Simmental & Angus Bull & Female Sale

Monday, March 15, 2021 - 1:00 PM

Johnstone Auction Mart - Moose Jaw, SK

FEATURING:  
Curtis Simmentals • Flying TL Simmentals  
Triangle 33 Simmentals • Edwards Angus

# From the desk at T BAR...

Welcome to the 2021 edition of the South Sask Simmental & Angus Bull and Female Sale, on Monday, March 15th at Johnstone Auction Mart, Moose Jaw, Saskatchewan. This feature event is hosted by Curtis Simmentals, Flying TL Simmentals, Triangle 33 Simmentals and Laird Edwards, Edwards Angus adding the Black Angus component. Over the past decade, this sale has rapidly grown into a seedstock source for herd sires.

As you go through the Simmental offering you will be impressed by the quality and uniformity of the lineup. Thickness, muscle, shape, depth, ruggedness and lots of hair and testicle, whether you are looking for red, black or blaze, with many homo polled. But this quality is no surprise when you look at the lineup of sires and their trait ranking within the breed. Kill Switch, a complete sire soon to be a breed legend... Betts, ranks in the top 4% for WW and YW... Max, renowned for his daughters in production... Equation, an outcross sire with 2% MCE and 5% CE... Lawful, high in milk and performance and his first calves... Captain Scream, top 1% of the breed for WW and YW and top 4% TM... Denali, top 1% MCE and top 2% for WW and YW and Advance, the heifer bull with 1% for BW, CE, and MCE. In this offering all the key traits for profitability and breed advancement are covered, so you can select your bulls knowing that you are selecting from the breed's leading genetics.

The Edwards Angus bulls are stout and exciting, sired by several of the leading sires in the Angus breed. Whether you want a Sky High or a Firebrand, these bulls combine calving ease and high maternal values, without giving up performance and you will want to keep all their daughters.

What is a good bull worth? Here is a simple explanation... when Kill Switch was purchased it seemed like a lot of money... a lot of money for just one bull. Well, after producing many sons who have been universally accepted by both the purebred and commercial breeders for their performance and style, let us look at the 2021 offering in which several of the sale features are out of two and three-year-old Kill Switch daughters who have a lifetime of production ahead of them. In selecting bulls, most folks look at the potential of big steer calves at weaning but overlook the fact that fifty percent of the progeny are female, and it is the females that pay for the bulls... just ask Barry Curtis.

Stop by any of the operations prior the sale and preview the bulls and see their mothers. Feel free to give the folks a call and discuss which bulls would be suitable for your breeding requirements. This a great group of bulls that require your scrutiny and selection... plan to be with us in person or online Monday March 15th.

If we may be of assistance, prior to or sale day, feel free to contact any of the T Bar Team or myself, we will help you in a professional manner.

 BARRY: 306-638-7748 LONDON: 306-638-7793

On behalf of Curtis Simmentals, we would like to welcome everyone to the 2021 South Sask Simmental and Angus Bull Sale. We would like to start off by thanking everyone who attended the sale last year; including our repeat customers, bidders and buyers as well as new customers; your continuous support is greatly appreciated. A big thank you goes out to the crew at T Bar C, Bohrsen Marketing, DLMS, including all of our sponsors and consignors in the sale for making this day possible. Also, a huge thank you to the Curtis Simmental crew for the consistent dedication each day leading up to the sale and sale day. Last but not least, we would like to extend a personal thank you to our AI tech Ron Ermel. We appreciate your expertise in our program and for assisting us in expanding our genetics. This has created an opportunity for immense success and excellent conception rate.

This year we are offering a strong set of 38 bulls to fulfill all your needs from solid reds, red baldies, black and our biggest group of black baldies. The offering bulls are full of mass, meat, soundness, testicles, and backed by our hard working functional females right from the top of our herd. These bulls were raised on our best grass mixture, close to home through the summer months. In addition we then put them on a creep ration in late summer early fall, to get them transitioned and eating feed before weaning at the end of October. Once the bulls have been weaned they are consuming our best quality of hay, as well as barley silage bales, a brown oat ration with blue print mineral pack included for the winter months. The bulls on offer are sired by new genetics to our program, resulting in top quality bulls and replacement females. Sons sell from Betts, Kill Switch, To The Max, Equation, as well as Lawful. We are very pleased with the offspring from these sires and are offering some new genetics to our customers. Feel free to reach out to us at anytime of the day as we are always around and willing to give you a tour of the cattle or answer any questions you may have on our offering. We are looking forward to seeing you all on sale day.

**HOMO POLLED.** We are extremely pleased with our SVS Betts calves and the stir his first calf crop has done in the breed. They are flat out good on both sides of the fence from the bull pen to the replacement heifer pen. 19H himself is a dark red, deep bodied, hairy Betts son. This bull will turn your head when you spot him in the pen from his overall eye appeal to his sound structure as well as his easy keeping, and disposition. I don't think we have raised a bull with this much capacity and look to him while carrying it all in a good frame size, along with a good bone structure, length of body, huge testicles, awesome dark hooves, and that dark red colour we all love. This combination of Betts x To The Max has really seemed to click as we have several Max daughters with Betts calves at their sides right now and they all look very impressive. 19H's dam is a solid black young cow that did a tremendous job on this guy. 20C herself is a very stylish, hard-working female that is very sound and structurally correct on awesome feet and legs. She is clean through her lines and has an awesome udder under her and moves like a cat. We bred her back to Betts again this year and she gave us another red bull with the look that he will be following in his big brother's footsteps.

**We will be retaining 100 doses of semen for in herd use only.**

**HOMO POLLED.** These Equation sons have a ton of hair and are as long as a freight train. 44H is a bigger framed, dark red bull with a huge hip and lots of top in him. They all have great testicle development and pretty much all of them come from good functioning Kill Switch daughters. 89F is a clean made, long bodied, solid red, perfect uddered cow herself.

84 lbs.	944 lbs.	1585 lbs.	-	-	-	-	-	-	-

**HETERO POLLED.** By far the longest bodied bull in the pen, and it goes to show that length adds the pounds. This guy is coming from a first calf heifer at a moderate birth weight of 84 lbs. got up and grew. We were misfortunate that we couldn't register this guy's dam as we didn't pull hair on her sire to get her registered, but don't let that stop you. His dam is a black blaze faced, broody cow with a picture-perfect udder. When you see the length of spine this young herd sire has, with his big quarter and depth of body all on perfect feet and legs.

**HOMO POLLED.** A real long bodied, solid black bull out of one of our new walking black herd sires. We are very pleased with the job Lawful is doing and the calves he is giving us. They are hairy, long bodied, very sound, wide based, huge nuted, deep sided, and eye appealing. 105H is all that and more. His dam, 18C is a real moderate, long spined, good uddered cow that doesn't seem to miss year after year. She has put featured black bulls through this ring and yet she does it again. We have finally gotten a red calf out of her as she has an awesome Betts heifer at side. Her first daughter is milking now out of Captain Morgan and she set up a beautiful udder just like 18C herself.

We would like to take this opportunity to thank all the bidders and buyers that attended last year's sale, which was one of the last bull sales held before the COVID-19 shut down. 2020 was an unprecedented year but when you are busy on the ranch it had less impact on us than for many others. In February we increased our breeding females as we purchased some cows/heifers from the Diamond M Ranch dispersal. Our calving dates matched that of the Mantei's breeding program so we could not pass on an opportunity to acquire some of their great genetics. A big thank you again to Erin Yewsiuk for photographing and videoing our bulls. Since we calve on pasture, we are very cognizant about the feet and udders of our cows and are very diligent with culling those that don't meet our standards. We are committed to raising two year bulls with no yearling bulls ever sold off the farm. We feel we have a more consistent offering of two year old bulls, with a good mix of calving ease and performance. These extra age bulls offer the advantage of being developed at a slower rate and the ability to service more cows without losing condition. Our bulls are on an oat based diet with free choice hay. They are on a full herd health program and are also vaccinated for foot rot. We welcome the opportunity to show you our bulls.

75 lbs.	778 lbs.	1434 lbs.	13.1	-1.2	67.0	91.5	24.4	6.6	57.9

**HOMO POLLED.** Young Mr Gowrie is a dark red bull that combines a low birth weight of 75 pounds with thickness and growth. 108G's dam had a birth weight of 77 pounds so combined with the calving ease of his sire, Cobra Advance, you can be guaranteed calving ease is bred into this bull. His calving EPD is in the top percentage for the breed. His dam did an excellent job on her first calf. Mr Gowrie is a bull that can be used on heifers and will pass along muscling and thickness to his calves. A definite heifer bull prospect here with his small head and moderate frame and as deep and soggy as you can make them. You really need to see this bull in person and get behind him to appreciate the width and depth this bull possesses. An easy moving, great footed bull so purebred breeders take a look here as he carries herd sire potential. Young Mr Gowrie is a bull we would be retaining if we didn't still have Cobra Advance walking our pastures.

# Triangle 33 Simmentals

ITTER & YOUNG FAMILIES

BOX 251, EARL GREY, SK S0G 1J0

MATT: 306-550-8301 | MATTHEWRITTER5.9@ICLOUD.COM

AUSTIN: 306-731-7895 | AUSTIN.RITTER@HOTMAIL.COM

All of us at Triangle 33 welcome you to the 2021 South Sask Simmental and Angus Sale. We want to thank all the buyers, bidders, and everyone who showed an interest in the program over the past years. Your support is greatly appreciated. We would like to give a big thank you to Erin Yewsiuk for her photography and video services. This year there are videos of all the bulls; these will be available on Buyagro and DLMS. We are impressed with the third calf crop our herd produced this past year for you to evaluate. There are four blacks and ten red bulls available this year. We have used a variety of sires, both herd building AI bulls and our walking herd sires. If you are looking for a cow or a heifer bull, we have something that will work for you. All our bulls are on a Pfizer full herd health program for spring and fall vaccinations. We feed alfalfa/brome hay along with a super oat/bull ration pellet to promote longevity of these animals. We would enjoy showing you the bulls anytime in our yard, someone is always around. If you cannot make it to the yard, feel free to give Matt, Austin, or any of the sale staff a call with your questions. We look forward to seeing you sale day. **The bulls will be available for viewing all day Sunday at Johnstone's Auction Mart prior to the sale.**

**HOMO POLLED, HETERO BLACK.** This is the best black bull we have raised on the farm so far. Right from day one he has been the standout calf. He has an extremely wide top, tremendous length, and paired with a massive midsection- this makes him the complete package. We feel Mr. Hercules is a very versatile bull. We are confident he will be able to service both heifers and mature cows, and will produce great seed stock for any breeder. Mr. Hercules' EPD profile will blow you away. He ranks in the top 1% in WW, top 3% yearling weight, while still remaining in the top 25% for calving ease. Mr. Hercules has a quiet demeanor and is always the first to meet you at the gate. His long stride will have no difficulty covering ground in quick order. His picture is great; however, to truly appreciate Mr. Hercules, you have to see him in person. We strongly recommend you check out his video.

**HOMO POLLED, HOMO BLACK.** Mr High Roller is a definite heifer pen candidate, as his calving ease EPD is an astounding 18.2 along with his low birth weight. If the EPD numbers aren't convincing enough, his small head and smooth front shoulder will help you to sleep through the night. This blaze-face bull is the maternal brother of the high selling black bull from our 2020 sale, who sold to Scott Dolman.

Mr. Hot Commodity is the only son this year from MRL 91Y, but boy we wish we had more. We typically have had females born when using 91Y, with three daughters working in the herd now. BJL 99D has done great work with her first two calves, both being females that we have retained. We are sure impressed with the work she has done with Hot Commodity. He is a real dark red bull who carries a hair coat that is second to none. The overall depth of 5H from shoulder to flank is truly impressive. Hot Commodity has a very clean sheath and solid testicle development, which will make him a superb herd sire. He walks freely and lands very flat on a great set of feet. His overall presence will be sure to catch your eye and will keep you coming back for another look at him on sale day. He truly does check all the boxes.

 LREDWARDS@SASKTEL.NET

Welcome to the 2021 edition of the South Sask Simmental and Angus Bull Sale. I would like to thank you for your interest in our programs and taking the time to go through the catalogue. I am proud of the bulls I have put together for this year's sale. This is the most bulls I have brought to the sale to date and feel they are the most consistent group. I think they have a lot to offer, everything from power and performance bulls to maternal traits to a wide variety of calving ease bulls. They have all been fed a high oat and dry hay ration to promote growth and longevity. Feel free to come and have a look at the bulls any time before the sale. If you have any questions regarding my bulls don't hesitate to give me a call. I look forward to discussing them with you to help make your decision making easier for you. Hope to see you at the sale.

Edwards Colossal 153H is a soft made, easy doing bull that is deep bodied and deep quartered. His dam, MAR Final Kahuna 856 is a absolute breath taking individual that is among the very best to graze our pastures. She is a definite improver of body depth, docility, udder and foot quality. Don't miss an opportunity to own a maternal brother to MAR Innovation 251.

Here is a bull that will be easy to find sale day. He is a nice headed, smooth shouldered, deep chested, big bodied, stout made bull that is one of my favourites. With just a 77 lb. birth weight would make him a prime choice for anyone looking for a heifer bull. His dam was a \$10,000 purchase out of the 2018 Angus Collection Sale that did an impressive job raising her first calf.

## Terms and Conditions

### TERMS...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### BIDDING...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

### ANNOUNCEMENTS...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

### BREEDER'S GUARANTEE...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

### EXCEPTION GUARANTEE...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

### CERTIFICATE OF REGISTRATION...

Each animal will carry papers issued by the Canadian Simmental Association or Canadian Angus Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### PEDIGREE ESTIMATES...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### IN-HERD SEMEN...

The South Sask consignors reserve the right to collect semen on any bull sold through this sale. The semen collection will be at the South Sask consignor's expense and the buyer's convenience. Any semen collected will be for South Sask consignors in herd use only.

### LIABILITIES...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### RIGHTS AND OBLIGATIONS...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

### PHONE, MAIL, WIRE BIDS...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### DELIVERY...

We will assist in arranging transportation wherever possible. Bulls will be delivered by April 30<sup>th</sup> unless prior arrangements have been made. Delivery will be at buyer's risk and seller's convenience. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bull must be insured by buyer.

### INSURANCE...

Will be available sale day. All bulls returning back to consignor's farms must be fully insured. We strongly recommend that insurance is purchased for full value.

### ERRORS...

All announcements at sale time, written or oral, supercede any written material in the catalogue.
