OFFERING A SELECTION OF YEARLING FULLBLOOD,  
RED AND BLACK SIMMENTAL BULLS

**TUESDAY, MARCH 15, 2022**

**SALE TIME 2:00 PM**

**LLOYDMINSTER EXHIBITION GROUNDS  
LLOYDMINSTER, SK**

## *From the desk at T Bar...*

Welcome to the Annual Kuntz Simmental Farm, McIntosh Livestock, SAJ Simmental Bull Sale, Tuesday March 15, 2022, at the Lloydminster Exhibition Grounds, Lloydminster, Saskatchewan. This year, this trio of dedicated breeders celebrate their 23rd annual sale... one of the oldest continuous running Simmental bull sales in Canada. The success of this event is largely due to a large repeat customer base and each breeder's progressive breeding decisions. Many breeder bulls have been sourced at this event, then gone on to impact many herds and programs.

The fullbloods offered each year have been a feature and 2022 is no different... powerful in muscle shape and design, complete with optimal birth weights to fit all types of programs. Kuntz and SAJ offer outstanding herd bull opportunities that you need to consider in your herd bull selections.

This is the strongest, most consistent offering of purebreds both red and black they have ever presented. No doubt, with McIntosh Livestock continuing their winning ways at Canadian Western Agribition, their Supreme Champion black pen will have lots of friends. But let's not overlook the many sire opportunities in the purebreds, red or black... many are homo polled, packed with value-added muscle, come with nice birth weights, tons of hair and testicle and are very eye appealing. In 2022, they have, quality, diversity, and selection... well worth the trip!

The bulls will be available for viewing the day prior the sale but feel free to stop by their farms and have a peak at their mothers. Do not hesitate to give any of these folks a call and visit about their bulls and which ones they would recommend for your breeding needs.

Plan to be with us in Lloydminster Saskatchewan for the Kuntz/McIntosh/SAJ Simmental Bull Sale whether it be with us in person, online or on the phone. We have graded the entire offering so feel free to give any of the T Bar C Team a call and we will be pleased to assist you in a professional and confidential manner with your selections.

Watch and Bid Online...

To be honest, this past summer has been one that most of us would like to forget, but farmers and ranchers will adapt and persevere. Not only would I like to take this opportunity to invite you all to our annual bull sale in Lloydminster on March 16, but I would also like to thank all of our past customers for your support in our breeding program. Your continued support is what drives us to produce the best genetics possible to allow you to prosper in the cattle business. We take pride in our cattle and our goal is that you can also be proud of the cattle that you have purchased from us.

We encourage you to come evaluate the bulls prior to the sale. Whether that is any day at the farm, where you can see the bulls and their mothers, or stop in at the Exhibition in Lloydminster where you can view them indoors on March 13, 14 and 15th.

At the time of cataloging, I am waiting on Diluter gene test results for our fullblood bulls as well as polled tests on some of the polled bulls. Those results will be available prior to the sale.

Please check our website [www.kuntzsimmentals.com](http://www.kuntzsimmentals.com) or our Facebook page for those and other updates regarding the sale.

We are located approximately 40 km south west of Battleford off Highway #29. The coffee is always on, we would love to show you around.

112	885	1568	2.9	8.1	79.6	113.2	38.9	-2.4	78.7

Kuntz Miss Moses 514C

Full Fleckvieh. Here's a bull that really grabs your attention. Jefferson is a big performance bull with exceptional length of spine. He is about as dark red as they come with huge goggles and very little white on his legs and belly. His mother is probably my favourite Fleckvieh cow. She is sound made with excellent feet, good udder, perfect colour, and a super disposition. **Non Dilutor**

Kuntz Miss Moses 517C

Kuntz Vortex 60G

Full Fleckvieh. Juror is one of the youngest bulls in our offering. His mother is a cow that cranks out herd bulls. Her last 2 sons were full brothers to Juror and they were features of the respective sales selling to Nolaria Farms and James Creek Simmentals but let's not forget her first son, Kuntz Gudas who sold to Virginia Ranch. Her production has convinced us to flush her last spring and does she ever have some exciting embryo calves on the ground this year. **Non Dilutor**

Kuntz Red Lila 912G

Jespersion is a moderate framed bull that is packed full of meat. He started out at just 76 pounds and came home with a solid weaning weight considering his mother injured her shoulder on pasture and did not recover. That was a sad day for me as she may have been my favourite heifer last year. She was a deep broody cow with a perfect udder and plenty of milk.

Jorge is a moderate framed, blaze faced bull. He is a stout, smooth made bull that is hard to miss in the bull pen. 313A is one of those never miss kind of cows. Jorge is her seventh consecutive son to make the cut and the third sired by Law. Unfortunately, that streak has been broken as she finally gave us a heifer calf this year, it took a while but she looks like she was worth the wait.

Here's a more moderate framed bull that I quite like. He is so straight in his lines with a square hip and a nicely laid in tail head. He has a sharp looking blaze faced head that is sure to grab your attention. Lawson is a solid, stout made bull with a ton of eye appeal, mothered by a strong uddered, heavy milking cow.

This guy is a big stout performance bull, just like his name suggests. He has plenty of length and depth of body with a big old hip on him. His mother was one of Ty's 4-H heifers a few years back. She still has a nice tidy udder with enough milk to wean off one of the heavy weight bull calves. The disposition on these Gronk calves is exceptional. **Homo Polled / Non Dilutor**

Johnny 1J is a cherry red bull with lots of length and muscle expression. The 307A cow has been a solid producer for us over the years and at 9 years of age, her udder looks like that of a 2nd calver. She has raised high quality bulls and we have several daughters in the herd that are following in her footsteps. A full brother was a very popular bull in the pen last year who sold to Daryl Paulgaard at Provost.

**Homo Polled / Non Dilutor**

Kuntz Red Lila 307A

Lot 25

We would like to welcome you to the 23rd Annual Kuntz/McIntosh/SAJ Bull Sale. We are excited to showcase this group of bulls. We feel this is a very complete group of Bulls that we have brought to town, with a good mix of calving ease, highly maternal and power bulls to add value to your operation. Leading off the black bulls will be the pen of 3 brothers we exhibited at CWA in November along with the 3 other full sibs. Our red bulls were well represented and made lots of friends at the Edam Fall Fair with the three we showed there. It sure was great to be able to attend the fall shows again last year. Thanks to all the committees and volunteers that make these events happen!!

We truly enjoy raising our family in this industry and spending time at cattle shows and sales watching the excitement in the Simmental breed. We seem to get busier every year though, with things around the farm and activities with

family and perhaps don't get a chance to show our appreciation and visit with all our customers the way we would like to. So a special thanks to everyone that has supported us at the past bull and female sales over the years. Without all of you we wouldn't be able to enjoy this great industry!

McIntosh bulls have been developed on a TMR ration this year. Our ration consists of brown oat silage, chopped hay, brown oats and a BULLSEYE Feed bull supplement. All bulls have been double vaccinated with Fusogard to help in the prevention of foot rot. Also bulls have been double vaccinated with Bovi-Shield Gold One Shot and Ultrabac 7/Somubac. Bulls have been treated with Ivermectin, two doses of Boss pour-on and also received Safeguard crumbles in the fall.

We offer free delivery in Alberta, Saskatchewan and Manitoba, cost shared to other destinations. We will work with you to get the bulls delivered as close to you as possible and in a time frame that works for both parties.

Keep an eye on our McIntosh Livestock Facebook Page as well as DLMS/Cattlevids for Videos late February. Sale weights and scrotal measurements will be posted a few days prior to the sale.

We would like to invite all past present and future customers to come on out to the sale and also try to stop by the farm to preview the bulls and the cow herd anytime. The bulls will be on display indoors from March 13-15 at the Lloydminster Exhibition grounds in Lloydminster, SK. Don't hesitate to call with any questions. We look forward to seeing everyone March 15th!

Here is an impressive son of the Nashville cow we own together with Sky Track Ranch. Nash has become quite the herd sire producer, putting a top end bull through this sale every year since she was a first calver! Jim Beam is sired by McIntosh Formidable 26D, who was our high seller in 2017 going to Janzen Ranches. We utilize Formidable in our program through AI and really appreciate the type and quality of his offspring. Jim Beam carries a total outcross pedigree to most of the mainstream red genetics of today, and we feel that is one of the most interesting things about this bull. His individual performance has been great, he carries a nice balanced set of EPD's, color is great, and has that herdbull presence about him. Jim was a member of our Edam Pen of Three bulls.

Tundra has been a pen favourite among visitors to the bull pen this winter so far. His picture represents him quite well. He has a nice soft look to him and carries great depth and balance throughout. Tundra comes from the Lady cow family which is an up and coming cow line within our herd, and one we will be hearing a lot more from in the future. The Lady's have been great female producers thus far, with those female's being retained in our herd. The proof is in the pudding here though, they can raise some great herd bulls too!

Summit is a very interesting bull that's definitely worth a second look, both in the flesh and on paper. He carries a really nice balance between calving ease/birthweight and growth/performance. Summit is a maternal brother to Relentless who was our \$51,000 high seller to West Gold Farms in our 2019 sale. He is also a maternal brother to our popular Daredevil flushmates that were lead off bulls in our last year's sale. They found their new homes at Selte Land & Cattle x 2, Pinder Farms, and Louis Watt's. If you like to buy your herdsires out of top producing cow families, then this one is a no brainer. Summit was in our popular pen of red bulls at the Edam Fall Fair this past fall.

We have two Daredevil sons on offer here this year, and they are the real deal. There really just isn't much we'd change on 51J. Just like his picture suggests, he is dark red, he is super hairy, he carries ample testicular development. Foot quality is great on the Daredevil sons and 51J exemplifies that. 51J traces back on the dams side to our Liner 56U cow that came from the Labatte program quite a few years back. When you get a mix of Daredevil, NGDB Wheatie, and Springcreek Liner 56U it is a perfect maternally oriented cocktail! You are going to want to keep all the daughters off this guy!

If you like your bulls dark red then take a look here. It's pretty rare to get one with this fantastic blood red colour. Daredevil was great for throwing perfect colour onto his calves and his daughters are doing the same. Speakeasy is fairly moderate in frame size but packs a punch of muscle expression and thickness throughout. He is a direct son of TNT Bootlegger who is a bull that we feel like we should have utilized more through the years because quality of his daughters in production is second to none.

A big butted, beefy, direct son of Bootlegger. Again coming from a great old cow that has put a impressive string of sons through this sale. She is a phenomenal milker and udder quality is second to none. This bull is super wide when you get in behind him and has great spring of rib. We would expect this guy to sire quality steer calves and beauty replacement females.

Generator is a low birthweight bull, born at 79lbs, that came to us in dam as a purchase from W2 Land & Cattle in the 2020 Border City sale. His dam is an impressive female that is unmatched in volume and rib shape, with a great Cobra udder on her. The Cobra females rise to the top in terms of production value and we are always happy to add another one to our herd. Like his mother, Generator is a stout guy, he is big ribbed and really well muscled. Generator is a standout for possible use on heifers.

Fireman is an ET son from our Mary Jane donor cow. Mary Jane has been very generous with heifer calves and we have had very few bulls from her. A full sibling female to Fireman sold this past fall to Bert's NR Simmentals through the Border City sale. Fireman patterns very nicely and is solid in his structure. Good hair on this bull as well and he has a nice dark red colour

This is the only bull we have on offer this year that is sired by our R Plus Copperhead walking herdsire. He is also our youngest bull in the sale. We culled the bull pen very hard this year and despite being a bit younger, Anthem passed all of our criteria each time we culled some. He exhibits great growth and substance. He is very easy going and comes from a super quiet, great milking dam. The females we have in the herd from the NGDB Wheatie bull are great producers that are really standing the test of time.

We decided to sample the Bailey's One of a Kind bull after seeing him as a mature bull at Agribition. He was champion bull there that year and struck us as the useable kind. We sold a One of a Kind heifer this past fall at Friday Night Lights to Crowe Bros. in Manitoba. They are all super dark red in color and the bulls have some frame and some grow to them. Holt is a very long bodied bull that will sire calves with some stretch that will perform well on feed.

Skywalker's dam entered our donor pen in 2021 and a majority of our 2022 ET calves are out of this beauty of a cow. She is very fertile and produced 31 good embryos on her first flush. There are maternal siblings to Skywalker working for Westhill Ranch, Sky Track Ranch and we have retained another in our herd. The Sassy's are great uddered females that carry an extra bit of style and all have a real showstopper look to them. We would expect Skywalker to continue on with that maternal excellence and sire showstopper females and growthy bulls.

### McIntosh Turning Point 12J

Super quiet bull with a beautiful full blaze. He was the lowest birthweight calf from this flush and also the heavyweight of the pen by Agribition time. Turning Point was a member of our Agribition Pen of Three bulls.

**Homo Polled/Homo Black**

Lot 41

### McIntosh Julian 13J

Julian is Seth's calf, one of his old 4-H heifers is the donor for this flush and another one of his old 4-H heifers was the recip that raised this big guy. 13J was a member of our Agribition Pen of Three bulls.

**Homo Polled/Homo Black**

Lot 42

### McIntosh Hancock 19J

Hancock is a pen favourite of many visitors. He has some crazy awesome hair, full and thick. Hancock has a fair sized white spot on his forehead. He was a member of our Agribition Pen of Three bulls.

**Homo Polled/Homo Black**

We acquired Lexi through an embryo purchase from 5 Corner Cattle Co. They were the original partners with Mader Ranches on the infamous Iron Sugar 7X cow. The Cobra/Iron Sugar cross is one of the most successful pedigrees in today's simmental industry and has produced many high sellers and big time breeding stock. Yep, she's a full sibling to Mader Walk This Way! In our opinion Lexi is THE ideal cow. She is big enough to produce performance offspring, but not too big. She has an amazing hoof under her with ideal foot structure. Udder quality is outstanding, great teat size and shape with an incredible amount of milk. She is super quiet and easy to work with and passes that trait to her offspring.

Three of these flush brothers were the People's Choice Champion, Simmental Champion, and Supreme Champion Pen of Bulls at Agribition 2021. If you were through the Yard's at Agribition this past fall you would've seen them. We sold a full sibling to these bulls at Friday Night Lights in December 2021 to Foresee Cattle Co.. This has been the most consistent flush we have had at McIntosh Livestock. All of these bulls were born between 93 and 99lbs with the exception of 12J at 84lbs. The growth curve on all of them has also been very consistent all posting impressive weaning and yearling weights. Backed by some really impressive EPD's with great birth to yearling spread on those numbers. Buy with confidence!

This Matrix son is the last one we will have to offer from this sire. He did a really good job here at McIntosh Livestock over the years. Putting some good sons through this sale and some great daughters into our herd. This blaze faced bull is out of an awesome uddered Captain Scream daughter out of the Pocahontas family.

**Homo Polled/Hetero Black**

Working with Blair, Steph, and the family of McIntosh Livestock on their nutrition program has been great. When developing their bulls and females, their attention to detail is unmatched, resulting in an elite set of bulls for you to evaluate.

The cowherd utilizes a customized mineral program that is balanced to their requirements throughout the year. This supports proper bull calf development from a young age. The calves are developed on grass with their moms and then are moved on to a balanced TMR that promotes lean muscle growth. The bull feeding program is designed to maximize forage utilization and gut health. The TMR is forage-based, enabling the bulls to develop safely and efficiently, allowing them to reach their genetic potential. Organic minerals are used to ensure proper immune function and overall health.

McIntosh Livestock uses a total nutrition program on their entire operation, ensuring optimal performance of their cattle. If you have any questions about the nutrition of the sale bulls, please feel free to call. Best of luck sale day!

# SAJ Simmentals

On behalf of my family I would like to welcome everyone to our 23rd sale this year. It is once again a pleasure to work with the Kuntz and McIntosh families. We are three families dedicated to the Simmental breed and enjoy doing what we do.

I would like to thank all past customers and friends who have purchased bulls from me. All SAJ bulls will be double vaccinated for the prevention of footrot and are on a full herd health program. Videos were done on January 27, 2022 the same day as picturing and will be available for viewing on buyagro.com, dlms.ca and cattlevids.com.

Thank you again and good luck with your purchases!

SAJ Roxy 25E | Dam of Rip

Leading off my group of bulls this year is a son of my new walking herdbull "Willow" from Hampton Simmentals. Rip is one of the most complete bulls I have raised to date. He has a herd bull presence and always seems to have that look at me pose about him. He is up headed, big ribbed, thick topped and stands on a correct foot. He is very docile and has a good dam that stands behind him. She has a correct milky udder and has been a solid producer in the past. Everyone that has seen Rip has walked him around the pen and has really appreciated him for all that he is. I believe this bull would compete with the top bulls I have ever raised at SAJ.

**Non Dilutor**

Maternal Brother to Narco

Another solid bull here on a larger type frame. 70J is that cherry red that is desired. 70J, 61J and 66J represented myself at the Edam Fall Fair where there were 22 pens of bulls. 70J is long spined and is a big powerful bull. His dam has put bulls through this sale to Borderline contracting/David Mohr and Osborne Grazing. Look for 70J to add colour and some big time weaning weights that the feedlots desire. Feedlots are continuing to seek out Simmental influenced calves with the grid system wanting a larger carcass size.

Another Willow son that is big hipped and wide topped, these half brothers are all consistent and a real solid group. The 93F dam put a bull through the sale last year selling to the Fenton family with her first calf. She has another nice bull calf on her this year as well. I took Yellowstone and his dam to the Turtleford pen show in August where they were well received. 66J is a bull that catches my eye in the pen with his rugged look.

84J is the youngest of my fullblood bulls but I'd say the bull that most closely resembles Willow himself. This bull comes from the best looking fullblood cow I have. She is good uddered, dark marked, and keeps in good shape. She had a feature bull in the sale last year. I would keep every female from this bull as he is a good one and stems from a long list of productive heavy milking females.

Dam of Cartel | Crossroad Bobby-Sue 517B

Cartel is a quiet bull that has a lot of good qualities. He has the hair, docility, depth of body and a good solid Crossroad cow behind him. This is her first bull she has had and didn't disappoint. She is a tight uddered moderate sized cow that has been a good cow for me. 40J would be a good bull to keep heifers off of.

## Terms & Conditions

### Terms...

The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing on buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Current exchange rates will be announced sale day. All monies are in Canadian funds.

### Bidding...

Each animal will sell to the highest bidder...no by-bidding will be permitted. Disputes - Bidding will be reopened between the parties involved in dispute. If no further bidding is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision on all disputes will be final.

### Announcements...

All announcements made from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay close attention to such disclosures.

### Breeder's Guarantee...

All bulls sold are guaranteed breeders by the owners. We guarantee to provide you with a sound breeding bull. Should any bull fail to be an unsatisfactory breeder, he will be replaced with a bull of equal value or a credit will be given toward the purchase of another bull. If you have a problem with your bull, please notify us immediately. Under no circumstances will the seller be liable for more than the purchase price of the animal.

### Exception Guarantee...

In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, this guarantee shall be null and void.

### Certificate of Registration...

Each animal will carry papers issued by the Canadian Simmental Association. A certificate of registry duly transferred will be furnished to the buyer for each animal after payment has been made.

### Pedigree Estimates...

Pedigree Estimates (PE) are created on the projected mating of the animal's sire and dam based on averages of the two, creating estimated values that do not hold the same accuracy of actual EPDs issued from the association and should be used as such.

### Liabilities...

All persons attend the sale at their own risk. The seller, facility owner and sale manager assume no liability, legal or otherwise, for any accidents that occur. It is understood that T Bar C Cattle Co. (2013) Ltd. is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does T Bar C Cattle Co. (2013) Ltd. assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. T Bar C Cattle Co. (2013) Ltd. assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

### Rights and Obligations...

The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

### Phone, Mail, Wire Bids...

Bidders unable to attend the sale may phone, mail or wire their bids and instructions to the sale managers, auctioneer or special representatives. Bids must be received in sufficient time prior to the sale.

### Delivery...

We will assist in arranging transportation wherever possible. Each animal becomes the risk of the purchaser as soon as sold. \$100 rebate on bulls taken home sale day. Bulls must be insured by buyer.

### Insurance...

Will be available sale day. We strongly recommend that insurance is purchased for full value.

### Errors...

All announcements at sale time, written or oral, supercede any written material in the catalogue.

The sellers reserve the right to draw semen from any bull in the sale for in-herd use only.  
The collection will be at the purchaser's convenience and the seller's expense.
