2022 PRIVATE TREATY BULL SALE  
DUCK LAKE, SK

*Gold Out!*

Thank You to Everyone for  
Your Support in 2022!

**AJ**  
ANGUS

TAKE YOUR HERD TO THE NEXT LEVEL!

# AJ ANGUS

*We proudly offer our private treaty Black Angus bull sale catalogue to the cattle community. We have been actively involved in the cattle industry for many years producing commercial cattle, registered Black Angus cattle and high quality purebred sale bulls.*

*Each year we focus on producing moderately framed, easy fleshing, high performance, no-hassle cattle. As you glance through our catalogue you will see that we have put together a solid group of performance bulls that come from proven, sought after lineage and have remarkable epd reports. These bulls are selectively bred for performance, calving ease, phenotype and efficiency.*

*Our bulls are handled regularly and are use to having people around them. Our bulls are fed a safe, simple diet that allows proper development while keeping them ready to go straight to work when you receive them.*

*We invite you to come view our herd and are happy to discuss our 2022 Black Angus bull offering with you to help assist you in selecting the bull that will best compliment your herd and meet your needs. Also keep an eye out as we begin offering Red Angus bulls as well in the near future to help better meet all of our customers' needs.*

*Videos of all sale bulls can be viewed at [www.facebook.com/AJAncusCattle](https://www.facebook.com/AJAncusCattle).*

## **Terms & Conditions:**

*Sale bulls are part of our herd health program. All bulls will be semen tested and vet checked to ensure breeding soundness. All angus cattle are sold under terms and conditions of the Canadian Angus Association. If you require a trichomoniasis test we will arrange to have it done during the vet check at cost to the buyer. We strongly encourage all buyers to place insurance on purchased bulls until delivery. Bulls can remain at AJ Angus until April at no charge; if they need to be kept longer the buyer is responsible for placing insurance on the animal and a \$3.00/day yardage fee will be chared to the buyer. AJ Angus will deliver bulls within a 200 km radius at no charge; if delivery is farther than that we will help to assist in making delivery arrangements as needed.*

108 is a calving ease special with a +0.4 bw epd, +7.0 ce epd and is on a fast track to stardom!!! Sired by the famous Musgrave Stunner you can be sure 108 will be unmatched for breed character, muscle shape and expression of huge dimension. He is very sound in his structure and exhibits a very gentle disposition.

When you take the time to study the pedigrees of many greats you will find many have Sitz Upward 307R in their lineage. 122 is just that, backed by two of the breeds elite sires SAV Renown 3439 and EXAR UpShot. 122 is a superior phenotyped, soft hided, hairy, husky individual. His base width, rib shape, square hip bone and skeletal design is sure to add performance, eye appeal and maternal potency all in a very functional package.

Performance, eye appeal, sound footed length of spine backed by maternal potency are the first few words that come to mind when I think of 123. Another Renown son that checks all the boxes. His Motive dam stands very correct on a sound foot she exhibits a perfect udder all in a very neat and very feminine package. 123 doesn't give his place in the pen when it comes to either of the descriptions listed above. Watch for him!!!

125 exhibits tremendous rib shape, strong top, square hip and is very husky looking. Easier type bull for leshing ability, still having adequate frame. Backed with his Aviator dam his calves should have lots of dimension, be good footed and have a great disposition. Registration pending DNA parent verification requirement

126 caught my eye from a very young age. He is a very attractive bull full of presence and breed character. Sired by AJA Restore 905G, 126 has good base width, rib shape and barrel. 126 could be used in a heifer program very successfully and eventually graduate to herd bull status. We have used AJA 905G on heifers every year without issues. Registration pending DNA parent verification requirement

	90	677	1059		+2.3	+64	+106	+26	-	-1.0	-1.0

We used Stunner in this mating and it is far from disappointing. A powerhouse of a Stunner son with loads of natural thickness, rib shape, base width, scrotal and bone. A frame score bigger than some of his half sibs in the pen. 132 has herd bull presence all over him.

Another Stunner mating that far from disappoints. His dam is a Net Worth daughter with tremendous foot quality, bone, rib shape and performance and she has passed these qualities forward. Combine that with Stunner and you get 134; a bull full of muscle shape, depth of body, base width, square hipped great bone on a large foot with length of spine with great growth on pasture and in the feedlot. Trust me folks, Stunner was one of the most consistent bulls used at AJ Angus. His semen is highly sought after, selling over \$300 per unit in some sales. I've seen the Capitalist 316 bull, we've bred the 028 bull. we have numerous Net Worth daughters working for us; trust these genetics. Do your own research, this bull is a maternal power house, he will not disappoint. If you're looking for a herd bull that covers all the bases for your cows yet still can cover heifers circle 134!!!

141 is sired from the 2019 Saskatchewan Sweep Stakes champion bull DMM Canadian Classic. 141 has a very smooth made presence about him. His base width, rib shape, square hip, scrotal development and bold presence will not disappoint as a herd bull. Backed by another one of our highly sought Registry dams, 141 should sire cattle that are extremely complete with superior foot quality and structure.

*Stunner is one of the most consistent bulls we have ever used at AJ Angus and I'm sure a lot of people can contest to that in their own programs. Stunner was a bull with a very short career and the semen is very highly sought after and I suspect only used in lush programs for good reason. 149 is another Stunner son that is predictable in his consistency, he patterns just like his half sibs. He is an extremely stylish pro iling bull that is deep sided and well balanced; combining an exceptional amount of thickness, lower third and dimension for a calving ease bull. Registration pending DNA parent veri ication requirement*

His sire EG Eyes Onyou is a physical standout. When I seen this bull at Genex, I knew I just had to AI with him. He is a performance powerhouse from the famous Hoover No Doubt and the maternal lineage Baldrige Isabel Y69, 165's dam is a very highly productive cow at AJ Angus, inding her way to the lush pen with a male calf ww ration of 111 and life ratio of 105. 165 has herd bull presence. He is stout, wide based, long spined, husky, and big boned. 165 is a performance powerhouse with a 365 day index of 126 with maternal breeding backed by the Baldrige Isabel Y69 cow and SAV Final Answer in his lineage. These are generations of great cow families and proven sires all combined into one bull; 165.

## AJA Annie 82Y

1833576 AJA 82Y 04/03/2011

These guys are all full siblings from the flush we did. Sired by SAV Renown 3439, these guys are the youngest bulls in the pen. Their dam AJA Annie 82Y is extremely sound footed, she is clean and smooth fronted, wedge shaped and extremely gentle in her nature. At 11 years old she still has a perfect udder and caught AI to Stunner in the first cycle post flush. She has always caught AI first round and always hits a home run regardless of the mating. We have all her daughters working for us in the herd except for AJA 603D who was sold to First Line Angus in Ontario. The flush brothers are sired by SAV Renown 3439, a now proven sire known for his ability to sire progeny that are sound footed with added performance in a free moving flexible design and this is exactly what these brothers exhibit. Combined with the potency of Renown and longevity and consistency of their dam 82Y, these bulls are sure to produce high performing, sound footed, highly fertile, functional cattle all in an eye appealing package. Registration pending DNA parent verification requirement

*Renown has remained a top selling bull for several years due to his unique ability to sire added performance in a functional, yet eye-appealing package. Progeny are sound-footed, correct cattle that are free on the move and lexible in their skeletal design. Look to Renown to add performance, superior phenotype and maternal potency.*

905 is a direct son of S A V Renown and out of our GAR EGL Protege cow on the bottom. 905 has an excellent arsenal of EPDs and packs an ammo box of performance. With a birth weight of 85 Lbs, an actual weaning weight of 800 Lbs with no creep feed and an actual yearling weight of 1430 Lbs this bull is very far from disappointing. The mating of Renown cross Protege combines the desired performance from birth to weaning, doability and carcass traits most commercial cattlemen desire for low cost, high performance cow herds!!
