Angus and Simmental

Welcome

It seems like not that long ago I was writing this same welcome for last year's catalogue. This past year has come and gone with many challenges both in agriculture but also in everyday life for all. From drought to Covid, but here we are, a new year, with new beginnings. At our place little has changed, the kids continue to grow and enjoy the freedom that comes with being on the farm. For us we had to make the hard choice of selling some commercial pairs last summer, as well as culling hard in the fall. We are down on cow numbers but kept the majority of our heifer calves, this has allowed us to reduce the average age of our cow herd, not have to purchase large amounts of feed, and to genetically advance our herd rapidly with a large amount of heifers to breed this spring.

This year we have 16 yearling bulls to offer, as well as select aged herd bulls. The Simmental bull pen is down once again with only 1 bull. However our replacement heifer pen is full of Simmental heifers. The Angus bulls are extremely consistent from top to bottom, no doubt the best group we have raised. 100% of our bulls are for sale by private treaty with nothing held back. We believe by selling these bulls off the farm we can enhance your bull buying experience, in a no nonsense, no pressure setting where you can come by anytime and tour the bull pen. We can discuss what you are looking for in a bull, and help you select the bulls that best match your needs.

With our private treaty the prices are listed in this catalogue and you can select a bull within your budget. As always our warranty and guarantee program on our bulls is that you do not need to insure your purchase for the time it is left with us. We will guarantee your purchase sound, semen tested, delivered when you are ready for them, at no charge. In the unfortunate case that a bull is injured or doesn't semen test before we deliver, there are a couple options for you. A) You can select another bull to replace that bull or B) we will lend you an aged herd bull to breed your cows this year as well as return your deposit so that you may purchase a replacement bull the following year.

We will be hosting an Open House to showcase our bullpen and to gather fellow cattlemen for a day of fellowship on February 21. Please consider this your invitation, but we would also invite you to come out any day to tour through the bull pen and cow herd. Once again we have videos completed and available on each individual bull and they can be viewed on buyagro.com.

We can be reached anytime at (306) 441-7984, to discuss your bull buying needs.

John & Apryl Grant & Family

Herd Health Plan

Bovi Shield Gold vaccinated, Blackleg,
Ultra 8 vaccinated, Ivomec, Fusogaurd vaccinated

Purchases require a 25% deposit with the remainder
due at time of delivery.

Bulls were put on creep feed Co-op bull pellets pre-weaning,
weaned September 18, 2021. Left on creep feed pellets until
late November then switched to being pail fed along with free
choice grass hay and free choice Masterfeeds mineral.

All bulls will be semen tested and purchaser will be
provided a semen soundness evaluation.

We will keep all bulls and deliver them at your
convenience at no cost.

Our Warranty is Simple

We 100% guarantee our bulls. We guarantee that you will have a
bull to breed your cows. We keep extra bulls for our customers to
use in case of a bull injury during breeding season.

Open House February 21, 2022

Videos available on
BuyAgro.com

Two years ago we first seen Maximus as a calf at Lloydminster fall show, we immediately inquired about semen sales as we felt he exemplified what we had been looking for. Admired for his dimension, stoutness, length of body, and his soundness for such a heavy muscled individual. Maximus has developed into a truly great breeding piece for Little Willow Creek & Miller Wilson. Maximus went to another level this fall being undefeated in the show ring, capturing Supreme Champion Bull over all Breeds at both Edmonton Farm Fair and Canadian Western Agribition. We have 3 sons to offer as well as 5 daughters at the top of our replacement heifer pen. His calves are consistently short gestation, have true Angus character with a small head. Sons are long, stout, and hairy, with performance and backed by an outstanding cow from the Miller Wilson program.

GRANT LODGE MIA 49E
SHEIDAGHAN MIA 115A

BW 5.0 WW 82 YW 133 MILK 30 CE -5.0 MCE 2.0

Maximus 34J is a bull that can do it all. He's packed full of performance and was our #1 weaning weight bull with a weaning ratio of 123 amongst his contemporaries. His EPD's have him in the top 1% of the breed for both WW & YW. He also has a pedigree of performance being off of a Confidence daughter stemming from the Mia cow family. While being a performance bull he is still very well balanced with a square top, thick hip, deep rib, and long

body. This bull is the most moderate framed of the 3 Maximus sons. Gestation of 282 days.

\$5,500.00

We first seen Rippin 44G in Saskatoon at the Saskatchewan Angus Sweepstakes where he was in the final 3 for title of Peoples choice Sweepstakes Champion. He was also the lead bull for Lukas Frey in his Champion Angus pen of 3 bulls at Canadian Western Agribition. We patiently awaited the LK Angus bull sale where we were able to purchase him as lead off bull for over \$15000. Rippin is sired by the highly maternal U2 Temptation and out of a Net Worth female. This is the first calf crop of Rippin genetics and we are extremely excited to share them with our customers. Look to Rippin to add depth of body, length of spine, a large foot, and hair, while adding generations of top females. 5 sons sell.

36J is a thick haired well balanced bull with a big top, deep hip, and lots of volume all in a moderate frame with exceptional feet and legs. 36J is a Rippin out of a Pfred x Alaskan daughter. This female has one of my favorite pedigrees stacked full of great females and herd sires that will offer an added layer of consistency.

\$4,500.00

Stone Cold was a sale feature at the 2019 Merit Bull sale, when the hammer fell at \$27000 we were on the winning side, partnering with Double F Cattle. Stone Cold was admired for his flawless dam, his sire's consistency, his moderate frame, heavy muscle, easy fleshing, and strong structure all in an eye appealing package. This is the second calf crop of Stone Cold sons on offer, they were very well received last year. They are consistently moderate framed, woolly haired, heavy muscled and structurally sound. His first daughters are truly impressive and are set to start calving any day now. The replacement pen is full of Stone Cold daughters, and this past summer we had Stone Cold pull double duty, sending him to breed our commercial herd right after breeding a pasture full of purebreds. 7 Sons sell.
