Speckle Park Sale

APRIL 6, 2021  
VIRDEN, MB

HEARTLAND LIVESTOCK  
1:00 PM

# From the desk at T Bar...

Welcome to the First Annual Prairie Gateway Speckle Park Bull & Female, Tuesday April 6, 2021 at Heartland Livestock, Virden, Manitoba. This group of leading breeders have come together to host the first Speckle Park sale in the Province of Manitoba.

Wilcox Livestock come to town with the progeny of their outstanding proven sire. These bulls are nearly all homo polled and homo black... uniform in frame size and shape, lots of hair, muscle and bred in calving ease. Their heifers are from the keeper pen, the embryos offer unique opportunities and the semen from proven breed leaders for your spring breeding intentions.

Calico Creek offer a chance to own a 2020 Champion of the World qualifier in "Epic." The bulls are optimal in birth weight and genetically diverse. Their heifer consignment is strong from end to end and what a way to start a breeding program or add to an existing program. The embryo package is unique as the successful bidder will have one of the first progeny of Greenwood Headliner, the Stockade Champion.

Hales Creek Farm bring their top two yearling bulls out of proven sires. These two thick, moderate prospects will add value to any program.

Graham Creek Ranch is a multi-generational family operation. After using Speckle Park on their commercial Angus cows, the results prompted them to raise purebreds. Their group of yearlings are uniform, meaty, attractive with very acceptable birth weights. After you look at the powerful F-1 heifers selling it will give you an idea of what to expect from the bulls.

Second Chance Speckle Park are offering their feature heifers... feminine and fancy, these females are ideal for juniors of any age.

Prairie Bell Speckle Park consign a fancy, homo polled, homo black double bred daughter by the proven Legacy Devito 44X.

Prairie Gateway will be an opportunity day for Speckle Park breeders and the livestock industry. Take advantage of the calving easy, vigor at birth, carcass values and a rapid growing breed worldwide. Stop by any of the farms prior the sale and preview the individuals selling. The cattle will be at Heartland the day prior for viewing. Feel free to call any of these progressive breeders to discuss their consignment and which individuals would suit your breeding needs. Plan to be with us in person or online for Manitoba's first Speckle Park Sale!

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

## Terms & Conditions

**TERMS:** The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

**CERTIFICATE OF REGISTRATIONS:** Each purebred animal will carry papers issued by the Canadian Speckle Park Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

**PEDIGREE ESTIMATES:** Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

**HEALTH:** All animals in the sale have met all necessary health requirements.

**GUARANTEE:** All sellers and buyers of Speckle Park cattle in this sale are expected to be knowledgeable of and to abide by the Guidelines for Seller and Buyer Expectations and the By-laws of the Canadian Speckle Park Association. These documents are available from the Association's office.

**PREGNANCY INFORMATION:** All serviceable age females have been pregnancy examined by an accredited veterinarian, giving an estimated length of gestation. This estimated gestation period shall be used only as a guideline to calving and is not a guarantee of actual service.

**LIABILITIES:** All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

**DELIVERY:** Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold. Buyers are responsible for all costs involved with shipping of semen and embryos.

**PHONE, MAIL, WIRE BIDS:** Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

**INSURANCE:** We strongly recommend that insurance is purchased for full value.

**ERRORS:** All announcements at sale time, written or oral, supersede any written material in the catalogue.

**IN-HERD SEMEN:** Consigners reserves the right to draw any semen on any of their sale offerings for in-herd use only. This will be at our expense and drawn in the off season.

# Wilcox Livestock

Welcome to the 1st Annual Prairie Gateway Speckle Park Bull and Female Sale. We are very excited to be working with this great group of consignors as well as the T Bar C crew for this first-time, standalone Speckle Park purebred sale in Manitoba!

We would like to thank the past bidders and buyers of our Speckle Park bulls and females. We would like to thank everyone who has gotten us to this point. We started in the Speckle Park breed in 2016 with three purebred females. This year we will be calving out 42 purebred Speckle Park cows.

For the first annual sale we have dug deep and decided to offer our white herd bull, Belmoral's Bommer 6F who we co-own with Belmoral Farms. We have a great group of performance and calving ease bulls. We have a great group of yearling bulls off Calico Creek Butane 8B who is an impressive herd bull at Belmoral Farms. We have three bulls and three heifers in the sale that we own with Landon at Calico Creek Speckle Parks. We made the tough decision to consign two heifers that were in the keeper pen.

With the uncertainty everyone's facing we welcome visitors to the farm to see the bulls beforehand in a socially safe manner. We will have videos of our bulls on [www.cattlevids.ca](http://www.cattlevids.ca). If you cannot make it to the sale, you can contact us or any of the highly qualified sale management team members of T Bar C for more information. There will also be online bidding and viewing at [www.dlms.ca](http://www.dlms.ca). We look forward to seeing and visiting with you all at the sale!

Thank you,

**The Wilcox Family**

Calico Creek Butane 8B  
Sire of Lots 1-4 & 29

## LOT 1

P.A.R. PAPA RAZZI 6P  
ASPEN ACRES PRINCESS GIRL 01P

BW: 84 lbs. Mar. 4 WT: 2460 lbs.

Here's a unique opportunity to acquire a proven herd sire. Bommer is a long spined bull with a thick top. His calves contain his length and overall attractiveness. We will have over half of our calves out of Bommer 6F. His sire, Butane has had a lot of attention across the ocean. We now own his dam which makes it easier to let him go. She is a good producing female that has a good udder. For the first sale we wanted to go big and offer something exciting.

**Co-owned with Belmoral Farms, Don Bell – 306-745-7505.**

# Calico Creek Speckle Parks

Welcome to the First Annual Prairie Gateway Speckle Park Sale. With Speckle Park cattle popularity continuing to be on an up rise, the demand for both purebred and commercial Speckle females is hot. A great group of consignors have brought together a tremendous offering with something for everyone. Don't hesitate to contact me for any information or questions you may have or for a Calico Creek herd tour.

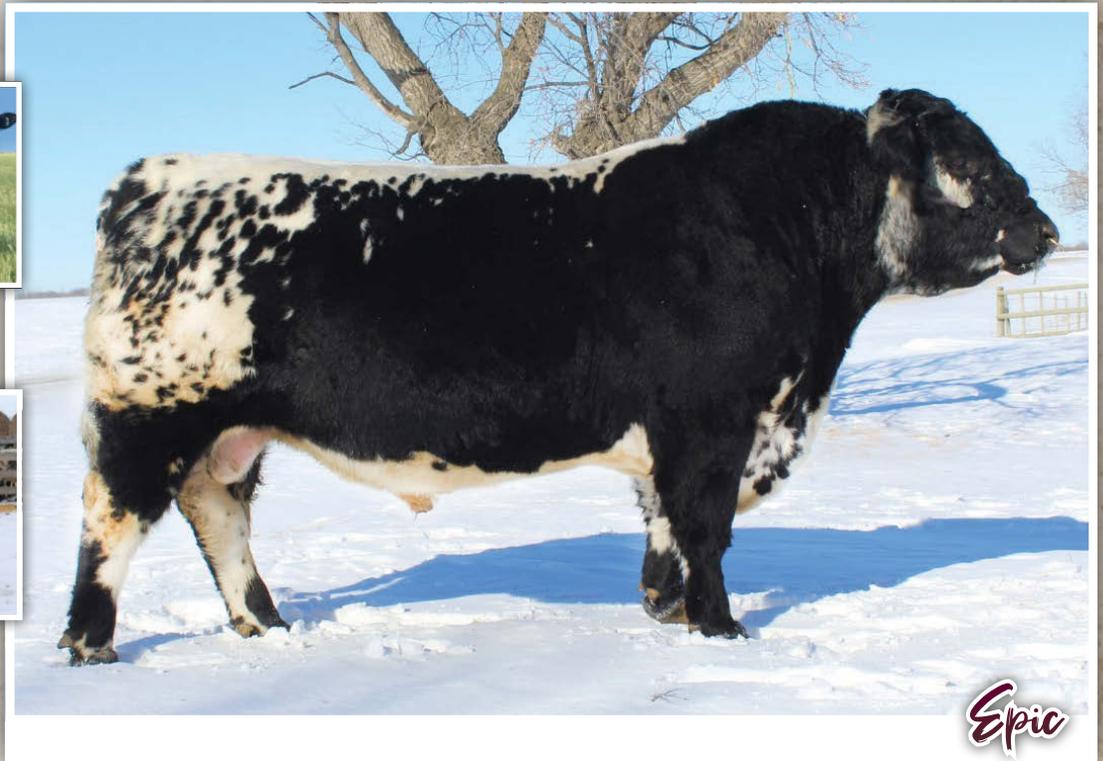

Thank you,

With this being the First Annual Prairie Gateway Sale I knew I had to bring my best, so here he is, Calico Creek Epic 14E. Epic was the result of an incredible flush and was a standout since day one. He is a performance bull that is hard to fault, and his calves are as impressive as you might expect. His sire is the great Codiak Putnam bull and his dam, Petula of P.A.R, is the cow that built my herd and is still going strong at 17 years old. With a large percentage of my females being direct descendants of Petula, there is no question that Epic will go on to sire great females that are built to last. Epic is show broke and as quiet as they come. Here's your chance to own a 2020 Champion of the World Qualifier.

This bull calf is the result of a commercial Simmental cross Speckle bred heifer sold to a neighbour. It was clear early on that he had some extra growth to him and he didn't disappoint after weaning either. He catches everyone's eye first in the pen.  
Consigned by  
Brett Callin

# Hales Creek Farm

Welcome to Prairie Gateway Speckle Park Sale. We are very pleased to be able to participate in this sale. Thank you to the group organizing this sale and to T Bar C.

We introduced Speckle Park to our commercial Simmental operation using Speckle Park AI on black cows and heifers. We were impressed with offspring performance, disposition and meat quality.

We first purchased embryos and then a purebred female at the 2018 Ladies of the Fall Sale, expanding to 12 plus females calving this year. We have consigned two bulls, offspring of highly respected sires; Codiak Monument GNK 107D and Riverhill 26T Yager 99Y.

If you have any questions or would like to view bull before the sale call to arrange a time. We look forward to meeting you at the sale.

Thank you,

**Cameron Dodds & Bea Janssens**

BW: 89 lbs. Feb. 4 WT: 1050 lbs.

Halmark is smooth made with thickness, depth and length, as well as a very quiet disposition. He is an embryo transfer calf. Embryos were purchased from the Codiak Acres program. His sire is an up and coming bull, Codiak Monument and dam is a reputable flush cow, Morning Star Zelda 4Z.

Hager is a moderate framed bull with a quiet disposition coming for a back scratch in pasture as a calf. His dam has a great udder; good milking and easy keeper. His sire is a great female producer and a very reputable bull in the Speckle Park breed.

# Graham Creek Ranch

We are a family from Pierson, Manitoba that have been raising cattle in the southwest region for many generations. What started our journey with the Speckle Park breed was the purchase of some Black Angus cows from my late father-in-law that he had bred to a Speckle Park bull. The calves were vigorous, extra thick topped and the weaning weights were impressive. As we retained heifers each year, we weren't long appreciating the efficiency, fertility, and disposition of these cattle. We liked them enough to venture into the pedigrees and start carefully selecting our own purebred herd through both frozen genetics and females. We feel that Speckle Park are going to be recognized as one of the best crossing opportunities with many of the great breeds out there. We cross with Black Angus and the females carry maternal characteristics that are immediately noticeable when they have their first calf. These cattle maintain condition in the winter, and they can equally handle the heat of summer. The milking ability is exceptional, and the cows display balanced udders that are not compromised with age. The calves grow well on pasture, display great feed conversion rates in the feedlot and the breed is known for producing some of the highest IMF at the buzzer. We are honored to be part of this Prairie Gateway Speckle Park Sale. Our partners are accomplished breeders. The sale has been put together with confidence in the cattle. You will find a diverse group of bulls and females that will add quality and consistency to both purebred and commercial herds. This group of cattle speak for themselves and we feel the opportunity is right here to improve anybody's program. Give us a call or stop by anytime.

**Mike, Lynda, Maisey, Mac and Myelle**

## BULL DEVELOPMENT FROM GRAHAM CREEK RANCH

*Anybody purchasing bulls with Graham Creek can send them home with us and we will continue developing them for you. Contact us ahead of time for details if this is something that suits your needs.*

Calving ease with performance built into a bull that displays a ton of style. He has eye appeal that most people pick out right away. Smooth fronted with plenty of depth into the hind quarter. 107H is an ET calf that is the product of embryos we purchased from Codiak Acres. We felt it was a huge opportunity to tap into some older genetics combined with some of the best of the now. Codiak Sylvia 25S on the bottom end with Codiak Monument 107D up top. You don't have to dip too far into this bull's pedigree to find the names that have produced some of the best in the breed. He's a direct grandson of Codiak Oscar 8S, Codiak Unique 8R, Codiak Prairie Fire 14J, and Wildwood Kate 66K.

This 23H bull has been impressive from the start. He shows extra thickness and top and will add performance and fertility in his calves. His dam has done a great job for her first calf. She bred back to the start of the first cycle this year which was no surprise as she comes from the exceptionally fertile cow, Fancy Free 93B out at River Hill. Great legs and feet sired by Codiak Gulliver 23D. Gulliver gave us moderate birth weight calves that showed increased performance. He had a nice disposition and added extra depth to his calves. We lost 23D to an accident so this will be his last progeny offered.

One of two half blood bulls that are sired by Codiak Gulliver 23D. These two bulls are not a filler for the sale. Several years ago we walked into the SF Angus (formerly Fairgrieve Ranching) herd with the opportunity to pick out their top 20 unregistered, Black Angus replacements from the entire calf crop. Our mission was to breed these females to purebred Speckle Park bulls for the purpose of creating top commercial breeding stock. Both of these bulls in the sale are a product of that vision and they are absolute stunners. Deep, wide topped bulls with balance and good bone structure. They will sire them sought after, easy keeping heifers that raise the big weaning weight calves. Extremely quiet disposition, trouble free bulls that will come out of the bush in the spring ready to go to work. The SF 250 cow (dam of 250H) is a milking machine that walks in the front of the herd on any cattle drive. She's a female that stands out right away in any group.

Hazel is a late born heifer that has grown in leaps and bounds and is catching up to her pen mates quickly. Dingo was a 2020 Champion of the World Qualifier and this is the final chance at one of his daughters for the year.

 Holy Hella look at this heifer! If you're looking for a heifer that is smooth, clean, correct and fancy then look no further. Her lineage should prove this heifer will produce for you! Her mother, grandmother, great grandmother and great-great grandmother are all producing eye catching calves on our farm to this day.

Graham Creek Ranch

LOT 42

Open Replacement Commercial *Heifers*

3 Pens of 3

It is always difficult to part with top heifers. These girls are no exception and were selected from our best. We feel it is important to get some of these females out there to promote what we have experienced and what we consider to be one of the best crosses in the industry. They are half blood heifers off of exceptionally good Black Angus cows. Breed them back to Speckle Park or take them in any direction you want. They will be fully vaccinated and vet checked for sale day.

# Semen

## Wilcox Livestock

*Fred*

### Five (5) Packages Of Six (6) Straws Of Semen

Fred has exceeded our expectations so far. He seems to be the complete package. He travels extremely well on a big hoof. He has plenty of width across the back end with good length and depth of body. We used him on heifers and cows. His calves are impressive and are growing like weeds. Fred was the lead-off and high selling bull at the Integrity Sale. His dam is a no miss cow that has raised a great one every year for Wolf Lake Speckle Park.

**Canadian qualified.**

## Pinnacle Park / SND Signature Speckles

*Led Zeppelin*

### Package Of Six (6) Straws Of Semen

"Zip" as he is affectionately known is a direct son of CAJA Zeppelin, and out of the Codiak Putnam daughter, White Acres Katie. He is royally bred and has a pedigree that consistently breeds quality offspring. His dam sold at the Mt Eccles Dispersal Sale (Australia, November 2019) for \$22,000 and his full sister sold for \$18,000 at the same sale. He is smooth made, sound footed, and great structured and with an outstanding temperament to boot. He is suitable to use on heifers.

**Landed in Canada and stored at Alta Genetics, Canada.**

# Embryos

## Package of Four (4) Embryos

Strike Gold! With the fantastic, yet rare to find, Codiak End to End providing an exciting opportunity to raise your own proven colorful calves from this sole crossing with a truly dazzling Yager daughter, Belmoral's Gold Dust!
