From the desk at T Bar...

Welcome to Prairie Wind Farms Ltd. 2021 online Simmental Bull Sale March 20 and 21, north of Estevan, Saskatchewan. The horserace closeout begins at 7.00 P.M. on the 21st. As many of you are aware, Prairie Wind Farms Ltd. were among the founders of the Proudly Western Bull Sale and contributors for the past fourteen years. Although they have decided to change the format of marketing their bulls this spring, the quality of their bull pen is the highest ever.

The Mack family have been breeding Simmental for half a century and have built a highly productive and predictable cow herd, the reason why this offering of bulls is so uniform in both frame size and phenotype. The program is based on walking bulls and the three sires that represent the bulls selling are very alike in type... stylish, with plenty of eye appeal, full of muscle and performance. JDF Honky Tonk 40C comes to you with balanced traits and a proven track record. Lawmaker 425E selected at Double Bar D ranks in the top 15% of the breed for yearling weight and the top 30% for weaning weight with balanced carcass traits. The Wheatland Bull 7100E ranks in the top 10% of the breed for birth weight, the top 2% for ribeye and the top 15% for marbling.

This is an exciting select offering for your appraisal... optimal in frame size, sound, thick, deep with lots of testicle and hair and carries the style that brings an extra premium on steer calves each fall. Whether you want red, black or blaze, you can be assured of being able to select a value-added herd bull for your breeding program.

Plan to stop by anytime prior the sale or attend the open house to preview the bulls and get a look at their mothers and sires. Feel free to give Wes a call at anytime to discuss the bulls which will best suit your program.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar team or myself, we will help you in a professional manner.

Welcome...

Wow, what a year it has been. To think it has been a year since COVID-19 took over our lives and the world. So much uncertainty, so many rules and restrictions. No contact or socializing. We found it difficult to organize, plan, and expect people to come to an auction with so much at stake. We have consigned bulls to the Proudly Western since its inception 14 years ago. We had some great sales, worked with some great consignors and met a lot of good cattlemen. Thank you to everyone for your support and we look forward to working with you in a different setting. The bulls will sell on a timed online format with DLMS Farmgate. Let this be your invitation to stop at the farm and evaluate the bulls.

We have planned an "Open House" for March 19, 20 and 21. However your visit is welcome any day. You may then follow the sale online and bid on the bull or bulls of your choice, from the comfort of home. Check the catalogue for instructions on getting registered and the bidding process. This format will allow you two days to make your decision and bid at your leisure. We know everyone is busy and dependent on weather and it is difficult to get away from home. This is an opportunity to get some business done, get your chores done, and know you are safe at home.

We have been breeding Simmental for over 50 years. I remember back in 1970, the Holstein milk cow and a handful of Hereford cows were bred Simmental. Well the rest is history, Simmental had so much to offer. We imported females from France and Switzerland and developed the foundation of our herd. Bulls such as Parisian, Abricot, Prairie Boy, Extra, Signal were utilized and bred to our Hereford cattle. We displayed and showed cattle for many years at Agribition and AgEx with a wall full of banners. However as shows go so did frame size and they were at the extreme. In 1990 we made the choice to lower the frame score and breed more functional cattle. We started breeding solid red and black Simmental. It's hard to believe, but that's 30 years ago.

So I guess you could say we are committed to the cattle business and the breed. The bulls on offer are stout, deep, sound, hairy and are backed by cow families 50 years in the making. All sired by our walking herd bulls, that's how our program works. As always the bulls will be semen tested, quiet, and delivered. In the event you can't view the bulls, videos will be posted on DLMS or visit with T Bar C for an opinion.

Once again THANKS for your past support and hope to visit with you again.

How to Bid in a Timed Auction

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

- Place Next Bid – to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.

- Max Bid Amount – to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller during the sale process.

Example of How the Max Bid Works - If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

Watch List Feature

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

Sale Ending / Closeout

Most FarmGate Timed Auction sales close racehorse style with extended bidding.

What is Racehorse Style Close?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will Extended Bidding works?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

Bidding Close & Follow-up

After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

- Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale manager and/or Sale consignor.
