# BLUE COLLAR BULL SALE

## WELCOME

The Blue Collar Bull Sale catalogue presented to you comes with high accolades in regards to the genetics put forth by the Burkell and Frick families! Hard working outfits that like many other operations across Canada are family owned and certainly family run. All hands on deck make the wheels go round throughout the year ensuring all the efforts are made to raise cattle that are healthy, sound and ready to go on to their new owners ready for work.

The hurdles to clear to make it to sale day for the bulls is an ongoing process that starts the day they're born with a birthweight and is monitored throughout the year with a focus on structure and balance that is a marketable product and will suit the needs for you the buyer. With that a high number of repeat customers make the Blue Collar Bull Sale an annual event to secure the genetics needed for their herds going forward. The plentiful snow looks promising for a great start to the spring and has given some optimism for the agricultural sector! With that join us on April 9th for the sale where there is a select group of breeding heifers that will sell ahead of the bulls. Any questions feel welcome to contact the consignors, myself or any of the sale staff with any questions you might have!

See you sale day!

Welcome to the 16th Annual Blue Collar Bull Sale. The Blue Collar group hopes that all is well with you and your family. Life seems to always try to hand us lemons. It has been quite a crazy year with weather. Our winter has certainly been full of snow, which we are very thankful for, wind and cold temperatures. Each of these have presented day to day challenges and frustrations for sure. Old man winter and mother nature have really teamed up to beat us up pretty good. Spring is just around the corner, Right?

This past summer there was widespread drought across much of western Canada, forest fires, crop failures, feed shortages... to Covid restrictions, truckers convoys and political unrest in parts to the world. Commodity prices have seen record highs with folks locking in crops at double and triple the rates previously seen. Producers have also seen record prices for fertilizer and chemicals, shortages in supplies of items and lack of workers to support the farmers and businesses.

For little ole hayseeds like ourselves from Rhein, Sk and Duff, Sk. not much really changes from day to day. We don't wear masks to work, fear being bombed and the day-to-day operations of our business remain constant despite pricing increases, supply uncertainties and any worldwide turmoil's. Despite being handed lemons at times we, producers in agriculture, tend to be some of the most optimistic people in the world. Saying things like, "Its gotta rain sometime", "Droughts don't typically last that long", "Next year will be better." Oh that last one also applies if you are an Oilers or Roughriders fan. LOL!

The Blue Collar group is very excited and optimistic about the livestock industry as cattle prices seem to be on the rise. The snow and potential run off look promising. We are one good moisture filled growing season from wonderful things happening in farming again. We are very excited to have the opportunity for our sale to return to "Normal". The sale will be a live sale with things wide open as far as attendance and restrictions. We hope to pack the barn so to speak and look forward to having you sitting in the stands and bidding on a Blue Collar animal. Please remember that DLMS will still be a tool you can use to watch and bid on, you can also do phone bidding with any staff member or Blue Collar member or you are welcome to proxy bid too.

We would like to welcome, Irving Angus-John and Keri Irving and Family, as guest consignors of 5 wonderful yearling Angus heifers. The Irving's present to you sound, deep bodied and eye appealing females. These heifers are located at Northern View Angus for presale viewing.

Throughout the catalogue you will find an entire host of information to aid you in your bull or heifer selection. There are footnotes, pictures, pedigrees, weights, sire and dam information... Please feel free to contact any one of us for more information or stop by our farms to view the bulls prior to the sale.

The Blue Collar Bull Sale Group would like to thank the following for their contribution to the success of our sale:

- Everyone who attended last year's sale, our bidders and buyers.
- All our friends and family who helped us before, during and after the sale.
- All our sponsors/advertisers - We do business with all of them and recommend you give them a try to.
- To Castlerock Marketing, Hugh Elliot, Levi Hull and the Heartland Staff's and all our friends for their work on our sale.

We believe that we have a solid and supportive team who can work to make sure that you are well taken care of and your livestock needs are met. Please contact any member of the Blue Collar Group or the sales staff with any questions to help you select the animals to meet your needs.

Once again, we are going to start our sale with seven groups of 3 commercial heifers. Many of these heifers come from bulls that have been purchased from the Bull Collar consignors. Look to increase the productivity of your cow herd with these quality genetics.

We would also like to make you aware that Trustmark Agencies from Melville, will be on hand sale day to assist you with the insurance of your purchases. As breeders we will support you, the buyer, in every way we can to ensure our cattle work. However, there are unforeseen events which occur, like illness, injury, or death, which the buyer and seller cannot control or guarantee. For situations like this there is insurance. We strongly recommend you insure all your livestock purchases but want you to insure any cattle which will be going home to our respective farms for a while. Please refer to back of catalogue for all sale conditions.

We take pride in the fact that we have an increased number of repeat customers. Please refer to the list of last years Blue Collar purchasers at the back of the catalogue. We truly enjoy the connections and socialization which is involved with our customers and the cattle business. We would like to invite you to give us a call or drop by our farms for a visit any time.

Consider this your invitation to come to Heartland in Yorkton on Thursday, April 7th from 3PM-7PM and Friday, April 8th from 9AM to 7PM for a viewing of the cattle and fellowship. On Sale Day, Saturday, April 9th cattle can be viewed beginning at 10 am. We will be having a lunch on sale day from 11 am to sale time.

See you at the Sale,  
**Blue Collar Sale Group**

Weather is a wonderful conversation starter in Saskatchewan. "Boy the wind is brutal." "It's a damp cold." "Crap do we have a lot of snow." Snow is a blessing and a curse. With the dry years we have had here since 2016 it is great to see this much snow to fill dugouts and sloughs but holy moly the processor is busy bedding, and the straw stack is taking a beating. Daily snow shoveling, pushing and blowing but we are still very thankful. We just had another blizzard here and it made banks as high as the 10-foot slab fences and drifted over the rail fence. We went outside to check cattle during this blizzard at 9 PM. You could not see 6 feet in front of you. When this happens, you figure your gonna wake up to some dead calves, but the little Angus buggers are tough as hell and hunker down in the straw and the Angus momma cows know where to put them.

The Angus cows are the most important part of what we do. The best cows we can raise, or purchase are the key to longevity and survival in the cattle business. Cows that will lay down and have a calf, get up, nearly lick the hair off the calf and ensure that calf has nursed, are essential here. It is important that these cows are complete manageable before and after calving. Once these cows have calved, they must raise a productive, sound and highly functional animal that can be used as a replacement heifer, breeding bull or, at the end of the day, sell well at the market. You will note that I mention our cows in the footnotes of the bulls. We have been and continue to work on our cow herds development. We need great cows to do the job we want. Cows that are just good enough are not good enough. We strive to have cows that are beyond simply good enough.

We also, strive to utilize the best bulls we can find via AI or with walking bulls. When I select bulls to use, we need adequate scrotal development, calving ease, strong phenotype, ample growth and strong maternal qualities. It is my belief that failing to plan is planning to fail. Consequently, our breeding program is carefully thought out and researched. Mating's are thoroughly explored, analyzed and planned. Consequently, we hope to produce top quality seedstock.

This year we have Scheifelbein Attractive, SAV Renovation, GAR SureFire, SAV Rainfall, High Point Cache, Paintrock Trapper and Woodhill Blue Print are AI Sires we selected. In addition, we have some very strong herd bulls that have produced some top end bulls in this sale. Our own herd bulls include Northern View Super Duty 89F, Northern View Compass 108D, Northern View Inferno 84G and CorVet Milk Dud 21E have produced very competitive progeny.

We have really worked on not pushing our bulls. Our goal is to have each bull actually gain 3-3.5lbs per day. Feeding them a ration of 1% of their body weight in grain/supplement and the balance of their ration with brome, timothy, orchard grass and millet hay. The hay is of excellent quality this year. We monitor the feed intake of our bulls to ensure no overfeeding and to promote a sound growing bull that will work for you for the long term. They have free choice Masterfeeds Maxi lick tubs to promote scrotal development, semen quality and structural soundness. The bulls are raised in large pens and/or pasture areas to allow for ample room to wander, rumble and explore.

I have catalogued our bulls in sire groups and in numerical order of when they were born within that group. The oldest bull is first, and the youngest bull is last of that sire group

See you soon!  
Troy

**We are retaining a 1/3 semen interest in all our bulls unless otherwise stated. This does not impact you owning the bull, the rights to walk the bull or the salvage value on the bull. All it means that if at some point we would like to draw semen for in herd use we would arrange at your convenience and our expense to do so.**

# NORTHERN VIEW ANGUS

WOODHILL **BLUEPRINT** 2077742

Lot 2

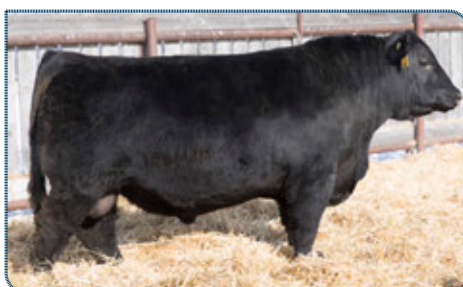

Northern View **GAME PLAN** 127J

Here is a bull with loads of shape and muscle. This bull is always up in your business as his temperament is tremendous. This bull is in the top 8% for birth weight. We used Blueprint because of his outstanding phenotype, strong set of highly accurate weight EPD's and lower birth weight appeal. Blueprint's pedigree is a unique outcross too. Game Plan 127J's dam produces wonderful sons and daughters. Her calves always have great shape and always have sound structure. We have a stunning Beauty 121B daughter working for us. A maternal brother sold to Sheidaghan Angus, Maple Creek from in the 2020 Blue Collar. Look to Game Plan to sire lower birth weight calves that really grow. This bull is halter broke. *Recommended for heifers.*

## Schiefelbein **ATTRACTIVE** 4565

Attractive is exactly that. He is known for his great hip, added shape and mass. We are super impressed with his progeny here. His calves have tremendous loin and complete tops and awesome overall balance. His calves have oodles of hair. Attractive's progeny are becoming increasingly more popular and selling for big dollars throughout North America. If you google Attractive and watch the videos posted there you will see a younger and older version. It is really cool to see the younger Attractive video because the apples don't fall far from the tree with this sire. Watching the older Attractive video is exciting as we are able to see what his bull calves will look like in the future. The neat thing is he is not just a bull maker sire, his daughters are producing for us now and are great moms with excellent structure, balanced beautiful udders. Our fourth crop of Attractive calves have hit the ground and we intend on using him for a fifth consecutive year. Last year Attractive bull sold in the Blue Collar to J & S Angus, Kenaston, Sk

This Bull is full of growth and performance. He was a high-performance calf from day one. His 13 year old dam milked extremely well and grew this calf to wean off extremely well. Stellar 76J is a smooth made bull with lots of character and a modest birth weight. Ruth 87W has had 10 calves here. All have either been used as a replacement or sold as a bull through the Blue Collar.

Ruth 87W is a typical Ruth with great feet, a wonderful udder and produces progeny with style and go. She has had 6 bulls that averaged 87lb bw, 877lbs, ww and 1342lbs yw. Pretty solid numbers I'd say. Last year's Blue Collar maternal brother sold to Mike Fuchs, Vibank, Sk.

This bull has calving ease numbers but I would recommend trying him on second calvers and cows the first year just to ensure he could be used on heifers in the future. In the Angus breed, 76J is in the top 1% for weaning and top 4% for yearling weight. Style, pounds and structure with Stellar 76J.

You want a bull that was born light and simply exploded into a real load then this is the guy. He is in the top 1% for weaning and yearling weights. Which is real impressive for his birth weight numbers. Stellar 77J has lots of hair, great feet and legs and a gentle nature. I really appreciate the fact that this bull is so powerful but is extremely smooth made in and through his front end.

His J Edgar Hoover dam, 111C has been a terrific cow with wonderful feet, gorgeous udder and super temperament. Talon has a full sister to 77J that has had her first calf. She appears to be following in her mother's footsteps.

Stellar 77J is a moderate calving ease bull that Thunder and J Edgar Hoover in his pedigree. I would try him on second calvers and older to field test him for a pure calving easy bull. If you want to purchase a bull that will produce females to retain and build with this is your bull.

This bull is halter broke.

This is a smooth made, long bodied and eye appealing bull. He has very good feet and legs. When I look at this bull, I really appreciate the top and loin in him. Stellar 91J is out of one of Talon's favorite cows in Susan 122B. Susan 122B, his dam, is a beautiful cow with great udder-ideal teat size and length and it is level. She has great feet and legs too. Susan has been designated a CAA elite dam. She just kicked out a full sister to 91J that will be retained in our herd for sure. This young cow has 6 calves and 5 grand calves. She has three daughters working in our herd. Susan has had 3 bull calves that have all gone through the Blue Collar. These three bulls all averaged 84lbs for BW, 911lbs for WW and 1344lbs for YW. If you want calves that come out moderate and then really grow, consider this bull. Last years bull was the high seller to Clement Cote Farm, Chauvin, Alberta. This bull is halter broke.

Stellar 103J is a moderate birth weight bull with good punch. He gained well after birth at a rate of over 3.5lbs a day. 103J is ranked in the top 3% for weaning and 1% for yearling weights. This bull has lots of depth, attractive style, great feet and legs with lots of scrotal to him. Stellar 103J's dam is one of our deepest, thickest bodied females. She milks well and has produced great. She is the grandmother to lot 21. This bull is halter broke. We have a maternal sister working for us and there is one at Gutzke Ranch, Weyburn, Sk.. This bull should be able to put depth and performance in his calves and adding great replacements to your herd. This bull is halter broke.

JS Tibbie 423B  
Dam

Lot 7

Northern View **STELLAR** 105J

If you are looking to add more hair to your cattle, this guy is a furry beast. He is extremely well made with tonnes of style, eye appeal and presence. When you see this guy you will notice his deep side, deep quarter and excellent top which are all initiated from a very good calving ease head, neck and shoulder. This heifer bull has BW in the top 5% of the breed and follows that up with very impressive weaning and yearling weights in the top 10% of the breed. Stellar 105J is out of a beautifully uddered, good footed powerful South Dakota \* Annie K cow. A maternal daughter just calved out for us and is doing very well here. This bull is halter broke and **recommended for use on heifers.**

We selected Trapper as an AI sire here because of the mass he possesses, the scrotal development and his unique outcross pedigree. Trapper has clean front end, tonnes of length and great shape. All these qualities he tends to pass onto his calves. We have a paternal sister working for us. She calved out this spring and is a great mom and doing a great job raising her calf.

Trapper 120J is a thick, muscular bull with great phenotype. When I see this bull at the feed bunk, hay feeder or straw pack his shape and his presences draw your eye to him. This bulls dam, Queen 341Z, has been a perennial powerhouse in production of shapely calving ease bulls. A maternal brother, "Timmy", sold to CorVet Cattle Co in the 2020 Blue Collar. Timmy has proven to be an excellent calving ease bull for Cory. Queen 341Z is the grandmother to the lot 5 bull.

Look for Trapper 120J to produce powerful shapely bull/steers and gorgeous and structurally sound females to add to your replacement pen. With a 75lb birth weight and a -1.1 birth weight epd, there should be easy sleeping nights for you when you calve out heifers bred to Trapper 120J. **Recommended for heifers.**

Doc Holiday is a calf that came to us in dam from Hollinger's. His dam, Miss Marion 793E is owned with Brewer Acres, Melville, Sk. She is a gorgeous cow backed by a wonderful cow family. 64J's grandmother 20R is a major donor cow for HLC. Miss Marion 20R's progeny have sold with numerous bull calves selling to several breeders. Doc Holiday 64J is a smooth made bull with a nice loin and top. Very good scrotal development here. Look to this bull to work well on cows and produce solid replacement females.

Compass 151J is a March born calf with lots of hair and eye appeal. He will work well to produce females for you. He is backed by two elite dams, Atalanta 88X, on the top of pedigree and Ruth 84S on the bottom of the pedigree. This bull has very solid structure in his feet and legs. Compass 151J's sire is a long spined powerful bull. We have Compass daughters working for us and doing great. Bryan Elashuk, Wroxton, Sk. Purchased a beautiful Compass daughter from us last fall. She calved out at the end of February and Bryan reports that she is super mom with a great udder and terrific temperament. His dam, Ruth 109D, is a beautifully ured cow with tonnes of depth and mass. Wonderful cow bull here.

**CORVET MILK DUD** 21E "Cory", as we affectionately call him, is impressive in his massive muscularity and shape. We have used Cory successfully on cows and heifers. He always produces calves with wonderful shape and style. Cory's disposition is second to none. He is very easy to work with and even hard to move sometimes. LOL!

Bull's Eye 130J has wonderful shape, muscular expression and design. "Longer than a wet week." For those of you who remember what that is. He may be one of the longest bodied bulls in our offering. When he stands and stretches on the straw pack I am drawn to his great hind quarter and deep body. Bull's Eye 130J is structurally sound and has a bucket of nuts under him. His dam, Belle 107B, has now had 7 bull calves, never a heifer. These bulls have had an average weaning weight of 832lbs and yearling weight of 1301lbs.

Here is a bull that was born from a first calf heifer. I really appreciate this guy's shape and hair coat. Bull's Eye 145J looks a lot like his sire, which is a very good thing. Very nice hip on this guy. This bull has a unique pedigree with real power bulls, Harvester and Consensus, and the calving ease stars, Special Focus and Epic. It should be noted that this bull is out of a Ruth. Each Ruth has been excellent and 93G is no exception. She will be a long-term producer here.

NORTHERN VIEW **INFERNO** 84G

Inferno 84G is a home raised Resistol son we managed to retain in interest in with our partners, Venture Farms, Roblin, MB. This bull as longed bodied as they come, high performance, great footed and big nutted. His temperament is extremely good too. The fact that 84G is backed by our maternal powerhouse, Ruth 84S, CAA elite dam is an added bonus. The Ruth/Resistol combination made us very interested in using this bull for ourselves.

If you are looking for a bull to add some pounds and punch to your calves this could be the guy. Nitrous 133J is a hairy bull with lots of length. Resistol, Upward and Net Worth possess muscle and jam, while the Ruth influence adds to the feminine side of things. Atalanta 72A is a deep bodied powerful cow that produces each and every year. She has had 6 bull calves which have entered the world at a modest 85lbs but grown to an average weaning weight of 904lbs and yearling weight of 1378lbs. Both weights in the top 6% and 3% respectively. Impressive growth and power here for sure. Malinowski Farms, Yorkton and East Point Cattle Co. Melville purchased Maternal brothers in past Blue Collars.

**78F maternal brother sold to East Point Cattle Co, Melville Sk.**

Nitrous 148J is a bull with good pin width, strong loin and good muscle expression. This full bodied bull is our of a great young cow, Beauty 87D, aka Sophie. Sophie is a Resource daughter that has an excellent udder, sound feet and legs and tremendous disposition. We have 4 Resource daughter working extremely well for us. Nitrous 148J is a sound, quiet bull with calving ease in his numbers and genetics. Last year's maternal brother sold in the Blue Collar to Gail & Dale Minhinick, Invermay, Sk. **Recommended for heifers.**

**99H Maternal Bros Sold to Gail/Dale Minhinick, Invermay, Sk.**

# NORTHERN VIEW ANGUS

SAV **RAINFALL** 6846

We decided to utilize Rainfall as a calving ease expert because of his reportedly sound structure, performance and shape he puts in his calves. The calving ease component has been excellent for us. The daughters we have are beautiful wedge fronted females with lots of volume and excellent quarter and hip. We are excited to breed and calve out these beauties.

Lot 15

Northern View **RUN AND GUN** 85J

A calving ease bull with that herd bull presence for sure. I have always loved this fellas shape. He constantly draws your eye with his smooth thick body, large rump and a broad crest. This bull is royally bred top and bottom of his pedigree. The top of pedigree has the female makers in Charlo and Traveller 004, while the bottom is loaded with calving ease and more female makers in Resistol, Thunder and of course, A RUTH. The females that we have had from these genetics have been awesome for us. We are using a Resistol son from Ruth 84S, his calves sell as lots 13 and 14. A stunning Ruth daughter sold last December as the high selling heifer calf to Big Rock Ranch, Clavet, Sk. At the Touch of Class in Saskatoon. This bull should calve like a dream with a 60lb birth weight and a -1.1 epd. Then with his weight numbers, produce shapely, powerful bulls/steers that weigh up come sale time. Take note of his performance numbers. I wouldn't be surprised if this guy would sire competitive show cattle too. I feel like I shouldn't have to say this, but I will. The daughters from this guy should be lights out. Keep everyone and build a nucleus of wonderful females in your herd. This bull is halter broke. **Recommended for heifers.**

Performance, presence and personality. As you can see the moderate birth weight numbers with powerful growth to weaning and yearling numbers. Run and Gun 87J is in the top 3% for weaning weight and 4% for yearling weigh. This bull has earned the nick name Raymond and "Everybody Loves Raymond." He is literally a pain in the butt in his attention seeking behavior. Even as a calf he would come up to you looking for a pet or be licking at you. He has tremendous temperament. Raymond stands out in terms of his depth of body, awesome length of spine and terrific loin. His feet and legs are excellent too. Raymond's young dam is going to be a top end female here. She rebred quickly and has a promising Super Duty calf on her now. Beauty 116G has two maternal sisters working hard in our herd too. Another sister was purchased by Marie and Hank Franken, Rivers, MB. She has calved out and is doing very well for them. Raymond will produce moderate birth weight calves that grow and produce for your wallet and herd development. This bull is halter broke.

In the immortal word of Tim the Tool Man Taylor, "More Power". Rumble 83J is full of more performance power and maternal power. This guy is a massive and impressive bull in every way. His weaning weight is in the top 1% of the breed, his yearling weight is in the top 2% of the breed. The length, depth and width of this bull make him a standout. Rumble 83J is out of two attractive parents known for producing functional and productive bulls and heifers. Laura 113Z is cow that is excellent footed, beautifully uddered and extremely mild mannered. Laura has a set of twin, full sib heifer calves on her. She has milk to burn and these heifer calves are doing very well. A full sister is working at Perrot Cattle Co., Alameda, Sk. Sounds like she is doing well for them. A maternal brother sold to Venture Farms in last year's Blue Collar. If I'm looking for a very complete bull that has fantastic performance and great maternal qualities, Rumble 83J would be a great choice. This bull is halter broke.

This is the bull we call "VORTEX". The reason is simply that at about 4 weeks old he froze his ears a bit during the Polar Vortex of 2021 and lost a bit of ear. This the only thing missing from this bull. I assure you that his calves will be born with ears. Rumble 118J is a light birth weight bull with lots of grow to him. His length of spine and shape stand out in the pen. Missie 81X is a perfect footed cow. We have two daughters from Missie working very well for us. She has had 4 bull calves averaging 898lbs at weaning and 1385lbs at yearling. Last years maternal brother sold to Homestead Angus, Youngstown, Alberta. Rumble 118J is halter broke. This bull has calving easy all over him and *I believe should work well on heifers.*

## NORTHERN VIEW **SUPER DUTY** 89F

If you have read my footnotes on Super Duty 89F, AKA "Neil", you will know that we are super thrilled with this young home-grown sire. On his own, Neil, stands out. He is deep sided, exceptionally good footed, has a pail full of nuts, calves out beautifully, calves are full of piss and vinegar and his cattle have loads of eye appeal. Anyone you talk to about a bull will tell you that the proof of their real value is when their daughters start producing. Well, guess what? Neil's seven daughters have calves hitting the ground here at Northern View. All we can say is WOW!. These young girls have simply exceeded expectations. First of all, they calve well and mother up very well. Secondly, their udders are terrific, maybe some of the best udders of any of our breds. They do not hold a back seat to the cows from AI sires we have used that are supposed to have fantastic udders. Thirdly, these daughters are raising their calves with really good growth in the calves even at a month and two months of age. Finally, the temperament of these cattle is outstanding.

Neil has worked himself into the position of our go to sire for all cows we don't AI. He gets a select group of cows, all first calvers, any cow with twins and any cow that calves after February 28th. Neil is not simply a clean up bull, he is a breed leading bull for us. Last spring he was with 40-45 cows and will see similar action this spring. At last year's Blue Collar, Neil's bulls were well received. I have followed up with the breeders who purchased Neil's bulls in 2021. Two of them have started calving before catalogue publication. They are very pleased with the calves, reporting that these calves come out easy and are up trying to nurse in literally minutes. We are very pleased with this feedback but to be honest not overly surprised. Neil's dam, Princess 99Z, is an elite dam. If you go onto the CAA website and search her you will see the wonderful record she has had for us. We have a daughter in production for us and she is doing great here. An astute cattleman said to me this fall, "Neil doesn't blow you away in any one category but simply does everything well." I guess that is what blows us away, he does everything well. This past fall we sold a daughter in the touch of class sale in Saskatoon. She garnered a great deal of attention and sold as the highest selling heifer ever sold from Northern View. Big Rock Ranch, Clavet, SK. Purchased this beauty.

Buy Neil's sons with confidence that they will likely perform for you as Neil and his daughters have for us.

**80J Daughter of 89F that sold to Big Rock Ranch, Clavet Sk. In the Touch of Class 2021**

Lot 21

## Northern View **SUPER DUTY** 102J

Super Duty 102J grows more impressive with each passing day. His hair coat, depth of body, hip and quarter shape as well as overall eye appeal draw me in. This bull came into this world with oodles of vigor and grew at a rate of 3.45lbs per day to yearling weight. A real curve bender type of bull with a low calving ease birth weight and impressive weaning and yearling weights. Super Duty 102J is out of a beautiful young Tibbie daughter from our Vision Unanimous herd sire 80C. This lineage of Tibbies originated from J & S Angus. This bull is a grandson to the dam of lot 6. With a 78lb birth weight and 1.1 birth epd this bull comes **recommended for heifers**.

This bull is likely the Super Duty with the most frame to him, but he wears it well. He is a powerful bull with calving ease appeal. This bull has lots of length of body, great hair coat and is smooth made. Super Duty 117J is out of Annie K 130Z who is a beautiful and productive cow. She has had 6 progeny go on to work as breeding stock and her 2020 Blue Collar offering sold to Rose Bank Angus. Calving ease with performance here. *Recommended for heifers.*

Super Duty 123J is a bull that I would describe in one word-Balance. He has a balanced set of numbers that start with excellent birth numbers and then into very nice yearling and weaning weights. This bull is balanced in his dimensions in depth, width, head shape and size and foot shape and size make him very appealing. Susan 136D is a beautiful dam that is very deep bodied and structurally superior. You will notice that the maternal power in this bull is very cool. He has an elite dam in the top and bottom of his pedigree with Princess 99Z on the top and Susan 122B on the bottom. Super Duty 123J should be a bull that creates eye appealing calves with lots of shape and structurally soundness. *Recommended for heifers.*

When I look and think of this powerhouse I am reminded of the phrase, "I have never been paid for the daylight under an animal yet!" This resonates with me because this guy is simply filled with red meat, deep and soggy as they come. His power only adds to his overall eye appeal and design. Belle 117B is a very deep bodied cow that has two daughters working for Talon here. When you see this bull, you will truly appreciate his overall dimension, smooth made features and ridiculous temperament. We call this guy Calvin. Note that Calvin is halter broke. He had the numbers to be a heifer bull, but I would recommend field testing him on 2nd calvers and older for the first year. This bull would be a competitive show bull too.

Cool shape to this guy. Maybe the most muscle and shape of all the Super Duty's from a young calf on. He is thick in everyway. This calving ease bull has shown that he can grow and develop well on feed too gain 3.57lbs per day to yearling weight. Super Duty 138J has a birth weight and EPD placing him in the top 15% of the breed. Look for light sleek calves that have loads of vigor. Super Duty 138J's calves should have excellent shape and muscle in them producing more pounds for sale day. **Recommended for heifers.**

Wonderful depth of body on this calving ease curve bender. Super Duty 140J came out small and lively with a tremendous will to live. You will notice his low birth numbers in the top 6% of the breed coupled with weight numbers all in the top 20% of the breed. When you analyze this bull's pedigree you will see that Thunder appears in the top and bottom of the pedigree as do the Elite Dams in 99Z and 84S. Both these old girls just keep rolling along here. The footnotes on these cows and their progeny nearly write themselves. I know many of you have heard me talk about the Thunder daughters here and the productivity of them. When Thunder appears twice in a pedigree you can take it to the bank that you should keep all daughters from that bull. Ruth 88A is simply a gorgeous, massive volume Angus cow that is easy on the eyes and produces wonderfully. Last year's Ruth 88A offering sold through the Blue Collar to Venture Farms, Roblin, MB. **Recommended for heifers.**

Grab a hold of another calving ease Ruth\*Super Duty combination here. This bull is moderate in his size but powerful in his birth weight and growth numbers. This bull is one that would be usable on heifers for several years. His dam is a very nice young Ruth cow that is powerful and deep. Take a good look at this bull for your calving ease needs. **Recommended for heifers.**

# NORTHERN VIEW ANGUS

## GAR SUREFIRE

We were looking for a calving ease bull to use on heifers that would be nice outcross pedigree and proven EPD's. That lead us to Surefire. He is a calving ease specialist for sure. I always use bulls with solid scrotal numbers as important sire selection epd. Surefire females are also known to be good cows with excellent udders. There are only 50 Surefire progeny in Canada, so with his outcross pedigree and high accuracy in epd profile he is a Surefire producer in any herd.

Rapid Fire calves should be exactly that from this long spined, deep sided excellent calving ease bull. In the dictionary under calving ease I'm sure there is a picture of 79J. He is nicely headed and smooth shouldered bull with great legs and feet. Rapid Fire 79J is a bull with a huge negative birth epd and a fantastic growth package to follow. Susan 90G is a wonderful young cow that put everything she had into this calf. Like all Susan's she has great udder and sound feet and legs. She will be a cow that we look to be a perennial rock star producer here. Rapid Fire 79J's grandmother is the dam to lot 5. This cow is a CAA elite dam. "Sleep easy", "Catcher's Mitt" cliché phrases would be used to describe this guy calving ease prowess. Calving ease in the top 1% of the breed. **Recommended for heifers.**

Rapid Fire 114J is another calving ease specialist out of a gorgeous young Rosebud female. This bull has the numbers and desired calving ease build with a perfect head, narrow shoulders and a long frame. Good feet and legs on this bull too. Rosebud 104G is a beautiful young cow that appears to have a great future here. Her fertility appears very high as she calved in January in year one and again in year two. A maternal brother to 104G out of our Super Duty 89F bull, was highly sought after in last year's Blue Collar. He was eventually secured by Spilchuk Farms, Ituna, Sk. All reports from Colin are that the calves come out fast, lively and nurse in a "hell of a hurry". Rapid Fire 114J is ranked in the top 10% of the breed in calving ease but follows up in the top 3 % for weaning and yearling weights. **Recommended for heifers.**

Our family would like to welcome you to the 16th Annual Blue Collar Bull Sale. Hard to believe its been 16 years already! We have truly enjoyed working with Northern View Angus and all of our past guest consignors to bring this sale to you.

First, we would like to thank our past and present customers. You are the reason we continue to work hard to offer these bulls and we are proud to see our bulls working on your farms!

We have on offer a wide variety of genetics, including Reign, DL Dually, Cowboy Up, Attractive, Geddes and Bravo just to name a few. We are continually searching for new sire groups that will provide moderate birth weights as well as growth to the weaning and yearling stages. We also run a small feedlot operation, so we understand the need to have performance bred into these calves for when they go to market.

These bulls are on a full vaccination program and our feed nutritionist works with us to test our feed to ensure the bulls are getting the nutrition required to develop into mature bulls.

We stand behind our bulls 100% and are proud of our offering. We will work with our customers to ensure their breeding needs are met should any concerns arise.

We would also like to thank our family and friends who help us sale day in the barns and in the office! We appreciate all of your help! If you wish to view the bulls prior to the sale, the farm is always open and you are more than welcome to stop by.

This high performance individual has a 205 weight of 840 lbs, a 365 weight of 1463 lbs, and is definitely a pen favourite. We purchased a small amount of Big Top semen and will be retaining all of the daughters for ourselves. He is the #1 REA bull in the Angus breed born in 2018. 42A has been designated a Premier Dam with 6 calves and 4 grand calves registered under her that are above the breed average in weaning weight EPD's. We have retained all of her daughters and she breeds back first cycle every year.

HALL **BIG TOP** 840

# PARKWOOD FARM

Resource is known for siring body dimension, fleshing ease, muscle thickness, and breed character. 22J has good growth, abundance of muscle, and a gentle disposition. If you are looking to raise some impressive uddered, sound footed females this is the right bull for you. 140T is 15 years of age, has successfully raised 14 calves with 6 females being retained in our herd.

The Irvings – John M. and Keri, Logan, Jones and Jeena  
RR#1 Box 48  
Lumsden, Saskatchewan  
S0G 3C0

Welcome to the 16th Annual Blue Collar Bull (and open heifer!) Sale. We would like to thank the Blue Collar Sale Group for extending the opportunity for our family to showcase five Irving Angus open heifers representing four of our time-tested female lines. These heifers have all been selected from our replacement pen and have received Tasvax 8, Pyramid 5,

and Ivomec application. The heifers were moved to Northern View Angus on January 30 to allow time to settle in prior to sale, and to reduce travel stress.

The Irving homestead was established in the Disley, SK area in 1898, and we farm and ranch on that same land today. Our farm has always included a commercial cattle herd, and a purebred angus herd was added in 2000. Throughout our 22 years as Irving Angus, Blue Collar Bulls have played a big part in the design and functionality of our herd. Pasture guardian Northern View Pioneer 20Z completed an eight-year run for us. When he finally left the farm, he looked as stately and powerful as ever.

We are grateful to these proud, dedicated angus breeders, and thankful for the friendships that have grown through cattle (and education). We are hopeful that as you review what is an impressive group of Blue Collar bulls, you also find a moment to give these girls a little attention!

John M., Keri, Logan, Jones, and Jeena Irving

Rosebud 7J is the 6th calf, and first daughter of Irving Angus Rosebud 8B. Rosebud 8B has produced three impressive Northern View Pioneer 20Z sons, and a Bell Upward 31B son who sold to Ray and Diane Deaust of Shamrock, SK. The sire of Rosebud 7J, Dispatcher 414D, was purchased from South View Ranch at Ceylon, SK to bring strong maternal characteristics into our herd. His dam, and grand dam to Rosebud 7J, was designated a Canadian Angus Elite female. We have also found that the Widespread 12S breeding continues to show up in our most durable, productive females. Rosebud 7J is a moderate frame heifer with ample thickness, who brings the potential of solid maternal production.

	-	-	-	-	-		88	910	-

Irving Angus Lady Lee 10J is an impressive Kodiak 13B female, with excellent size and capacity. A full brother was our high selling bull last year, going to Wade and Jacquie Straub of Craik, SK. 10J's dam, Lady Lee 39C is a deep, big volume SVR Super Duty female who is certainly hitting her stride. If you are looking for a female who will be strong and around for the long haul – Lady Lee 10J is worth consideration.

## Irving Angus **LADY LEE** 13J

Lot 61	2202960	IRV 13J	27/02/2021	FEMALE					
SVR NET WORTH 322B		SVR NET WORTH 359Z							
SVR DISPATCHER 414D 1938602		SVR MADONNA 332U							
SVR ANNIE 337S		SVR CONNECTION 221P							
		SVR ANNIE 247N							
		CAR IDEAL 061

IRVING ANGUS IDEAL LADY LEE 7Z 1668975		ISLA BANK MOHAMED 23L							
IRV LADY LEE 3R		WWF STOCKMAN LADY LEE 100J							
EPD	BW	WW	YW	MCE	Milk	ACC	BW	Feb 22	Adj. 365
	-	-	-	-	-		90	915	-

Lady Lee 13J is an eye-catching Dispatcher 414D female, with the added influence of Crescent Creek Ideal 105U. Her dam, Lady Lee 7Z is an example of a long-running angus cow with excellent udder conformation and strong timber. 13J is well-proportioned front to back, straight top, and feminine in design.

## Irving Angus **PRIDE** 26J

Lot 62	2203045	IRV 26J	07/03/2021	FEMALE					
SVR KODIAK 406Y		GEIS KODIAK 115'09							
IRVING ANGUS KODIAK 13B 1804863		SVR ROYAL QUEEN 368T

IRVING ANGUS PRIDE 31B 1801435		IRV ALI 8P							
IRV ULTRA PRIDE 4S		LAMB'S QUARTERS PRIDE 81L							
EPD	BW	WW	YW	MCE	Milk	ACC	BW	Feb 22	Adj. 365
	-	-	-	-	-		84	875	-

Irving Angus Pride 26J is a Kodiak 13B daughter with extra pop in the hind quarter. Our Pride cow line all trace back to our original purchase of Lamb's Quarters Pride 81L, who we felt stood out for strength of hind quarter, and as time has gone by, this has become the Pride trademark within our herd. A full sister was retained in the herd last year. If you are looking for a sweet female with a little extra musculature in the rump that is sure to translate into added pounds on her calves, 26J should bring a nice combination of maternal features and strong structure.

## Irving Angus **LADY MCHENRY** 30J

Lot 63	2203048	IRV 30J	13/03/2021	FEMALE					
SVR KODIAK 406Y		GEIS KODIAK 115'09

EPD	BW	WW	YW	MCE	Milk	ACC	BW	Feb 22	Adj. 365
	-	-	-	-	-		88	800	-

Lady McHenry 30J is the 5th calf, and 4th daughter of Irving Angus Lady McHenry 6C. A half-sister, and daughter of Northern View Effective 99C, sold to Kindred Spirit Cattle Co. of Lumsden, SK. Another half-sister has been retained in herd. The Lady McHenry cow line have consistently proven themselves to be excellent mothers with sound udder quality and milking traits. Lady McHenry 30J is a modern, stylish representation of a traditional angus bloodline.

# BLUE COLLAR BULL SALE

## TERMS & CONDITIONS

### BREEDING GUARANTEE

All cattle are sound and right, and all with a responsible breeder guarantee of satisfaction. In the event of any unlikely dispute, the regular terms and conditions, standard with the Canadian Angus Association shall apply.

### WARRANTY

Blue Collar consignors guarantee to sell you a bull that is structurally sound and has passed a semen test performed by a licensed veterinarian. Should the bull fail to perform as a satisfactory breeder (unable to service cow or heifer) he will be replaced with a bull of equal value. If this is not possible an adjustment will be made to reflect the value of the bull or a credit will be given towards the purchase of another bull. We guarantee to provide you with a breeding bull for the season. We will not however provide replacement or adjustment for death, physical injury or mismanagement. Claims must be made by September 1 of year of purchase. With this in mind, we cannot stress enough the importance of insurance on your bull purchases.

### INSURANCE

Insurance agents will be available sale day, or you can make other insurance arrangements through your own agent. Insurance must be purchased on all bulls that return to the respective farms.

### SIGHT UNSEEN PROGRAM

Tell us your requirements and we'll select bulls that meet those orders. If you are not 100% satisfied when the trailer is in your yard, you don't own him, no questions asked.

### DELIVERY

If you pick up your bull sale day or the day after, you will receive \$100 off the purchase price of your bull. We will work with you to get your bull to your farm free of charge within 100 miles. Delivery time, date and location of bull will be negotiated between buyer and seller. We try to coordinate delivery based on bulls going to certain parts of the world. We will have a trailer heading to your area prior to when you want to start using the bull. Please work with us to receive your bull when we can get him there. If you cannot take the bull when we have a trailer coming to your area, we would appreciate contacting us to make arrangements to pick up your bull.

Bulls going over 100 miles from our respective farms may have transportation charges applied to the delivery of your bull. These charges will be worked out between buyer and seller. We ask that all bulls be received/picked up prior to June 1. Bulls returning to consignor's farm will be kept until May 1 at no cost with a \$2/day cost after May 1.

### TERMS OF SALE

Cash or cheque at par, payable to clerks of the sale on sale day, unless prior arrangements have been made. No release will be given until satisfactory settlement has been made.

**\*\* All persons who attend the sale do so at their own risk and the owners, sale management and sale staff assume no liability, legal or otherwise, for property loss or for any accidents that may occur.**
