GILCHRIST FARMS, LUCKNOW, ONTARIO

MID-WESTERN

7TH ANNUAL ANGUS & CHAROLAIS BULL & FEMALE SALE

SATURDAY, APRIL 10, 2021 AT 1:00 PM
GILCHRIST FARMS, LUCKNOW, ON

Welcome

It is an exciting time of year as the snow begins to melt, we begin to transition from winter into spring and there is a lot of anticipation of what lies ahead. With all of the uncertainty in the world today, the agricultural industry has once again pulled through, and we forge ahead to produce a food product that is in demand. This pandemic has increased the awareness of where food is produced and there has been an increased level of importance placed on ensuring supply of high quality meat production.

As we work to put together this catalogue for the 7th Annual Mid-Western Bull Sale, it brings great pride to see the progress that years of genetic selection through both AI and ET programs have delivered. By putting a focus on genetics and high quality females that are behind these genetics, we feel that this is a sound, functional group of bulls that can both calve easily and perform in today's industry. These bulls have been performance tested and developed on a balanced TMR ration since the fall of 2020 with semen testing and scrotal measurements to be completed prior to sale day. If you would like to come and see the bulls and the females that stand behind them, we would be happy to show you through the group and cow herd anytime before the sale.

FROM THE DESK AT T BAR...

The 7th Annual Mid-West sale promises to be a feature event of the spring sale season in Eastern Canada. Featuring an exceptional bull lineup, along with a tremendous female offering, please make plans to participate in this progressive sale.

The Gilchrist program is known nationwide for producing some of the finest seed stock available annually. Their set of bulls is impressive, with many options for heifers by the proven Power Chip bull, who is a consistent sire for eye appealing cattle with data to back him up. Premier Livestock comes to the forefront no matter where their stock is available for purchase. Exciting matings in their group backed by some of the most proven donor dams the industry has to offer. Rehorst Farms have the heavy weights in the bull pen. This program is on the cutting edge of the Angus business, and pay attention to their lead off bull by one of the hottest sires available... Rainfall. Harprey Farms round out the Angus offering with an impressive group of females that will be the front pasture kind. Study this solid group to advance your breeding program.

New this year we are happy to have the WSS tattoo involved in the sale with a top cut of Charolais bulls. Wanda and crew are true leaders of the breed and offer an exceptional set of bulls that cover all the bases. These thick, hairy and stout bulls will do a man's job on your program. I strongly urge you to look them over at anytime possible at their beautiful farm or at GF.

To conclude, T Bar C is proud to endorse these programs. They are progressive in the ag sector and stand behind their cattle with pride and customer service. Please don't hesitate to contact any of us at anytime and plan to be in Lucknow at Gilchrist Farms.

Thank you,

Attraction should have been called "featured" attraction when we named him. This is a bull that has a very bright future and we feel has a lot to offer the industry. His brother was the leadoff bull in the catalogue last year and was our high selling bull for \$15,000 to Angus Hills. I was fortunate enough to use this bull we named Blackstock and we are really excited about those calves so far! The 624C dam stems from the same cow family that produced GF Lucknow 905G and has a remarkable udder along with all the other attributes it takes to make a standout female in our herd. Attraction has the balance, power and look to write his own story and the data set to back him up.

As his name suggests this one is a perfect blend of power and class with a breed improving data profile ranking in the top 30% or better for CED, BW, WW, YW, MARB, REA, and Heifer pregnancy rate. His young dam is knocking it out of the park with each calf, and getting better and better while doing so with an immaculate udder. His Granddam will be one of the featured lots in our female sale this fall and I strongly encourage everyone to take a look at her to see what this bull is backed by. Power and Class, a bull that has a lot to offer. Heifer pen approved

Here's one that's sure to attract attention and for good reason. This bull is the result of our intensive embryo program and focusing on females that are designed to produce. His dam, and granddam are both results of embryo transfer and stacking maternal characteristics on top of each other. This bull will add look, depth of rib and safe to say his daughters udder quality will be exciting.

The youngest bull in the sale but he made his way here for good reason. This is the first Cash Advance son to be offered for sale and we think he has the parts and pieces to move some of the most progressive programs forward. He boasts impressive performance EPDs ranking in the top 4% for WW and top 1% for YW all while being breed average for calving ability. He has herd improving foot score attributes and ranks in the top 7% of the breed for heifer preg rate.

Blame the photographer not the bull for this photo. This is one that won't disappoint in person and was a standout all summer on grass and even more so when you can see his impressive three year old dam with an impeccable udder. Few bulls combine low birth and high performance in the same package but this moderate framed easy fleshing Power Chip son has the ability to calve easy and then add thickness and capacity to his progeny that will push down the scale. He ranks in the top 30% of the breed or better for each of the following, CED, BW, WW, YW, REA, HP and Mature weight. Heifer pen approved.

Everyone likes to look out over their pasture full of cows and admire what they have and reminisce about what that cow herd can do. This bull will do that plus make the neighbors jealous. He is out of a first calf heifer and his granddam was the featured \$15,000 high selling female this past fall from the GF & Friends IN IT TO WIN IT sale. This bulls pedigree is littered with industry greats like Top Shelf, Power Chip, and Natural Law. Top 1% CED, Top 5% WW and top 6% YW this bull is going to be one that can do a lot of good in a lot of herds.

We purchased his dam from our good friends at Whiskey Lane and what a job she has done for us and our customers who have purchased progeny. Her first calf was a heifer who was a full sister to this bull and she demanded \$14,500 by public auction at the Royal Winter Fair as a heifer calf to Premier Livestock. That heifer then went on to produce an eye catching powerful heifer calf her first year who was sold for \$10,000 through the Fallsview sale last fall. The dam of this bull just simply gets it done year after year and when there is that kind of consistency it makes the cattle business fun. Heifer pen approved.

This ones dam always puts power into her progeny and we expect Big Shoes to carry on the tradition with his top 15% ranking for WW and top 25% ranking for YW. Sired by Power Chip to lower the birth this bull comes in better then breed average but possesses the depth of body and bold rib shape we like to see in breeding bulls.

This soft sided, exceptionally easy fleshing bull is put together in a moderate package but has a lot to offer the industry. He would be an excellent candidate for a low input program looking to moderate and still maintain a high-quality carcass. He ranks in the top 5% of the breed for MARB and with both Power Chip and Eliminator in the pedigree this one is destined to make the right kind of replacement females as well. Heifer pen approved.

There is always demand for heifer bulls but each year there is also producers looking to add shear performance and something that can go on cows to raise a calf crop that will push down the scale in the fall. Search Party ranks in the top 1% of the breed for both WW and YW and does so with dense muscle shape and a powerful pedigree.

From our fall calving program, this is a result of our ET program and the Evening Tinge cow family. These extra aged bulls are developed slowly and able to go out and cover a larger number of cows the first year compared to the yearlings. This bull is a sire with maternal in his blood, being a direct son of Powerchip and out of a dam by the legendary EXT sire. Heifer pen approved.

We at Premier Livestock would like to welcome everyone to the Mid-Western Bull Sale. We are very confident in the group of bulls we have consigned to this top cut Angus bull sale. They are a set of bulls that will add pounds to their progeny and are backed by cows that represent our cow herd. We take a lot of pride in our breeding program and like to focus on fundamental traits along with maintaining structural soundness. Cows with good feet, legs and udders are a must. We invite you to come see the dams of any of the bulls.

We would like to thank Brad and Kristie Gilchrist for doing a great job developing the bulls once again.

Here's one that is heifer approved, and if you study his pedigree you will find some of the most influential pedigrees in the Angus breed, Catalyst is genetically engineered to add power, thickness and maternal genetics in his progeny. You will want to keep all his daughters, they will make tremendous cows with great udders. His dam is still working at 10 years of age and she has what we feel is our best heifer calf of 2021!

If you're looking for a bull you use on heifers that has explosive muscle and the kind of phenotype that everyone likes when you look at them, Hoss will be your go too. The maternal side of his pedigree is the well known Bardetta cow family that has been so successful for multiple programs across Canada. We expect the Hoss progeny to be thick made, big hipped cattle that will that will garner attention.

Co-owned with Windulan Cattle Company

Welcome to the 7th Annual Mid Western Ontario Bull Sale .

First of all, we hope your families and farms are safe and healthy. All of us are doing things differently these days!! At Rehorst Farms Ltd, it's "cattle as usual" and we appreciate our cows as providing some normal to each day !

We are proud to offer 9 of the best bulls we have ever produced, with high ranking test results, and sired by some of the very best sires available today and backed by many of the high selling dams sourced from the great Johnson Livestock program .

Five bulls are sired by the Supreme Champion Mich Wheatland Hi Caliber, which are loaded with style and performance, a great outcross pedigree to add to S A V genetics and excellent to moderate birth weights.

Two full brothers sired by S A V President are right for the times and out of the super JL Ruby 3C donor cow.

Two calving ease bulls, one sired by the popular S A V Rainfall and one sired by the now deceased Musgrave Stunner out of amazing cows. Also a S A V Sensation out of the JL Ruby 3C donor.

A special thanks to Gilchrist Farms for hosting and building up this all important Ontario bull sale. Brad has again done an amazing job developing these bulls. All bulls have been on test.

Thanks for your support of our program . See you online or at the sale barn.

We are excited to once again offer some open females to this year's Mid-Western Bull and Female sale.

This year we have 10 females that we feel will make some excellent show females and brood cow prospects.

All the heifers are selling doubled vaccinated with Express 10, ivomeced, halter broke, and ready to go. If you are unable to make it sale day we would like to invite you to come to the farm and view the females prior to sale day.

The Bellemere cow family is really starting to write its history book here, time and time again Bellemere 23E and her sisters are stamping the type of females that work in real world conditions. PSH 22H is a perfect example of a big bodied, broody type female that will add that extra punch of performance to your cow herd. With impeccable leg and feet structure and her mass we feel she is going to be a big-time producer.

This Jullian daughter is the youngest in the offering being the only April born and may be one of the stoutest to be offered. Super wide topped and big hipped she packs a punch in a moderate frame score. Her sister sold in last years Mid-Western Sale to Ty Zaft/Lazy MC Bassano Alberta where she demanded \$4700. The Corry cow family are super easy fleshing and well designed to work in any conditions.

Thank you Brad and Kristie for hosting the Mid-Western Bull Sale. For several years we have considered moving some of our private treaty bulls into an auction setting. This past fall, Ben and Brad came with the idea of adding a group of our bulls into the Mid-Western Bull Sale. After several visits we agreed to bring a representation of our bull pen to this sale while still maintaining a group at home for our private treaty customers. We are very excited about this opportunity, while a little nervous at the same time as this will be our first time offering yearling bulls in a public auction setting! We have selected a nice set of bulls which we feel will provide a selection for everyone.

At WSS we try hard to produce bulls that will sire calves that are born easy, gain quickly and top the market. Our bulls are fed a limited grain ration with free choice hay, salt and mineral. Our goal is to have the bulls gain around 3 pounds a day to grow them out at a steady pace which we feel increases the longevity and soundness of the bulls.

At WSS we stand behind our product, simple as that. If you encounter any bull issues give us a call and we will figure out the best solution to get your cows bred, because that's what its all about.

Please consider this your invitation to stop by anytime to evaluate and discuss the bulls prior to or on sale day. I love talking cows!!!

WANDA

If you are looking for a heifer bull this spring check out WSS Hot Gossip 23H. There are 4 heifer bulls stacked on top of each other in this pedigree. You would think this could restrict the growth of 23H however he has maintained a very respectable rate of gain compared to his peers. When you look at this bull you admire his small polled head, smooth shoulders and the shape of his rear end.

April 10, 2021 - Lucknow, Ontario

NOTES

TERMS AND CONDITIONS

TERMS: The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made previous to the sale. The right of property shall not pass until after settlement is made. The sale group reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase the seller reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

BID: Every animal consigned to the sale must be sold by auction. No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES: In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK: Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

ANNOUNCEMENTS: From the auction block will take precedence over the printed matter in the catalog. Buyers are therefore cautioned to pay attention to any such announcements.

HEALTH: It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

CERTIFICATE OF REGISTRY: A registration/recordation certificate issued by the Canadian Angus Association or the Canadian Charolais Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

PEDIGREE ESTIMATES: Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

SHIPPING: Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE: As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.
