Welcome to the 2021 edition of the M & J Farms/Glasman Farms Annual Bull Sale. Last year at this time we had no way of knowing that the world would be a changed place in a matter of months. I'm sure we've all had experiences with loss of some degree of everything we took for granted in the past. The way things were 'always done' plus habits and privileges may never be the same again. For all of us in agriculture and specifically the beef business, things didn't change too much on the production side. Cattle need to be fed and cared for no matter what worldly circumstances.

The beef industry fits in the chain of food production as the most sought after protein source which is indeed enviable and also inherently necessary. The cattle business marches on and we accept our part as breeders and suppliers of good solid working bulls. These age advantaged coming two-year-old bulls are designed and developed on a 'no frills' basis...no creep, summer grazed followed with a TMR silage based development ration. Our offering is one of our most even groups to date providing a variety of opportunities to add to your herd bull battery. Matt and Leanne's Black Angus group offer some new genetics with feature herd bull prospects and calving ease specialists.

Our family is busy and growing. Matt and Leanne added a boy Harlan Maverick to the grandchildren roster at the end of October, a brother for Sarayah and Aleah. Jared and Chelsey are expecting a new addition to their family early February with McCoy looking forward to being a big brother.

This year we have made some changes to our bull sale. With the family's new arrivals and limited socialization allowed we have pushed our sale date back and gone to an all online format with a live auction. The online live auction will be broadcast by DLMS on Sunday afternoon February 28th starting at 2 PM. The bulls have been pictured and videoed for your online viewing. Our bull pens here on the farm are always available for a walk through. Originally we planned on a designated open house day to look over the bulls but have since decided that every day will be an 'open house' until Sunday, February 28th. We extend an invitation to give us a call to plan your visit to the farm to view the bulls. Jared and Matthew know the bulls well and would be

happy to discuss your needs. We and the T Bar C staff can assist and guide you with your bull selection and purchasing, whether it be online or on the phone. As always we stand by our sight unseen guarantee, if you aren't satisfied with the purchase at delivery or pickup, you don't own him.

Please feel free to call us at M & J or Glasman Farms if we can help in anyway with your herd bull selections.

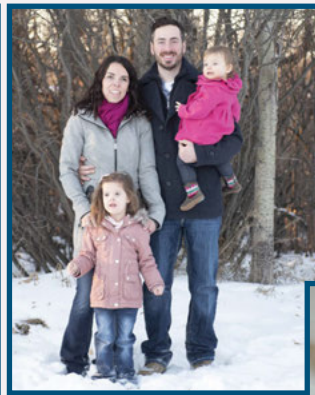

The Glasmans

Bonnie and Miles

Jared, Chelsey and McCoy

Matthew, Leanne, Sarayah and Aleah

The newest addition Harlan

From the desk at T Bar...

Welcome to the 2021 bull sale presented by M & J Farms and Glasman Farms, at the farm, Russell, Manitoba. Due to the COVID conditions, the annual auction has been changed to an Online Bull Sale with a live closeout on Sunday, February 28, 2021.

The change does not affect this great group of two-year-olds which they offer each spring. The Glasman family have been suppliers of high-quality herd improvers for decades and continue to do so. This event offers one of the largest offerings of two-year-old bulls each spring. These bulls are grass run through the spring and summer and brought in, in the fall, and supplemented with a high roughage ration to get them ready for sale season. Summer grazing and high roughage ration insures you a limber, sound breeding bull ready to cover lots of females in any type of environment.

60 bulls are offered... Red and Black Simmental, Angus and Sim/Angus and a few blazes make up this powerful offering. The bulls are rugged, thick topped, with lots of hair and testicle and selected from a large, highly maternal cow herd base. With each mating at Glasman and M & J Farms, calving ease is on the front burner. As you go through your selections, keep in mind that you will keep their daughters in your replacement pastures.

The cattle industry marketplace is showing much promise as inventories in Canada are at their lowest in the past fifteen years. Now is the time to add fresh genetics into your breeding pastures. Plan to make M&J/Glasman one of your shopping stops. They are conveniently located just outside Russell, Manitoba on the Yellowhead Highway. Stop by anytime prior for a preview... then plan to be online on February 28th.

Feel free to call any of the folks at M&J or Glasman Farms to discuss the bulls selling and which ones will suit your breeding intentions... they will be pleased to help.

During these times, feel free to call anyone on our T Bar C team to discuss or purchase any of the cattle offered. We have graded each individual and will be pleased to assist in a professional and confidential manner.

Welcome from Glasman Farms...

Thank you to our customers and friends for supporting our program and giving it a chance to work for you. Whether you are a bidder, a buyer or just stop by for a socially distanced visit and a look at the bulls we appreciate you.

Our cows bale graze and winter in a ½ section of bush about 10 miles away from our home quarter and calve in a fenced off area of the same pasture. We've moved our calving back to May/June and the cows are sometimes only checked once a day during calving. In the 3 years since we started spring calving we have only had to help one belted Galloway heifer. We breed them the way we want to buy them. They may be purebred but they are not pampered. We love how resilient, efficient and maternal these cows are.

Leanne and I have been married for 10 years this coming June and have three little cowpokes. Sarayah is 5, Aleah will be 3 this summer, and we added Harlan to the mix late October 2020. Our cattle work for us and have made working full time shift work and raising a young family possible. We work as a family unit – the kids come with us for most projects whether that be setting up electric fence, sorting and processing, feeding, AI'ing, hauling...you name it and they have probably sat in the minivan or old Chevy half ton watching it!

The bulls are turned out for summer/fall grazing and late fall we start them on some whole oats. We don't bring them to M&J until usually late December in time for pics and videos.

A big thank you to Leanne's grandparents, Garry and Diana Clarke, her Aunt Patty (our right hand cattle helper who we appreciate and love working with so much!), her parents, my parents and brother Jared who all help us out in various ways. Whether that be with land available to rent, equipment, babysitting, bull deliveries, you name it! We are blessed and truly wouldn't be able to do a lot of this without the help and support of family.

We're extremely proud of this year's offering. If you can, please make the drive to see them for yourself and let the bulls themselves do the talking. We feel there is something for everyone. The bull videos can also be viewed online with DLMS or give me a call to chat further about the offering. We welcome your appraisal. Thank you for your interest in our program!

Matthew

We're proud to support the Canadian Angus Foundation with our 15 for 50 donation this year.

MLG Earnhardt 9063 is amazing in his phenotype and character. You will be hard pressed to find a deeper, more stylish and complete bull this sale season that possesses such herd bull presence. He has been a favourite with visitors since he was a calf. And our favourite part about him is that he is backed by the Tibbie cow family. His dam also raised a Bank Note bull, MLG High Country 6016, who was Junior Bull Calf Champion at AG-EX and pulled out of his class at Agribition. He garnered a lot of attention! MLG Tibbie 11A was our favorite female of the 2015 calf crop and is a tribute to how consistent these Pioneer daughters are in their productivity.

Recommended for cows. A royally bred Earnhardt son. If we were showing when this guy was a calf he would have stood some heavy competition. This was the hairiest, fanciest, stoutest made calf of the group. His sire, Earnhardt, owned with Peak Dot Ranch, is the most phenotypically correct, heaviest muscled, freest moving, cleanest sheathed Harvester son we have seen to date. He has been a real asset to our herd bull battery and we truly believe his sons will pass on these valued traits to their progeny like he has to them.

This Earnhardt son may just have the most presence in the whole group. "He is one proud individual," was what Chris Poley said when he saw him for the first time. He's a bull that carries more neck extension and style but does not give anything up in terms of thickness or muscle shape. Although this bull looks like he belongs in the show ring, I think he would best fit into a ranch setting with a few buddies.

Any way you look at this stud he will command your attention! MLG Earnhardt 9064 may be one of the most unique bulls in the offering. An attractive Earnhardt son that offers extra depth of body and mass. He was a favorite to some of the young cattlemen who clipped and torched the bulls. His moderate dam by BC Lookout is big ribbed and wedge shaped with an excellent udder.

LOT 39

LOT 40

SALE FEATURE!! MLG Lithium 9007 has been a standout since birth and will be a definite herd improver. He is the heaviest weaning weight bull from our offering. He showed very early maturity and shows herd bull character. His beautifully uddered dam by Authority is ¾ sister to many great bulls we have sold. Three stand outs include MLG Optimus Prime 39B to James Ells of Canning, Nova Scotia, MLG Momentous 6079 to Gold Bar and Merit Cattle Co., and most recently to LK Ranch, MLG Authorative 8024. You owe it to yourself to make the drive and check these bulls out. They will not disappoint!

MLG Lithium 9011 is an excellent heifer bull candidate. He is moderate in stature and smooth in his lines. His dam, MVF Tibbie 283W, is a matron in our herd and has put many bulls through the sale as well as raising daughter's that have done the same. She is still in production at 12 years of age and looked very youthful this summer with a good Alcatraz bull calf at side. Calves out of this bull should come easy and grow to a moderate frame score. This bull would work great on an exotic group of heifers to make replacements.

There are many ¾ brothers to this bull in the sale. This calving ease specialist is smooth and long in his makeup. His Bank Note dam comes from one of our best cow families here at Glasman Farms. The udder quality is impeccable and consistently passed down to their progeny. A real world heifer bull.

LOT 44

LOT 45

Black Angus

A crowd favourite! This bull has the pedigree and the look for breed impacting potential. We just love his Bank Note sired dam for her ideal structure, body type and flawless udder. This bull's calves will push the scales down hard and his females will be in the keeper pen.

MLG Lithium 9008 is a stand out for his depth of rib and muscle shape. As a calf, he was one of the stoutest in the group. His Authority x Pioneer dam is a herd favourite with massive volume, femininity and a superb udder. His \$60,000 sire, Lithium, was added for outcross curve bending genetics and will heavily influence maternal traits such as udder quality.

Recommended for heifers or cows. A visually appealing, long bodied Lithium son. His dam was a feature heifer calf purchased from Eastondale Angus.

LOT 47

Black Angus

Wow! This bull is a powerhouse. He is our lead off Bond son out of a first calf Pioneer daughter. Years ago we sold a sister to the granddam in a group to Lakeland College in Vermilion, AB. She went on to raise very competitive and high dollar offspring for the program there. This bull is a favorite and is the rancher's kind – thick, deep and loaded with muscle.

MLG Bond 9010 is one of the most attractive and complete bulls in the offering. Deep and stout with smooth shoulders that lead into a proud herd bull skull. He is backed by the Blackbird cow family that always has a large percentage of bulls in our offering and is maybe the most popular and proven cow family in our herd thus far. Our good friend Jordan Sies is in the process of flushing the original CADS Blackbird 172T to HF Alcatraz 60F as we are putting this catalogue together. It is always exciting to see a first calf heifer hit it out of the park like this.

This guy didn't get a big feature picture, but don't let that fool you. He's pretty cool! 42G is a full brother to the three flush brothers we sold in last year's sale. He has massive volume, thickness and muscle shape and will be a real herd improver. Backed by the strongest maternal cow family pedigrees in the business he's a guaranteed female maker. We believed in this flush so much that we walked one of his full brothers last breeding season and the calves he left are awesome.

Recommended for heifers. This bull might be the most moderate framed in the offering, but he may also be the thickest. You'll see that Innovation has a bit of a different twist to his pedigree on the top side. His sire, MLG Innovation 5004, came as an embryo we bought from Brooking Angus Ranch. His sire and dam now reside at the Sorrell Ranch at Churchbridge, SK.

LOT 53

Black Angus

Here is a direct SAV Density son that came as an embryo from our good friend and business partner Jordan Sies of J Square S. The Sies family had just sold a full sister for \$9,000 to Troy and Amy Frick of Northern View Angus. The Ruth cow family is a major part of the Northern View and J Square S herd foundations. It should be known that I had tried to buy two bulls out of this guy's dam and when that failed the next closest thing was embryos. And yes, this is a DENSITY with abundant scrotal development. Density's have the undeniable ability to make the most eye appealing, productive females in the breed. A true maternal building block for the most progressive herds!

Bond was the lead off bull at the Merit Cattle Co. sale the year that we purchased him. We selected him to compliment our S A V genetics and wow did it work! His sire, Range Boss, has become one of the most proven and popular Angus bulls in the business. We used him on heifers and cows. For sale by private treaty. Contact Matthew.

BOND

Terms & Conditions...

Terms

The terms of the sale are cash or cheque, payable at par. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Payment Options

Payment in full sale day will be the norm. If special arrangements are needed please discuss with Miles Glasman (M&J Farms) and/or Matthew Glasman (Glasman Farms) prior to the sale.

Insurance

All bulls staying at M&J Farms/Glasman Farms must be insured. Contact Keystone Livestock Insurance at 204-728-3058. We strongly recommend that insurance is purchased for full value.

Delivery

Bulls will be kept until April 1, 2021. After this date a \$3/day yardage fee will be payable. All bulls will be delivered by April 30th free of charge unless special arrangements have been made at M&J Farms/Glasman Farms convenience. Every effort will be made to get your bull to your farm, however some long distances may dictate delivery to a central point.

Breeder's Guarantee

All bulls will be semen tested prior to the sale. The bulls sold are sold with a breeder's guarantee. If problems arise please notify M&J Farms/Glasman Farms immediately so the replacement or credit towards another bull can be dealt with in a timely fashion, At no time will M&J Farms/Glasman Farms be responsible for more than the purchase price.

Pedigree Estimates (PE)

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

Announcements

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

Exception Guarantee

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

Liabilities

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Rights and Obligations

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
