# Selected by many - Supplied by few

## Bulls on Offer...

- 16 Yearling Black Angus
- 12 Yearling Red Angus
- 41 Red & White Charolais
- 32 Red, Black & Fleckvieh Simmental
- 20 Red & Black Gelbvieh

- All bulls are semen checked and veterinary inspected.
- Semen tests, all scrotals and weights will be available sale day.
- Half down on sale day with a May 1, 2022 post-dated cheque for the balance.
- Insurance available sale day.
- **Sight Unseen Purchase Program:** For those who cannot attend, we offer a Sight Unseen Purchase Program. Call us with your needs (birth weight, frame, weight, etc.) and we will recommend suitable bulls. We will deliver the bulls to you with a satisfaction guarantee. Your order will be handled in strict confidence. Call the owners, T Bar or any of the sale staff.
- **Right to Draw Semen:** In the event that we would like semen on any of the bulls selling, we reserve the privilege to draw semen in the off season at our expense for in-herd use only.

"Haul your own bull" **\$100.00 off per bull**  
If you bring your own trailer and take your bull home, receive a \$100 credit off your purchase.

Or **Pay \$100.00** upfront sale day and we will take the yearling bulls home, feed and deliver them by May 1, 2021.  
**Payable at the time of settlement.**

**All bulls to be taken home and boarded must be insured.**

Note - **All two year old bulls must go home with buyer after the sale unless prior arrangements have been made with the breeder.**

- **Delivery:** We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

**VIDEO SALE.**

**We have decided to maintain the format of a video sale as we ran in the past two years. Be sure to evaluate the bulls you are interested in prior to the sale as they will not be run through the ring.**

## Sale Staff

### From the Desk at T Bar..

Welcome to the "Best of the Breeds" Annual Bull Sale, Sunday March 27, 2022, at Heartland Livestock Services, Yorkton, Saskatchewan. This is their 18th anniversary ... and "wow" these breeders are getting serious about producing breeder bulls!

In the Gelbvieh division, Blair and Lorie have been the source of breeder bulls and ranchers alike for the past decade. Their lineup for 2022 is impressive... homo polled and homo good! Bulls with muscle and hair, and still come with calving ease and performance

John at Black Ridge will tell you despite the hot weather and drought, this might be the best set of bull to date. They feature the sons of Lewis 3896 and his son Riot. Strong maternally, they will add pounds at weaning while producing daughters that will fill your replacement needs.

The boys, at Twin Heritage have become an official supplier of Red Angus for both the rancher and the purebred breeder. No doubt the sons of Detour will be a feature but check out the low-birth-weight opportunities available sale day.

Charolais influence founded this event 18 years ago and in 2022 Dogpatch and Harcourt's have outdone themselves. Many are homo polled, several breeder bull opportunities abound. Whether you are looking for an exciting yearling or a cover-the-cows two-year-old, selection is genetically diverse. Bulls with depth, muscle, hair... pounds of calf at weaning is commonplace using Charolais bulls.

Lyle and Ken have come loaded with an outstanding consignment. With power and genetic opportunity, Forden Fairview Farm offers the largest lineup of homo polled fullbloods to sell in addition to the selected purebreds. Breeders pay attention to this powerful offering.

Feel free to visit any of these progressive breeding operations prior to the sale or give them a call... they love to visit cattle. The bulls will be available for viewing at the sale barn the day prior.

Plan to be with us at the "Best of the Breeds" for your breeding requirements whether it be with us in person, online or on the phone. We have graded the entire offering so feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

 Like us on Facebook:  
Goodview Gelbvieh

Welcome to the 18th Annual Best of the Breeds Bull Sale. We are very excited about the bulls we will have on offer once again this year. We will have both red and black bulls that will work both on heifers, as well as performance bulls to produce those scale busting steers. Our bulls come from good footed, neat uddered, low maintenance cows. At Goodview we put a lot of emphasis on our cows, so you can buy with confidence knowing that the bull you purchased is from a sound, problem free cow herd.

Gelbvieh is a continental breed that has very strong maternal traits such as docility and rich milk that is produced in tight, correct udders. Gelbvieh will add that extra muscle to give your calves the extra pounds you're looking for at sale time. Gelbvieh calves are born with vigor, which is one of the reasons Gelbvieh influenced females wean more pounds of calf per cow exposed. Use Gelbvieh bulls in your crossbreeding program to get early maturing, long lasting females, as well as sale topping steer calves.

We continue to use a high fiber developer program. We wean the bulls off on oats then after 60 days they are pail fed a bull developer ration along with barley silage and grass alfalfa hay. This diet develops a healthy rumen, while maintaining good long-term health. We target a 3.5 lb. average gain to develop good footed, long lasting bulls that will last for their new owners.

Please join us on March 27 in Yorkton to evaluate our bulls and we can talk about your bull needs. If you can't make the sale, feel free to call or stop by anytime to tour the bull pen and the cows with their 2022 calves at side. Join us Saturday evening at our hotel and stay the night. If you purchase a bull from Goodview Gelbvieh, we will pay for your one-night stay. Please join us for an afternoon of visiting and cattle viewing on Sunday, March 13 for our customer appreciation day and bull viewing.

**CUSTOMER APPRECIATION DAY AND BULL VIEWING SUNDAY, MARCH 13 AT 1:00 PM!**

Attend our open house, call, text or tour the bulls at any time before the sale and be entered for a chance to win a \$500 sale credit to be used at this years sale.

*Blair, Lorie, Courtney and Kelsey*

## Gelbvieh Breed Averages

GEST (DAYS)	EPDS	CE	BW	WW	YW	MK	TM
283		12	0.5	60	86	21	51

**Sire:**  
**BLB GOODVIEW GRAND PRIX 1G**

**Dam:**  
**BLB GOODVIEW BLACK MAGIC**

BLB Jumpstart 107J is the son of BLB Black Magic 24B, our top producing black cow, who has also produced BLB Helix 5H a past futurity entry and 3 daughters that we have retained in our herd. Jumpstart leads our pen in performance with a WPDA of 4.06 and ADJ YW of 1463. Jumpstart was part of our show string this fall winning his class at Agribition. He was also one of our bull futurity entries in Stettler. Jumpstart has the power to make future herd bulls while still having generations of maternal in his pedigree to make those high producing females that will go on to raise high end cattle. If you have the herd that needs or can use a power bull like Jumpstart he is sure to add whatever trait you are needing to add. Jumpstart is long, heavy muscled with a huge rib shape. **HOMO POLLED HETERO BLACK**

**Dam of Lot 2**  
**BLB GOODVIEW PLD HEATHER 4A**

BLB Judge 132J is sired by RWG Exact Combination and out of one our most consistent producing cows BLB 4A. She has only given us bulls to date all of which have gone on to work in both seedstock and progressive commercial herds. Judge was part of our show string this fall. With a moderate BW of 87 and a WPDA of 3.55 you can expect him to moderate your birth weights while having enough jam to raise future herd sires, replacement females or steers. Judge is dark red, deep sided and heavy muscled with a lot of style.

**3**

**Sire of Lots 3, 4, 9, and 16**  
**SLC OUTBACK 142X**

BLB Jericho 131J is sired by our past National champion SLC Outback 142X. A bull that has left his mark in many herds both in Canada and in the USA. Jericho is a bull that we were breaking to take out on the road but you can't take them all. His dam FLAD Fame 23F is deep and long bodied with a beauty udder. The type of cow you want to build a herd around. Jericho is long, deep sided, has a ton of dark red hair and a sweet disposition.  
**HOMO POLLED.**

BLB Jetson 124J is another son of SLC Outback 142X and out of a Dwayne Nelson bred female we purchased out of the Gathering female sale. She also raised our walking sire BLB Hitch 23H. Both her sons style very similar to one another. They are moderate in stature with a huge rib shape and hip width. Jetson has had that herd bull look from a young age and hasn't disappointed us to this day. Jetson is dark red and deep sided with a lot width over the top that carries into his hip.

**Sire of Lot 5:**

**BLB GOODVIEW PLD EATON**

BLB Jet 151J is the youngest bull in our pen out of a first calver. His dam BLB 6G is a very correct female that has just enough power. She goes back to past futurity champion RWG Captain and a Prairie Hills Gelbvieh bred female. Jet was sired by BLB Eaton 35E, a bull we used successfully on our heifers. Eaton sires offspring with a lot rib shape and hair. Jet is very similar to his sire at this age. He comes in a moderate frame with that classy herd sire look to him. Jet is the youngest bull in the pen but boasts a very nice WPDA of 3.66 and ADJ YW of 1361. Jet is dark red with a ton of hair, deep sided and a real nice hip.

**HOMO POLLED.**

**5**

**Full Brother**  
**BLB Grid Iron 16G**

BLB Jackman 109J is the full sib to the 2019 futurity champion BLB Grid Iron. Sired by RWG Exact Combination and out of BLB Winnie 31A. This mating has proven to be successful with the maternal strength of SLC Outback 42X in his pedigree. The Winnie cow family is maternal oriented producing calves that are moderate at birth with a strong growth curve. I believe that Jackman could be used in a dual role.

BLB Jenner 143J is sired by past National Champion SLC Outback 142X. His Gung Ho sired dam FLAD 50F has done an awesome job for us. Her first calf is walking at Brittain Farms and she now has raised this tank. She raises calves that are small at birth then just grow. Not big in frame but thick and deep. Jenner looks like his sire did at a young age, the type of cattle we like. Jenner is more the traditional Gelbvieh color so if you're in a cross breeding program and blonde calves don't matter take a good hard look at him, he is very good. Jenner has a ton of hair, extra wide hip and a lot of rib shape.  
**HOMO POLLED, BW MODERATOR.**

**Sire of Lots 10, 13, 17, and 18  
RWG EXACT COMBINATION 7409**

BLB Joker 112J is the first of 6 red power bulls we have to offer. If you're looking to add pay weight to your calves take a close look at these boys. Joker is sired by BLB Stacker 16S by AI from a bull we raised many years ago. Stacker added muscle, length and cleaned up udders. Jokers dam BLB Maxine 14B is once again another Maxine female who out produces herself every year. She is also the dam of BLB Dan 102D who sees heifer duty at Severtson Land & Cattle. Joker has been a standout from the beginning, exhibiting that extra mass and hair to go along with his explosive growth. A WPDA of 3.91 and ADJ. YW of 1407. Joker will add hair & rib shape and a lot of extra growth without losing any maternal traits.

# Black Ridge Angus

Well as I write this and reflect on the past year, drought is the most challenging obstacle the cattle industry is dealing with at this time. We were fortunate that our pastures lasted as long as they did and we did get some feed but the cost is high. We did some heavy culling of cows and calves so the bull pen is a little smaller this year. The bulls are a very solid consistent pen, I think one can appreciate their performance on drought pastures and no creep feed. We also left them out in the pasture longer as the feed situation at home was very slim.

The bulls were developed similar to last few sets of bulls, whole oats mixed, mineral tubs and hay, due to shortage of silage they are mostly hay as we are stretching the silage for the cows. They have been gaining very well on feed and we feel they are in excellent shape to go out and breed. Please feel free to call or stop by at anytime. Please also check out our facebook page for pictures, videos and updates.

**Check out the bulls on our Black Ridge Angus Facebook page closer to sale day**

We purchased Bravo, the lead off high selling Black Angus bull from Lewis Farms in their 2020 Bull Sale. Before they sold him, Lewis Farms drew semen and used him in their own herd. He has a great spread of an 80lb birth weight to 1537lb yearling weight and is in the top 10% of the breed for growth. He is hairy, stout, moderate but exceptionally thick with large testicles and he has passed that down to his calves.

**Reference Sire**  
**LFE BA Lewis 389G**

A very attractive solid bull full of red meat. His dam has a beautiful tidy udder with small teats, and she herself is a very easy doing deep bodied cow. He will be moderate in frame but he does not lack in performance, a real herdsire in the making. Weaned off at 890lbs in the beginning of October.

I really like this bull, just an excellent balanced bull, he has that nice angus character. His dam has calved in a 10-day window on her first 4 calves, and she raises a big calf every year and keeps her condition. Her right time heifer from last year is one of the top bred heifers.

27

**BLACK RIDGE RIOT 26D SONS**

These next bulls are all sired by our home raised herd sire. He was one of the best performing bulls we had ever raised, he is exceptionally thick, deep with a smooth shoulder and fine refined angus head and character, and exceptional scrotal. His personal performance was 842lbs adj WW and 1480lb actual YW. His calves are some of the top performers in the pen this year, and are John's "favorite type of cattle". Easy doing, deep sided, hairy, and muscular.

# Twin Heritage Farms

Allan & Ann

Michael, Rebecca & Sons  
306-220-1976

Mitch, Kelley & Karson  
306-272-7501

How's everyone doing? It feels like it has been a long haul here the last couple of years; hats off to you for persevering and sticking with it. Thank you for your interest and support of our program and welcome to our 2022 edition of the annual "Best of the Breeds" bull sale.

The bulls that we have on offer are the ones that survived the rigid culling process and made the cut this fall when we ran out of pasture. These bulls are backed by proven genetics and a cow herd built with an emphasis on fertility, sound udder structure, and good feet. We continue to pail feed a balanced bull developer ration to ensure responsible development and longevity. The weights provided are actuals with WW taken early in the fall on August 2 and YW taken on February 5.

If you are not comfortable attending the sale in person, for whatever reason, please stop by the farm in advance of the sale or give one of us a call if you have any questions. **We encourage you to check out our website at [www.twinheritage.com](http://www.twinheritage.com) for viewing of the bull sale videos and to find out what's new at Twin Heritage.** Also, head over to DLMS.com if you have not already signed up to view and bid online.

- Heifer bull recommended.
- Youngest bull in the offering, smooth fronted, and good length of body.
- Dam has averaged 79 lb BW on her bull calves.

**Red Twin Heritage Detour 24F**

**Red Twin Heritage Detour 24F Feet**

**REFERENCE SIRE – RED TWIN HERITAGE DETOUR 24F**

Detour 24F is a home raised bull that we are keen on. We had planned to sell him in our sale a few years back but decided to keep him for use in our herd. His pedigree is stacked with some of the top bulls we have used over the years and his dam has a beautiful udder and impeccable foot. If you stop by the farm, I invite you to look at his feet; hands down one of the best footed Red Angus bulls that we have seen in awhile. He adds a bit more power and frame than the old Detour bull, but checks the box on the type of bull we are striving to raise for our customers.

- Half brother to our high seller in last year's sale.
- Smooth fronted, moderate framed, heifer bull candidate with good testicle development.
- Dam has cranked out 5 bull calves thus far with a 69 lb BW average.

♥ How much is that puppy in the window? ♥

- Moderate framed light BW bull that should work well on heifers.
- Consistent producing cow family that has a heavy influence in our herd.
- Grand dam raised the Detour 39J bull selling in the sale.

# Dogpatch Acres

Welcome to the 18th Annual Bull Sale. Well hopefully by sale time we are back to what used to be normal and we can see you in the stands at the sale and have a face to face visit.

This past summer the calves did exceptionally well despite the drought and weaned off with some really good weights. We are proud to have a consistent group of bulls on offer right from birth weights to weaning and yearling weights.

This year we have a really good mix of bulls both AI sired and some from our walking bulls. This will provide you with a great selection to choose from that fits your operation. Whether you require a bull for heifers, a bull for cows, or a 2 year old for bigger pastures, you will find it here.

As you can see from the data on the bulls, we focus on calving ease, but still require performance. We offer sound bulls with great hair coats and good dispositions. Not all of our bull calves are selected to make bulls, some don't live up to the quality we want to sell. This ensures you that we are proud of our offering and stand behind our product.

Like always, we keep back some younger bulls as insurance bulls for our customers in case they encounter a wreck. We will have a bull for you to breed with. The virgin two year olds on offer are from last year's pen of bulls kept back for this purpose.

We encourage you to call or stop by and have a look at the bulls and their mothers, and watch for the videos coming in early March @ www. Dogpatch Acres.com. Hope to see you in Yorkton!

**Michael, Annette, Evan and Carley Zentner**

Check out our videos at [www.dogpatchacres.com](http://www.dogpatchacres.com)

## Charolais Breed Averages

EPDS	CE	BW	WW	YW	MK	MTL
	5.4	0.8	44.5	85.7	21.3	43.5

Sire: LT. Ransom

**HERDBULL ALERT.** We are excited to offer one of the first LT Ransom calves available. We selected him and his mother from Hunter Charolais and they were reluctant to let this guy go! Jamieson is a big volume bull with tons of top and middle. A super disposition and great scrotal growth. Look at the spread in his EPDs. You want to get in on the newest genetics, grab a hold of this complete package. Top 10% for below average birth weight, top 20% for above average weaning weight for the breed. Out of a first calf heifer!

Here is an opportunity to step into some of the newest genetics in the breed. Excellent birth and weaning weights from a solid producing young cow. A great mix of new and proven genetics combined to produce this smooth fronted, deep sided individual. With calving ease, great performance and longevity built into this pedigree, you can be confident in leading the pack for the long term. Jagger is as structurally sound as they come, and is a real eye catching option sale day. Our other pick that we were planning to show last fall, halter broke and ready to go to town!

**51**

**HERDSIRE ALERT.** We defiantly hit the Jackpot with this calf. A buff coloured meat machine. A super thick made bull with deep sides and a deep quarter that really shows off his muscular shape. A top to shoot pool on and more than ample testicle development, this guy is a herd bull in the making. The LT Nationwide breeding produces eye catching offspring with wide based stout frames. A great disposition makes Jackpot a joy to work with. Don't miss out on this tremendous opportunity.

**HERDSIRE ALERT.** If you like them thick with deep sides and a pool table for a top line, you better take note of the Judge. A big butt end and an extra large tool box are packed on his moderate frame. More red meat than a Sobey's cooler! This gentle prospect comes from the exciting LT Nationwide, who's prodigy are highly sought after. If you are looking for your next herd sire that exhibits all the advantages of Charolais, you need look no further. Top 30% of breed for below average birth weight and top 25% for above average weaning.

A really correct moderate framed bull with a smooth laid in front end and small head to ensure calving ease. His smaller frame still maintains good length of body and a great undercarriage to travel the pastures on. The LT Nationwide cattle are taking the industry by storm. Here is a chance to grab hold of a quiet young herd sire that is definitely going to work on cattle of all colours. A nice set of EPD numbers finishes off this great package.

You have to admire the top and nice square hip in this rascal. The Maverick cattle exude masculinity and thickness throughout. HRJ Maverick has been used so successfully on heifers by many breeders like Horseshoe E Charolais and Gilliland Charolais. Calving ease, style and performance come with this pedigree. Jumpstart will make an excellent cross on any type of cattle. His mama's first calf.

Sire: D R MONSOON 45

**HEIFER PEN CERTIFIED.** A smooth shouldered bull with a smaller head to help those calves pop out and hit the ground growing. The DR Monsoon pedigree is used very successfully on heifers due to the built in calving ease. But don't overlook the performance and hair coats that come with it. Jaguar is a long bodied bull with a solid top and a great choice to put in with heifers or cows. Take the stress out of calving with Jaguar. Top 15% of breed for below average birthweight. A heifer's first calf.

**CALVING SPECIALIST.** Being a heifer's first calf you wouldn't expect this much growth, especially with a really modest birth weight. The DR Monsoon calves are born early and small but have good growth and are well endowed with hair and testicle. An angular front end and smaller head will make calving a breeze. Throw him in your heifer pen or out with the cows with confidence. Top 30% of breed for below average birth weight.

59

Justice comes with a touch more frame which contributes to his birth weight. His mama is a real powerhouse cow that transfers it to her calf. The calving ease is built in by his sire Monsoon and the performance comes directly from his mother. The bigger frame will help Justice reach the mature cows, and will provide some stretch in his calf crop which will add pounds come sale day. Top 20% of breed for below average birth weight.

## Testimonial

---

"I've been running Dogpatch bulls exclusively on my redangus commercial cows. The results speak for themselves, I have no issues during calving and in the fall the calves have all kinds of hair and a big hip and top which is exactly what buyers are looking for. The bulls have always been reasonably priced for the quality you receive and am looking forward to buying a couple more this spring. Mick has always stood behind his bulls and always been willing to accommodate my needs. I'll conclude by saying I'm definitely a satisfied customer and happy to call the Zentner family good friends."

-Trevor Orsten

Stone Hill Cattle Co. (140 cows)

Sire: WC MILESTONE 5223 P

Jambuster is an eye catching individual with tons of top and middle along with a great square hip that carries well down his quarter. The Milestone offspring have been well received in the show ring and sale ring. Jambuster will pack the pounds on your calves and give them the look that will catch buyer's attention. A nice birth weight with the power to grow, and a haircoat to withstand Saskatchewan winters. Top 25% for weaning and yearling weight for the breed.

Sire: CJC SYMBOL B1067P

Jackknife is real stylish bull with well balanced EPDs and a comfortable birth weight, combined with his masculine profile makes Jackknife a top pick for any cross bred program. A scurred bull that will throw some extra punch into his calves. Jackknife has a clean sheath and good testicle development to get the job done. Used on Angus based cattle, the scurrs won't matter. What will matter is how you gonna fold your wallet with all that money from the calf sale!

62

Sire: BRCHE White Bear 8505 PLD ET

A moderate framed meat machine. Out of one of our top cows and the 2019-2020 US Show Bull of the Year BRCHE White Bear 8505 PLD ET. 63J's muscle expression shows off his powerful top line and huge butt end. All that set down on a study well built foundation. Smooth polled with lots of curly hair and big scrotal are just a few of his many attributes. Another one that we had intended to show, so the halter breaking is done, you just gotta make it to town!

Sire: SOS APEX PLD 139F

Jedi is a smaller framed bull that boasts lots of middle and butt end. A ridiculous amount of long white hair protects this guy from the cold. His sire SOS Apex was selected as the Player's Club Champion in 2018, and has taken the industry by storm. His mother was a high selling bred heifer at the 2020 Superstar sale, and she is the bomb! Jedi extra birth weight can be attributed to his mother getting fed up for the show. Crossing on red or black cows will produce hairy polled calves that will make the buyers sit up and notice.

Sire: JWX DOWNTOWN 7C

Jailbreak is an athletic bull with a moderate frame. A really deep bodied bull with good spring of rib and tons of red meat. The JWX DOWNTOWN progeny have been a staple in the industry in recent years with their muscling ability, great growth characteristics, hair coats and polled heads. Jailbreak is a great example of this. Terrific birth weight numbers and above average growth make Jailbreak one to mark down on sale day. Top 25% of breed for above average weaning and yearling weights.

Jackal is a super docile bull, damn near gotta push him out of the way! His buff colored hair coat covers up a stout body. His super big volume, wide top, deep sides contribute to his big growth numbers. His gentle disposition makes Jackal a treat to work with. A comfortable birth weight and great growth numbers make this pen favorite one that will attract a lot of attention sale day!

## Sired by LAE Fort Worth 8207F

Sire: LAE FORT WORTH 8207F

A polled performer with a big set of pants that carries well down on his quarter. Joker is a soggy made bull that has lots of middle and top. The LAE Fortworth calves show a lot of athleticism and will be able to cover the bigger pastures. A powerful individual, that maybe quite a bit younger than the others in the pen, but you would never know by his stellar performance. If you sell calves by the pound, you are going to gain pounds by using Joker in your herd.

Jag is a typical LAE Fortworth son. A long bodied bull with a great hair coat, great feet and legs and really moves out well. These types of bulls are the kind you can turn out in the big pastures and will get the job done. A laid in front end and nice head aid in calving, a long spine and a sound structure provide longevity. Jag is going to make some great cross bred calves.

A free moving LAE Fortworth son with a real uniform confirmation. His length of spine does not take away from his natural thickness. A well shaped front end with a nicely shaped head will aid in the calving process. Great feet and legs mean your investment will be around for a long time. A solid young bull with great potential. Will make an excellent cross on a British based herd.

**POWER BULL.** If you are looking for a power bull with a little bigger frame to cover the mature cows and really throw some serious punch into your calf crop, Journeyman is the bull for you. Still maintaining a high calving ease EPD, Journeyman backs it up with some serious performance numbers. Smooth fronted and long as a freight train, this guy is agile and will be able to cover the big pastures with ease.

70

## Sired by BDS Felix

71

A nice small head on this bull with a little more neck extension, exhibit the calving ease of Juniper. His masculinity is evident already at this young age. Long bodied, big hiped, and running on a smooth flowing chassis, Juniper will add some stretch to your calf crop and maintain that reliable calving ease. You can feel confident turning him out with your cows, and excited when bringing his calves to market!

72

Jukebox is a younger calf with a ton of growth, just a March calf but weighing up like lead. He is a sharp fronted bull with a moderate frame. His muscle expression shows off his big butt end and long body which contribute to his awesome weight. A quiet personality and a thick curly fur coat make him an ideal cross for British type cows. A younger calf but he will be ready to roll come pasture time.

Hawk is a real tank of a bull. Big barrelled, butted and topped, and deep in the flank. A well put together red meat bull coming out of a vintage dam. Lots of volume, polled, and walks out like he was on the runway. A maternal brother was selected by John Barsi at Melville, Sask.

A well muscled bull with a strong top and good performance. A real cowboy's bull that exhibits natural thickness carried on a big solid hoof. Stamped out in the same pattern of his sire, Homemade is thick topped, big butted, and has a gentle disposition.

Howie is moderate framed bull that can pack on the red meat. A smaller head and front shoulders make calving easy. A great foundation to cruise the pasture on will ensure the cows get bred quickly. Howie will sire the loose hided, easy fleshing calves that buyers are willing to pay extra for.

Halo is a well balanced moderate framed bull. We used his sire Brimmer 20F on our heifers with great success. They calved easily and were vigorous at birth. Halo is sure footed and ready for action. Lots of curly hair, a polled head and a free moving gait to cover the big pastures.

# Harcourt Charolais

Join us for the 18th Edition of the Best of the Breeds bull sale! We invite you to be with us in Yorkton, check out this tremendous lineup of bulls, and enjoy some great hospitality.

To say the past year has been challenging to cattle producers would be an understatement. Widespread drought leading to a 30% reduction in cow herd numbers

has led to a beef shortage not seen in years. The decline in cattle numbers has provided an opportunity to cash in on high calf prices in the next five years, making bull buying decisions even more important.

We are excited to share the new genetics in the bull pen this year. These herdsires are industry leaders that combine bull power with calving ease that we always strive to provide our customers.

Our family is looking forward to seeing you in Yorkton on March 27th!

**Sire of Lots 79 - 83:  
LT Nationwide 8455 PLD ET**

LT Nationwide is a bull we used to shorten gestation and add calving ease without sacrificing performance. Boy did he deliver! He was widely used throughout the industry and the reports are that he didn't disappoint. The sons are early maturing with large testicles. The muscle mass and shape are truly impressive. He consistently shortened gestation by a week to ten days calving like a dream. Unfortunately, no more semen is available so getting a top son for your operation is imperative.

HBC 108J is another in a pen full of top Nationwide sons. He combines calving ease with explosive growth while keeping sound free moving structure. He will add shape, length and pounds to any calf crop. His maternal sister HBC 930G is the mother of a top Carbon Copy son in this sale, HBC 109J. Strength and power in the cow family makes 108J a very predictable offering. Check him out sale day!

**Dam of Lot 85:**  
**HBC Melissa 212Z**

This bull has been special since birth. Really correct, low birthweight, big footed and super gentle! This moderate bull is bred with longevity being out of a ten year old Sudden Impact daughter who has put bulls in the feature pen and females in the front pasture her whole life! Check him out sale day!

**85**

86

**Sire of Lots 86 - 88:**  
**HVA Fireball 662F**

We really like our Fireball calves. They have extra length, hair and performance and are super quiet. We all know about what Duty Free has done and we feel that Fireball is perhaps his best son. Those bulls will add pounds to your calf crop while maintaining calving ease. Some unique polled genetics here. Check them out!

101J follows the Fireball image to a tee. Long sided, correct and hairy with great feet. His Sparrows Divergent dam is a picture perfect cow. Moderate, deep sided and feminine fronted with a great udder. She is a cow that everyone spots when they tour the herd.

**Dam of Lot 87:**  
**WHITE CAP LADY GRACE 112Y**

111J is possibly the longest bodied bull in the pen and probably the heaviest haired. He is big footed, correct and quiet. His mother is still producing at a top level at 11 years old. She has a perfect udder and foot structure the way they should be. Longevity and high production built into this family.

**Dam of Lot 88:**  
**Wood River Glamourous 9A**

116J has the shape and dimension to be an impressive herd bull. He is easy to be around, has a solid foot and that haircoat all cattlemen seek. His dam 9A produces year after year at the top of the pen. She is a moderate heavy milking cow that is the perfect size for any operation. Her daughter 816F is the mother to HBC 120J. Power in the family here!

**Dam of Lot 89:**  
**HBC Paris 816F**

**Sire of Lot 89:**  
**HBC White Rock 903G**

This young bull is a clone to his sire. His big foot, big middle and attractive skull make him a bull everyone will find in the pen. His dam 816F is a rising star in the herd. Moderate framed, perfect made with a great udder. The kind of cow we all want to be the mother of our herd bull.

# Forden Fairview Farm

These past couple years have been ones of constant change. However the cattle business remains the same with good cattle and great people. We have enjoyed a slower pace to life, with more time spent with family and the kids being able to spend more time around the farm. They have become a big help and may each have their own bulls in the sale next year. We appreciate all those who have supported us over the years and thank you for taking the time to peruse this year's offering.

We continue to offer all facets of the Simmental breed in one place with red, black, fullblood and Fleckvieh bulls. We have a number of new sire groups this year from Sysco, Eclipse, Reputation and Boulder that provide many options for your next herd bull. All bulls are DNA tested for color, dilutor and polled or are known by pedigree. This is an investment we make each year offering you more certainly in your breeding program.

All bulls are Express Verified and treated with Pyramid FP 5 Prespense spring and fall and poured with Ivermectin and Boss. The bulls also receive double vaccination of fusogard for prevention of foot rot.

**We'd like to invite everyone to our Bull Pen Open House at the farm March 19 & 20 from 1-5 PM.** This is a great opportunity to view the bulls in their environment as well as walk through our cow herd to see the maternal strength that comes along with these bulls. Visitors are welcome any time, so if you can't make it for the open house, please do stop by whenever it's convenient.

Like us on Facebook "Forden Fairview Farm - Simmentals" to follow our program. Videos will be available on our facebook page, DLMS and buyagro.com in early March.

**90**

**Sire of Lots 90-93:  
Fairview Payroll 19D**

**Dam of Lots 90-93:  
Triple F Lexi 25X**

Payroll has been our go-to sire to for producing homo polled Fleckvieh cattle. He is long-bodied, heavy muscled, highly pigmented and nearly red to the ground. Payroll is a son of our Sering donor cow, whose daughters have raised many high selling bulls over the years. We knew this flush with Lexi was sure to produce stout, dark red, well pigment sons with all them being homo polled. Adding these bulls to a fullblood/fleckvieh breeding program will provide endless opportunity as polled Fleckvieh bulls are in high demand with the commercial cattleman.

Advance is real long bodied, wide topped and powerful. He is the top ranking bull for yearling weight and second only to his brother for weaning weight. Weighing 1545 lbs in early February he is sure to impress on sale day. True to the Payroll sire group, he is big nutted and a true homo polled fleckvieh herdbull in the making.

**HOMOZYGOUS POLLED NON DILUTOR FULL FLECKVIEH**

Benchmark is long bodied and big nutedted with large goggles and a little more frame under him. A couple of these brothers carry more birth weight, which is a result of their recip dam calving overdue. This can be common with embryos and is not indicative of the calf itself. The daughters off these bulls should be exceptional. With Pol Lynn, Sering and She Devil in the pedigree the maternal strength backing these bulls is loaded with good uddered, heavy milking females that know how to produce.

DAM OF 357J & 457J

DFM MARCUS 14M  
TRIPLE F MISS MARCUS 25U  
SLS POL-LYNN 75P

When we purchased Boulder we knew we would put him together with Miss Marcus "Marcy" for a flush. Marcy is the dam of our Zeus bulls from a few years ago and also the dam of Kingpin who sold to Jensen Simmentals, Kansas for \$25,000 in last year's sale. The result turned out just as we hoped with these two bulls being dark red, heavy pigmented and polled. Boulder's sons are moderate, stout, smooth made bulls.

Slate is a thick made, wide topped bull and is hetero polled. Rocky is long bodied, heavy haired and homo polled. With the maternal strength of Marcy and the Ada 177C cow family, one can expect these brothers to sire some excellent replacement females.

**Dam of Lots 97 & 98**  
Triple F Miss Marcus 25U

**Sire:**  
**SBV Reputation 707F**

Hollywood is a homo polled son of the \$165,000 SBV Reputation bull and one who has stood out for quite some time. He is a bull with tremendous length, muscle shape and overall herd bull presence. His dam is a good uddered Phantom daughter going back to our Starwest Pol Ariel cow (dam of Fairview Philosophy). She is a young cow quickly rising to the top as she has a beautiful Radium daughter in the herd and another daughter at her side this year from our high selling Evolution bull. Make sure you find this guy on sale day as he has a lot to offer.

Glacier is the final Boulder son on offer and is one you appreciate the most when you get behind him. He is square hipped and heavy haired. His dam is an excellent cow with tremendous capacity and a beautiful udder and easily spotted on farm tours. Glacier is one of the smaller bulls in the sale but if he has the libido of his sire Boulder he will breed whatever comes in front of him.

**103**

**104**

**Dam:**

**Fairview Grandprix 47D**

We have been building our fall calving program for a few years to offer bulls with more maturity and size, allowing them to cover more cows, more confidently. Once a cow enters our fall program that is where she stays and so do her daughters. Cannon's dam is a cornerstone in our fall program and is an extremely deep ribbed power cow who maintains an excellent udder. Cannon is a real powerful Warrior son with a big deep quarter, extremely wide top and heavy muscled throughout. If you ask him, he will tell you about the scar he has on his sides from being stuck in a bale feeder overnight last spring. It's one of those "guys guess what I did last night" stories! Joking aside, we are very pleased to offer Cannon as we know he will sire top end progeny that are right for the times.

**Fairview Samantha 18F**

We have been producing these Fleckvieh hybrid bulls for a number of years now. We often cross our fleck bulls on our red and black cows but now have used Warrior on some fleck cows for the same result. This cross provides hybrid vigour as the fleckvieh and purebred bloodlines are unrelated. In addition we see added muscle, hair and overall performance and some chrome with the blaze face. Commander is a thick made bull with a big square hip and lots of length. His dam is a beautiful uddered Phantom daughter going back to our Sering donor cow. We are very hard on our fall calving cows as we only want a certain number of them, so have confidence these two bulls are top caliber bulls.

**Sire Lots 106 & 107:**

**MRL Sysco 14D**

Chisel is a super stout, soggy beef bull packed full of meat and muscle. He has the hair, the nuts and the dark red color that we strive to produce. We were fortunate to acquire semen on his sire, MRL Sysco from Spring Lake Simmentals. If you build your herd around cow families like we do, this bull comes from a highly productive one. Our Erica (E) cow family is the largest in our herd and the foundation of our red program. Chisel's dam is quickly proving herself as a top female in our herd with her first two calves and she has another real good Sysco bull calf at her side now. Chisel checks all the boxes for us in a herd bull search and you will drive many miles to find a bull this good.

Rhino is the last of our Sysco sons and comes from a direct daughter of the Erica cow. His dam is still producing at 13 years of age and has maintained a good udder all these years. Rhino is square hiped, heavy haired and soft made. He is the only dilutor bull in our offering so is best used on some red, buckskin or white cows. Expect Rhino to sire steers that push down the scale and long lasting, easy keeping females.

**Sire:**  
**Crossroad Warrior 131F**

Warrior is the thickest, most powerful red bull we have used. He is very impressive in the flesh with his muscle mass and overall width. We are very pleased with his daughters as they are big bodied, easy keeping, and nice uddered females. Soldier is much like his sire with his wide top, deep quarter and is huge middled. His dam is a broody, nice uddered Cobra daughter going back to our Minny (M) cow family. An all-around herd bull here that will be easy to find on sale day.

Another big middled, soggy Warrior son that will be just over a year of age come sale day. Cross Bow was one of the top ranked bulls at weaning and carries some impressive performance EPDs. He is a ¾ brother to Soldier as his dam is from the Minny cow family. Warrior has proven himself to be an easy calver with unassisted, trouble free calves and average birth weights. At a young age his calves display the muscle and thickness true to the sire group. Teale Farms at Tisdale have a full brother from our 2021 sale.

Hitman is a moderate smooth made Philosophy son out of a first calf heifer. Philosophy has been used in many herds across Canada and is proving to combine calving ease with performance in making highly marketable progeny. Hitman would work very well on a group of young cows for his calving ease yet still siring enough performance for his calves to fit in with the rest of the herd.

**113**

**Sire:**  
**WS Epic E152**

Glory is a long spined, deep bodied, well balanced Epic son. Starting off at 75 lbs and weaning over 800 lbs, we were very impressed with the job his dam did on her first calf. She is a nice uddered Sleep Easy daughter going back to one of our top black cows, 79Y who had a perfect udder and strong foot all her years. With Sleep Easy and Epic in the pedigree, his 275 gestation and EPDs well above breed average, Glory could be suitable for a group of heifers while also having performance to work on mature cows.

**Sire**  
**LFE Nighthawk**

We purchased a trio of black heifers from Northern Lights at their sale in 2020 and are very pleased with their first calves. Stealth is smooth made, deep quartered with nice head and overall eye appeal. He is free moving and walks on a good strong hoof. His sire is the calving ease specialist, Night Hawk so along with his low birth weight and CE & BW EPDs he would be suitable for the heifer pen. Every year as we put together the catalogue we consider which bulls could be a fit to use in our program. With his outcross pedigree and calving ease potential, Stealth is one we have been talking about and will certainly be following as he goes to his new home.

**Maternal Brother:  
Fairview Interest 114G**

Magnitude is part of a new sire group for us. In 2020 we were looking for a powerful black bull to add to our program. We selected Eclipse from Rendezvous Farms for his huge middle, big hip, heavy hair coat and overall power. His dam is a beautiful uddered, deep bodied Mandako daughter so that sealed the deal.

Magnitude is a long spined, heavy muscled bull that has a lot of potential. Combining the power, hair and maturity of Eclipse with our Karma cow family this bull will produce a solid set of calves and will put some chrome on them too.

Lunar is another stout made, Eclipse son providing our customers a different pedigree twist for their next red herdsire. We've had customers tell us at times there are only a few bulls they can choose from that aren't related to the ones they have bought in the past. In this year's sale you will see a number of new sire groups providing diversity and choice for your next herdsire. The 92E is a very productive Zeus daughter, with her first two sons being high sellers to Keith & Jodi Blight and Greg Bodnar.

Crater is a loose made, broad topped herd bull prospect with a balanced set of EPDs. He is the youngest bull in the sale but was the 2nd ranked bull at weaning with an 864 lb adjusted weight. His dam is a terrific young Grand Prix daughter who's mother is also the dam of lot 109 and part of the Erica cow family. Another bull packed full of performance and maternal power.

**117**

**118**

**Sire:**  
**Rendezvous Eclipse 366G**

Solar is one of the stoutest made bulls in the pen who is big hipped, deep bodied and heavy haired. He has been a standout since birth with his sharp blaze face and his fleck influence dam did a whale of a job on him as her first calf. She has another Eclipse bull calf this year and he looks promising. Solar has a real herd bull presence about him and is a black bull we think will have lots of attention on sale day.

**Fairview Ideal 89G**

One of the best features of Eclipse calves is their exceptional vigour at birth. I have noted in my calving book on some of his calves "born standing up". Within mere minutes the calves are stumbling around and in short order they are having their first suck. This certainly makes calving season a breeze. Flare will impress you with his muscle, power and overall shear mass. He is one of the biggest nutted bulls in the pen and he will add hair and even some chrome to his calves.

**Sire:**  
**BEE Phantom 79B**

Padlock is a big barreled, heavy haired bull that is super stout with a real herd bull presence about him. Phantom had a specialty making these meaty beef bulls when crossed with our red and black cows. We have sold many, many fleck influence bulls over the years and they are a favorite with our customers. This is perhaps the last opportunity to buy a Phantom son so take a close look at this guy as he is real good.

**Grandsire:**  
**MRL Sleep Easy**

Eclipse has sure sired a consistent set of bulls for us his first season. Broad topped, deep ribbed, with a full quarter is how I would describe Eclipse as a mature herd bull and Stellar is true to this description as well. His dam is another daughter of the 79Y cow and a full sister to the dam of lot 113. I would expect all of these Eclipse sons to sire calves with moderate birth weights and above average performance.

**121**

# Notes

## Terms and Conditions

### Terms:

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### Bidding:

Each animal will sell to the highest bidder. In the case of a dispute, bidding will be reopened between the parties involved in the dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

### Announcements:

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

### Breeder's Guarantee:

Should any bull fourteen (14) months of age or over fail to prove a breeder after being used on females known to be breeders, the matter shall be reported in writing to the seller within six (6) months following the date of purchase or six (6) months after the bull has reached fourteen (14) months of age. The seller will have the right and privilege of six (6) months to prove the bull a breeder. No guarantee is given that semen collected from the bull will freeze.

### Exception Guarantee:

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

### Certificate of Registration:

Each animal will carry papers issued by the Canadian Charolais, Angus, Simmental, and Gelbvieh Associations. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### Health:

All animals in the sale have met all necessary health requirements.

### Liabilities:

All persons attend the sale at their own risk. The seller, facility owner and sale

manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made here under.

### Rights & Obligations:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

### Phone, Mail, Wire Bids:

Bidders unable to attend the sale may phone, wire or mail their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### Delivery:

We will assist in making transportation arrangements outside MB and SK. All costs are the responsibility of the buyer. You may be asked to take your bull early if the truck is in your area. Each animal becomes the risk of the purchaser as soon as sold.

### Insurance:

Will be available sale day. We strongly recommend that insurance is purchased for full value.

### Errors:

All announcements at sale time, written or oral, supersede any written material in the catalogue.
