Terms Conditions

Terms of Sale -

Cash or cheque payable in Canadian Funds. The right to property shall not pass until after settlement has been made. All settlements must be made with the clerks of the sale before cattle will be released unless prior arrangements have been made with the seller.

Bulls sold with a "Responsible Breeder Guarantee of Satisfaction".

In the unlikely events of a dispute, the regular terms and conditions standard with the applicable breed association shall apply. In any case, the seller is not responsible for more than what the bull sold for.

Purchasers Risk -

Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.

Liability -

Purchasers must look to the seller of the animal for fulfillment of all guarantees and representations made are hereunder. Provost Livestock Exchange are acting as agents and assume no responsibility or representations made by the seller.

We are retaining the right to collect semen for in herd use on all the bulls at our expense and your convivence

Delivery Options

- 1- Pick your Bull up by the end of the week following the sale and receive a \$150 refund
 - 2- Take Delivery of your bull within a week of the sale and receive a \$50 refund
 - 3- We will work with you and start delivery of the remainder of the bulls around April 15th and get them to your yard or Pastures. If you are unable to take your bull at that time there will be a charge of \$2.50/day feed charge.
- All bulls remaining here for later delivery must be insured.**

Sight Unseen Purchase Plan

We look forward to seeing you on Sale Day but if you cannot make it and wish to participate please call any of the sale staff or sale contributors with your selection criteria and price range and we will try to fill your order.

All bids will be kept in strictest of confidence

Your "Satisfaction is Guaranteed"

Covid 19

All AHS Covid Guidelines will be followed, please watch our facebook page, website or contact us for any guideline changes for sale day. Masks and hand sanitizer will be provided.

Buyers Discount

- 2 or 3 bulls and get a \$100 off each of your bulls
- 4 or more bulls and save \$200 off each bull

Welcome

We'd like to welcome you all to our 2021 sale. It has a different look, date and location but still built on the same quality cow herd we've always had. We had decided with the crazy way this world has gone that now would be the time for us to make some changes to our sale. We've decided to move things home, to our farm, and set up a video sale. For 7 fabulous years we have been working with Byron, Bernice & Wyatt Johnson to bring forth the Built Right Bull Sale. While we are sad to see the end of our sale partnership, we are excited for the new opportunities it has offered all of us. Both our herds have grown a fair bit since 2013. We wish the very best for the Johnsons on their upcoming sale!

With our kids doing school from home in the spring and then taking the leap to full time homeschool this fall it sure has been great to have the extra help on the farm! They're getting a very well-rounded education; we now have amazing little Herdsmen & woman! Our fall shows were whittled down to just one this year, Stockade Round-up, but it sure was a great one! Was exciting to be together again with our fellow cattlemen. The kids enjoyed getting to be more involved in the show as well.

It appears our cattle don't know about COVID and they've kept right on a ticking. We are well into calving season; can guarantee we had no bulls adhering to the 6 ft rule last spring! The group of bulls in the sale pen this year are, once again, ones we are proud of. You may notice some higher birth weights in this year's offering, we had some VERY fat cows to thank for that. The girls grazed on regrowth alfalfa into December last year and came home pig fat. We weren't able to bale graze so we had to feed silage earlier than we usually do. The weights you see are true, the cows still calved just fine, and unless your cows are really fat you probably will never see calves this big.

We have so many people that help us throughout the year, our families & so many friends; from help with cattle shows, to preg checking time, to dropping off meals when we're flat out. We sure appreciate you all. We would like to thank all our past bidders and buyers that have shown support of our program. We trust that your past purchases have worked out for you and if you are for some reason not completely satisfied please let us know so we can make it right. Satisfied customers make for repeat customers and we want to see you back.

As we always say, you are welcome anytime to stop by and walk through the bulls, this year with the uncertainty of what March guidelines will be, we encourage you more than ever to come prior to the sale to see the offering. We always appreciate catching up & talking cattle. Our sale will be broadcast live on DLMS and the crew from Provost Livestock Exchange will be doing the selling and Mark Holowaychuk from OBI will be on hand. If you are unable to make it to the farm please don't hesitate to contact us or any of the sales crew to help find the animal that suits your needs. Please checkout our website, Facebook or give us a call to see what the guidelines will be for sale time.

Our Program

Our program revolves around the mamma cow. Our Sires, their dams and siblings are scrutinized heavily before purchasing. We concentrate heavily on creating sound, fertile and easy fleshing females that will last. Most of our pastures are comprised of the steep Battle River hills, so foot and leg structure is key. Udders are a passion of ours; small teat size, properly spaced, adequate milk flow and suspension are a must. Our cows don't get second chances, they raise a quality calf and come in bred on time or they catch a ride to town. We were told years ago to build the right cows and the bulls will take care of themselves and we stand by that moto today. We utilize AI and Embryo transfer to increase our rate of genetic advancement. The cows are on grass as long as possible and generally bale graze until calving time. We work together with the Lloydminster Animal Hospital to provide a complete herd health program and Bullseye for our herd nutrition needs.

We first saw Natural Law at Longshore's the year he sold and we thought an awful lot of him but didn't have enough to get him bought, he was the one that got away. He has gone on to be one of Canada's most prominent Angus sires. His Daughters have been Farmfair and Agribition Supreme champions. We flushed a couple of our top Donors to him and plan to do another this spring. Check out his sons in the offering as we feel they could be some of his best sons to date. Sure to raise top end, front pasture females. Udders to die for and presence to burn.

Brooking Rise is backed by one of the most ideal cow family's there are in the Angus industry. His dam and Granddam are two of the most attractive yet bold ribbed and wide topped females you will ever see. When we are on the hunt for herd sires one of the most important boxes for us to check is the maternal power behind them. Rise fits that bill to a tee. He himself is very sound from the ground up and proud fronted. Packs the herd bull character in a massive ribbed big topped package. His sons are stamped with the same look and character. He will make a larger impact in years to come in the bull pen and the herd. Support Photos

While on the Saskatchewan Angus summer tour in 2018 I found a calf that was extremely attractive and as balanced as I have seen. That fall I made the return trip to Southern Saskatchewan to see how he had developed out and knew we had to own him. Partnering up with Macnab Angus we got him bought as the high seller for \$40,000. Kingsman is a very mild mannered, easy keeping individual who has been admired by all that have seen him. He will be a major part of our program going forward. Backed by the most prominent cow family at Merit and Range Boss one of the more popular sires in Canada the last few years. We had a feature son of his out this fall at Stockade Roundup where he commanded an awful lot of attention. Unfortunately, we lost him in early December which was a major loss. We have a limited supply of his offspring this year due to a high heifer ratio and the bull being collected before being turned out. A sire group to watch for going forward as well.

Espionage came from the Hamilton program after being a member of their Denver pen of three. We had to stretch hard to get him bought as one of the features and high sellers at \$30,000, but has proven to be a good choice. He is a moderate, soft made bull that is very easy fleshing. He has proven to be a very efficient breeder, working at two places each year being co-owned with Clifford Land and Cattle. He has proven to be a consistent calving ease sire whose calves come with a short gestation. Sired by the Agribition Champion bull, G-Man, and out of an amazing donor for Hamilton's in the Tibbie 102W cow. His first daughters are calving now and are absolutely stunning females, tremendous udder quality, lots of hair and easy fleshing. A sire that is sure to be a part of our program for many years.

Easy Rider was our 2018 lead off and high selling bull selling to Clifford Land and Cattle for \$17,000. A bull that had a successful career in the show ring, but more importantly in the pasture as a proven herd sire. He was the lead bull in our Farmfair 2017 Supreme Champion pen of 3 bulls. We Retained an interest in Easy Rider to incorporate more genetics from his amazing sire Bar EL Muchmore 155A who has made as large of an impression on our program as any bull we have ever used. Combined with his donor Dam, Pedersen Blackcap 230A, who is the highest income female on the place and one that produces a ripper every year. Easy Rider is a bull that has explosive muscle shape, added length of spine and moves out very well. The one trait that we absolutely love about this bull is how much depth of heel he possess and a strong overall hoof shape and size. His qualities are shown in both the bull and heifer pens and we are extremely pleased with his progeny.

We found 'Just Do It' at the Czar pen show when he happened to be stalled beside us. Days after the show we went for a look and decided we needed to bring this Sankeys Justified son home to work for us. He has bred in both the heifer pen and on cows and has proven successful in each location. Calving ease, yet has the growth and thickness to follow up. We now have daughters in production, and they are very nice uddered and moderate framed females, the kind that will remain here for a very long time.

- Dam is a great uddered, sound made female
- Calving ease and muscle shape to match his sire
- Heifer friendly

Mark Cameron VP of Nutrition	Doug Roxburgh Beef Consultant	Joe McLean Beef Consultant	Trevor Hamilton Beef Consultant	Brayden Schmidt Beef Advisor	Greg Armson Beef Consultant	Kelly Resler Beef Consultant	Tom McNeely Co-Founder	Ryley Noble Beef Advisor
---------------------------------	----------------------------------	-------------------------------	------------------------------------	---------------------------------	--------------------------------	---------------------------------	---------------------------	-----------------------------

It's always a pleasure working with young ranch families who are so dedicated and committed to the beef industry. The folks at Pedersen Livestock exhibit all these qualities. Though the sale location has moved to the farm north of Edgerton, the bull quality hasn't changed. The cow herd utilizes a customized mineral program that is balanced throughout the year. This supports proper bull calf development from a young age. The bull feeding program is built to maximize forage utilization and gut health, they are developed on grass with their mums and

then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a foraged based TMR to help them develop to their genetic potential. Organic minerals are used to ensure proper immune function and overall health. This program uses a total nutrition program on their entire operation, ensuring optimal performance of the cattle. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

OPEN HEIFERS

With making the decision to move the sale home to the Ranch for our 2021 sale we once again decided to offer five select females. We tried to pick from different sire groups and give you an idea of what the female counterparts to the bull pen have to offer. These females come right out of the replacement pen and were selected to stay in the herd. We wanted to offer some high end lots this year with the move and think you will be pleased with the offering. Please ask us about their mothers, we would love to tour you ahead of the sale.

Sire

In 2019 over \$80,000 was **INVESTED** in member education, awards, bursaries and youth scholarships.

\$180,000 invested in **ANGUS** research over the last three years leveraged an additional \$360,000 in grant funding.

\$60,000+ has been invested in history and archives, including the 2019 Canadian Angus history book.

The Canadian Angus Foundation functions to preserve and expand the Angus breed for future generations through education, youth development, scientific and market research, and historical preservation and restoration. The Canadian Angus Foundation was incorporated in 1993 and is the charitable arm of the Canadian Angus Association. Donations are tax deductible.

If you are interested in giving back or learning more about this new initiative, please contact Belinda Wagner, Canadian Angus Foundation Executive Director at 306-757-6133 or email bwagner@cdnangus.ca. You can also visit the Canadian Angus Foundation website at www.cdnangus.ca/foundation/.

Thank you to those that made purchases from our program in 2020!
