*Offering Red & Black Angus Yearlings*

# WELCOME TO RIGHT CROSS RANCH'S 10th Annual Bull Sale

**RIGHT CROSS RANCH**  
PO Box 100  
Kisbey, SK S0C 1L0  
rightcrossranch@hotmail.com

## SIGHT UNSEEN PURCHASES:

If you are interested in our bulls but can not attend the sale we would be happy to take your order. We will have sale staff, auctioneers and special representatives on hand to accommodate you. We ask that all bids be received in sufficient time prior to the sale.

I'm going to do my best to keep this introduction "cattle-based," but in all honesty, Right Cross Ranch is so much more than that! Ten years ago, a University graduate and a cowboy had a dream. We decided that if we were going to do life "together" it would include cattle, horses, land, and kids. That dream led us to Southeast Saskatchewan. June 9th we registered our ranch name and the 20th was our official move-in day. Those first few years were tough, to say the least. We went from a classroom, a 9-5 job, and living with our parents, to operating a 300 head cowherd, a feedlot, and maintaining a home by ourselves. Our families supported us as best they could, but essentially we had to "figure it out" on our own. We've had ups and we've had downs, but through it all, we wouldn't be here without our "tribe." The support from the good Lord, each other, our family, friends, and the agriculture community kept us striving forward day after day! We are thankful for where we are, proud of what we've achieved, and grateful for the people we've met along the way.

In 2020, we were lucky enough to access some land close to our home quarter. For years we've wanted to run our cow herd "ranch style" but didn't quite have the land base to get it done. Last year we were able to grow our own feed to feed our livestock and run the cows on swath grazing for the majority of the winter. It was sure nice not to start a tractor every day and have our cowherd working for us!

In this year's bull sale we have a nice variety of heifer bulls as well as some power bulls to help your calf crop push down the scale come fall. Each lot has been assessed and any bull that we don't feel is sound got pulled out and put in the butcher pen. We've raised these bulls with the goal of providing our customers with a product that will easily adjust to their own operations and last for years to come. With just the two of us and our kids here most days, it is essential that our cows work for us. Any cow that presents a preventable problem must "hit the road!" Each year we cull problem cows and the herd has gotten better and better. We invite you to tour our females, see what we are striving for and judge if it aligns with your goals. We appreciate your interest in our program and hope you'll join us live at the ranch or online using TEAM! Check out [www.teamauctionsales.com](http://www.teamauctionsales.com) to familiarize yourself with the updated system before sale day. With COVID restrictions in place, we will do our best to host you on April 19th, 2021.

Thanks for being a part of our first ten years! We're excited to see what the next ten has in store for our family and our operation!

Sincerely,

*Jim, Sarah, Morgan, Quinn & Cole Anderson*

Right Cross Ranch

## RIGHT CROSS RANCH NUTRITION :

Right Cross Ranch has a strong focus on nutrition and management for their growing bulls and entire cow herd. Each ration is balanced based on feed analysis and goals for each set of cattle. The bull rations are formulated with 20% coarse chopped hay to encourage cud chewing, a healthy rumen and longevity. Coarsely rolled barley or corn grain provides energy to optimize growth. Cereal silage and a custom formulated bull supplement rounds out the bull rations. Slow and steady growth is the goal for Right Cross bulls.

It would be great if you have the opportunity to stop by the ranch to check out the bulls and the growing rations prior to the sale.

## From the Desk at T Bar...

Welcome to the Right Cross Annual Spring Bull sale, Monday April 19, 2021 at the ranch, Kisbey, Saskatchewan. Here in 2021, Right Cross Ranch celebrates their tenth annual spring sale featuring the early calved red and black Angus yearlings. As Jim and Sarah share much of the workload at Right Cross, maybe the girls can oversee baking of the tenth anniversary cake!

The Right Cross program grows in popularity each year, mainly because of their growing customer base. Their program is run in the same manner as that of their customers... ranch style. The cow herd base is large... run on hard grass, along with the Angus influence heifers that are readied for their December event. With the size and scope of the program, soundness and fertility are key factors in selection of herd bulls for their program... each herd bull has an individual role in making the product complete.

You will love the lineup of bulls slated for this spring sale. Performance has always been forefront, but Jim and Sarah require bulls with presence and attractiveness, along with ruggedness. Good feet, lots of hair and testicle, these bulls have been bred and designed to add value into steer calves and for keeping all daughters... a win-win scenario.

Plan to visit the ranch any time prior the sale and get a guided preview of the bulls and a look at their management and mothers. Feel free to give Jim or Sarah a call to discuss the bulls and those that will fulfill your breeding requirements for a rapidly approaching breeding season. Plan to be with us in person or online and get the "right cross" for your program.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

The proof is in the pudding with these embryo bulls! Lots 1 – 4 are full brothers to our 2017 high selling yearling, Red RCR Decepticon 19D. He sold to Rodgers Red Angus for \$17,500. 19D has gone on to raise the two top selling bulls at Rodgers' last year and the most consistent sons in this year's sale, according to Shawn Rodgers. Their dam, RCR158X is the highest earning cow at Right Cross Ranch. Both her and her mother are designated Elite. Every female she has raised us has gone on to be a top producer with near perfect udder, capacity, presence, good feet, and keep their shape year-round. These females are the type of cow you'll want to build a herd around! Lots 1 – 4 are sired by Red RCSB Son of Thor 315A who topped the Lazy RC Bull Sale in 2015 and was our "Once in a Lifetime" bull. He left his mark with cattle that are easy fleshing, have good feet and udders, and phenotypically rise to the top. These 4 embryo sons are outcross genetics at its finest and are your last chance to own a Thor son!

Sandy Bar Ambush 10Y needs no special introductions. He's Beau Switzer's all-time favorite herd sire. 10Y raises bulls that top the bull pen and females that are herd leaders. Last fall we gathered his herd and walked them 5 miles down the road to a set of corrals. The 10 year old stud got out and lead the herd the whole way, talk about LONGEVITY! This is your last chance to get your hands on an Ambush 10Y son.

Sometimes the stars align and you end up finding a herd sire that is just "the one." For us, that guy was Sandy Bar Ambush 10Y. Lot 5 starts off this group strong. He's out of a hardworking, good footed, smaller framed Final Answer/Grizzly granddaughter. Check out the udder on that babe! Maternal brothers to lot 5 have sold to Katie Culbertson and Mark and Margie Axten.

Here's a guy that will work in the heifer pen or the cow pen. The feet on the Ambush sons are consistently straight with lots of heel. Lot 7's dam has done a real good job for us with two daughters in the herd and two bulls sold to Charles Peckover and Eugene Desroaches.

RCR 154H has been a looker from day one and he'll be sure to gets lots of looks on sale day! His dam is an honest cow that produces a calf we register every year! The shape, style, and feet that Ambush puts on his offspring are just a few of the reason's that he has 370 calves registered with the Canadian Angus Association. If you're looking to add these characteristics to your cowherd, don't miss lot 11! Two maternal brothers have sold to Cody Drummond and one to Gordon Allan.

Here's the last son of the elite RCR Freyja 158X. She always put's her heart and soul into her calves and 173H was no different. He is big bodied, long spined, with a deep flank and style to boot! Another bull that is sure to up the quality of your females in no time! Lot 15 has three maternal sisters working in our herd, is maternal brother to our 2017 high seller Red RCR Decepticon 19D and is maternal brother to the flush brothers lots 1 - 4. With just an 83 pound birth weight, this guy should work on bigger exotic heifers or cows.

Check out the hair coat and shape of this fella! His dam is a correct, dark red, wedge shaped female with a nicely made udder. We are sure impressed with the females off of our Duke bull. We calved out our bred heifers off him and they easily stack near the top! 190H has one maternal sister working in our herd.

DUKE 190H

The last Duke son, but definitely not least, we give you RCR 193H. You can't go wrong with a bull like this; he's dark red, fleshy, and balanced. 193H's maternal grandam is the original "Freyja" cow that started all the excitement for us! Lady 56B is one of our top cows. She raised our high selling bull in 2019 that sold to Minburn Angus and Eye Hill Angus. Another son sold to the Lacombe Research Center, and one to John Scott. With his length of body and smooth shoulders, 193H should calve to bigger exotic heifers or cows with no problems.

Here's a boy we've been excited about since day one! Chisum 10H has one of the lightest birthweights and weaned off as the heaviest calf with a WW ratio of 114! His dam is a first calf heifer that we purchased from McRae Land & Livestock. If you're looking for a sleep easy, calving ease bull that's still going to add shape and grow to his babies, check out Lot 18!

EPDs	BW	WW	YW	Milk	MCE
	-2.3	36	66	28	8.0

Calving ease with a top notch female behind him. 92H is out of an All Star/Winnie female that's one of the best bodied cows on the place. He's got length, a smooth neck extension and will let you sleep through the nights at calving time! Born at 67 pounds with a WW ratio of 106. 92H's stats are in the top 1% for calving ease!

We went on a search for a bull that had a bit more, bone and was a higher frame score. We found Malbec 67C and he checked all these boxes.

When we decided to use Malbec 67F we were looking for something with a little extra bone and grow for our second calvers to raise some bigger power bulls. Malbec is deep cherry red, has tons of gut capacity, and his carcass EPDs are top notch. He is in the top 1% for YW and carcass weight. 77H is deep cherry red with a similar build to his sire.

We asked for pounds and grow, we got it! 99H is in the top 3% of the breed for WW, YW, and Carcass Weight. If your looking for a sire that's going to raise steers that will push down the scale in the fall check out lot 35. Off of a Freyja female with a great udder.

Take a second look at 123H. His grandam is a black Jestress cow that worked well for us in her day. The 20E female is a beautiful Kargo 38A daughter. Lot 36 would work wonders on a set of exotic cows. Maternal brother sold to Darren Arndt.

You're starting to see a trend with our cattle lines with what is working and what is not working. One thing is for sure the Lady/Freyja cow family is a "No Miss" line, RCR Freyja 90E is no exception. If you're looking for a lighter birth weight bull that doesn't give up size on the other end, check out lot 37. 80 pounds at birth

204H is the youngest bull in our offering but man is does he stand his own! Both the dam and sire to lot 40 are honest, hardworking cattle that we think will breed on in 204H. With just a 74 pound birth weight he is bound to produce calves that will calve easy, jump up, and get to it! Maternal sister is pictured beside lot 28.

Sire

## Terms & Conditions

### Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Each animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### Certificate of Registration:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### Health:

All animals in the sale have met all necessary health requirements.

### Guarantee:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and *specific* genetic unsoundness.

### Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co.(2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any obligations to collect or enforce collection of any monies between parties and any legal action that may, in extreme cases, be taken must be between buyer and seller. T Bar C Cattle Co.(2013) Ltd. assumes no responsibility of any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### Phone, Mail & Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### Insurance:

We strongly recommend that insurance is purchased for full value.

### Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.

### Tracking Policy:

Please insure your bull if you are looking to have him delivered, no exceptions! Free delivery will be available for any bulls selling for more than \$3,500. Bulls selling for less will be delivered at cost. If more than one lot is purchased we will still deliver for free. We will begin deliveries after the sale. We will do our best to work with you to get you your bull. We would also appreciate if you would work with us! If we are near your farm, your bull will be delivered at our convenience. Thanks for your cooperation!
