

**NEW RED ANGUS
BULL CATALOGUE**

2022 PRIVATE TREATY BULL SALE

Welcome

Elmer, Martha & Leah Wiebe
Box 136, Hague, SK S0K 1X0
Phone: 306-381-3691

First and foremost I want to express my gratitude to each and everyone who has taken an interest in our program, put confidence in our production, purchased genetics from us; bulls, females; and supported us in every way that you have.

To the breeders that have been helpful and patient with us as we sought out our next herdbull, budget challenged as we were, Congrats on your successes and thank you for your kindness. It will be remembered!

God has been kind to us and has granted us the support of family, friends, neighbors and customers! Thank you!

As we face the future after going through our 5th year of tough drought, we came to the realization that, as our cowherd was shrinking to match our farms' carrying capacity, so it would be in the nation. There would be less demand for bulls.

We dug deep and sent some pretty good steers to town! It has left us with a smaller offering but a very high quality offering. They are anchored by Mambo 7H sons and highlighted by the first sons of our new Black R/C herdsire Dracarys 60G. We believe that these particular bulls "Up the Average" on efficiency, hardiness and maternal instincts based on less than ideal production limitations handed to them by nature. We roll with it. We accept that our weaning weights can't be the same on 4 inches of rain as on 15 inches. By choosing to not creep feed and add expense when conditions are tough, it gives you the ability to evaluate what these genetics can accomplish in hard times. Be assured they will out perform drought when the rains come!

The bulls are excellent this year and each one is bred to have the ability to sire excellent, structurally sound, productive females. Some will work well on heifers and some are more growth oriented bulls to work on cows. Remember, a Red Angus based cowherd can be crossed with any breed for an "Ideal Cross"!

We do our best to bring stability, quality and added value to your bull buying. The quality of the bulls here begets his price, therefore the best value in most situations comes from buying the best bulls you can afford. Give us a call if you need info on any particular bull, if you want to tour the pen or you wish to order your next herdbull 306-381-3691. We continue to seek to make you our happy, profitable, satisfied customer. Thank you from the bottom of our hearts, we appreciate your business!

Kind Regards,
Elmer Wiebe

Terms & Conditions

Terms

\$1,500 Deposit per bull when you select your new bull or bulls.
Balance due when delivered or picked up.

OR

PAYMENT IN FULL when selecting your new bull or bulls.

Boarding

All bulls can be boarded free until May 31, 2022. All bulls can be boarded beyond May 31, 2022 for a \$200 charge, (per bull) which will include regular delivery.

Delivery or Pick Up

1. All bulls sold in Saskatchewan, delivered free of charge. All bull purchases totaling \$5000 or more will be delivered free of charge in Alberta or Manitoba as well. Bulls to be delivered by May 31, 2022.

2. Bulls may stay longer than May 31, 2022; a \$200 charge will be added to these bulls which will include delivery.

Bull Guarantee

EKW Red Angus guarantees to sell you a bull in good health that has the ability to settle cows, is sound on his feet and will pass a semen test. Bulls will be semen tested in April prior to delivery. In case of breeding incapability, we will replace the bull with a bull of equal value. In no event does this guarantee exceed the purchase price of the bull. We take full responsibility for the bulls until the bulls are in your care, i.e.; they are loaded on your trailer or arrive at your farm.

This guarantee does not cover mismanagement, injury or death after he is in his new owner's care.

However, should an accident happen, we will do our best to get your cows bred with one of our EKW Red Angus Bulls.

Should you have a problem please call me first. I will rectify the problem.

Pedigree Estimates

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

The Bulls Ration

All bulls were fed together since weaning. Developed on green feed oat bales and corn based energy ration at 1% of body weight as well as approx 5 lb hay daily for 90 days from Dec. 1- End of Feb. This year they were on OLS tub minerals. They have had a very safe ration for health and longevity with 2/3 of their dry matter being in forage form. The forage quality was excellent in 2021.

Calving Ease Score

We evaluate each prospective herd bull for calving ease, determined by bone size, BW, CE, EPD and profile.

* Cow Bull Only.

** Cow Bull. Expect assistance if used on heifers.

*** Heifer and Cow Bull. A few assists expected on heifers.

**** Heifer Bull. True calving ease on heifers.

You will find this score on each bull lot. We hope this helps you in your selection!

Directions

2 miles North of Hague on Hwy 11, Turn
Right on Dyck Road; 5 miles East.

Turn R on Adamiwka Road, ¼ mile South.
West side of road.

Famous is a HUGE PERFORMANCE bull out of a first calver. Not surprising as he traces to Eugenie 34Y. His mother is a production machine with another exciting prospect in 2022. If you want to add length, depth and skeletal size to your net calf crop consider this bull. He will be "FAMOUS" at his new home for many years!

Here's a calving ease bull of gifted proportions. He carries a lot of muscle in a really smooth body shape. Very early maturing with excellent foot structure out of a near perfect uddered dam with exceptional teat size and placement. This is the kind of bull that will never get to heavy too use on heifers, calves extremely well and puts a lot of shape on 1st calvers calves!

This herdsire prospect is very COMPLETE. His dam is a Tuff Enuf daughter with exceptional udder shape and an excellent production record to date. We think Marked 23J will sire added length, extra style and vigor in his calves while still being mild mannered. If you like premiums on your calves own bulls like Marked 23J.

A bull that presents tremendous character along with an exceptional balance of muscle and calving ease. His flawless skeletal structure and profile are the tools needed for longevity - something he inherited from his high quality mother, Diamond Mist 8X. For disciplined 1200 - 1300 lb mature cows, Jambo 25J will be the perfect tool. Check out his awesome muzzle!

Joe Cat is beautiful on the profile. His heavy milking dam has excellent udder quality with small teats, wide spacing from front to back and welded fore udder attachment. An Emulous 32D son out of a Eugenie 34Y speaks GREAT FEMALES. A sharp looking, dark cherry red bull that will add length and growth.

We feel very blessed to walk this Angus herdsire who is a black/red carrier. Not only is this bull genetically different but he is genetically loaded with quality. His calves are full of muscle, hair, substance and performance on a right sized frame. He stands on a strong big foot. We look forward to his daughters entering production as they are big ribbed, deep bodied and good.
