American-International Charolais Association
Colt Keffer, Director of Industry Relations & Sales
(765) 376-8784 • ckeffer@charolaisusa.com

Terminal Sire Index

The AICA Terminal Sire Index (TSI) utilizes economic and management descriptions of your ranching operation, along with EPD on available Charolais bulls to assist in identifying the most profitable sires for your unique operation. Using economic selection index theory, this tool will generate dollar indexes per terminal progeny produced on bulls in the AICA database, ranking them for profit potential given the inputs you provide. The dollar indexes are to be interpreted much like single trait EPD. For example, if sire A's index is \$191.66 and sire B's index is \$200.00, then we would expect Sire B's offspring to average \$8.34 more net return (\$200.00 - \$191.66) than sire A's offspring.

Sire Listing Criteria

For bulls to have a Terminal Sire Index they must be registered with the American-International Charolais Association. Each bull must also have an EPD for BWT, WWT, YWT, MAT, REA, HCW, MARB and FAT.

Progeny Proven Sires

Must have sired at least 3 calves with performance data reported to AICA within the last two years and an accuracy value of .30 or higher.

Terminal Sire Index (TSI)

The AICA Terminal Sire Index (TSI) is a formal method of combing Expected Progeny Differences (EPD) - BWT, WWT, YWT, REA, HCW, MARB and FAT - into one single value on which to base selection decisions. The TSI uses estimates of the genetic relationships between traits with an economic default value based on three year rolling USDA data.

Directions to the (DCR) Doll Ranch

Going west from Bismarck, North Dakota,
I-94 west to Exit 134. Go two miles
north and one mile west.

Going east from New Salem, North Dakota,
I-94 east to Exit 134. Go two miles
north and one mile west.

Terms and Conditions

TERMS: Terms of the sale are cash or check payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing my cattle. **INSURANCE OF PURCHASES AND RISKS:** All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer. Arrangements will be made to have insurance available when making settlement. **BIDDING:** All animals sell to the high bidder. Any disputes or challenges regarding bids will be settled by the auctioneer and his decision will be final. **HEALTH AND EXPORT:** All animals sell with proper individual health certificates. **ANNOUNCEMENTS:** Any errors or changes in information contained in the catalog will be announced from the auction block, and such announcements shall take precedence over information contained herein. **GUARANTEE:** Every animal in this sale, to the best of our knowledge, is free from any disease or defect. Any known defects will be called at sale time. All animals are guaranteed breeders. If any animal fails to breed after a trial of six months, it may be returned to the seller if in good condition and have gained 1 pound per day while in possession of the buyer and in compliance with North Dakota health regulations. The seller reserves the right to try said animal for six months, and if it proves a breeder, return it to the buyer at the buyer's expense. If the animal proves to be a non-breeder, an animal of comparable rank will be substituted. All bred heifers will be pregnancy checked and results of that check announced at sale time. Females selling safe in calf are considered breeders without further guarantee. We assume no liability, legal or otherwise, to make any further compensation to the buyer. No other warranty of any nature is expressed or implied. **HEALTH:** Health of this breed is excellent. This is a Certified Brucellosis-free and Accredited Tuberculosis-free area. Females are officially calffood Bangs vaccinated. Individual health papers will be furnished for shipment anywhere. **LIABILITIES:** All persons who attend the sale do so at their own risk and the seller and sale manager assume no liability for any accidents that may occur. Neither does the sale manager assume any liability for loss of injury to livestock due to theft, mysterious disappearance, sickness, improper handling, or Act of God. It is to be clearly understood that the sale management and its representatives act only as a medium between the buyer and seller. They are not responsible in any way for any failure on the part of the buyer or seller. They are not responsible in any way for any warranties or representations, express or implied. Neither does the sale management assume any financial obligations to collect or enforce collection of monies between parties. Any legal action that may be exceptional cases be taken, must be between the buyer and seller. **CONTRACT:** The above terms and guarantee shall constitute a contract between the buyer and the seller of each animal sold. **MAIL BIDS:** Mail or wire bids may be furnished. Bids must be in the hands of the sale manager in ample time prior to sale date, and will be handled in strict confidence.

Dams of Distinction

The AICA's dam of distinction Program recognizes dams that have consistently weaned calves with above average weaning weights and have been regular producers with 380 days or less calving intervals. Since 2009 in the Doll herd.

Sterling Dams of Distinction:

Must have produced three calves by the time they are five years old. **Dolls have 110 dams**

Diamond Dam of Distinction:

Must have produced seven calves by the time they are nine years old. **Dolls have 21 dams**

For both awards, the calving must interval must be 380 days or less. Also, all calves must be weaning weight ratios of 101 or higher of the dam's average progeny weaning ratio must be 106 or higher for dams with one calf below average for weaning ratio.

Doll Charolais and Simmental Family

Dear friends and livestock producers,

I remember writing in last year's book about how happy we were to see 2020 leave and how much we were looking forward to 2021, hopeful that covid would soon be behind us, and things would go back to normal. 2021 ended up being another odd year, with the continuation of covid, and the lack of rain. Like many of you, we had to make some difficult choices through the year. We ended up selling a bunch of cow calf pairs to help take the stress off our pastures. For feed we chopped 900 acres of corn, all of ours and some of the neighbors. Thankfully we had some carryover feed. We combined our wheat (too short for hay), but we were able roll our barley into a bale. The first substantial rain came around mid-August, bringing a record hail storm that lasted 45 minutes, leaving hail piles behind that ended up flooding our shop!! We had never seen anything like it, but luckily it started to rain a little bit after that. I guess we'll be looking forward to 2022!!

Harlan and Jodie were blessed with the most beautiful gift this past March Lewis John came into our world and life has never been the same! Thomas and Hailie did SO good and are incredible parents. Thomas continues to work at the refinery in Mandan as a welder and Hailie took a new position at the Pain Treatment Center. Jacie graduated from UND this past May with her Bachelors in Social Work and continues to work at the Pain Treatment Center as well. Dylan is also a welder & is employed with Stur-D Products in Bismarck and raises cattle. Him & Jac don't sit idle for long. They spend a lot of time traveling out to Medora to ride & are enjoying life! As for Harley & I, we made it another year around the sun & life is good. We are so grateful for all God has blessed us with.

David and Donna's family is continuing to grow! We are very excited to welcome another son-in-law to the family! Katie got engaged to Wayde Eckroth and they are getting married in September of this year! Katie and Wayde are living in Mandan, and both stay busy with work; Katie is still with Starion Bank and Wayde is a lineman for MorGranSou. Krysten & Jake are living in Mandan as well and are both as busy as ever. Krysten is still employed at Bowers Excavating and has also started her own little business, Bubbles and Brews ND. Jake is now working for Aspire Homes as a project manager and is still doing his taxidermy. Their lives are going to be changing very soon as they are expecting their first baby at the end of February! We are beyond excited to welcome our first grandchild! Both David and I are enjoying life and look forward to all the changes we have coming up.

Charles and Pam have been enjoying their growing herd of grandchildren and are blessed to be able to see them often. Pam officially retired from MANY YEARS with Mandan Middle School & has been loving having the freedom to help with the grandkids more & finish up a lot of the sewing projects she has acquired through the years. Angela is the marketing director for Fyzical Therapy & Balance Centers across the state & loves it, while also doing freelance photography/consultation on the side. Braxton (10, fifth grade) and Truett (9, third grade) love to play in any sport they can and help their grandpa and uncles out on the farm. Their sister Austynn (7, 2nd grade) can't seem to go anywhere without her

toy animals and making play farms. Our oldest son Joey is still working at the ranch. He finally popped the question to Amber & his free time now consists of home improvement projects and wedding planning. They've set the date for October 1st of this year. Our youngest son Ty is still also full time on the farm. Both the boys claim to enjoy working with Harve, David and myself, but we aren't sure if they're telling us the truth. Ty's wife Blaisey is still working at Sanford Health and is enjoying the mom role so much that they welcomed their second daughter, Emery Kay, on December 7th, 2021. Their little peanut, Everly Rae (2), has become a real go getter with the most infectious and mischievous smirk. Ty and Blaisey are really enjoying the challenge. Our youngest twin Wesley and his wife Amy are enjoying their home with their dogs Ryker and Nala so much that they added a cat in addition to the guinea pigs & a hedgehog. Amy decided to take the leap & go back to college, majoring in Journalism, so she stays busy. Wesley helps keep the lights on locally by climbing poles for MDU as a lineman. In his off time, he's found a hobby in milling wood and crafting furniture with his twin Casey. Our oldest twin, Casey is working at Bullinger Tree Service as a foreman and has a passion for his trade. His other half Bobbie, is still working at Nodak Mutual. They finally welcomed sweet Quintin on July 17th, 2021 and couldn't be more in love. Their dogs, Julian and Marlee, are proving to be great siblings for the time being.

In this sale we have a powerful set of 99 Charolais bulls. This may be the most powerful set we've brought to town. The 65 Simmental are as strong a set we have ever put into our sale. We try to only use the best bloodlines in the breeds.

The bulls have been fed a TMR ration consisting of grain, corn silage, mixed chopped hay and distillers. We would like to thank J & L Nutritional Consulting from Perham, Minnesota for all his help with the rations. He will be at the sale and be will available to answer questions, as will Harlan, David, and myself.

The cattle will be at the ranch until the Thursday before the sale. Anyone is welcome to stop in and walk through them. The ranch is located west of Mandan on I-94, go to exit 134 then travel 2 miles north and one west.

Again we would like to thank you for your interest in our program. We hope to see you on sale day.

Sincerely, The Doll Family

Tested Homo Polled and P50K. Lot 1 has been a standout since birth. A ET son out of our top-selling female in our 2020 sale. We only have this one son, but what power he has. His mother sold to Wrangler Charolais, West Lock, AB. This is one that we are planning to use in our herd also. He is in the top 6% for CW; 15% for CE, BW, WW, YW, MTL, TSI; 20% Marb; 25% Milk and MCE. Plus, going back to our great donor dam T388, she has over 90 head papered to her. Plus, she has 4 ET sons and 5 grandam sons in the sale. **Retaining 1/3 semen interest.**

Did you know?

THE PERCENTAGE CALVING CHART

1. An average cow of any breed should be able to calve 7% of her body weight.
2. Most Charolais cows will weigh between 1400-1800 lb., expected calf weight to range from 98 to 126 lb.
3. Most Red Angus cows will weigh between 1200-1600 lb., expected calf weight range 84 to 112 lb.
4. Calving ease is MORE important than birth weight because a longer sided calf may calve easy, but the birth weight is higher.

7% CALVING CHART

CW WT	CALF WT
1200 lb.	84 lb.
1400 lb.	98 lb.
1600 lb.	112 lb.
1800 lb.	126 lb.
