting an **Open House on Sunday, March 14 from 1-4 pm** to give more time for bull reflection.

So with that, we invite you to our **20th Annual Diamond C Bull Sale at 1:30 pm, Monday, March 15, 2021.**

"Put a Diamond in Your Herd!"

Herd Health & Nutrition

Nutrition

During the winter months, cows and bred heifers are fed a mix of cereal silage and haylage. Mineral is supplied in the ration as well as free choice trace mineral salt with selenium. In addition, straw is also supplied in the ration as well as free choice. This is to ensure their rumen is working well and to add extra calcium into their diet. In the summer, the cows are moved to paddocks where they graze usually until weaning.

Bulls are grown out slowly, so they will last for you. This year they are being fed a mixture of cereal silage and haylage, with the addition of barley grain. They are started on this ration in September. After the bull sale they are taken slowly off of the grain, so as to get them ready to transition to grass. Two-year-old bulls are lightly backgrounded the first winter and go to grass until September. Then they are brought home and started on their sale ration. The yearling bulls are targeted for a 1250 lbs. yearling weight average at bull sale day.

Disease Prevention and Animal Care

All of the animals are cared for with the utmost quality. Cattle always have access to shelter or wind fences. They are not overcrowded and have room to move around freely for exercise. When an animal is stressed, they are brought in and dealt with promptly in an appropriate, ethical manner.

We work closely with Dr Kelly Loree of Central Vet Clinic in Ponoka. He oversees Diamond C Ranch herd health and has been involved with us for many years.

Our vaccination program is as follows:

Calves First 24 hours

Inforce 3

4102 - 64 Street Ponoka, AB T4J 1J8 Phone: 403-783-5200 Fax: 403-783-3160

"I have worked with Neil and Sherry at Diamond C Ranch for many years and I have always found them to be extremely dedicated and conscientious managers. Their animal care and attention to detail is second to none and they are always seeking ways to improve their program. I have been consistently impressed by the quality of the Diamond C animals and I wouldn't hesitate to recommend them to anyone."

Sincerely,
Dr. Kelly Loree DVM

Breeding Soundness, Bull and Female Evaluation

There are many bulls in this year's lineup that are at the very top of the Limousin breed or cattle industry and will definitely enhance your program.

We calve two groups of females. Group one calves in January/February and these calves are weaned near the end of August. The bulls from this group are retained and make up the yearling bulls for our sale. Group two calves in April/May and are weaned near the end of November. The bulls from this group make up the majority of bulls in the two-year-old pen.

All bulls are evaluated for breeding and structural soundness, as well getting scrotal measurements and evaluated for sperm quality. All are required to pass with 70% soundness. A copy of breeding soundness will be provided with your bill of sale.

In the event of a deferred decision, only half of the purchase amount will be required on sale day. The other half is due when the bull passes his evaluation. In an event he does not pass his test, all money will be reimbursed to the purchaser.

Females are evaluated for structural soundness and are tracked to watch productivity. Females that do not measure up are removed from the herd.

It has been great to work with the crew at Diamond C Ranch Limousin this year. In the early fall, we tested their on-farm forages and built specific diet for the developing bulls. Corn silage, cereal silage, haylage, barley grain, and a complete mineral package were formulated to maximize forage utilization and gut health. The bulls are developed on grass during the summer months and then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a foraged based TMR to help them develop to their genetic potential. Organic minerals are used to ensure proper immune function and overall health. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck sale day!

Doug Roxburgh

Beef Consultant

Reference Sires

Diamond C The Champ

“The Champ” is a son of the great Excels Popeye bull who left his mark in our herd. His dam is one of our top cows, Diamond C Zaharra. She was also the dam of our 2015 high selling lot, Diamond C Bob Seger purchased by Cresthills Cattle Company. “The Champ” sires cattle with a quiet temperament, really nice hair coats and makes wonderful females. He is a pleasure to have around; he is super quiet and always stays out of fighting with the other herd bulls. We used Popeye quite a bit so The Champ could only be used on select females as to not overload that blood line in our herd. He is single black so he throws both red and black calves. He has some of the performance bulls in this year’s lineup. If you’re looking to improve your females and the temperament in your herd, then take a look at The Champ’s sons. They will not disappoint!

Reference Sire of Lots 2, 3 & 13

Diamond C Exciter

Exciter is arguably the best son out of the awesome bull Diamond C Way Cool. He was our best bull out of the 2018 calf crop and is out of a dam who had a picture perfect udder. He was super quiet and was one of the deepest bodied bulls you would find in any breed. It was his ability to put extra middle in his progeny that drew our attention. He excelled in every area and we are thrilled with his offering. He was hetero-polled, hence why some of his sons are horned: a small sacrifice on moving forward with excellence. He has sired some of the strongest progeny ever raised at Diamond C Ranch. Unfortunately, there will not be many more sons from him as we lost him due to an injury. He will have progeny in this year’s sale and our 2022 sale, and that will be all. We are excited about Diamond C Exciter’s sale offering to say the least!

Reference Sire of Lots 22-36

DMM Stache 14C

Stache is a herd sire who keeps bringing great ones to the plate at Diamond C Ranch. He is one of the heaviest muscled Angus bulls you will ever find. In fact, most would believe that he was a Limousin bull. He consistently sires quiet, high performance and absolutely fantastic females. We have females milking now and they are very hard to flaw; they have picture perfect udders, are deep bodied and very correct. The bulls in the offering have a ton of performance and are not recommended for heifers. They will give you great females and the added growth on your steers that the industry is going to love. He has left his mark on our program and is sadly getting older, so it’s time to invest in his great legacy!

Reference Sire of Lots 14-21

Reference Sires

Diamond C Earthquake

Sired by the great Diamond C Braveheart, Earthquake was one of best bulls on offer in our 2018 sale. Earthquake sold to Crest Hills Cattle Company and has done a wonderful job for them. We were very fortunate that Craig and Angie allowed us to lease him back for one cycle of our 2018 breeding season. The result is these great sons in our offering. His sons have a great disposition, thick hair coats, even confirmation and are bulls that are going to improve our cattle industry. He has a different pedigree on the dam's side with the HC Final time bloodline. You will find that his progeny is great footed, deep bodied and full of performance. They will definitely move your cow herd in the right direction!

Reference Sire of Lots 1, 4-9

Diamond C Freight Train

Diamond C Freight Train is a sire that we are very proud of. He carries genetics out of our very top two females, so his sons on offer in this sale should give absolutely fantastic females. We used him on heifers and proved that he calved very well. His disposition was also fantastic. He was homo polled and carried a real nice hair coat, which in turn he has given to his sons. He was offered for sale last year as we wanted someone to be able to use these great genetics. He was purchased by Henry Thalen and was used in his herd. Sadly he was lost to injury, so his sons and progeny will be limited to this calf crop. For the most part his sons will be easy calving and will produce great females. Keep all the replacements you can as this is a fantastic bloodline.

Reference Sire of Lots 37, 39 & 40

In loving memory of our dear friends...

Richard "Dick" Osokin

Dick has been our family friend and neighbour for 50+ years. Preparing for our sale doesn't feel the same without him. He was always ready to lend a helping hand with a cheery Smile.

Roger Van Hecke

We admired his zest for life and love for his family and farming. We will miss his friendly visits on our farm and at cattle shows.

TERMS & CONDITIONS TERMS:

The terms of this sale are cash or cheque in Canadian Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

ABSENTEE BIDS:

Mailed or telephone bids shall be handled in the most confidential manner if you are unable to attend the sale in person.

INSURANCE:

Ownership risk to purchaser commences when the auctioneer's hammer falls. Insurance is available at the sale.

ANNOUNCEMENTS:

Any announcement made from the auction block takes precedence over the printed matter in the catalogue.

CERTIFICATES:

If desired, certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made. Please leave transfer instructions at the clerk's desk.

BREEDER'S GUARANTEE:

The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound, however; the seller is not responsible for damage caused by foreign objects after the bull has been sold nor sickness that was not apparent at the time of sale.

BREEDING GUARANTEE:

We, the sellers, have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be resolved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report, in writing, to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition. Each consignor will have six months to prove the bull a breeder after the time of report. In the event a bull is a non breeder the situation will be handled by either a replacement, credit or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. At no time will a buyer's reimbursement or credit ever exceed the buyer's purchase price of the bull, semen or female. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination.

ACCIDENTS:

Although every precaution will be taken to protect the safety and comfort of buyers, neither sales management, auctioneer, nor consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of loss of property.

DELIVERY:

Bulls are able to remain at the ranch at the purchaser's risk and we strongly recommend that the bull be insured. Individual arrangements for delivery and feeding can be made by talking to Neil prior to or on sale day.

RIGHTS AND OBLIGATIONS:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

DISCLAIMER:

While we believe the material contained in this book to be correct at the time of printing, we cannot accept responsibility to any errors herein, regardless of the cause.

TESTS:

All homo polled tests were conducted and determined by Neogen. We do not guarantee results.

Vold, Jones & Vold Auction Co. Ltd. is proud to announce that they are moving to total internet service. They are now associated with Online Ringman, the largest internet company in the world.
