PRIVATE TREATY

ROY MAC ANGUS

BULL SALE PRIVATE TREATY

Welcome

We welcome you to the 2021 version of the Roy Mac Angus Private Treaty Bull Sale. We received positive feedback on the new format last year and look forward to moving forward with it. The bulls will sell on a first come first serve basis.

The bull pen has really taken shape, it was very rewarding touring the bull pastures this summer and viewing the bulls alongside their mothers and continues to be rewarding watching them as they mature. We pride ourselves on our cowherd and hope that is evident with this offering. At the end of the day it's about putting money in your pocket and we feel these bulls can accomplish that, whether it be raising stout steers or top end replacement females.

This group was weaned mid September with the exception of a couple of bulls that were shown at Stockade Roundup. What you see is what you get, bulls were not on creep feed and WW's were on mommas milk and grass. Once weaned the bulls are put on a 13% protein pellet and tub ground mix of oat greenfeed, barley straw and pea straw. They run in a large pen which helps build hard muscle and athleticism, they are ready to work come spring.

We would like to thank everyone who has shown interest in our program and all past and current customers. We really do appreciate your business. We understand COVID has made things more challenging and we still encourage you to come have a look at the offering and dams. Give us a call to discuss your needs if you would like to take advantage of our sight unseen program. This year we will also have videos available to make things easier.

Thank You
THE MACDONALDS

ROY MAC ANGUS

Musgrave Stunner is an AI bull we utilized in our synchronization program with great success. When we are looking at calving ease bulls we try to find something with a little extra bone and performance than your typical calving ease bull. We try to accomplish all this without sacrificing the calving ease. Stunner is the perfect example of this, his calves come easy but come weaning time they are at the top of their groups.

Renown 9E is a home grown SAV Renown son. We have been impressed by the renown progeny over the years and knew we needed to retain a son. This sire group has risen to the top and exhibit added length in a maternally strong package.

Angus Valley progeny are going to have a lasting impact at Roy Mac as the females are quickly working their way to the front pasture. 802B progeny have been very well received by customers and are sought out when walking through the bull pen. This is the last calf crop off Angus Valley.

REFERENCE SIRES

We admired Buck for his ideal foot structure and calving ease when we first saw him. He's a bull that moves out very well and with a high libido which translates to him covering a large number of cows at breeding time. We feel his breeding capabilities are going to be passed down to his sons. His daughters in the replacement pen are outstanding.

We chose to use Renovation in our AI program because we felt he is the best son of Renown to date and he brings maternal strength. The Renovation females are big bodied with a ton of capacity yet remaining so feminine, they are absolutely the right kind. We have a large number of Renovation calves on the ground this year and they are very exciting.
