FINANCE PROGRAM

The Leading Edge Group are excited to introduce our newly-forged Finance Program. As progressive breeders we believe it is our responsibility to do what we can to help others reach their goals. We are offering short term (12 month), no interest loans to Leading Edge buyers with 25% down. Commodities such as quality hay, green feed, feed grains etc., can be accepted as payment. Please understand sales group approval is required prior to purchase.

Contact Rob at robh@maxies.ca for a simple, no nonsense Leading Edge Breeder's Finance Program application. International buyers are welcome to take advantage of this great opportunity as well!

 @LeadingEdgeSpecklePark

WELCOME...

Highmark Stock Farm, Green Hills Livestock along with INC Cattle Company have chosen from the top of their herds to bring you some of the finest bulls and females offered anywhere in 2021. Speckle Parks continue to be an international juggernaut, with industry leading carcass quality, outstanding feed to gain ratios and how can you not love the way these animals look! These cattle continue to work hard for producers around the world, putting more dollars in their jeans and making more believers in the breed everyday. Welcome everyone to 2021 Leading Edge Speckle Park Sale - the right time, the right choice.

The Leading Edge Group

FROM THE DESK AT T BAR...

Welcome to the third Annual Leading Edge Speckle Park Bull and Female Sale, Saturday, April 17, 2021 at Saskatoon Livestock Sales located west of Saskatoon, Saskatchewan, on Highway 14. Rob and Janice from INC, Harv and Fran of Highmark and Glen and Barb from Green Hills present a powerful offering of Speckle Park seedstock to enhance and add value to your breeding program.

In a normal year, most would have a preview of the features and their programs at the fall shows but we all know that the past twelve months have not been what one could say as normal. What is exciting... agriculture, namely livestock, has become the shining star throughout this mess. Cattle prices are strong and rising throughout the continent as people recognize the source of quality food, namely protein. In the past decade or so, the world has discovered the quality, taste, and tenderness, of Speckle Park beef and this discovery has made Speckle Park the fastest expanding breed on the planet.

We could write pages of copy on the breeding programs of these operations but in short form... dominant, progressive, and dynamic! The lineup of bulls is diverse and exciting whether you are looking for the top of the pen yearling sire, a proven herd bull or the later born two-year-old that was saved for this event. Powerful in performance, rugged with lots of hair and testicle, their muscle pattern and style will impress you... they are a "must see" group. It takes prolific cow herds to produce the uniformity and quality you will find sale day!

The females selling will fit and enhance any breeding program, whether you are established or just starting to get into this great breed. No doubt the late born heifers that were carried over and bred for January calving are unique... but as you go through this lineup you will find unlimited opportunities to fill your front pasture! The frozen genetics are exclusive, offering explosive results... and come with a proven, competitive track record.

Plan to visit any of these breeding operations and preview the cattle they have on offer. They are in their natural surroundings and you will get to see their mothers. Feel free to give Rob and Janice, Harv or Glen a call to discuss the offering and what will work in your breeding program. April 17 will be a great day for you to add to your program with "leading edge" genetics!

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

At INC our focus remains the same... to build a herd of the finest Speckle Parks that's ever been and to share these genetics with breeders world wide. The Leading Edge Sale gives Janice and I the opportunity to bring our best to you. We believe in these cattle and what they can do for all producers, purebred and commercial alike. Janice and I are so grateful for the help of our sale partners, the incredible staff at T Bar C and everyone else who makes this event possible.

This black-sided yearling is one of the best young bulls to ever come out of the INC program. At nearly 1300 lbs, Polar Express has a top wide enough you could turn around a semi and set of super B trailers on it and he has a chest like a clydesdale. This is a power-built, performance bull with a great future. Once again the combination of Logic and The Witch shows its potential. 51H is living proof Speckle Parks can compete with any breed.

64H was a very big surprise to Janice and I when he showed up. One very stormy, cold January morning I was feeding cows a mile away from home and there he was, standing proud as can be beside his momma. I figured to load him up into the tractor cab and get him someplace warm, but he wasn't having any of it. When the pair started moving in the right direction I thought I'd give it a shot, but seriously doubted I could walk them home. I've never seen the likes of it, but that baby calf, only a few hours old, struggled a mile through deep snow and fought the blowing cold and went right into the barn like he knew where he was going. Right then I named him TAF... which is short for Tough As F**k. Need some hardiness in your calves? TAF is the obvious choice.

Polled: PP Coat Colour: E^D/E^D Myostatin: Non-Carrier

Not only is 77H the coolest looking bull of our entire 2020 calf crop, he's also so long he should have come with an extra set of legs! His momma milks like there's no tomorrow and her udder is damn near perfect. Steam Roller is sired by one of the greatest Speckle Park bulls in breed history, the champion maker, CAJA Zeppelin. Steam Roller is an incredible young bull - smooth and built right - the kind of sire who will stamp generations of calves.

It's impossible to talk about one of these full brothers and not mention the other in the same breath. These boys are good... real good. Had the 2020 show season not been a wreck, Janice and I were taking both Memphis and Jesse James to town. Memphis weaned at 908 lbs and Jesse James left his momma just a hair under. Even though these bulls exude power and performance, they both have Logic's soft demeanour. Without a doubt these are premier bulls. Janice and I promised we would sell our best... here they are.

Pounds equal dollars. That pretty much sums up the cattle business in three words. INC Pure Country 44G will add more weight to your calves which means your cheque will be that much heavier. Pure Country has rib galore, is barrel deep and has legs like tree trunks. 44G will cover a lot of ground without fail and this herd sire can look after plenty of cows. A great bull with great lines.

51G

My wife, Barb, and I own and operate Green Hills Livestock, a mixed farming operation located in the rolling hills surrounding Redberry Lake which is approximately 75 km northwest of Saskatoon.

The focus of our breeding program is to produce functional cattle that will excel for their new owners, regardless of their new environment. As you will see by our offerings we focus on predictability which is achieved by using breed strengths of longevity, hardiness and structural soundness to produce repeatable results. If you want to learn more about our offerings please do not hesitate to contact us.

This bull has huge potential, one of the few and one of the first Electric sons on the market. Out of a great producing young cow that carries powerful cows in her pedigree. This bull was born unassisted and has steadily gotten better from day one. Moderate framed with adequate muscle, low birth weight, smooth shoulders and small headed - all point to a calving ease bull that will stamp his calves with color and being an easy feeding type like he is.

Welcome to the 3rd Annual Leading Edge Sale.

Harv and I, along with the other consignors, really appreciate all the support from past buyers and bidders and continue to offer our best to you.

In 2016, our first Speckle Park cattle arrived on our farm and we've truly enjoyed building our herd. We would like to thank the herds that have been around for years, for sharing their genetics with us so we can attain our goals. We hope that our offerings this year can help someone reach theirs.

We'd love for you to stop by our farm if your in the area, and we can talk cattle over a cup of coffee.

Two (2) Packages of Six (6) Straws of Semen

Due to demand and the success in last year's sale we have decided to release another limited amount of semen on SCSP Bazinga 2B again this year. Bazinga is proven commodity producing sons who come easily yet are long, deep and thick made with above average scrotal measurements. The Bazinga daughters in production are consistently moderate framed, deep bodied, wide topped cows who have excellent udder structure and milk flow.

BW: 70 lbs. Polled: PP Coat Colour: E⁹/e Myostatin: Non-Carrier

One (1) Package of Three (3) Embryos

Our embryo offering is new but proven genetics.

Sired by the breed legend, Moo Fassa, who is known for his outstanding daughters. Out of Ranch Lady, a young, but up and coming donor backed by predictable genetics.

Ranch Lady is an Avenger daughter out of the Lady of PAR 3L cow of Zweiffle's, making her a full sibling to the bull we sold to Alcott Creek Ranch in the first Leading Edge sale. This young cow is not only good on paper, but is a well balanced, wide topped cow with a tidy udder. We believe this cross of bloodlines will produce outstanding females which you need to produce outstanding bulls.

Qualified for CAN/US.

TERMS & CONDITIONS

TERMS: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATIONS: Each purebred animal will carry papers issued by the Canadian Speckle Park Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH: All animals in the sale have met all necessary health requirements.

GUARANTEE: All sellers and buyers of Speckle Park cattle in this sale are expected to be knowledgeable of and to abide by the Guidelines for Seller and Buyer Expectations and the By-laws of the Canadian Speckle Park Association. These documents are available from the Association's office.

PREGNANCY INFORMATION: All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

LIABILITIES: All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY: Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold. Buyers are responsible for all costs involved with shipping of semen and embryos.

PHONE, MAIL, WIRE BIDS: Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE: We strongly recommend that insurance is purchased for full value.

ERRORS: All announcements at sale time, written or oral, supersede any written material in the catalogue.

INTERPRETATION OF Q SELECT GENOTYPES

Leptin genotype	■ ■ ■ CC ■ ■ ■ CT ■ ■ ■ TT	➔ Increasing genetic potential related to fat accumulation, milk production, cow longevity, weaning weight, carcass composition.
PMCH genotype	■ ■ ■ TT ■ ■ ■ AT ■ ■ ■ AA	➔ Increasing genetic potential related to fat deposition, tenderness, marbling, backfat.
IGF2 genotype	■ ■ ■ TT ■ ■ ■ CT ■ ■ ■ CC	➔ Increasing genetic potential related to lean growth, rib eye area.
CRH genotype	■ ■ ■ CC ■ ■ ■ CG ■ ■ ■ GG	➔ Increasing genetic potential related to stress response, hot carcass weight, rib eye area, docility.

LEGEND:

HH	Homozygous Horned
HP	Heterozygous Polled
