

# KICK OFF TO SPRING BULL SALE

**MARCH 3, 2021**

**NEW SALE TIME - 6:00 PM**

**HARTNEY, MANITOBA**

# WELCOME FROM MAPLE LAKE STOCK FARMS...

**W**elcome to our 12th Annual Bull Sale. Thank you to everyone who shows interest in our program. Confirmation in success of Maple Lake progeny is our repeat buyers that have followed our program closely, and selected the foundation genetics. Gerry has many years of devotion to developing his cross bred program. Our commitment is producing the best performance, structurally sound, while maintaining calving ease. We are proud of our genetics that don't melt or breakdown in their healthy, work environment. We are not committed to EPDs and papers, rather to the unbiased actual performance. It is a highly competitive and rapidly changing industry. We continue to acquire the top genetics of the Simmental and Angus breed to create the leading premium breeding stock. We have been fortunate to obtain exclusive semen packages over the years. Our new genetics acquired for the upcoming season are high powered and motivating, AI sires. We have Wheatland Man O' War, Crossroads Connected, Sunny Valley Canon, Sunny Valley Betts and Rendezvous Charles calves on the ground, and are excited to see how these premium genetics develop.

Feed is not a significant factor to our calves performance. It is genetics of our foundation females, mated with premium sires. Winter feed consists of TMR of forage silage: peas, corn, alfalfa, 8 lbs. of rolled corned and lick tub minerals. Our mission is efficient feed conversion and good ADG from moderate framed mommas. Cam Buyer of Bar JB Feedlot has been very pleased with the feed conversion of the 208 Maple Lake sired steers he purchased. We follow a complete herd health program.

This is the sixth year of consigning commercial females sired by Maple Lake bulls. These open heifers are testimony of our sires' performance and are having a positive influence in the commercial herds. Demonstrated by the repeat satisfied buyers.

We encourage you to come at your convenience to appraise our offering to make your selection. Talk to Gerry, he is happy to help you select the best genetics for your program and talk about the new venture, The Maple Lake sired feedlot program.

Quality runs deep in Maple Lake cow families. Above: ML 1761Y (786T) and two daughters, ML 4762E and ML 7761

# FROM THE DESK AT T BAR...

Welcome to the Kick Off to Spring Bull Sale here at Maple Lake Farms. This progressive operation not only runs a lot of cows but is certainly family oriented with their best interest always being with their customers in mind.

The Maple Lake program is quite diverse in the genetics they use and how they multiply using their popular walking herd sires to incorporate as many 1/2 to 3/4 brothers for you to select from. They have been aggressively implanting embryos off proven cows that have paid their way here at ML. As we all know, when this outfit decides to go ahead and purchase a new herd sire, the budget is quality first and ownership is next. We look forward to the new exciting John Wayne herd sire. Of course the Simmental pen leads the way in a impressive lineup that are hairy, thick and very well natured. Bentley is a new sire incorporated that is a baldy that will be popular and the mainstay walking bulls have as good of offspring as ever this year backed by this strong cow herd. The Angus section has been growing using elite genetics from the nation's best with a power bull to lead off along with some very appealing heifer bull projects.

Please join us at any time at ML to view this stout set of bulls. Gerry and crew offer as much customer service as any and you can rest assure your bull purchases are backed by a cow herd that understands how the business works.

Any questions please don't hesitate to call as we are quite familiar with the ML product.

Thank you  
Ben Wright

### HOMO Polled

This stout young sire is stamped like his renowned sire LER 786T, the foundation of Maple Lake Stock Farms program. He has an impressive square top and thick hip. Quiet disposition and calving ease are strong traits of 786T. The moderate framed dam is a heavy milker. Oak Valley Stock Farms own a full sister. Three sisters are part of our herd. This young sire has a very promising genetic make up.

Lot 11 and 12 are sons of full sisters. We have a third sister ML 5733C and her daughter is in our heifer replacement pen. That is some strong quality validation. These 786T daughters are from our top purebred Angus dam. They are predominant females. They genuinely rise above the rest and maintain the desired calving ease. The sire, is a Full Fleck, a successful sire from Silver Lake Farms. We are excited to watch what these boys will do for you.

### HOMO Polled HOMO Black

This guy has been a favorite, a very deep soggy eye catching bull. Hip is big and powerful. Swagger sons are proven calving ease. The calves from this sire are consistently stamped with big square hip and thick top. This pedigree goes back to our foundation Angus dam, Maple Lake Richelle 5099R, the great great granddam.

## FEEDLOT TESTIMONIAL

This past October, we fed a pen of 208 Maple Lake sired steers. The steers were delivered October 9 and their average weight was 745 lbs., by January 1 they'd hit an average of 1,000 lbs. We were pleased with the ability of these steers to convert feed to gain. These calves have transferred onto the finishing lot. The buyers in Ontario were very pleased, when the steers hit the transfer weight of 1,000 lbs. two weeks early. We will be watching for Maple Lake sired calves in the future.

### HOMO Polled HOMO Black

He is smooth in his design. A stylish baldy with performance genetics behind him. His dam is a first calf heifer, sired by our stout ML 4437B Maple Lake Publicity, a 786T son, had the biggest hip we have ever witnessed. This young dam has a great disposition and faultless udder. Again this is the fifth generation from the 5099 Angus dam.

ML 8450F - Maternal Sister of Dam Sold to Quinn Wilson

A maternal brother is owned by Kohut Land & Livestock. Angus performance to be evaluated with serious consideration. A maternal brother sold to Glen Mauthe.

# MAPLE LAKE DENSITY SONS

This extra age, fall born bull is highly recommended for heifers. This Young Dale dam has been doing a good job on all her calves. The proven performance from the well used Maple Lake Density bull will yield quality calves.

This deep powerhouse is a 3/4 Angus. His dam ML 7423 is another 786T half blood. These females are hard to beat. They are consistent easy calvers, easy keepers and great mommas. Udders and feet that last. Proven in our foundation 786T females that have given us 10 years of productivity. We have bought many purebreds that don't perform as well. The thick, soggy, performance calves this bull will sire has far more value than the registration papers. The maternal brother, MLSF 9423B was a featured bull in 2020 Sale, sold to Matt Artz.

This half blood bull has a top notch Reno dam. Her genetics have given him the chrome, as well as great maternal traits. She is a heavy milking half blood cow. Dam, ML 8051U, is a 13 year old successful dam with a Hereford background. She has been exceptional in our program. The performance in this eye catching powerful bull, has dollar value far greater than registration papers. He will sire very thick, soggy calves!

This Sakic son is from the dam of our red Angus monarch MLSF 3032A. She is the foundation of our Red division. 13 years old and still calves in the first cycle. Longevity, sound structure of feet and udder.

LDD 32U - Dam

77

# BULLSEYE SONS

These are full brothers. The genetic strength is endorsed by the many full sisters in our herd. The monarch donor dam MLSF 3032A has the traits we value and are proud of. We are pleased with her Bull's Eye daughters. They are consistent easy keepers, quality udders and super disposition. Don't be concerned with the heavier birth weight, that recip dam is a bigger cow. We have had no calving concerns with this gene pool.

MLSF 9926G - Full Brother Sold to Ferme Canland QC

# TERMS AND CONDITIONS

## **Terms:**

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

## **Certificate of Registration:**

Each animal will carry papers issued by the Canadian Simmental Association and Canadian Angus Association unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

## **Pedigree Estimates**

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

## **Health:**

All animals in the sale have met all necessary health requirements.

## **Guarantee:**

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Simmental Association and Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

## **Delivery:**

Assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

## **Liabilities:**

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

## **Phone, Mail, Wire Bids:**

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

## **Insurance:**

We strongly recommend that insurance is purchased for full value.

## **Errors:**

All announcements at sale time, written or oral, supercede any written material in the catalogue.

**Give us a call!**  
We offer great customer service on an outstanding group of bulls that we are proud of!

**Return Undeliverable  
Canadian Addresses To:**
