28TH ANNUAL

MRL

ANNUAL BULL SALE

Herd bulls designed by Ranchers for Ranchers

On behalf of everyone at MRL, we would like to welcome you to the ranch March 5th for our Annual Bull Sale.

In the past, this is where I talk about happenings, weather, cattle markets, etc. Well, this year I don't even know where to start. On a positive note boys, we were praying for snow and we sure as heck got some! The frigid snaps and wind blowing in every direction has added a few grey hairs but we're getting through it and when those drifts turn to liquid it will be a welcome site. Full dugouts and some moisture to start the grass will be a welcome site as that was sure as heck a struggle to a big part of Western Canada and the Northern States. I know visiting with friends and customers in North Dakota and all 3 prairie Provinces severe drought was certainly a concern, by fall though, most had dug and scratched and somehow got enough to keep most of the cowherd intact. On April 28th we lost our sale barn, offices and equipment to a fire, what a disaster and project to get rebuilt this fall. The new one is up and we will be ready for a sale March 5th. As far as the Covid thing, most of us are near done with that so we won't even go there! Cattle markets remain relatively strong amid record high feed costs and consumers are eating more beef than ever before. I think most analysts are confident things are shaping up to be very profitable in the cattle business over the next 2-3 years, predicting 2023, 2024 for record highs! "The bulls you buy today will sire the calves at the top of the market." Buy the best ones you can find within your budget. All in all, a year most of us for one reason or another are glad to be gone. Things can be better, but they can always be worse. Here's looking straight ahead in 2022!

As for the bull lineup in 2022, it is a group we are quite proud of. The yearling Simmental bulls are as strong as ever in both the red and black division with true performance and calving ease bulls with exciting new sire lines that are highly proven to work for commercial cattlemen. The Angus yearlings are the same with elite calving ease heifer bulls and the first sons of the \$130,000 MRLA Respect bull. The Coming 2 Year old bulls are absolutely the most impressive group we have ever offered, in all 3 divisions! Our Comings 2s division is a true 2 year old program. We calve over 350 purebred cows in May/June on grass and these calves are designated to the program, never before offered for sale and no, not the bulls that didn't quite keep up in the early calving interval. Only the cream of the crop in the spring calving group make the sale pens, the same as the winter born calves in the yearling division.

The strength of our offering is and always has been our factory or cowherd. 50 years in the making, 800 head strong in a competitive environment with 2 breed lines. We have multiplied our most productive cow families over the years and it is amazing how many of the bulls derive from only a handful of our most elite cow families that have risen to the top through production merit under ranch conditions.

Probably the biggest reason we have had success in raising bulls that work within the industry, is our program is in tune with that of our commercial customers. We run a bunch of cows in two different calving environments: over 400 calving in Jan/Feb, and 350 calving on grass in May. We background and finish our steers, we breed and develop over 250 replacement annually. It's simple, genetics that don't work for us under our ranch conditions, won't work for you. The genetics offered in our bull lineup for 2022 are the cream of the crop and the result of almost 50 years of progression.

We are confident in our bull offering with genetics top and bottom on their pedigree that are highly proven to work for commercial cattlemen. As you flip through the catalogue you will find group after group with curve bender balanced numbers. Moderate birth, above average growth and maternal values. We feel this year's offering provides our customers with the numbers, consistency, and quality to satisfy the most discriminating cowman. Whether you need 1 or a trailer load of bulls, we have you covered with pens full of uniform herdsires to meet your demands. With the sheer numbers and end to end quality there will be affordable top end herdbulls in every rancher's price range with the majority of bulls landing in the \$4000- \$7500 price range.

Once again, welcome to our 28th Annual Bull Sale in our new sales arena here at the ranch. If you need assistance in any way, don't hesitate to call us here at MRL or any of our sales staff. Plan to come and tour the bulls anytime prior to sale day and we look forward to visiting with you on the phone prior to sale time or at the ranch sale day. The bulls that are pictured in the catalogue were all videoed the end of December as we took pictures and we're hoping to video the remaining bulls the first week of February and they will be posted on DLMS, DV Auction and on our website the week prior to sale day. Thank you once again for your cooperation and confidence in our program. Rest assured, we will do our best to help get you the bulls you need to keep your operations progressive and profitable.

Working for and with you in the livestock industry.

U.S. Buyers: We welcome our U.S. Customers once again!

Although there may be some travel restrictions crossing the border in person, there is absolutely no problem getting your bulls across the border. As always we will do necessary health testing and can meet at Dunsath or North Portal with bulls or get dropped at central points in North Dakota. Give Lee or Dave a call to go over the lineup and for information including exchange rate.

ABSOLUTELY 100% GUARANTEED

We guarantee to provide you with a sound breeding bull capable of passing a semen test by a licensed vet within 14 months of age. All bulls over 12 months of age will be semen tested as satisfactory by Sale Day. Should any MRL bull fail to be a satisfactory breeder, he will be replaced with a bull of equal value and quality or a credit will be given towards the purchase of another MRL bull. We carry a good supply of backup bulls and will make sure you have bull power to get your cows bred. If you have a problem, notify us immediately, because we're not happy until you are satisfied with your MRL bull.

Bull Selection

Purchasing a herd bull is very important. Every cattleman is always searching for bull power to improve certain traits in their cow herd. It can be a frustrating and time consuming task. We would be pleased to assist you in identifying a bull or bulls suited to strengthen your program. We offer a wide genetic pool of red and black Simmental bulls as well as Purebred Red and Black Angus and Simm/Angus hybrid bulls. High growth to bulls suited for your heifer pen in every category. Please give us a call in time before the sale to discuss your herd bull requirements.

Payment Options

2/3 down sale day. 1/3 on possession of your bull or by May 1. Give us a call to discuss financing options.

Volume Discount

2 bulls	2% discount on your total purchases.
3 to 4 bulls	3% discount on your total purchases.
5 or more bulls	5% discount on your total purchases.

In-Herd Semen Interest

MRL reserves the right to draw semen on any bull sold for in herd use at the buyer's convenience and our cost.

Insurance

Alameda Agencies, Bonnie Thompson Ph: (306) 489-2250.

We strongly urge you to insure your bull purchases.

Identification

All sale lots will carry a CCIA tag with lot numbers

Delivery

Free delivery to central points near your ranch in Manitoba, Saskatchewan, Alberta and North Dakota. All other points will be cost shared. Bring your trailer and receive \$100.00 discount when you take your bull purchase(s) home on sale day.

Accidents

Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

Presale Lunch

Join us for lunch at 11:30 a.m. Sale Day.

Catalogue Information

EPD's are current and up-to-date as of publication date. Information in this document is believed to be accurate but any updates from the auction block will take preference. Pedigrees in this document have been supplied by the breed Association and all other information has been supplied by the seller.

Important Sale Information

SIGHT UNSEEN PROGRAM

We would love to have you join us for our annual Bull Sale at the ranch. If you can not, this program has worked well for many busy cattlemen unable to make it to our sale. With families and a bunch of cows ourselves, we realize that with hockey, 4-H, chores, frozen water bowls, cows calving and everything else it is sometimes hard to be everywhere you want to be on certain days. Each and every year we sell more bulls through this program from clean across the country to next door neighbors. The program is simple. Call us in advance (preferably a week or so) before the sale to discuss your cowherd, breeding objectives and herd bull requirements. From what we gather from talking to you about your program, we can fit you with a herdsire or herd sires with in your price ranges and suited to your needs without you leaving home. The bulls will be personally hand picked by Lee, Dave or Jim. We are a family run operation so the same person helping you pick your bull is the same person who calves, breeds, feeds and lives with these herd bull prospects and their mothers year around. We know our cowherd very well and the genetics strength of each bull on offer. Just the same as you know yours. Almost 50 years in the bull business we have gained a level of trust and integrity with our customers and have had repeat customers buy their bulls here for years and not been to a sale yet. We will get you the best bull for your program as reasonably priced as we can - you have our word on that.

WHY THE PROGRAM HAS WORKED SO WELL:

- * We know our cattle very well and can select a bull or group of bulls to suit your needs.
- * All bulls are fertility tested and have passed a semen evaluation prior to sale day.
(No Surprises after you have purchased your herd bulls)
- * Satisfaction on arrival or we take them home.
- * Many bulls are photographed in the catalogue.
- * Complete data on all bulls such as pedigree's, birth weights, and EPD's let us accurately fill your order.
- * After over 40 years in the bull business we have gained a level of trust and integrity with our customers.
- * The Majority of our bulls sell to repeat customers from 5 miles to 500 miles from our Ranch.

HERE ARE A FEW DETAILS ABOUT OUR OPERATION AND WHY WE THINK AN MRL HERD SIRE MAY WORK FOR YOU.

*** Almost 50 years in the bull business.** Almost 50 years we have been committed to and stuck to producing Simmental seed stock which will work well under your commercial conditions. Easy fleshing, structurally sound beef cattle have always been #1 at MRL.

*** Customer Care.** We will make sure you have a bull to breed your cows to. If you run into trouble, give us a call. We will have several insurance bulls at the ranch at all times and will get you a replacement bull as soon as you need one. We also have post sale delivery on offer. For those busy cattlemen unable to make it sale day, we offer a sight unseen buyers program and pre-selection program, as well as several sale consultants to leave an order with.

*** Quality Not Quantity.** Our operation consists of over 700 working females. The 180 bulls on offer have been selected from 350 bull calves, therefore we can be very strict when selecting our offering. The toughest thing about our bull sale will be making up the sale order. Pens full of uniform 1/2 and 3/4 brothers.

*** Bull Development.** These bulls have been developed on a high roughage, silage, grain and ground straw/hay ration plus minerals. Our objective is to offer you sound breeding bulls ready to go to work and stay working for years to come. "Stuffing" is for the "Christmas Turkey" not "breeding bulls". All bulls are semen tested prior to the sale so there are no surprises after you buy your herd bull(s).

- High selling \$130,000 lead off bull 2020 sale
- Phenotypically flawless
- Big time muscle, length and Angus character

TERMS & CONDITIONS

Terms - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. We reserve the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for his purchase, we reserve full power to resell the animal to the best advantage either publicly or privately without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released.

Disputes - Each animal will be sold to the highest bidder. In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matter is final.

Purchaser's Risk - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time. We strongly recommend the purchaser insure their purchase(s) at time of purchase.

Announcements - Announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

Certificate of Registry - A registration/recording certificate issued by the Canadian Simmental Association, Canadian Angus Association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

Shipping - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management of Seller. See delivery information in the catalogue.

Breeder's Guarantee - As per the Canadian Simmental Association/Canadian Angus Association Breeding Guarantee guidelines. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to buyers. All bulls are vet inspected and sell with a breeding guarantee.

Health - All bulls are under the total MRL Herd Health Program. All received Excess 5 Program, Dextomax, Vitamin and all will carry a satisfactory semen evaluation. MRL will look after health tests for cattle purchased by U.S. customers.

Accidents - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management or MRL assume any responsibility in this matter and disclaims any liability, legal or otherwise in the event of accidents or loss of property.

Rights & Obligations - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale constitutes a separate transaction and the right and obligations of the two parties connected by the terms and conditions of this sale.

Pictures - By attending this sale you are hereby granting permission for your photograph to be published by MRL in their catalogue and for advertising purposes only.

RED SIMMENTAL YEARLING BULLS

Our red pen for 2022 features more of those really top end herdbulls than it ever has before. The depth of cow power backing up the pen this year is extremely deep and truly the difference between good bulls and great bulls that breed on! Leading the way this year will be 10 sons of the \$69,000 MRL Playmaker bull and they are everything we hoped they would be. True curve benders with ideal bw and push the scale down with breed leading performance numbers, thick dark red haircoats and solid from the ground up. Half a dozen Venom sons that will be paternal brothers to the Playmaker sire and a pen full of Tycoon sons again that were our lead group last year and were so well accepted by the commercial cowboys. 3 of the most impressive bulls in the pen sired by the outcross MRL Certified bull including maternal brothers to MRL Playmaker & MRL Bender. Embryo calves by Missile and Load M up will be serious herdbulls and also by Statement who sired the high seller last year. 2 feature herdbulls by MRL Precision and one of a kind and the first sons of the incredible breeding bull MRL Untouchable and 200F sire will round out this powerful offering. If you've been here for the past 27 years or a first time potential customer, don't miss this exciting group of red bulls for 2022, they'll be worth the drive.

Typical of the dozen playmaker sons on offer. Extra stout, length, awesome haired, moderate birthweights and top of the breed performance, these are the genetics that have made our program popular with the top commercial cattlemen in the industry. A maternal brother to this fella was one of the dandy Tycoon sons last year going to many time repeat customer and top cattleman, Randy Geisler, MB. Big time performance and maternal quality here folks.

Another powerful curve bender in this impressive Playmaker sire group. This stout rascal is one of the heavyweight bulls in the pen and boasts an impressive set of numbers. Just 88lb actual bw and ranks in the top end of the breed in 12 traits including top 5% ww, top 2% yw and big time maternal. His young dam has a son working at Korey Jorgenson's, ND, and a daughter at Stony Creek Simmentals. The cowboys will certainly be in this pen sale day.

Watch for this headliner to lead off this powerful pen of sons by the \$69,000 MRL Playmaker bull. This powerful herdbull in the making just has that presence, head and overall balance that only the great ones possess! Ranking in the top end of the breed across the board and believe it or not as stout and as much muscle he packs ranks in the top 10% for CE and BW numbers that suggest he may even work in the heifer pen. His extended pedigree shows our 836W, Remington Wise Girl, 493U and 477U donor cows on 4 different lines on his pedigree. Not only that, but his dam is a direct 91Y daughter that last year raised one of the feature herdbulls we have sold, MRL Legend going to Downey Farms for \$23,000, a bull we are using here at MRL and calves so far here and at Downey's are impressive. We feel this guy has all the attributes to make a huge and positive impact in the breed and your breeding program. Homo Polled. MRL retaining 1/3 semen interest.

This playmaker pen of bulls is gonna turn some heads and this is for sure one of the headliners and one that for sure is a curve bender and what our program is all about. Just a moderate 92lb bw and ranks top 1% for both ww and yw. His dam is a dandy Whiskey daughter we purchased out of Shades from the good folks at TSN and she is proving her worth. A top end daughter went to Diamond K this fall in our Herdbuilders '21 event. Venom, El Tigre, Red Whiskey and our 836W, 4335B and 677Y donor cows all in this pedigree. Herdbull time boys. Homo polled.

If you like them liver red, big haired, stout made with a powerful proven pedigree, here is your man! Just a moderate 90lb bw and ranks top 4% of the breed for both ww and yw. Once again sired by the awesome MRL Playmaker bull who's first progeny will highlight the most powerful pen of red bulls ever offered here at MRL. On the dam's side, is none other than the awesome 2435Z Red Western cow that just so happens to be the dam of the \$57,000 MRL Precision bull going to Maxwells in 2018 and sire of the feature Lot 11 bull in this year's offering. Boys, here's a herdbull. Homo polled.

It's been hard to get one of these Venom sons bought the last couple of years. A nice group here in 2022 and opportunity to get one working in your pasture. Venom with Power Surge and Hurricane on the bottom side. An all around sire here. This cow has been productive with 2 beauty Missile daughters in our herd and bulls working in top operations including Trent Walls, Come As UR Simmentals, Dan Taylor and a feature full brother in 2019, MRL Full House, going to Van de Velde Simmentals, MB. If you've been wanting a Venom son, this guy is as good as we've had!

If you're looking for the sleeper in the pen, have a look here. I'm sure he will get found in the pen sale day even though we didn't get his picture in the book. He is one of my favourite, most complete, herdbull prospects in the pen. This Playmaker group will knock your socks off! To say this fella's dam can raise herdbulls would be an understatement. In 2018, she raised the \$20,000 MRL Torque bull going to Marin Land and Livestock and Oberle Bros, in 2020 the \$24,000 MRL Rattler bull going to Leewood Ranch and last year a feature Tycoon son going to Steichen Simmentals, ND, for \$16,500. An all around, big time herdbull here out of a big time cow.

One of the real feature herdbulls on offer for 2022. This is one we have had our eye on every stage of the game. Sired by MRL Precision our high selling \$57,000 bull from the 2018 sale and feature lead off bull to one of the most impressive sire group pen of 15 bulls we have ever offered for sale all sired by MRL Capone. Precision is a bull honestly we haven't used enough of! The past 3 years we have had a couple sons that have been at the top of our pen and the sons at Maxwells have certainly been popular with the cowboys as well. This fella may very well be the best one yet. His dam can crank herdbulls and is certainly the kind you wish you had 100 of. Her sons the past 2 years have been absolute standouts in the pen and both personal favourites of mine! In 2020, a full brother went to Judd Ag Ventures for \$12,000 and last year the feature Missile son to Darren Johnson, ND, for \$13,000. Two outstanding commercial cattle herds and both long time repeat customers that year in and year out buy one of the very best. All in all, we think this young herdbull is loaded with potential. Solid numbers with an actual ww of 900lbs. He is sure as hell stout and super complete in his makeup with a real powerful herdbull head. In terms of pedigree, he is loaded- Capone, Red Western, Red Mountain and big time cow power including our 836W donor on the top and our 570U donor and the Miss Rock 14X cow on the bottom. Homo polled. MRL retaining 1/3 semen interest.

Heck this guy should work in the heifer pen and ranks top 10% breed bw and ce, top 10% ww, yw, mce and top 5% api top 2% ti. His dam is a beauty blue chip daughter who is a maternal sister to the MRL Prism bull that lead off our 2017 bull sale going to Spring Creek Colony for \$22,500. If you are looking for a calving ease sire with huge maternal merit have a look here boys and the money stripe as a bonus.

Phenotypically this guy is awesome! Once again moderate in frame, super dark red thick haircoat and great disposition. His pedigree combines several of the top herdbulls and cows in the Simmental breed, Venom, To The Max, Power Surge and Black Edition. Brothers here went to the top commercial outfits of M5 Land & Cattle and Ryan & Missy Hull.

Truly one of the top bulls we have raised and one that top cattlemen soon identify in the pen. It is no accident that he is what he is. His sire and dam are two of our greatest breeding accomplishments in over 50 years in the business. His sire is MRL Certified our lead off bull in 2019 and son of our immortal 477U donor cow that will go down as our greatest red cow family here at MRL. The Certified progeny for 2022 are phenomenal in both the red and black divisions of our offering. Now this fella's dam is the powerful 6823D cow that has hit it out of the park on 4 consecutive bulls in a row and will become a major donor cow this spring. She is an own daughter of the legendary 55W donor cow, highest revenue earning cow here at MRL, with a list of herdbulls to her credit that would fill this page and at least 4 feature ET sons again in 2022. If you told me I could keep just one cow out of our 800 matrons here at MRL, this cow may very well be the one. On her first try she raised MRL Bender going to Little Rainbow Ranch for \$23,000 (he sired our high selling black bull in last year's sale), next was MRL Eminence going to Boundary Ranch in 2020 sale and last year was MRL Bonanza going to the powerful breeding program of Kunkel Simmentals in North Dakota for \$30,000. Enough said we think this fella has big time potential, unique pedigree, superb numbers ranking top 2% ww and mwwt, top 1% yw and ti and top 10% api, and one we will be using here at MRL. MRL retaining 1/3 semen interest.

This guy has been on the radar since last year at this time. This dark red stout made rascal has unlimited breeding potential and we feel may even work in the heifer pen. A maternal sister was the \$22,000 feature female in our 2018 female sale and maternal brothers led off both our 2020 and 2021 bull sales- MRL Playmaker for \$69,000 to BLI and MRL, Southern Comfort last year for \$50,000 to Spring Lake Simmentals and BLI. The Playmaker sons will lead the charge here in 2022 and the Southern Comfort calves look impressive thus far. This is a powerful pedigree. The grandam Remington Wise Girl cow will be 14 this spring and is super impressive and another sister to the 4335B female is our top Predator daughter and dam to the Lot 87 bull in this offering. An impressive set of numbers and big time pedigree on this calving ease headliner.

One here with big time potential as a breeding sire. He has the Look and has had from an early age. Phenotypically he is hard to fault. Big bodied, super complete, tons of hair and a make me look presence. His pedigree would be outcross to many mainstream red genetics in Canada. Sired by the one of a kind bull and out of a beautiful Red Western dam. She is definitely the kind you want your next herdbull to be out of. Moderate, stout, super attractive and absolutely perfect uddered. She is fast becoming the #1 donor female in Bouchard's Genetics to Make a Difference lineup. The grandam is of course the Smarty Pants III female we sold a few years back as a \$30,000 donor prospect at Shades, a herdbull here worth a serious look boys! Homo polled.

The 200F bull is bred awful good and he will see a lot of use going forward. He is the Cobra x 55W son that was our feature two year old bull to headline our 2020 bull sale and had a ton of interest but was pulled from the sale due to an eye infection and kept for our own use. As it turns out we are sure happy to have him working in our own pastures! Another strong, well bred youngster here.

A mid March 200F son here that has earned himself a spot in this powerful red pen. The strength of his sire and his dandy young Red Whiskey dam are the contributing factor to this youngsters quality. One here that will grow into a powerful herdbull.

RED SIMMENTAL COMING 2 YEAR OLD BULLS

The Coming 2s division of our bull sale continue to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL we have always paid attention to our customers needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less man power, these Coming 2s are ideally suited. They are big, strong, athletic and not over conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. These bulls are the result of a true spring breeding program! Never previously offered for sale or the bottom end of the earlier calving group. Buy with confidence here boys.

This group of big strapping red Coming 2s will garner some attention. Led off by a couple ET bulls that are as good as we have raised! A Venom x 836W (Capone dam) and Whiskey x 2423Z (Missile's dam) as well as an Alliance x 477U. A powerful group by the incredible breeding bull MRL 75F and a couple of high quality percentage bulls in this pen. Both breeders and top commercial cattlemen are gonna want to have a good look in this powerful pen for 2022.

I'm going to keep this short and simple. This is one of the top red herdbulls we have raised and will lead off this powerful group of Coming 2 Year olds and quite possibly the entire sale as the lead off bull. Sired by the R Plus Venom and out of the 836W donor, I could fill this entire page with her accomplishments. Dam of MRL El Tigre and MRL Capone to name a couple. Not sure there is a cow in the breed that will leave as much natural muscle, shape and balance! If you raise bulls and want to entice the top commercial cattlemen in the business to your program, take a serious look here! He will leave an impact on your breeding program. Homo polled. MRL retaining 1/3 semen interest.

BLACK SIMMENTAL YEARLING BULLS

The black pen has turned some heads the past couple of years and in 2022 they are as exciting as ever! 10 black sons by two bulls that were both the lead off bulls in our 2019 & 2020 bull sales and as good as we have ever raised. MRL Untouchable and MRL Certified sons are as impressive in the black division as they are in the red pen. These 2 sires are of course backed by our elite 55W and 477 U donor cows that certainly locks in shear quality and predictability. Elite herdbull candidates by the \$90,000 IPU Bentley bull, \$100,000 MRL Missile and powerful MRL 75F bull as well as ET sons by Witness, Venom and Sheriff round out the cow bulls, curve bender calving ease bulls by the very popular State of war bull are impressive once again and calving ease bulls by Proclamation, Focus and Battle Cry are as impressive as we have ever had. Whether you are looking for that elite performance bull, all around sire or top bull for the heifer pen, we've got you covered in this deep pen for 2022.

This guy has been a standout and definitely on the radar since he was a week old and just continued to impress us along the way. Without a doubt the top son out of the \$90,000 Bentley sire we have raised. Now here is the best part! His dam is the awesome MRL 8511F matron who is currently being flushed and destined to be one of our most influential young donor matrons. She is one of 3 awesome full sisters in our herd and full sister to the \$34,000 lead off bred heifer in our 2019 Herdbuilder sale to Lawnview Simmental. A combination of the \$100,000 MRL Missile sire and maybe the most powerful red donor cow ever at MRL, the 477U donor herself. This rascal is royally bred, phenotypically outstanding from every angle with an incredibly solid set of numbers with an 85 lb actual bw and ranks top 1% of the entire breed for ww on his EPD profile. As I stated, one here we know would be a part of our breeding future for almost a year now! One we think has a bright future and one we will definitely be utilizing here at MRL this spring. MRL retaining 1/3 semen interest. Homo polled. Hetero Black.

A solid black baldy herdbull here and one I would have marked pretty high. Once again sired by the \$90,000 IPU Bentley and out of one of the most powerful cows and premiere cow families. Going back to the 426T and 339M donors. The 2405Z cow has been stellar! A full sister to this fella was a feature female in our fall female sale going to Cornerstone Simmentals. She has also raised a couple feature bulls; in 2018 the heavyweight bull in the pen to the Jacksons in AB and a feature Missile son in 2019 to longtime customer Korey Jorgenson, ND. This stout made rascal won't be hard to find sale day and one with a ton of potential.

HOMO POLLED RESULTS

All test results for Homozygous Polled had not been received by time of catalog printing. Give MRL a call to inquire about any results. All results will be available sale day.

Cowboys have a look here! A powerful black blaze bull here with an actual 84 lb bw, over 900lb ww and ranks in the very top end of the breed in every trait- top 15% ce, top 4% ww & yw and top 1% both api and ti. Sired by the phenomenal MRL Certified bull, the lead off bull from our 2019 bull sale and a cow that can get er done. His young blaze faced Riddler dam raised a \$10,000 herdbull to Steichen Simmentals on her first try, our high selling feature bred heifer last fall for \$12,000 to Steeves Land & Cattle and the standout black performance bull last spring, MRL Powerplay going to Bouchard Livestock at \$35,000.00 The grandam also raised the \$16,000 MRL Warrior bull to Spring Creek and great grandam is one of my all time favourite cows. This powerful herdbull in the making is the Mission Statement of our breeding program. Low birth, big wean and powerful maternal genetics to back it all up!

A curve bender here! Just 84lb bw, 880lb actual ww and ranks top 2% ww & yw, top 10% api and top 3% ti. The 2411Z Predator daughter is one of our best! A daughter of the 570U donor cow which makes her a full sister to the \$48,000 MRL Integrity bull. She raised a top end State of War son to 3 MC Stock Farms, AB, last year and a sale feature Missile son in 2019 to Speargrass Cattle Co., AB, two top outfits in Alberta that year after year buy the good ones. If you come looking for a feature bull out of a superior cow family, look no further. Hetero polled, Homo black.

One here that will have to be considered as a leading herdbull candidate for '22. His sire is one of the most elite bulls we have raised and what a set of calves in the pen. Secondly his dam is the most beautiful and powerful Predator daughter that raised the \$15,000 feature Bentley son MRL Mainline to Come As UR and Trent Walls in last year's sale. She is also the maternal sister to the 4335B cow, dam of \$69,000 MRL Playmaker, \$50,000 MRL Southern Comfort and feature Lot 32 bull this year. Big time pedigree here and ranks top 1% of the breed for ww & yw. You want calves that weigh a little more at weaning and a super set of replacement females, don't miss this one.

The youngest bull in the pen but you would never know it. His sire Patriot is one you will hear a lot more from. He is a powerful herdbull, a Missile out of our 677Y donor and full brother to two bulls that led off our 2020 bull sale going to Hampton/Yellow Rose and Korey Jorgenson. The dam is a Red Whiskey out of the 2386Z donor cow making her a maternal sister to the \$30,000 feature Missile heifer in our 2019 Herdbuilder sale to KT Ranch, BC. A youngster here with a powerful pedigree that may very well be the buy of the sale. He will be one impressive herdbull.

A pretty cool black blaze bull here that will lead off the calving ease pen. Smooth made with tons of natural shape and big time look. His dam is a beauty first calver that is a maternal sister to the popular red blaze Tycoon son in last years sale going to Steichen Simmentals, ND, for \$20,000. This fella has all the bells and whistles.

BLACK SIMMENTAL COMING TWO YEAR OLD BULLS

The Coming 2s division of our bull sale continue to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL we have always paid attention to our customers needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less man power, these Coming 2s are ideally suited. They are big strong, athletic and not over conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. "These bulls are the result of a true spring breeding program!" Never previously offered for sale or the bottom end of the earlier calving group. Buy with confidence boys.

This group of Black Coming 2s is absolutely loaded for 2022. The same as in the red division, 3 breed leading ET sons will lead the charge, with as much potential as any bulls we have ever offered for sale in any division. A homo polled Missile x 477U son that is big time and one we will use here at MRL, a Missile x 55W and a Whiskey x 2423Z. A couple dandy's by the MRL 75F sire that has feature sons in all 4 categories in the Simmental division, a solid group by the top Riddler son 84E. Two big time calving ease prospects by State of War and the MRL Bender bull will garner attention from top cattlemen and a couple feature elite 1/2 blood bulls round out this pen. Far and away the most elite set of Coming 2s we have ever offered for sale.

A herdbull here with as much potential as any we have ever offered for sale. A combination of arguably the top bull and female ever to carry the MRL tattoo! The \$100,000 MRL Missile bull continues to prove his worth and after 5 calf crops, progeny continues to top sales including the Agribition sale this past fall. The dam is our 477U donor, this cow family I wouldn't trade for another anywhere in the world. Year after year and generation after generation, they rise to the top. A full sister to this guy was the lead off female in our 2019 female sale commanding \$34,000 to Lawnview Simmentals and another full sister MRL 8511F is currently being flushed and one of our next big time donor cows. She is also the dam of the feature Lot 69 in the yearling division. All in all, this big fella has performance, exceptional foot quality, maternal quality and a definite herdbull presence and look. One here that will leave his mark in the industry. Homo polled, hetero black. MRL retaining 1/3 semen interest.

Our offering just wouldn't be complete without a headliner feature herdbull out of the 55W donor cow that will go down as one of the elite cows ever in the Simmental breed. She averaged \$30,000 on her first 6 herdbulls sold and since then we have sold the \$48,000 Untouchable bull to Quinn Wilson and another feature last year MRL Medicine Man to Brueckner Eales Simmentals, ND, for \$20,000. A full brother led off the Coming 2s in 2020 to Goudy Prairie Acres and a full sister was the dam of the \$28,000 Battle Cry bull that same year to Hoiby Simmentals and BLI. If you seriously want to add quality to a calf crop and your program, add this highly proven headliner to your herdbull battery. Homo polled.

I really like this fella. Really nice headed, long, smooth made and packed full of muscle. His EPD #'s rank him top 10% for both ww & yw and his Red Western bred dam is a product of our May born on grass program. Cowboys, you're gonna love this sire group by the MRL 84E bull that we share ownership with Little Rainbow Ranch. He was the lead off Riddler son in our 2019 sale for \$15,000 and we were thrilled to talk Perry into letting us walk him for our summer breeding cycle.

This is a heck of a sire group! The MRL 75F has really bred well with feature sons in both yearling red and black pens and in both groups here in the Coming 2s. He's a herdbull that can really cover some ground and sees lots of it breeding in 2 separate breeding periods here at MRL. This one's got herdbull potential out of a female we purchased from Sunny Valley Simmentals as their feature heifer in Simmsational a couple years back. Powerful outcross pedigree here! Homo polled, hetero black.

A calving ease curve bender herdbull here we're really excited about and will use in our AI program here at MRL this spring. The Bender bulls dam is absolutely awesome and will become our #1 donor this spring replacing her famous dam 55W. The 6823D female just doesn't miss with a headliner again this year, Lot 31. On this fella's bottom side is none other than a Missile daughter back to the Remington Wise Girl cow family that mothered the \$69,000 Playmaker bull and our high seller again last year MRL Southern Comfort bull and a couple more headliners this year in Lot 32 & Lot 87. In person this rascal is flawless in his design and on the stat sheet, impressive. Actual bw 80lbs, ranks top 25% ce, top 15% bw, top 10% ww and yw, top 20% api, top 4% ti. This guy covers all the bases and one we believe will be a big time outcross calving ease sire. Homo polled. MRL retaining 1/3 semen interest.

A typical curve bender State of War son here ranking top 35% ce & bw, yet top 10% ww & yw and loaded with maternal. His beautiful young dam is a product of our spring calving program born and bred on grass and is proving her worth. A full brother was a top bull last year going to repeat customer year after year Tony McMechan, MB. These State of War sons and grandsons are tailor made for commercial cowboys and fit our program to a tee!

GIVE US A CALL; ANY TIME, ANY DAY!

Making a living solely with our livestock, we realize the herdbull selection is one of the most critical decisions any stockman will make each year ... we are here to help. We would like to extend a warm welcome to visit the ranch sale day and any time prior to view the sale offering, our cow herd and herd bull battery. We truly believe, and past customers will confirm, the strength, uniformity and breeding consistency of the bulls on offer is due to the powerful cowherd and herd bull battery behind them. If you can not make it to the sale or prior to, give us a call; anytime, any day. One of the most important parts of service to our customers is helping select the right bulls to optimize their breeding objectives. We know our cow herd and genetic strengths of every bull in the offering better than any one and would be pleased to assist in any way possible. Our Sight Unseen Program has worked very well for busy cattlemen in sourcing the best bulls for their program within and quite often below their price range. Viewing our cowherd, bull battery and visiting with the people involved at MRL will make your bull buying decision less stressful, more profitable and pleasurable.

Lee (306) 483-8067 Dave (306) 483-8660 Jim (306) 483-7986

*Does bull buying
got you stressed?*

ANGUS YEARLING BULLS

It's hard to believe 2022 will be the 18th year to have Angus bulls in our bull sale. We were fortunate to start with some great cows and have built this cowherd with the same values as we have for over 50 years in the Simmental business, multiplying top cow families that get it done under real world ranch conditions. We have implemented elite red and black sires and utilized feature bulls we have sold through this very ring heavily in our breeding program. Our Angus cowherd is one we are extremely proud of; big capacity, good footed, good uddered productive females that produce results in a highly competitive environment of almost 800 cows in the two breed lines.

The 2022 lineup is without a doubt the deepest, most intriguing set we have ever offered. The first sons of the \$130,000 MRLA Respect bull that drew so much attention in our 2020 sale are impressive. Moderate birth with extra length, muscle and Angus character. True curve benders that will excel for commercial cowboys. The MRLA Red Resource bull continues to gain popularity with sons and daughters across North America demanding top dollar. Once again, Resource has a solid group in both yearling and 2 Year Old division with a couple feature bulls that may be the best yet. Easily the most elite set of calving ease bulls we have ever offered. Led off with a dozen sons of the phenomenal U2 Retrospect sire (sire of MRLA Respect). A tremendous group here with a couple of sons with serious potential as top bulls in the industry. The calving bulls rounded out with a couple solid Redemption sons and an ET red pie Specialist son.

The Black bulls are once again backed by the best genetics in the business including SAV Final Answer, Resource and Natural law. A couple bulls in this group that are pretty intriguing red carrier bulls we will use in our own program. Whether you're looking for an Angus sire to add muscle and pounds or an elite calving ease bull for the heifer pen, we have you covered with this group for 2022.

The lead bull in the most impressive sire group of calving ease Angus bulls we have ever offered for sale. The U2 Retrospect group is gonna turn some heads. Retrospect is of course the sire of the \$130,000 MRLA Respect bull that topped our 2020 sale and what an impressive first set of sons he has as well. This guy is definitely heifer pen friendly with just a 62 lb bw out of a beauty 26D first calver back to the awesome 401X female with 10 registered calves to her credit including a dandy bull last year to Brent Stammer. If you've got heifers to breed, don't miss the opportunity to get one of these Retrospect sons working in yours.

This one's pretty cool. Once again sired by the consistent U2 Retrospect sire and check out the bottom side of this pedigree, a phenomenal Red Resource daughter back to the beautiful 6715D Harvester cow. Just a 58lb bw and still top 40% ww & yw. Pretty cool outcross pedigree, heifer pen friendly and just flat out one heck of a bull.

This is a rip! We feel this headliner calving ease bull has serious value to a breeding program. The Retrospect bull has truly been a breeding sensation. He is of course the sire to the \$130,000 MRLA Respect bull who's calf crop will turn some heads. Retrospect is so consistent his sons with low birth and yet maintain so much substance and muscle and the daughters are some of our very best 2 years in a row topping our fall female sale Angus division. Getting back to the 5J bull himself, phenotypically he is outstanding and has been analyzed by many top cattlemen so far in the pen. On the bottom side is a beautiful Red Resource daughter back to the old 105K cow family that has been one of our best over the years. Longevity built in here as well 105K with 10 registered progeny and the 652Y grandam with 9 progeny and still going strong. Enough said- all in all one of the most impressive, complete, balanced calving ease bulls we have ever offered for sale! This guy checks all the boxes and one we are excited to use here at MRL. MRL retaining 1/3 semen interest.

A real feature calving ease bull here. An actual bw of 55 lbs and almost 750 lb ww of dry pasture the start of September, talk about a curve bender. Of course sired by the phenomenal Retrospect sire and out of one of our outstanding cow families. His grandam the 621Y cow is just flat out awesome and dam to our 4395B New Era donor cow. Pretty cool pedigree, big time cow family, impressive numbers across the board and one we feel is a stud quality heifer bull. This guy won't be hard to find sale day.

This Respect sire group is gonna turn some heads. Moderate bw sons with just more length, muscle and character than you're used to. This fella once again lands in the top end of breed for performance and actual ww of over 800 lbs. It's no accident as he is once again out of a Tilt daughter that can raise em! She had the heavyweight red bull in the pen last year going to Speargrass Cattle Co., AB, a Harvester son in 2019 to McCannell Farms and another herdbull going to Richard van Sprundel. If you get the opportunity to put one of these sons of Tilt daughters to work in your herd, do it. They are truly special genetics that never fail. ¾ brothers are Lots 136 and Lot 138.

Just like his daddy did 2 years ago, this guy demands your attention when you walk in the pen! A definite performance bull here with an actual ww September 6 off dry pasture with no creep at 870 lbs. This fella is oozing with Angus character packed full of natural muscle and powerful length! This guy will be a changer. The extreme quality of the cow family that backs him up will only add to his breeding potential. His dam is one of our beautiful Tilt daughters and may very well be the most productive soon to enter our exclusive donor program. She has raised 2 feature bulls- her first going to Scott Farms top Angus program in Alberta, and in 2018 the \$20,000 MRLA Upload bull to the highly respected program of Terron Farms and Six Mile Red Angus. We have only parted with one daughter leading off our 2020 female sale to Dubas Cattle Co. in Nebraska. The granddam also raised the feature black red carrier bull MRLA Resource 23F going to Brylor Ranch and Fraser Angus. Big time cow family with genetics working at the top Angus seedstock operations in Canada and the US. One here well worth the drive. MRL retaining 1/3 semen interest.

This guy has been a favourite in the pen and will be in the running for pole position in starting off this powerful pen of sons by the \$130,000 MRLA Respect sire. Moderate bw yet explosive muscle and length once again with that class and presence of a herdbull. His young dam had a feature calving ease bull last year going to Terrence Ortloff, ND for \$8000 and his dam is a maternal sister to the MRLA 59B herdbull whose sons were popular the past few years. This pedigree combines the very best of the U2 and MRL cow families. We have been anxiously awaiting these first Respect sons and proud to offer them to the industry.

This combination is explosive! An average pic here of one of the feature bulls. He is a 3/4 brother to the powerful Lot 136 bull. Once again, sired by the \$130,000 phenom MRLA Respect that drew attention North America wide in our 2020 bull sale and out of one of those awesome Tilt daughters that seem to always be the dams to the big time herdbull candidates year after year. This cow can get er done with top bulls going to Kevin Larson, ND, Corey Flaman, Sanguin Ranch and last year a feature black Natural law son going to Chris Roeppel. This is an Angus herdbull worth a serious look with an actual ww September 6th of 818 lbs on a drought year with no creep. Just elite genetics at work. Ranks top 25% cw and top 10% ww & yw.

If you're at all familiar with the Red Angus breed, the Cora cow family at Cockburn Angus will ring a bell. We have been a fan and were thrilled to buy some embryos. The only bull we got and he is a bell ringer, deep dark red, long and smooth and attractive in his design. Sired by the powerful specialist bull from the highly acclaimed Pieper Red Angus outfit in Nebraska. Pretty cool outcross pedigreed calving ease bull here out of a top donor cow in the breed. Numbers that rank him top 6% ce and still top 15% ww & yw. Have a look here boys, a ton of potential.

Not sure how this guy missed getting his picture in the book but regardless is a young herdbull with a ton of potential. His dam MRLA 641Y is one of our finest. A powerful Warden daughter that had a feature Natural Law bull last year going to repeat customer year in and year out, Speargrass Cattle Co. for \$9000. In 2019, a top son went to Spring Creek Colony and is also the dam of MRLA Reload going to Leeuwenberg Angus top breeding program, Reload of course being the sire of the \$90,000 MRLA Resource bull that has turned into a legendary sire in the breed. Big time highly proven pedigree both top and bottom here and one that will mature into one impressive herdbull.

Another low birth big weaning herdbull candidate in this exciting new sire group for 2022. A heifer bull candidate and one you will sure want to breed to cows. This cow family has been phenomenal and has raised lead off bulls to many of our best repeat customers; 3 MC Stock Farms, Dennis Mauthe, Brad Neufeld, Taylor Ranching, Bryce Penner and Goudy's Prairie Acres. The 3442A cow herself to Andre Potgeiter in 2018, Lonnie Wolfe in ND both in 2019 and 202 and a dandy last year to a good cattleman, Bob Tilbury, MB.

We have sold some awful good Red Resource sons to top breeders and commercial cattlemen the past couple of years and his sons have topped other top seedstock operations sales including a \$130,000 son at U2 and a \$90,000 son at SSS and numerous others. After 3 calf crops his popularity only seems to be picking up steam with 2 heifer calves this fall in the US by Resource selling for \$115,000 US and \$75,000 US money for Piepers. This fella may be as good as we have offered for sale. One of the younger bulls in the pen but easy to find and once you do, he is hard to get away from. Blood red, thick hair coat, super balanced and just has that herdbull head, neck and presence that sets the great breeding bull prospects apart from the pack. His dam is a beauty and definitely the kind of cow you want your next herdbull to be out of. Once again, she is one of our awesome Tilt daughters and back to the Bar EL Warden bull who was the high seller Angus bull in Canada that we partnered with T-K Red Angus to get bought. Enough said! This guy is a herdbull from every angle, pedigree wise is highly proven yet unique to most programs. A young bull we will use here at MRL and one of the best sons of the breed leading MRLA Red Resource sire to date. MRL retaining 1/3 semen interest.

An exceptional high quality all black Angus calving ease bull here. Let's start with his exceptional pedigree! Sired by the absolute legendary Angus sire SAV Final Answer (semen is almost extinct) and out of a beautiful Bank Note female we purchased from Come As UR. She is out of the 510C and JL Lady 106 Density donor cow in their program. Now for the numbers, 55 lb actual bw, 748 lb actual ww September 6th and ranks top 1% of the breed for ce, bw and mce and still lands top 15% ww. Big time numbers, big time pedigree, big time cow family. Not many chances left in the world to get an own son of Final Answer.

An average pic here of a really, really good young bull in the pen with a powerful pedigree. This guy is stout, awesome haired and has a herdbull look even though he's the youngest bull in the pen. Once again, sired by the breeding machine Resource and out of a super powerful Bank Note cow out of the JL Lady Density donor cow that has had 3 daughters sell in Brookings fall female sales at \$40,000, \$18,000 and \$34,000. The 7360E cow can get it done herself, the high selling female in our December sale was a daughter for \$21,500 going to BLI. Watch for her in Brian's donor lineup. Cool pedigree, cool herdbull here!

ANGUS COMING 2 YEAR OLDS

The Coming 2s division of our bull sale continue to grow in both numbers and quality. We are now calving over 350 cows in our spring calving group in May which includes many elite cow families. This herd is right where we want it and now totally self sustaining with the very best heifers plus 50 embryos added each spring. We absolutely love calving this group on grass in May, it is right up our alley. The bulls are born and bred in an environment identical to most of our commercial customers and will excel under ranch conditions. At MRL we have always paid attention to our customers needs and the evolution of the industry. Bigger ranches, bigger breeding fields and less man power, these Coming 2s are ideally suited. They are big strong, athletic and not over conditioned, ready to cover some ground, get more cows bred, adding dollars to your bottom line. Temperament is second to none on this group. "These bulls are the result of a true spring breeding program!" Never previously offered for sale or the bottom end of the earlier calving group. Buy with confidence boys.

This pen has been popular the past couple years with commercial cowboys and the group this year is one you won't want to miss! The MRLA 83D (SAV Resource son) sire group last year turned some heads and this sire group in 2022 is better than ever in both the red and black divisions. These 83D sons are true curve benders. Low bw, super stout with extra length and absolutely loaded with maternal quality. The Resource Angus influenced cattle are as good as it gets. Speaking of Resource, the \$90,000 MRLA Red Resource sire group are impressive with a couple of real top notch herd-bulls and the U2 Retrospect sons the same as in the yearling division, are high quality calving ease bulls and so much more. This is one impressive pen of Angus Age Advantage bull ready to cover some ground.

The lead bull here in what is far and away the best set of Coming 2s we have every offered for sale. This big, soggy bugger has the character of a herdbull and reminds us a lot of the paternal brother MRL Range Boss that led off the sale last year going to Travis Penner and BLI. You be the judge but this sire group by the SAV Resource son 83D is impressive with out of this world numbers. On the bottom side we love this pedigree, the Lazy MC Forum bull did a great job here and the Economy females were some of our very best. Big time bull here and pretty cool pedigreed.

This sire group is totally suited to our commercial cattlemen n the seats sale day. Long bodied, smooth, low birth weight, with muscle shape and undeniable maternal values. This is one I really like out of a dandy cow family. The 606Y cow is also the granddam to the good Lot 135 bull in the yearling division. A beauty here that should work in the heifer pen. Same cow family as the high selling paternal brother last year, MRL Range Boss.

Around The Ranch

Thank you to local fire department, friends and neighbours

Thank You

We would like to take this opportunity to thank our customers for your continued support of our bull sale and program. To every bidder, buyer, friend and neighbor that participate year in and year out spanning over 5 decades in the bull business.

We are truly blessed to have many of the very top commercial cattlemen and women both sides of the 49th source their herdbulls here at MRL. And we will continue to work 24/7 to supply you with the top genetics in the world. We have made so many great friends in the business over the past 50 years.

For the 2022 sale we are looking forward to getting back to near normalcy with our customers and friends here at the ranch on sale day. Even if you've been to the last 20 bull sales in a row here at MRL, this year will be a new experience for our long-time customers as we break in the new sale barn. This past spring, we lost our complete sale facility, offices and equipment to a fire. For the past 20 years we had continued to upgrade our sale facility to what it had become and hard to believe in 20 minutes it can all be gone.

Our long-time customers will remember the first few sales with dirt floor, a canvas divide wall and diesel burners for heat with no insulated walls. By the next day it was transferred back into an indoor roping arena. 20 bull sales and over a dozen female sales, over 4000 head of cattle all carrying the MRL tattoo and so many great cattle people from at least 9 Canadian provinces and at least 10 US States, Great Britain and Australia were visitors, customers and most importantly, friends. If these walls could talk, boy, the stories they could tell. All the sales staff, phone calls, pre-sale lunches, speeches made and the after parties (that I guarantee lasted a lot longer when I was 20 years younger). So many great people and memories. Many of the top bulls that sold through the ring that have went on to shape and strengthen our program and so many of our valued loyal customers' herds. In 2022, we welcome everyone to MRL for the grand opening bull sale in the new barn. Boy it's been a big project this past fall, but we're excited to welcome you to the new venue (bare with us as it might take 20 more years to get this one to where we want it as well). Welcome everyone in 2022.

As for last year, we want to say a huge Thank You for trusting in our program and family in a year not so easy. Many customers that couldn't come just went ahead as they always have and got their bulls bought here at MRL via phone, internet, sight unseen bids and you name it, business goes on. This didn't go unnoticed and we certainly appreciate it, from our outfit to yours, Thank You.

As in the past, give us a call. As you know, we are a hands-on outfit, the same person who breeds, feed, calve and live with these herdbulls 365 days a year, will be on the other end of the phone when you call. If you need herdbulls, we want to make sure you get the right ones for your program. Give Lee or Dave a call and we will go through sire groups and cow families and give you a complete honest appraisal of the genetic merit behind each individual on offer. Take advantage of our sight unseen program, order buyers, and two internet providers to get your business done! We will be there to help and stand behind our product and guarantee you will have bulls to get your cows bred. If you can come ahead to tour the bulls, any day works for us if it works for you and our phones are on 24/7. Looking forward to visiting with our many repeat and new customers in in the next couple of weeks.

Sight unseen 100% satisfaction Lee (306) 493-8067 Dave (306) 483-8660
