FROM THE "COW-BOYS" CREW

Welcome to the 6th annual Cow-Boys Angus Bull Sale held on March 24, 2021 at Taylor Auctions, Melita, MB.

The bulls on offer this year are without a doubt the deepest set ever. As you look through the blacks, reds and the shorthorns you will notice that the bulls are selected on soundness, overall thickness, testicular development and their shape. Most importantly every bull is backed by a working class momma that surpasses expectations year in and year out. Every bull in this offering excels in their presence and build. I could keep writing a small novel on these powerful "Cow-boys" but I'll stop and let these proud boys do the talking in their pictures and on sale day in person!

As you know we are very happy to have you stop by any of the farms to preview the offering or just to talk cows. Feel free to call any of us and we will be happy to assist you in any way possible.

The Cow-boys Bull Sale

Delivery

Take your bulls home sale day and receive \$100 off of your purchase. We will deliver free of charge until April 1st within a 300km radius. Beyond that distance and time bulls will be delivered to the closest central points. After April 1st delivery becomes the responsibility of the new owner. Bulls staying past April 1st will be charged \$3/day. If you wish for your bulls to stay in our care, we would ask for you to protect your investment by purchasing insurance which will be available sale day. Animal(s) become the responsibility of the purchaser after being sold.

- Create your Bidding Account with DVAuction!
- Go to www.dvauction.com and click on "Create New Account".
- Fill in all fields and accept the Privacy Policy & Terms and Conditions. Click on Create New Account.
- On the next screen, click Apply for Bidding.
- Choose Option 1) Credit Card Approval or Option 2) Bank Approval
** if you are not comfortable providing this info to DVAuction, that is ok! Call Sarah Buchanan at 306-681-5340*
- Check your Email for an Account Activation message from DVAuction. Click this link and you are all ready to go.
- On sale day, log in to www.dvauction.com with your email address and password.
- Click the green "View" button beside the Cow-Boys Angus Bull Sale. This will take you to the sale site.
- Accept the Terms & Conditions (left side of screen) to get your bid button.
- Log in 1 hour before sale time to Practice Bidding.

Let us make it even easier for you! Contact Sarah Buchanan at 306-681-5340 to get set up over the phone. DVAuction Tech Support 402-316-5460

For guys that are serious about breeding cattle really need to look at this rascal. From an analyzing point; you look at his foot structure and its great, his hind leg is a mirror image of what we want. Its set right, lots of bone and carries that up to a huge quarter. 06H is super clean, smooth shouldered, clean necked, and very good headed. This cowboy is sure to add pounds and hair to his calf crop plus look good doing it! You won't want to miss him on sale day. **Terms to be announced.**

"WOW" is all we can say about this Grand Design son. Gran Torino is a classic. Just like his name suggests with older genetics on the top side and maternal legends on them bottom. Gran Torino we feel is the "valedictorian" of the 2020 class, with his true herd bull look, muscle shape, length of body and the top he carries this calf has been a standout since birth and staying at the top of his class ever since. With his incredible data he sure is one we feel will improve cow herds for a number of years to come. Whether you are a seedstock producer or a commercial man you will want to look at this one! He will pass you exam with flying colours. **Retaining 1/3 semen interest.**

Here is a head turner with visitors this summer and fall. 028H is a true meat wagon. He is built a little lower to the ground, but man o man he is long and thick. He has a maternal sister due to calve out this winter and WOW is she going to be incredible, picked by many of the most well respected cattlemen as a herd building block. We feel the same about this guy. He truly is good, and backed by an incredible momma cow that simply does not miss.

It has been a long time since we have seen a calf with a low birth weight like his do what he has done. Being raised by a first time mom we can only think of the possibilities of the future for him and his young mother. 031H is explosive in his design from every angle you look at him from. Super good fronted, lays into his shoulder just like you would dream about having one made. He then explodes to an impressive top and carries it right back to his hip and butt. He is built on an impressive foot and leg shape with just the right amount of bone. What the old saying "Every great bull has a hard working class mom backing him". 031H is backed by some of the most proven cow families here. He will work on the heifer pen and also be an asset for the cow herd.

A very flashy 94D son here. He has all the tools to be very good. In terms of describing him to you its simple. Full of red meat, muscle, length and has a build that we all look for. I could study and admire this bull for hours everyday. He always has a very proud presence about him; up headed and cocky. Now I could write you a short novel about him and his mother but I will try and cut it short. His mother is a "Lucretia" and one of our best cows year in and year out. It doesn't matter who you mate her with she brings one in at the top of the class every year. The guess work for 032H is already done so take him home and let him write his own story for you. We're sure he won't disappoint!

"What a meat machine" commercial men look here! If you want a bull with more shape and size 049H is very worthy of your close evaluation. Pay close attention to how this guy is put together. Very clean through his front third which carries into a huge rib and deep bodied. The amount of muscle he portrays is remarkable. Swagger is a true cow mans bull.

Not very often you buy a bull that can sire both sexes offspring of high quality. But PFLC Insight 94D has out done himself every year siring calves that lead our bull pen and heifer pen. This past December 94D sired our \$10,500 heifer calf in the Keystone Klassic sale. 038H himself has had a lot of friends; they like his overall skeletal build. From the ground you won't find a better foot with it being shaped properly with the amount of heel he has. The amount of bone he carries is impressive. 038H is built to produce females and bulls that will stand up in herds for years.

Our only Remedy son selling this year and he's a good one! A heifer bull with a really nice birth weight and has been growing with data ever since. The amount of shape he shows is absolutely impressive. His first time mother has truly out done herself on her first try. 070H is backed by the same cow family as our Lot 3. This is a bull that is long bodied, full of muscle shape, great hair, lots of bone and a great foot. 070H should be high on your sale list when picking a heifer bull; or any bull in the sale for that matter.

This is a very interesting and attractive son off of a new AI sire we used, Ellings Top Shelf. He sired a very nice group of calves here by adding extra dimension, depth and clean smooth fronts. This is a cowboys kind of bull. My favorite thing about this calf is his mom, Erica 284Z. She has become a founding female in our herd as she transfers her overall length of body, depth and thickness to her offsprings each and every year.

Here is a 633D Guardian calf built on the same blueprint as his brother. He offers lots of capacity and depth along with natural muscling. He is a docile bull that should pass his quiet behavior down to his calves.

This Bulleye son is an eye catcher. He's built smooth in the front, with added length in the mid section and a nice carry down in the hind quarters. He's blessed by strong maternal genetics by being backed by a powerful mother that consistently produces calves that rise to the top of our ranks in our herd.

We used Bulleye hoping he would add some size, thickness and bone to his calves. Well he proved us right. 982G hit the ground with everything we hoped for and more. With the muscling he has he will produce calves we all desire. If you are looking to increase pounds in your next calf crop, have calves that get up and go at birth, but still very docile, 982G is a bull for you. His dam 705T is one of our most docile cows in the herd.

This guy has been a favorite around here since he was born. His dam was a high selling bred heifer in Brylor Ranches Tradition with a Vision Female sale. Rush Lake was a high dollar purchase by Stauffer Ranches and held fairly exclusively. Ringstead Doll 44X was a very prolific donor cow for Brylor with offspring and embryos selling to many great herds including our Hi Capacity 44A bull. The Eliminator calves are surpassing our expectations with many great sons represented today. His daughters are just calving this spring and they are exceptional including this guy's full sister. She's one of the top ones here. This guy has to be seen to be appreciated. Muscle and power on a great set of feet and legs. And backed by a very unique and maternal pedigree on the red side of the breed. He's leading off our section of bulls for a reason.

Another Eliminator out of a popular cow family around here. 647D sold through Red Roundup as a calf to Bar 4A Ranch in Alberta. We then purchased her back through their dispersal as a bred heifer. Her first calf by Opportunity 237D was kept here and used commercially as there was some DNA issues. Her second calf was very popular at last years Touch of Class sale where she was second high seller. This guy's grandam is still knocking them out at 15 years old. This guy was a top guy in the pasture tours last summer.

The Kodiak cows around here have been awesome. This one came from JAS Red Angus at the Keystone Klassic. Great mother cow with a near perfect udder. The kind of cow you would like a pasture full of represent your herd. Eliminator was a top bull in the Six Mile Sale a few years ago. His dam was the lead off cow in the Glesbar dispersal. This is your guy if you are planning on raising some top replacement females.

11H is a bull that needs attention. His dam raised a Poker Face heifer that sold through Red Roundup on her first try. This is her second and now she has another full brother for next years sale. The Answer cattle are great around here with him breeding cows around here until he was 10. This guy has some frame and muscle. He will make some calves with some grow and ability to gain.

Maid 57E is a cow we purchased as a bred heifer though the Pride of the Prairies sale from Kenray. Her first daughter sold through Red Roundup last fall to Wood Coulee Red Angus. This is her second and she has a Resource calf that is already off to a great start this year. The Staunch daughters are leaving a legacy in many herds and this cow exemplifies that. Examine the makeup of this bull and you will see that he will calve heifers super easy; and he will also leave a great set of replacement daughters.

Here is the only red son of our MRLA Resource 23F bull that we own with Brylor to sell this year. He was a very popular bull in the McMillen Ranching Sale a few years ago when we secured him as a black outcross sire. We sampled him early in the breeding season while Brylor used him for his spring calving. Watch for a bigger offering of his genetics next year. Packer daughters are proving to make great cows and this one is no exception. Great heifer bull here with a very different twist on pedigree.

An end of March son of Assassin. He was the high dollar bull that sold to Brylor in 2017. Brylor was kind enough to let me use him in the summer of 2018 after the untimely death of Poker face. This guy's dam is a proven producer with 2 top sons and a daughter selling though this sale previously. If he was a month older, I know he would command a full-page spot at the front of the offering. Only three Assassin sons offered here today and they are younger but definitely worthy of your appraisal. Watch out for some select two-year-old next year by him.

Black Red Carrier son of our MRLA Resource 23F. Dam sold through Red Roundup as a bred heifer to Dan Baldwin. Great female from the top of our herd. Has a great red full sister to this guy on the ground now. Outcross black genetics out of our treasured Lasa cow family. Would work great on heifers. Co-owned with Joan Baldwin

Black/Red Carrier son of our MRLA Resource 23F. These first three black bulls are all out of first calf heifers and would make great heifer bulls. Small at birth and lots of vigor. This guy has more black ink than red with the outcross Sensation and Cale bulls in his pedigree.

Black/Red Carrier son of Dodge and the Ramba cow family. Ramba 2F was a donor cow for Brylor for many years. We used a New Trend son, a Roughrider son, and 2 Saugahatchee daughters here with great success. Hi Capacity left us a great set of fancy cows that are just starting to really shine.

This Hill Haven Firestorm calf has been impressive since birth. The amount of thickness he possesses is truly remarkable. 042H has the hair and look we want our shorthorns to look like. Ample bone on a sound foot. He is very deep sided, well testicled. If there would have been shows this fall he would have been there. This future herd sire is backed by my very best female! Then you add the top side of his pedigree to the equation, there is absolutely no guess work left. 042H is as good as his pedigree reads. Plan to look this proud Firestorm up sale day.

064H comes to you with a little more of an older pedigree, being an Alta Cedar Perfect Storm son. He is a calf that is extremely sound and thick. 064H is 100% purebred. For those of you that like that take a serious look here. Big bodied, big topped and super attractive fronted. This guy is backed by the popular "Butterfly" cow family that have done amazing things for the Monty Thompson Hatfield Shorthorns herd.

TERMS AND CONDITIONS

TERMS:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

CERTIFICATE OF REGISTRATION:

Each animal will carry papers issued by the Canadian Angus Association, unless otherwise specified. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

PEDIGREE ESTIMATES:

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

HEALTH:

All animals in the sale have met all necessary health requirements.

GUARANTEE:

Each animal becomes the purchaser's risk immediately after the animal is sold. All animals in this sale will be sold under the terms and guarantees set forth by the Canadian Angus Association with regard to health, freedom from defects and from both reproductive and specific genetic unsoundness.

LIABILITIES:

All persons attend the sale at their own risk. The sellers, facility owner, auctioneer and sale manager assume no liability, legal or otherwise, for any accidents that occur. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

DELIVERY:

Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

PHONE, MAIL, WIRE BIDS:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale manager, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

INSURANCE:

Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

ERRORS:

All announcements at sale time, written or oral, supercede any written material in the catalogue.

INTEREST:

Cow-Boy Sale Group reserves the right to retain an interest in any of the animals selling. The consignors reserve the right to collect 100 doses of semen on any bull in the sale at their expense and the buyers convenience. The semen is for in-herd use only.
