

BAR-E-L

Angus

*Bull & Select Female
Sale*

Thursday **MARCH 10** 2022
2 PM at the Ranch, Stettler, AB

Welcome to... **BAR-E-L**

Welcome to our annual Bull and Female Sale.

This sale represents some of the most advanced and consistent genetics to date. We never rest in pursuing a premier product to offer you, our customers.

The progeny of ALCATRAZ has earned worldwide admiration! His first daughters confirm and complete the picture of an exceptional breeding bull. In addition, we have the first progeny from our 2020 high sellers, ROYAL MINT and CUSTOM MADE. They are worthy of your appraisal.

We continue to invest in superior breeding stock to add to our program. BAR-E-L GUNNER 3G, BC ROBUST 0807, SAV RENOVATION, BROOKING FIREBRAND have all expanded genetics available to you and will deliver a positive result.

The open heifers are deep in quality and out of the heart of our replacement heifers. They will become excellent mothers and additions to your herds.

With the extreme challenges of the 2021 growing season, the difficulties of acquiring adequate grass and forage only magnified. We, as cattlemen, were reminded of our appreciation of easy fleshing and efficient cattle more than ever!

Although weaning weights were off from other years, these cattle have expressed their ability to perform on a low-energy diet with significant gains. Our bulls receive a balanced high roughage ration designed to express an animal's potential while maintaining and minimizing exterior fat. Our goal is for these cattle to be fertile and meet your expectations of a long-term investment.

We think this Bull Sale line-up has the genetic punch to move you closer to achieving objectives within your herd.

Stop by and view the offering any time before sale day for a closer look!

We certainly appreciate your interest in the BAR-E-L program. If we can be of further assistance in any way, be sure to call.

A Bull For your Budget

CALVING EASE

To help you select the best bull for your operation, all bulls have been rated with the following system.

The criteria used to evaluate the bulls:

1. Actual birth weight
2. Consistency of birth weight of sire's calves as a group
3. Consistency of birth weight of dam's calves
4. Consistency of calving ease of sire and dam - build of the calf

Recommendations:

- ★ Recommended for mature cows
- ★★ Recommended for cows or larger framed heifers that were not big at birth
- ★★★ Recommended for heifers

Keep in mind 50% of your calf's birth weight relates back to his mother's birth weight.

Calving Ease Score Criteria

Welcome to the Bar-E-L Angus Bull & Female Sale at the farm. OBI Livestock Ltd. is very pleased to be working with the entire Longshore family on their Annual Bull & Select Female Sale.

Bar-E-L Angus continues to be a leader in the Canadian Angus Fraternity with sourcing top end herdsires that combine with one of the best cow herds in the land. The consistency in these brood matrons is second to none. The udder quality, broodiness and overall capacity shows all the time and effort put into developing this program.

As I toured the bull pen this year, the word that comes to is consistency. A word that will always be associated with Bar-E-L Angus cattle. This year the sire groups are sure ones to take a serious look at. Alcatraz, Robust, Colossal, Firebrand, Real Estate and Custom Made head the line ups. They have loads of hair, full of muscle, structurally built well, travel so freely and are a very docile set of bulls. A pen of bulls that is a must see this year.

The open heifers on offer are sure to impress as well. When touring last fall and seeing the group of bred heifers you understand quickly what you can obtain at this year's event.

OBI Livestock Ltd. are very familiar with the sale offering, so please do not hesitate to call myself or visit any member of the sale staff. See you sale day!

OBI Livestock Ltd.

OBI Welcome

Bohrson Team Welcome

Dave & Lynne Longshore are very well known in the livestock industry for being some of the most talented and knowledgeable breeders in the business. The Bar-E-L program that the Longshore family has built over decades is one of the very best production cowherds that you can find anywhere in the world. The cattle flat our work and the people behind them are even better as they stand behind their product 100% and pride themselves on their customers' success.

The set of bulls in this year's event are worth the trip, no matter the distance as you'll be impressed with the strength in numbers. Foot quality, muscle, dimension, style and overall completeness is evident and it is of no surprise as they are produced from one of the most beautiful sets of cows in the Angus business. The production cows at Bar-E-L are awesome in their design as they are strong udder, highly maternal in their design and flat out bring the product in each and every year propelling this herd forward. You can see the strength in maternal greatness in this set of open females that sell as well because they are selected from the very top of the keeper pen to showcase the strength of females also offered from Bar-E-L on top of the bulls.

We have a great amount of respect for this program as their breeding decisions have resulted in many of the most influential breeding pieces in the breed today. It has been decades of hard work, passion and integrity to establish this herd where it is and it once again has resulted in what we feel to be the best sets of sons and daughters they have ever sold. We encourage you to visit with the Longshore family more on their offering and join us on sale day. If you can't make it, feel free to contact any of the staff but we anticipate you'll be joining us for a great set of cattle on offer from a highly respected program.

Best regards The Bohrson Marketing Team

It's such a pleasure working with Dave & Lynne of Bar EL Angus. The passion and commitment to the seedstock industry never waivers on their ranch. It's where elite genetics are managed under ranch conditions to produce a product accepted around the globe.

The bull feeding program is built to maximize forage utilization and gut health; they are developed on grass with their moms on a strict mineral program. All the forages are sampled and analyzed to ensure quality forages are used. Once the calves are weaned, they are slowly moved onto a balanced

TMR. The bulls are challenged with a forage-based TMR to help them develop and express their genetic potential. Matching suitable protein sources with proper starch is key to promoting lean muscle growth. Organic minerals are used to ensure proper immune function and overall health.

If you have any questions about the nutrition program, please feel free to reach out. Buy with confidence knowing the bulls have been developed on a balanced nutrition program. Good luck on sale day.

TERMS OF SALE

Cash or Cheque payable sale day. Each animal becomes the risk of the purchaser as soon as sold. Bulls are developed free of charge until delivery that begins in April.

FERTILITY

All bulls will be palpated, scrotal measured and semen tested prior to the sale by our veterinarian. Scrotal measurements and any bull with a deferred score will be noted sale day. All bulls selling will pass a semen evaluation prior to delivery.

ABSOLUTELY 100% GUARANTEED

We guarantee to provide you with a sound breeding bull, capable of passing a semen test within 14 months of age. Bulls are not guaranteed to freeze semen. If you have a problem with your bull, please notify us immediately.

IN-HERD SEMEN

BAR-E-L reserves the right to draw semen for in-herd use – at our expense – at the buyer's convenience – on any bull in the sale.

CERTIFICATE OF REGISTRY

A certificate of registration will be transferred to the buyer for each registered animal after complete and full payment has been made.

IDENTIFICATION

CCIA digital frequency buttons will be in their ear plus a Lot tag corresponding to the catalogue.

INSURANCE

Will be available sale day and buyers are encouraged to purchase insurance.

ANNOUNCEMENTS

Errors in this catalogue will be corrected by announcements from the block at sale time and such corrections will take precedence over any printed matter. Any disputes will be settled by the Auctioneer.

BUYER REGISTRATION

Buyers please register for a buyer number prior to purchasing.

HEALTH

All cattle are on the PHIZER GOLD vaccination program and treated with IVOMEK.

ACCIDENTS

Although every precaution is taken, neither sale staff or the owners will assume any responsibility, and disclaims any liability, legal or otherwise for any reason.

DELIVERY

Free delivery for bulls within a 200 mile radius of the ranch, usually to your corral. When time on the road is a factor, bulls delivered further will be to central locations, or the nearest port of entry to the USA, on purchases \$4000 or more. Deliveries beyond the Saskatchewan/Manitoba border will be on a cost share basis.

SAV RENOVATION 6822
Sire to GODFATHER 143J,
BLACK GOLD 145J &
LIKE THE KING 153J

GODFATHER 143J, BLACK GOLD 145J, and LIKE THE KING 153J are three flush brothers sired by S AV RENOVATION 6822 and from a great cow in TOP LINE LADY 102. We had seven calves born from eight embryos in this flush. We think the heifer calves look very maternal and are sure to prove to be beautiful cows when they come into production. We have eight females in the herd from TOP LINE LADY 102.

We consider all three brothers 2-star calving ease, keeping in mind they are ET calves.

We think these RENOVATION sons will pass on this powerful maternal strength to their progeny. These sons are younger bulls, early March born. They balance performance, soundness of structure, and maternal excellence all in one package.

DAM

- GEORGINA 161'19, selected at the 2020 Angus Collection Sale from Belvin Angus. She represented a different pedigree for our program, and we look forward to her contribution.
- SITZ MAJOR is a low birth calving ease sire with exceptional maternal values.
- GEORGINA 1J should replicate her dam's maternal excellence.

SITZ MAJOR 707F
Sire of GEORGINA 1J

- We love the progeny from BC ROBUST. This female is one of our best, full of power, rib, and maternal goodness.
- The BLACKBIRDS represent near-perfect udder structure, level udder, small teat; they last for years!
- The BLACKBIRDS have produced some of our best, including a \$30,000 half-interest sale topper.

- One of the feature females from this year's crop of replacements.
- MARY 29J has the power and rib capacity admired by most.
- As you look further into the pedigree, we find the breeding and consistency in the MR TIBBS daughters as a generation improvement from INTERNATIONAL. They are all moderate in frame, consistent in udder quality, foot score, and mild temperament.
- We are proud to have bred ROYAL MINT and are confident that MARY 29J is one of his best to date.

HF MAYFLOWER 191Z Dam of ALCATRAZ

ALCATRAZ In the spring of 2019, a bull named ALCATRAZ was on the radar of most in the Angus business. He was one of the outstanding prospects available. We pursued the idea of purchasing him from Hamilton Farms, so we teamed up with the Kornfelds from Val Marie, Saskatchewan, as well as the 'Guards of Alcatraz' group. We were successful! We purchased him for \$200,000 for 1/2 interest, thought to be a Canadian record at the time. He instantly became the talk of the Angus breed in Canada. Semen is still a hot commodity averaging \$500 per straw on limited distribution.

ALCATRAZ is incredible! He is sound, with a big foot, athletic, powerful body type, great hair, and has a pleasing, docile temperament. His progeny are born easy - heifer friendly - grow fast and weigh up at weaning.

The ALCATRAZ sons are masculine with a fertile look and excellent scrotal development.

His daughters are calving now. All reports indicate exceptional milk flow and beautiful well-placed udders.

We could not be happier with the contribution he has had to our program and look forward to breeders' success around the world who have purchased semen.

BC ROBUST 0807 was bred by Bill and Donna Conley at BC Angus. Introduced to the public at the 2016 National Junior Angus Show, ROBUST showed alongside his dam. Interesting to note, his grand dam showed that day as well. These facts speak volumes of the maternal power bred into ROBUST. He was the lead-off bull in a Champion Pen of Bull at the 2017 National Stock Show. ROBUST is a powerful footed bull with a big hip, body length, masculinity, and dense power. Mature weight 2480 lbs. Both his sons and daughters are consistent with what we see in ROBUST. We think he is an excellent tool for the industry.
