Welcome to our 21st Anniversary Sale

2021 was a year for us like no other. Last March, we were blessed with a successful bull sale and we thank you all for your continued support of our program. In the spring, we received an abundance of rain which gave us great crops and plenty of feed. Our calf crop was also strong; we now have a solid set of bulls for you to pick from and we are excited about that!

At the end of June, Sherry retired from teaching school after 30 years of service in that profession. Shortly after, she was hit with a condition known as Serotonin Syndrome and we almost lost her in Emergency twice in July. We are so grateful for the prayers from our family and community. At the same time, we found out my mother had pancreatic cancer and we had to say a heart wrenching goodbye to her a short two weeks later. Her funeral was held on August 5 and thankfully, we were able to have a large celebration of life in her honor.

This past Fall, we took a deep breath and enjoyed having that extra cup of coffee together in the mornings. These moments are precious and this year has reminded us once again not to take them for granted. However, in October, our world was turned upside down again when our daughter, Annie, was diagnosed with Hodgkin's lymphoma cancer. She has been a brave soul and is about halfway through her treatments. We are trusting God for Annie's complete recovery from this disease.

Annie is still very involved with and passionate about raising quality purebred cattle at Diamond C Ranch. In fact, Annie did the lion's share of the work required to put this catalog together for us. She was disappointed that we kept her home from participating in cattle shows this year, but is excited about being on the show road next Fall! Her husband, Bryce is super supportive and a big help here at Diamond C Ranch. We also welcome some of Bryce's bulls to the sale which explains the different tattoos on some of the bulls. Our son, Braeden is in his third year of apprenticing at John Deere and we sure appreciate his positive approach to life and extra help servicing our farm equipment.

We'd like to extend a big THANK YOU to our family, community and God for being with us through the amazing and awful of 2021. We deeply appreciate the prayers, love and support we have received. We truly are not alone on this life journey.

Our bull offering is lower in numbers this year due to higher cull rates in previous years on the cow end of things. Our herd is getting to be so even and that was our goal. We truly do not know which cow is going to bring in our best calf and the result is a higher quality of bulls for you to pick from. As always, there is a selection of performance bulls, heifer bulls, reds and blacks and some powerful Limflex bulls.

Our cows are loved and cared for, but not pampered. They are treated just as our commercial cows were before our jump to purebreds 22 years ago. Again, we have hired Bullseye Nutrition and we thank Doug Roxburg for working to ensure that the bulls are fed right for you. We were very fortunate to harvest the highest quality of feed we have ever put up, so the bulls are in optimum condition.

We invite you to give us a call and schedule a tour of the bulls so you can see them at your pace. We're here and we have time for that extra cup of coffee! :) As well, we will host an Open House on Sunday, March 13, 2022. On March 14 - Sale day, Sherry and her crew will be serving some Diamond C Ranch beef for all.

**See you then...Put A Diamond in your Herd!
Neil & Sherry, Braeden & Sara, Bryce & Annie**

How to Participate in our Diamond C Sale This Year...

Being as this is our third time through the “Covid” sale experience, we want to assure you that we have it covered. We are going to try to keep the sale as “normal” as possible. However, we recognize the need for flexibility and, most importantly, we want you to feel comfortable and safe.

We have 3 options available for you to be part of the sale:

1. **In Person Bidding** – You’re always welcome to attend our sale in person! We’ll provide lunch at 12PM with lots of space for social distancing, servers and sanitizer. The sale will follow at 1:30 PM.
2. **Internet Bidding** - We are happy to again be working with VJV who handles all our online bidding at www.vjvauction.com. You can log in there to bid on the sale offerings.
3. **Phone Bidding** – We will have a capable team available on sale day to take your call. Their phone numbers are listed in the front of the catalog. If possible, please let Neil or Annie know in advance, so that we can coordinate callers and be available for you.

Note: If you are unable to attend the sale in person and are going to use any of the off-site options, we recommend that you watch the videos of each individual bull on our website, www.diamondcranchlimousin.com. Give us a call and we will go over the offering with you and help you select the bulls that fit your needs.

If you would like to stop by and preview the bulls, we are happy to arrange time that is convenient. We again will be hosting an **Open House on Sunday, March 13 from 1-4 pm** to give more time for bull reflection.

So with that, we invite you to our **21st Annual Diamond C Bull Sale at 1:30 pm, Monday, March 14, 2022.**

“Put a Diamond in Your Herd!”

Remembering...

our dear Grandma Olga
August 18, 1941 - July 26, 2021
and her sister, Erika
February 3, 1940 - March 18, 2014

Over the years, Olga and her sister, Erika, gave so much love and support to us. As little girls, they had survived harrowing conditions in Poland as World War 2 blazed around them. They knew what it was like to have their farm taken away, their neighbors turn on them, to go hungry and live in a refugee camp. They never ever took for granted the freedoms that we have experienced in Canada and they poured their hearts into their family and community with food, hard work, love and prayers. For EVERY bull sale for the past 21 years, we had an abundance of buns, apple pies and angel food cakes with raspberry sauce. As well, they would bring meals for the work crews getting everything ready for the sale and then stay to help clean up! What we miss most of all is their love and prayers covering us...it comforts our hearts to know that they are together in the presence of Jesus with no more pain, no more fear. Rest in Peace God's faithful servants.

Herd Health & Nutrition

Nutrition

During the winter months, cows and bred heifers are fed a mix of cereal silage and haylage. Mineral is supplied in the ration as well as free choice trace mineral salt with selenium. In addition, straw is also supplied in the ration as well as free choice. This is to ensure their rumen is working well and to add extra calcium into their diet. In the summer, the cows are moved to paddocks where they graze usually until weaning.

Bulls are grown out slowly, so they will last for you. This year they are being fed a mixture of cereal silage and haylage, with the addition of barley grain. They are started on this ration in September. After the bull sale they are taken slowly off of the grain, so as to get them ready to transition to grass. Two-year-old bulls are lightly backgrounded the first winter and go to grass until September. Then they are brought home and started on their sale ration. The yearling bulls are targeted for a 1250 lbs. yearling weight average at bull sale day.

Disease Prevention and Animal Care

All of the animals are cared for with the utmost quality. Cattle always have access to shelter or wind fences. They are not overcrowded and have room to move around freely for exercise. When an animal is stressed, they are brought in and dealt with promptly in an appropriate, ethical manner.

We work closely with Dr Kelly Loree of Central Vet Clinic in Ponoka. He oversees Diamond C Ranch herd health and has been involved with us for many years.

Our vaccination program is as follows:

Calves First 24 hours

"I have worked with Neil and Sherry at Diamond C Ranch for many years and I have always found them to be extremely dedicated and conscientious managers. Their animal care and attention to detail is second to none and they are always seeking ways to improve their program. I have been consistently impressed by the quality of the Diamond C animals and I wouldn't hesitate to recommend them to anyone."

Sincerely,
Dr. Kelly Loree DVM

Breeding Soundness, Bull and Female Evaluation

There are many bulls in this year's lineup that are at the very top of the Limousin breed or cattle industry and will definitely enhance your program.

We calve two groups of females. Group one calves in January/February and these calves are weaned near the end of August. The bulls from this group are retained and make up the yearling bulls for our sale. Group two calves in April/May and are weaned near the end of November. The bulls from this group make up the majority of bulls in the two-year-old pen.

All bulls are evaluated for breeding and structural soundness, as well getting scrotal measurements and evaluated for sperm quality. All are required to pass with 70% soundness. A copy of breeding soundness will be provided with your bill of sale.

In the event of a deferred decision, only half of the purchase amount will be required on sale day. The other half is due when the bull passes his evaluation. In an event he does not pass his test, all money will be reimbursed to the purchaser.

Females are evaluated for structural soundness and are tracked to watch productivity. Females that do not measure up are removed from the herd.

Hard to believe it's bull sale time already. This year, the crew at Diamond C Ranch Limousin have been hard at work putting together a great set of yearling and 2yr old bulls. In the early fall, we tested the farm forages and built specific diets for the developing bulls. Although forage volumes were short this year across the provinces, the forage quality was very good at Diamond C. We could blend on-farm forages with some added grain and a custom bull mineral package to develop these bulls to their best genetic potential. The bulls are developed on grass during the summer months and then moved onto a balanced TMR that promotes lean muscle. The bulls are challenged with a forage-based TMR to help them develop their genetic potential. Organic minerals are used to ensure proper immune function and overall health. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck on sale day!

Reference Sires

Diamond C Goldmember NSC 60G

As soon as this bull was born, we had high hopes for Diamond C Goldmember. His sire, Diamond C Earthquake, is a tremendous breeding bull carrying the genetics of the great Braveheart. Earthquake is working hard for Crest Hills Cattle Company of Provost. Goldmember's dam is Diamond C Zaharra who is one of our top cows and the mating was perfect. He is homo-polled, long spined, deep bodied and has exceptional muscle. He sires super quiet progeny that have thickness, great hair coats and great feet. His females should be fantastic and have wonderful udders. We have used Goldmember heavily and so far, he has not disappointed. The first year he saw the heifer pen and calved great. This year we are calving cows from him as he saw the lions share of our early calving group. Our intention is that this great bull will be walking our pastures for a long time. **Reference Sire of Lot 10**

Diamond C Gold Rush NSC 36G

Diamond C Gold Rush is a herd sire we raised. He was the lead bull calf out of our first calving group in 2019. His sire is Greenwood Double Down and he is out of a beautiful Final Time daughter. He was the best son out of Double Down. He's homo-polled, has tons of middle and muscle, moves very well and has lots of depth of heel on his feet. He is a very good footed bull and you can expect that with his progeny. He is super quiet and he throws that as well. This guy was a Diamond C Ranch keeper and we hope to be selling sons from him for a long time. **Reference Sire of Lots 2, 6 & 13**

Diamond C Exciter NSC 63E

Exciter is arguably the best son out of the awesome bull Diamond C Way Cool. He was our best bull out of the 2018 calf crop and is out of a dam who had a picture perfect udder. He excelled in every area and we are thrilled with his offering. He was hetero-polled, hence why some of his sons are horned: a small sacrifice on moving forward with excellence. Unfortunately, there will not be many more sons from him as we lost him due to an injury. **Reference Sire of Lots 1, 3-5, 7-9, 11, 12, 14-17, 22-31 & 33**

DMM Stache 14C

Stache is a herd sire who keeps bringing great ones to the plate at Diamond C Ranch. We have females milking now and they are very hard to flaw; they have picture perfect udders, are deep bodied and very correct. He has left his mark on our program and is sadly getting older, so it's time to invest in his great legacy!

Reference Sire of Lots 35-38

DIAMOND C RANCH BULL SALE 2022

TERMS & CONDITIONS TERMS:

The terms of this sale are cash or cheque in Canadian Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

ABSENTEE BIDS:

Mailed or telephone bids shall be handled in the most confidential manner if you are unable to attend the sale in person.

INSURANCE:

Ownership risk to purchaser commences when the auctioneer's hammer falls. Insurance is available at the sale.

ANNOUNCEMENTS:

Any announcement made from the auction block takes precedence over the printed matter in the catalogue.

CERTIFICATES:

If desired, certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made. Please leave transfer instructions at the clerk's desk.

BREEDER'S GUARANTEE:

The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound, however; the seller is not responsible for damage caused by foreign objects after the bull has been sold nor sickness that was not apparent at the time of sale.

BREEDING GUARANTEE:

We, the sellers, have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be resolved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report, in writing, to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition. Each consignor will have six months to prove the bull a breeder after the time of report. In the event a bull is a non breeder the situation will be handled by either a replacement, credit or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. At no time will a buyer's reimbursement or credit ever exceed the buyer's purchase price of the bull, semen or female. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination.

ACCIDENTS:

Although every precaution will be taken to protect the safety and comfort of buyers, neither sales management, auctioneer, nor consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of loss of property.

DELIVERY:

Bulls are able to remain at the ranch at the purchaser's risk and we strongly recommend that the bull be insured. Individual arrangements for delivery and feeding can be made by talking to Neil prior to or on sale day.

RIGHTS AND OBLIGATIONS:

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

DISCLAIMER:

While we believe the material contained in this book to be correct at the time of printing, we cannot accept responsibility to any errors herein, regardless of the cause.

TESTS:

All homo polled tests were conducted and determined by Neogen. We do not guarantee results.

Vold, Jones & Vold Auction Co. Ltd. is proud to announce that they are moving to total internet service. They are now associated with Online Ringman, the largest internet company in the world.

ONLY LIVE ELECTRONIC AUCTION THAT GIVES YOU THE LIVE RING LIVE VIDEO AND LIVE AUCTIONEER OF YOUR CATTLE
