

58TH
Annual
MANITOBA
BULL TEST STATION
Bull Sale

AT THE TEST STATION • DOUGLAS, MB
SATURDAY, MARCH 26, 2022 • 1 PM CDT

120 YEARLING BULLS 28 HEIFERS 7 RANCH HORSES

John Inglis 1976-2021

John was 45 when he was taken way too early. John was the first born to Garth & Deb Inglis of Rapid City on Jan. 4, 1976. He grew up in Rapid City then to the family farm. He attended Rapid City Elementary and Elton Collegiate where he graduated. He enjoyed playing baseball, hockey and curling. He was a member of the 4H Beef Club showing cattle at various events and eventually working for Grant Moffat of Holmsyde Charolais as one of his side jobs. He enjoyed horse back riding and took a short try at bull riding. John was a hard worker and always on the go. He had various jobs growing up but was a homebody at heart. His last job was with the RM of Oakview. He was always willing to help if needed and enjoyed people. He enjoyed his Shorthorn cattle and calving season was a favorite time. Family was John's pride and joy; he truly was a family man and his family was everything to him. He enjoyed helping his kids with 4H, hockey and anything else that interested them. We miss you John. Til we meet again!!

-	701	977	959.95	2.47	2.63	

This heifer calf caught John's eye as soon as she was born, mostly due to her sharp coloring. She gets your attention and says "look at me". She has got some length of body and deep sided. Her dam is a good milker, so hopefully she goes out to do the same.

DONATION HEIFER PROCEDURE: The final bid in each round will denote the amount of that bidder's donation. Example: Round 1 - Final bid is \$300.00 to Ryan Smith, Ryan's donation is \$300.00. Round 2 - Final bid is \$250.00 to Tom Jones, Tom's donation is \$250.00. Round 3 - The female is re-auctioned on a downward scale until no further bids are received at the low of \$10.00. Each \$10 purchased (donated) represents one chance in the final draw. (Ryan Smith has 30 chances, Tom Jones has 25 chances and so on down the scale to the final \$10.00 donation worth one chance each.) One ticket for every \$10.00 bearing the contributor's name will be put in the draw barrel. At the end of the sale, one ticket will be drawn with that person winning the heifer. If you would like to purchase tickets before the sale, please contact Cody Nolan at 204-573-4006.

WELCOME FROM THE STATION PRESIDENT

Greetings on behalf the Board of Directors of the Douglas Bull Test Station. Our sale remains a cornerstone event here in the province of Manitoba each spring. Thousands of bulls, buyers and friends have been gathering at the Douglas sale since the gates first opened in 1964.

The Station began as a management tool for cattlemen, bringing bulls together under a controlled set of conditions. This gave cattlemen an opportunity to determine the rate of gain performance of their bulls and to select the top performers. They could evaluate the progress of their herd and their breeding program at the same time as they compared the performance of their cattle with those from other herds. To this day, evaluation of cattle remains our primary objective. Our cattle have changed with the times but not the Station's purpose of presenting to the buyer a multi breed selection of performance tested stock.

One hundred and twenty eight bulls along with fifty four heifers were on test this winter, with 8 breeds being represented from new and long time consignors from Ontario, Saskatchewan and Manitoba. The seed stock offering is very deep in quality and performance this year! The future of your herd is here for your consideration at our 58th Annual Sale. Interested buyers of bulls, heifers or ranch horses, please contact the consignors directly for more information or our station Manager, Cody Nolan (204-573-4006).

We hope you find time to walk the pens prior to the sale as this will give you the opportunity to see the new feeders we have invested in along with upgrades to the facility. The Douglas Bull Test Station will remain as main stay for future spring sales and continue to make its contribution to the livestock industry. We are proud of this facility and proud to carry on the Station's tradition.

In closing, thank you to Kurtis McKee as former President at the Station over the past years. Many hours of meetings, travel, phone calls and conversations are required to make a sale happen every year. We are very appreciative for his contributions.

Jeff Ross
Station President

STOCK CONSIGNMENTS
WELCOME FOR FALL 2022

WELCOME FROM THE STATION MANAGER

W
E
L
C
O
M
E

Welcome to the Manitoba Bull Test Station! What a year it has been! Many producers facing drought this year all across Canada has forced producers to get creative with feed or move cattle to different areas to get fed this year. Cattle producers are resilient and smart thinkers. This year there was many steer calves that should have been kept as bulls but producers were forced to sell them. That is why, you can bet that any calf that is at the test station is a special one and comes from the very best of the consignors herd. It was a very busy summer at the test station this year. We held our very first annual Sandhills Showdown Jackpot Show. This show was open to calendar year heifer, bull calves and bred heifers. They showed against their own breed and then the breed winners competed against each other for the Overall Champion. We had over 60 head show up this year and it was an amazing day! We will once again host it in 2022, keep the 3rd weekend of September open and keep up to date on what is happening on our Facebook page – Manitoba Bull Test Station. After a 2 year wait, Kendra and I were finally able to tie the knot. After 3 date changes and 2 venue changes we finally said I do on October 2 at the test station. We set up a tent in the middle of the test station and partied the night away. It was a great weekend but the honeymoon didn't last long as bulls showed up the very next day to begin the test year. New this year we have the young bull test. This test is for bulls born after April 1. They get delivered at the end of November and then are put to the same test as the older calves for the sale. They will go home for the summer and return in January of the following winter to put some condition on and be sold as almost 2 year olds. We are also going to be having a Female consignment sale in December so keep an eye out for that. I would like to take this time to thank Kendra, our daughter Ellie and everyone else who has helped throughout the year. I can't get to this point without everything that they do to help me! Stop in any time to have a tour of the test station to find your next herd sire or elite female or just stop in to say Hi and have a coffee!!

This is your official invitation to consign stock for the 2023 test year. We offer developing bulls/heifers, as well as mature bull wintering program and a younger bull development. The development bulls/heifers are delivered to the test station within a 5 day period. Once the cattle arrive, they are on a full vaccination program. The test animals are put onto a warm-up ration for a month. This warm-up period is to ensure that all animals are put onto a level playing field before they begin the test. Once the warm-up period is over, the animals enter a 112 day development period where animals are weighed every 28 days, to ensure their gains are monitored. All bulls and heifers are CUP ultrasounded to determine the carcass characteristics of the animals. All sale animals are run through a breeding soundness evaluation to ensure that the animals that sell will go out to work. There is no better place to develop purebred stock so that they can be compared to many breeders genetics of the same breed and other breeds from across the prairies and Ontario. This is a very useful tool to gauge how every breeder is doing and finding traits we are trying to select for to improve the beef industry!

Please do not hesitate to contact Cody or visit the website with any questions that you may have. Follow our Facebook page – Manitoba Bull Test Station to keep up to date on what is happening at the test station.

Please do not hesitate to contact Cody or visit the website with any questions that you may have. Follow our Facebook page – Manitoba Bull Test Station to keep up to date on what is happening at the test station.

This calf is out of a Youngdale cow we purchased a few years back. She has been a top producer in our herd. His sire, we purchased from the cattleman's connection sale from Jack Hart. With this cross we are going for calving ease, growth, and longevity. I would recommend this bull for use on heifers.

MOSSIDE SHORTHORNS - JEFF & DR. GRAYSON ROSS

Brandon, MB | (204) 573-2281

We admire this bull for his natural thickness and length of spine all in an eye catching roan package. His tidy front and smoothness make him an excellent choice for heifers. His dam has an immaculate tabletop udder. Front to back, top to bottom, he checks the boxes for your next herdsire!

GELDING

2015

935

Brown Gelding been used at the feedlot. Very easy going ready to go ranch on.
Height: 15.1

JUSTIN BRIDGEMAN
(204) 724-8473

GELDING

2015

CISCO

936

"Cisco" is a very easy going paint gelding, he's quiet enough for kids or grandmas. This gelding has seen lots of ranch miles been used to rope the odd cow, and is well started in the breakaway. If your looking for a horse that's quiet enough for the whole family to ride that you can do any job on he's the one.
Height: 15.1

SKY BROWN
(204) 851-1879

GELDING

2018

WOODROW

937

Woodrow, 2018 APHA gelding. Started as a two year old and has over 120 days of riding. He's seen miles in the bush, moving cows, and sorting cows in the pens. He's doctored some cows and started on the heel side with the machine. He's a nice heel/ breakaway prospect or a small ranch horse with lots of try.
Height: 14

938

GELDING 2013

Been used at the feed lot around 15.1hh pretty easy going. Ready to be ranched on. 9yrs old.

MARE 2010

This 2010 AQHA registered, flashy red dun quarter horse mare is one you want to check out! She is an impressive, level headed girl who enjoys trail riding either alone or in a group. She is very willing to do whatever you ask of her. She has been ridden by teenage beginner riders and has been used in a lesson program. She even took kids to their first shows and entered in many western classes. This horse is always the same whether she is working or has had time off. You can just pull her out of a field and go. Has worked with cattle and was started with barrels with previous owner. She has a lot of potential and will go in any direction. She had her first foal with ease this year and was an amazing mother. She weaned well and went right back to work. Will make an excellent partner for someone. She does have pep in her step when you ask for it. UTD on farrier, teeth and deworming.

"SAGE"

GELDING 2007

2007 grade grey gelding that stands about 15h. He has been used at the community pastures and rode at the feedlot. Has been headed on and hauled to some jackpots. Scores good and has all kinds of run. Has been hazed and heeled on in the past. He's very very safe. Ride him everyday or give him a year off and saddle him up and go rope cows or steers on him.

MJ MAVERICKS SNICKLE

GELDING 2015

Elmer is a 2015 grey gelding standing 15 hands. Elmer has seen his fair share of ranch jobs, branding calves, moving pairs, treating cattle on pasture, trailer loading bulls, and checking feeder steers in the feedlot are all apart of his resume. On his days off Elmer has been used as a practice heel horse, and has been hauled to a few smaller jackpots. If you have any Questions or would like more info please contact Michael Mott.

SALE TERMS & CONDITIONS

The terms of the sale are cash or cheque at par to the Manitoba Beef Cattle Performance Association Inc. (M.B.C.P.A. Inc.). The buyer assumes all responsibility of his/her purchase at end of said purchase. The M.B.C.P.A. Inc. cannot be held liable after the sale clerk has recorded the buyer's bidding number on the sale receipt. All settlements must be made with the settlement officers of the sale in the office before any cattle will be released. Phone bids welcome. Please contact the Test Station to arrange telephone bidding.

All bulls purchased may be left at the station until convenient for pick up at purchaser's risk by signing a form in the office. One week free board, \$6.00 per head per day after. Please inquire at the Test Station office for details. Livestock insurance will be available from HMS Insurance at the Station on sale day and is strongly recommended to be purchased. The guarantee on a bull is between the buyer and seller. The M.B.C.P.A. Inc. will act as a mediator in case of dispute. To protect both buyer and seller, a non-breeding bull must be reported to the seller within six months of the date of sale or according to the Breed's Code of Ethics. The seller will not provide replacement or credit for physical injury or mismanagement. In the event that your bull is a non-satisfactory breeder, the seller will not under any circumstances, be responsible for more than the original selling price of the bull.

The Manitoba Beef Cattle Performance Association Inc. is only providing a service in providing this sale; persons attending this sale do so at their own risk. Sale catalogues will be available at the sale and copies of the registration certificates on file will be available at the office. Visitors may inspect the bulls at any time prior to the sale. If errors are noted in the report or in the sale catalogue, corrections will be made from the auction stand, and will take precedence over any printed matter.
