FROM THE DESK AT T BAR...

Welcome to the 6th Annual Cattle Capital Bull and Female Sale on Friday, March 25, 2022, at the Sunville Simmental Ranch headquarters, McCreary, Manitoba. This event is presented by Sunville Simmentals with fullblood and purebred Simmental bulls and females and Overby Stock Farm with a set of two-year-old Gelbvieh bulls.

For those who are serious about raising strong good quality livestock, the lineup for the Cattle Capital bulls need your attention. The fullblood bulls from Sunville are stout meat machines... full of muscle, depth of body, lots of hair and testicle, they are designed to add pounds to your calves at weaning with little fuss. The purebred bulls are polled and red... like their pens mates, they are tanky with volume, muscle, shape, and style... added value sires. The genetics are right and diverse, offering many choices for your next herd sire.

The Sunville Simmental females are foundation material. Half sisters to the bulls, they will make great replacements whether you are a commercial producer or a purebred breeder. Owning these heifers will add value to your herd.

Overby Stock Farm has a top group of two-year-old Gelbvieh bulls for your inspection. Mostly homo polled, these April through June two's will cover more cows, more rugged ground and you will keep all their daughters. These bulls are deep, chunky with plenty of muscle and hair.

Stop by the farms prior the sale and preview the bulls and their mothers or feel free to give Duane or Neil a call to review the bulls and see which bulls will fit in your operation.

Plan to be with us at McCreary Manitoba on March 25th for your Simmental or Gelbvieh needs whether it be with us in person, online or on the phone. We have graded the entire offering so feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

See you at Sunville Simmentals,

OVERBY STOCK FARM

Welcome cattle producers to our 6th annual sale! Once again, we have an offering consisting of April – June born two-year-old Gelbvieh and Balancer bulls raised right, built for the conditions of Manitoba's North Parkland. All bulls are parent verified by DNA, this gives producers peace of mind knowing that they are receiving exactly what they are purchasing. It also allows us to use a more intensive grazing system by running larger, multi sire groups to improve our grass management. All bulls are also horned/poled tested with most testing Homo Polled. We have some exciting new sire groups this year that will fill the needs of many producers; we have given a description of every sire for producers to familiarize themselves with the new genetics. Overall, we strive for our cattle to be efficient because our location has less margin for error than many areas in Western Canada due to the area's agricultural limitations at times. Thanks for taking the time to go through our consignments and feel free to reach out if there are any questions!

Sale Feature! 74H is a son of National Champion SLC Strut 146E that provides so many intriguing qualities. Length of spine, fluidity and foot structure are exceptional on 74H, over and above of his pure mass and herd bull presence. Also note that his dam OSF 4Z is sired by SLC 512T, a bull who revolutionized our program. OSF 4Z is also the dam of OSF 34D, an ascending female in our herd that we will speak about with her son also being in the sale. Note the age on this bull! For comparison, 74H is only 6 months older than many of the yearling bulls producers will evaluate this spring. HOMO POLLED.

Proven Commodity! 68H is another Strut son that patterns similarly to bull ahead of him. Why wouldn't he, they're ¾ brothers after all! His dam OSF 4A has been as consistent as they come having a high selling son in our sale a few years ago and multiple replacement females currently in the herd. You'll notice the age on the Strut calves, in year one we didn't have him until second cycle but we're very excited about the large group of sale bulls coming up next year.
