Welcome to the 32nd Annual Northern Progress Bull Sale!

*Welcome*

We are extremely proud of our yearling and two year old bulls in this year's offering. About 75% of our bulls are suitable for breeding heifers but they also have the performance, muscle and style to also breed cows.

We should be entering a very strong beef market that will be very rewarding for those who weathered the hardships and revitalized their herds with a strong set of replacements to help keep the herd youthful and vibrant. Nothing means more for the longevity of a female in your herd than a trouble free first time calving. After which they mother up better and more likely to breed back quickly. I feel that our pen of bulls would be one the best in Canada for calving ease.

The bulls have been fed a moderate growth rate to help with their longevity. This year we have used a crumble formulated by BeefSmart and Breanna Anderson. (Our oats were all silage baled for feed). The bulls are fed for about a 3 lbs gain, fed at 1.25% of body weight. They also receive free choice hay and some silage bales.

We are willing to keep the bulls and deliver them when needed, as part of our customer service package. We would like the bulls left in our care after the sale to be insured. The bulls are all 100% guaranteed and semen checked, so buy with confidence. We know a lot about our bulls, their mothers and sires. If you have any questions about which bulls may work best for your operation, please phone us anytime or better yet come on out to the farm and view the bulls. We would gladly show you around or answer all your questions.

**PLEASE PHONE ANY TIME 306-441-5010 OR 306-490-7818 OR 306-937-2880**

We are planning on having the sale in a quonset on our farm so you can attend our sale in person Or you can bid on the phone, online at DLMS.CA, have us buy on your behalf or deal with our very capable sales staff. Any option you can bid with confidence! We value our customers and guarantee to be honest and work very hard to satisfy your needs and give you great value for your breeding program.

PS all of the family is healthy, the grand children are growing like weeds and very entertaining. Another grandson was born in 2021, Robyn and Darren had a baby boy, Bryce was born on Nov 19 in Wales, UK. So now there are six grand daughters and three grandsons, life is good!

There was a bit of a mishap during pictures February 12, but I am on the mend and will bounce back. You can still view bulls anytime at the ranch. I am looking forward to seeing as many of you as possible on sale day Friday April 1, 2022.

*Hope to see you sale day! - Robert Laycock, RSL Red Angus*

## BULL VACCINATION PROTOCOL

October 3, 2021 - Fusogard, Bimectin, Boss Pour-On, Bovishield Gold, Ultrabac 7

3 Weeks Later - 2nd Fusogard, 2ns Boss Pour-On

January 10, 2022 - Clean Up II - Parasite control

Welcome to the 2022 edition of the RSL Red Angus Bull Sale. Robert Laycock has once again put an incredible set of Red Angus bulls together for this year's sale line up. Bull buyers can select from some of the finest, predictable genetics that the angus breed has to offer. The RSL sale provides cattle producers with an opportunity to select a top-quality yearling, long yearling or two-year old Red Angus bull. The RSL program is constant in their philosophy when breeding the right kind of cattle. When it comes to breeding cattle Robert does not chase fads or take off in a direction that is not beneficial for today's cattle industry. Robert continues to breed well balanced cattle, emphasizing calving ease, with curve bending performance.

Like I have mentioned before Robert Laycock is a true cattleman and a master at developing bulls for his customers. The bulls are fed rations that enable the bulls to develop at an acceptable pace, promoting soundness and longevity.

For many years progressive cattle producers have purchased bulls out of this sale and are certainly sold on the RSL program. That is why we see repeat buyers purchase their bulls year after year at RSL. The reason buyers continue to buy at this sale is because the bulls work, RSL provides excellent service, customer satisfaction and the Laycock family are great people to work with. I look forward to seeing you at the RSL ranch sale day. I know you will be impressed with the style and quality of the bulls.

*Mike Fleury, Auctioneer*

## YEARLING BULLS

Our yearly bulls have been fed a crumble made by BeefSmart Consulting in Saskatoon at a rate of 1% of their weight. We feel this has worked very well for us this year along with our precious hay and tub ground mixture of hay, straw and greenfeed. Bulls were weaned on October 3, 2021.

4 GUARANTEED CALVING EASE; 3 CALVING EASE - MAY REQUIRE SOME ASSISTANCE ON HEIFERS;  
2 RECOMMENDED FOR COWS, SECOND CALVERS OR LARGE FRAMED HEIFERS; 1 FOR USE ON MATURE COWS

- recommended for cows or 2nd calvers

## HERD NUTRITION

Working with Robert on a year round basis means we balance the cow herd and bull calf diets throughout the winter, discuss spring pasture mineral formulations, brainstorm on forages for the upcoming year and assess fall grazing opportunities as they arise. This fall was an interesting one as a ruminant nutritionist in Saskatchewan. Record high grain prices, alternative forages filling the feed yard and pastures drying up led to a lot of feed testing and inventory number crunching. It never failed that my phone calls with Robert about these same topics would leave me with a sense of optimism for the year ahead.

The goal of Robert's bull development program has always been to allow the bulls to express their potential without overdoing it. This Fall, the bull calves were weaned onto a combination of brown oats and bull supplement and grass hay. Since grain inventory was tight we opted to feed a custom bull mash to the bulls following weaning to complement the available on farm forages. Grass hay and pea/triticale silage made up the bulk of the bulls diet. The custom bull mash is a combination of rolled energy and protein sources (barley, corn, DDGS and canola meal), minerals, vitamins and a yeast product to aid rumen function. The bull mash was balanced to meet mineral requirements both based on this years feed tests and water test results as well as a background trace mineral status assessment performed on the herd last Spring. The cow herd works for a living, often grazing crop residue and pasture well into the Fall then moves onto a TMR consisting of silage, hay and straw. I am happy to play a small part in the nutrition program at RSL Red Angus as it is always a pleasure working with the Laycock family. - Breanna

## TWO YEAR OLD BULLS

These 2 year old bulls were selected for 2 year olds as calves. They were pastured separately weaned later and back grounded on hay, silage bales and chopped feed. Then they are sent to pasture in early June until October when they are brought home and fed similar to the yearling bulls. This will allow them to last a long time. Many of these bulls were selected as heifer bulls. With the extra age they will be able to breed more animals and are a very good investment.

Actual weaning weights taken on November 10, 2020

## FALL BULLS

The fall calving program is something we have been doing for 25 years. We bought fall born heifers from Bruderhiem, Alberta. The extra age on these bulls make them able to cover more cows or heifers than yearlings and keep their condition better. They spend their first winter on their mothers then are grassed with the 2 year olds and fed with the twos from October till sale. They are smaller bulls but are the same genetics as the rest of the bulls. This can be a definite advantage for people breeding heifers because they can get 1 – 2 more years of heifer breeding before they get too big. Very good value and a lot of breeding power. The bulls born for this sale came out slightly larger birth weights because of diet but are shaped right and would work very well for heifers or cows.

Actual weaning weights taken on April 6, 2021

## RSL RED ANGUS *Semen*

Red TR Little Deep has become a major part of our breeding program at RSL. The quality, muscling, depth of body, and docility of his sons is second to none. His daughters are also very deep bodied, well muscled yet very feminine. This consistent, extreme high quality of calves with both sons and daughters is very impressive. In 2018 we bred 45 spring cows and 30 fall cows to him and he held his condition very well. Little Deep has very impressive muscling, body depth, and hind quarter yet is very smooth shouldered. Average birth weight of his calves is 83 lbs with only a few over 90 lbs.

## SELLING

### 50 Straws of Little Deep

**BIDDING:** Each animal will be sold to the highest bidder whenever there are two or more bids.

**BIDDING DISPUTES:** The auctioneer will settle any disputes as to bids, and his decision on such matters shall be final.

**TERMS:** The terms of the sale are cash. The right property shall not pass until after settlement is made. All settlements will be made with the clerks of the sale immediately following the conclusion of the sale and before any cattle will be released from the ranch.

**PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as sold. Animals will be fed, watered, and cared for at the purchaser's risk for a reasonable time.

**DELIVERY AT COST:** Or haul your own and save delivery costs (See inside front cover for details).

**INSURANCE:** An insurance representative of a major livestock insurance company will be present to care for insuring cattle.

**CERTIFICATE OF REGISTRY:** A certificate of registry and transfer will be furnished for each animal sold as a registered animal, after settlement has been made.

**HEALTH:** All cattle will be in excellent health.

**ANNOUNCEMENTS:** Changes of information contained in the catalogue relating to the animals offered for sale will be announced from the auction box and such announcements shall take precedence over the printed matter in this catalogue.

**BREEDER'S GUARANTEE:** All animals sold are guaranteed breeders by the owner. Any animal that has not proven itself a breeder within six months after the date of sale, if in healthy condition, may be returned to the seller at the buyer's expense. The seller reserves the privilege of trying for a period of six months to prove the animal a breeder. The seller at his option may either return the purchase price to the buyer or replace the animal with another of equal quality in full settlement of ALL claims. Yearling bulls shall be guaranteed breeders for no more than twenty-five females. All complaints regarding breeding difficulties must be reported in writing by the buyer to the seller within the specified time above, and any animal returned must be free from disease and in good health. All bulls will be scrotal measured and semen tested prior to sale and sell as guaranteed breeders. Scrotal measurements will be available sale day.

**IDENTIFICATION:** Each purebred animal carries a readable tattoo.

**LIABILITY:** Although every precaution will be taken to protect the safety and comfort of the buyer, neither owners, sale manager, clerks nor anyone connected with the sale assumes any responsibility, legal or otherwise, for damage of any kind.

**CONTRACT:** The above terms and conditions shall contribute a contract between the buyer and seller of each animal sold.

**SEMEN:** Consignors reserve the right to collect semen on sale bulls for in-herd use only.
